GRAND OPENING

OF

GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Spring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a greviance we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

MUNCASTER'S

TORONTO TOPICS.

A Forger from the States Playing His Game in the Queen City.

TORONTO, May 1.—The License Commissioners gave out yesterday a list of 110 tavern and saloon licenses, some of which are granted on conditions—chiefly as to re-constructions. Nine of last year's holders are in doubt and but four more licenses can be issued, for which there are 46 applicants. The shop licenses will not be announced for several days.

The Minister of Education has consented to make May 10 instead of May 9 Arbor Day if the Board of Trustees of the Public Schools wish it.

The Police Magistrate yesterday ordered Anris Lefrance to pay a fine of $10 or 60 days for illegally pawning his sister-in-law's gold watch. Albert Tankey charged with attempting to commit suicide at Parkdale, was remanded as he was to ill in the Hospital to appear. Michael Mulaney, arrested in the act of setting fire to a vacant cottage, the property of his father, at 69 Mitchell-avenue, was charged with arson and remanded till Friday; bail being refused.

On Tuesday, April 23, there arrived in Toronto and registered at the Palmer House a young man of about 26, who styled himself "R. F. O'Leane, St. Paul, Minn.," having no baggage except a small valise. He told several people that he represented a St. Paul building society. Two days did he occupy a room in the hotel, in a manner startled the dining-room. It is now said that he is a forger and he is charged with having passed upon the Gobbs Bank, of Yonge-street a worthless draft for $100. A person who knows him says that last night (Monday) he left the house of Dave Allen, same and a sidewalk one, omitting the big O and the apostrophe, the same game in the United States. His last appearance in this city prior to his arrival in Toronto was in Chicago.

Frank Garson and Frank Parker, two alleged burglars who are suspected of having committed numerous depredations in the vicinity of Barrie, were remanded till May 3. They were pinched Monday night and found to be loaded with revolvers, razors and jewelry.

Chief Jevings of St. Thomas is anxious to capture "Medlie Matches" and Joe Dubuque, should they be liberated here. He believes they can be convicted of the Molsons Bank robbery in his city in 1885.

Trade is not a little speculation and interest is taken over the affairs of the late Mount Forest, or at least that portion of them with reference to his attempt to upset the new Parliament building. The enquiry is still, it would seem, whitewashed, although it is given out that by to-night the solicitors of Mr. Forbes's estate will have finally settled the matter.

Robert Carroll, formerly engaged in supplying water pipe and who is credited with having made a fortune out of the enterprise, was one of Mr. Yorke's executors for the completion of the contract. His name was freely mentioned yesterday in connection with taking over the contract and carrying it out on his own account. He was in consultation with the Commissioner of Public Works, Mr. McGuire, the plumber, and the Government architects, but what decision was come to, if any, was not learned last night. He was so busy in making his arrangements that he had not time to come home to tea, and even at 12 o'clock last night he had not got home, and though tea reporter sought for him all over he could not be found. All the information that could be got about him was to the effect that he was busy at the contract.

Mr. C. F. Fraser, Commissioner of Public Works, says that arrangements for carrying the contracts through are in progress. A matter involving such large interests cannot be settled in a day, and it will take some further time before arrangements are completed. As far as the Government were concerned, however, they had ample security that the contract would be completed. They were assured by bonds given by two sureties (Robert Carroll and George Farquhar), in the amount of $60,000; Mr. Yorke's personal bond for 5 per cent. of the original contract, and liens on real estate and scales to the amount of $60,000. Besides this there was $15,000 already earned by the contractor in the hands of the Government.

Mr. Waite, the architect for the Parliament buildings, says that it will be some time before negotiations for carrying on the contract will be completed. The estate of the late Mr. Yorke was a large one and its winding up had a bearing on the contract. He understood that Dr. Bowling had been appointed to act for the Administrator, Mrs. Yorke, in winding up the estate. The work on the Parliament buildings had been suspended since the death of Mr. Yorke, but would be proceeded with again as soon as the arrangements, now in progress, were completed.

PARNELL UNDER FIRE.

The Cross-Examination of the Irish Leader Commenced.

LONDON, May 1.—The direct examination of Mr. Parnell was concluded at to-day's session of the Parnell Commission. Mr. Parnell declared he had conducted the Irish agitation constitutionally. His cross-examination was begun.

Mr. Parnell on cross-examination denied that The Irish World ever collected monies for the Parliamentary party. The Irish World had been hostile to himself and to the Parliamentary party since 1882.

Attorney-General Webster produced extracts from The Irish World praising Mr. Parnell's action in Parliament after 1882.

Sir Charles Russell, counsel for the Parnellites, put in extracts adverse to Mr. Parnell. The cross-examination was then continued. Mr. Parnell admitted knowing Mooney, otherwise known as "Transatlantic." He did not know whether Mooney contributed to the Parliamentary fund. Mooney wrote violent articles. Still witness would not object to receiving Mooney's tribute to assist the party if he did not publish articles advocating murder. Witness had held no communication with Patrick Ford since 1881. Mr. Parnell emphatically denied that his Irish schemes ever included a coalition with the Fenians in order to expel landlords from Ireland. He certainly aimed to destroy landlordism but not to drive individuals from the country, and never had any idea of resorting to illegal measures. He did not recollect meeting Mrs. Davitt and John O'Leary in 1878 and discussing with them a possible alliance between the Nationalists and the Fenians. He had no notion that the national fund in America and the skirmishing fund were identical.

Attorney-General Webster read a violent manifesto signed by John Devoy and others and issued at Dublin.

Mr. Parnell declared he had never heard of it before. He had met Devoy, Brenlin, Finnerty and Alexander Sullivan and a number of physical force men. He said he would frankly aver that he felt it was no part of his duty to exclude anybody from the League on account of their antecedents. He wanted to include in it all Irishmen, trusting that every section would accept the new constitutional form of agitation. He had aimed at asking the physical force men to abandon their movements and to accept his. To shut the constitutional door in their faces because they did not immediately serve would have been very foolish. He did not recollect making a speech at Lynn, Mass., in which it was alleged he had said that when England was beaten to her knees the time would have come to realize the idea of the Nationalists. He admitted that if he had used those words he must have been thinking of hundreds of warfare in the event of constitutional agitation failing. At Troy some lady offered him $5 for bread and $30 for land. He did not object to the offer because he thought the offerer only meant $5 for charitable work and $30 for Leagues work. This statement caused laughter.

Overrun with Applicants.

This afternoon a gentlemen called at the EXAMINER office and said, "For heavens' sake take out my advertisement for a boy. I've been run to death ever since the advertisement appeared." It was early the other evening he advertised for a boy, and the time it was to run has not yet expired, but he says the paper hadn't been out two hours until his office was filled with applicants and he's had dozens of them since. The EXAMINER was the only paper he advertised in, too—which is a pretty good evidence of the EXAMINER'S value as an advertising medium.

Ashburnham Real Estate.

Mr. John Carlisle in spite of the prognostications of pessimists, sold yesterday the last of fifty lots on the first parcel purchased from Mr. o Erskine, Ashburnham. On the upper block of the Erskine estate he has sold forty-seven lots. Including the two plots there are thirty-eight residences and two stores already completed or in course of building. Mr. H. C. Stabler has purchased a portion of this property from Mr. Carlisle and will erect this summer a number of houses, which, including what Mr. Carlisle and others will put up, will number about twenty, making sixty houses in all on the Erskine property alone. These houses are all of moderate size and suitable for persons with moderate incomes.

Secretary Phelan has received notification from the general secretary that Beaverton has been admitted to the league, and also received a letter from Secretary Patterson, of the Port Hope club, stating that they did not intend entering the district association. This leaves Peterborough, Beaverton, Norwood and Madoc "in the swim." Beaverton being so far distant from the other clubs it is possible some objection may be raised. Mr. C. J. Phelan is secretary and chairman of to-morrow's convention. Dr Brennan is the Riverside's delegate.

The Spanish Students Concerts.

This splendid musical organization appears in the Opera House on Tuesday evening, May 7th. The Toronto Globe, in reporting their appearance in that city, refers to the large audiences fully attracted and equally in the warmest terms of the merits of the performance. The several numbers were heartily applauded and encored. Particular reference was given the humorous selections of Prof. Rycroft, and the Pastillion de Rioja, with castanets and tambourine, by the Spanish Students. While the musical merit of this organization is great, the novelty of the means forms an additional attraction. Remember, at Bradburn's Opera House, Tuesday evening, May 7th. Popular prices—25 and 50 cents. Reserved seats at Scholfield's drug store.

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they *are just* out of the goods. What the Police Find.

The police station is made the receptacle for all sorts of miscellaneous articles which are frequently picked up on the street, and the Chief finds the assistance of the newspapers in finding owners for them invaluable. The other day a farmer left 45c. with the Chief, to be returned to the person who had paid it to him for a bag of potatoes that had not been delivered. An item appeared in the papers and soon a claimant appeared and got the money. Since then there have been enquiries from a dozen different parties, who all say they paid for potatoes last Saturday and never received them.

Last Saturday a lady's leather satchel was picked up on George street. It contained no money, but a long list of articles apparently to serve as a reminder for the day's shopping. There were a lot of flower seeds to be bought, hat, collars, photographs, etc., boothose, and "gloves for Mary." An envelope addressed to Mr. A. Hunnisett, West Toronto Junction, and a calling card inscribed "Mrs. G. W. R. Strickland, Lakefield," were also in the satchel. It is now awaiting an owner.

A man's coat was found this morning. It is well-worn and there is not likely to be a great many claimants. No necessity to go early and avoid the rush.

The School By-laws.

The Collegiate Institute Project Defeated, and the North Ward School Endorsed.

Yesterday a public vote was taken on the two school by-laws presented, for ratification or rejection, by the town council. The first one authorized the council to issue debentures to raise the sum of $20,000 for the purpose of procuring a new Collegiate Institute building. The other authorized the raising of $10,000 for the erection of a new public school in the north ward. The vote taken was very small; comparatively few electors knew the by-laws were to be voted on. The polling places and officers were the same as at the municipal election. Following are the returns:—

Sons of Canada.

A New Patriotic and Benevolent Society Established in Peterborough.

For several weeks past Mr. James McLean, Supreme Grand Organizer of the Sons of Canada, has been canvassing the town for members of a branch of the Order which it was proposed to establish here. His efforts have been successful, and last night, in the rooms of Peterborough lodge of Oddfellows, the local branch was launched on the society sea with a charter membership of 22.

The Sons of Canada was inaugurated in Toronto four years ago, and there are now 13 lodges in Ontario. Its projectors recognized the fact that while nearly all the other important nationalities of the world were represented by national societies in our midst, Canada herself was without such a representative patriotic institution. For the purpose, therefore, of supplying this deficiency the Sons of Canada were started, with a view also to fostering a national Canadian sentiment, and at the same time founding a benevolent brotherhood which would extend all over the Dominion and into foreign countries and be of practical benefit to its members. The new society is managed upon the same principle as other similar institutions. There is a sick benefit in connection with the order, while each lodge has the option of establishing a death endowment also. Its aims and objects are such as commend it to a patriotic and charitable public. The new society will no doubt flourish in Peterborough.

In the four years of its existence some thirteen lodges have been instituted—five in Toronto and one each in Parkdale, Bowmanville, Toronto Junction, Barrie, Hamilton, Oshawa, Lindsay and Peterborough.

The Peterborough branch was organized last night and the officer's installed by Mr. Lewis L. Walker, Supreme Grand President. Toronto, as follows:—

F Macon	Past President
Thos Rutherford	President
W C Mudge	1st Vice President
Chas N Brown	2nd Vice President
Heath Dinnis	Recording Secretary
W Crossley	Financial Secretary
J Craig	Treasurer
P J Mecheral	Chaplain
Dr A E Yelland	Physician
Jas Kennedy	1st Steward
Wm Scott	2nd Steward
T Graham	1st Guard
A N Brown	2nd Guard

Peterborough lodge, Sons of Canada, will meet every two weeks. Arrangements are being made to procure the same place where they met last night. Before adjourning a vote of thanks was passed to Peterborough lodge of Oddfellows for their kindness in allowing them the use of their hall.

Police Court.

THURSDAY, May 2nd.

The drunk remanded from yesterday was discharged this morning.

Walter Kerr, the sole proprietor and manager of the candy stand at the corner of Simcoe and George street, was last night arrested by P. C. McGinty, and this morning appeared before the magistrate. He is charged with having received stolen property, knowing the same to be stolen. It is said he bought a gold watch for 50 cents from a young lad who had stolen it from his parents' house. The prisoner elected to be tried summarily, and the case was enlarged till to-morrow.

A Model Sanitarum and Surgical Institute.

The Invalids' Hotel and Surgical Institute, at Buffalo, N.Y., organised with a full staff of eighteen physicians and surgeons, and exclusively devoted to the treatment of all chronic diseases, was designed and erected to accommodate the large number of invalids who visit Buffalo from every state and territory, as well as from many foreign lands, that they may avail themselves of the services of the staff of skilled specialists in medicine and surgery that compose the faculty of this widely-celebrated institution. Only men who are by thorough education and experience especially fitted to fill their respective positions have been chosen to serve as physicians and surgeons in this Institution.

COMMON SENSE AS APPLIED TO MEDICINE.

It is a well-known fact, and one which appeals to the judgment of every thinking person, that the physician who devotes his whole time to the study and investigation of a certain class of diseases, must become better qualified to treat such diseases than he who attempts to treat every ill to which flesh is heir, without giving special attention to any particular class of diseases. Men, in all ages of the world, who have become famous, have devoted their lives to some special branch of science, art or literature. By thorough organization, and sub-division of the practice of medicine and surgery in this Institution, every invalid is treated by a specialist, one who devotes his undivided attention to the particular class of diseases to which the case belongs. The advantage of this arrangement must be obvious. The Faculty of this Institution having confined their attention wholly to the treatment of chronic ailments, have attained the greatest success, which has given rise to a practice of such vast proportions as to have necessitated the recent enlargement of the building originally erected to accommodate this growing practice.

ALL CHRONIC DISEASES A SPECIALTY.

Although we cannot, in this brief notice, make mention of the various ailments to which particular attention is given by the specialists at the Invalids' Hotel and Surgical Institute, yet we may state, in a general way, that the Institute abounds in skill, facilities, apparatus for the successful treatment of every form of chronic ailment, whether requiring for its cure medical or surgical means. A large pamphlet of particulars, entitled "The Invalids' Guide-Book," will be sent to any address for ten cents in postage stamps.

All letters of inquiry or of consultation should be addressed to World's Dispensary Medical Association, 663 Main street, Buffalo, N.Y.

Personal.

Rev. Mr. Kesarick will not return till Saturday and Mr. Davidson will take his confirmation class in the school house to-morrow evening.

Mr. Frank Burdett and wife leave this evening for Cleveland, where Mr. Burdett's father has just died. They will also attend the funeral, which takes place at Meriden, Conn.

The Port Hope *Guide* says:—Mr. Wm. Stevenson, sr., aged 93 years, is in town from Peterborough, superintending the repairs on his house on Protestant Hill. He steps around and is as active as a youth of twenty-five.

Mrs. Jas. Whyte, late of Campbellford, prior to her removal to Peterborough, was presented with a farewell address, accompanied by some handsome curtains, poles and chains, by the members of the Ladies' Aid of the Presbyterian church of that village, of which she was a prominent member.

Peterborough Markets.

[Reported by W. H. Wrighton, Grain and Produce Dealer & General Grocer, George St.]

WEDNESDAY, May 1st.

Nothing doing in grain. Wheat, $1.02 to $1.03 spring and fall; oats, 34c to 35c; barley, nothing offering. On the market—Butter, 12c to 25c; eggs, 10c to 11c; potatoes 40c to 45c; apples, 60c to 75c per bag; other things unchanged.

A New Departure.

Matters That Will Interest the Fruit and Dairy Interests.

The following interview with a Toronto member of the Empire Produce Company will be of special interest to cheese and fruit men:

You are one of the directors of the Empire Produce Company, Mr. Stark? Yes.

What are the objects of the Company? The company has been formed to meet a long-felt want, viz., to act as a medium between the Canadian farmers and the cash buyers, not only in Toronto and England, but throughout the British Empire, giving the producers full advantage of the best possible markets for fruit, cheese and other dairy products—charging only a moderate commission.

Is it not a fact that merchants are already handling goods in this way, both in Canada and England? Yes, in a sense; but the important feature of the operations of this company is that no speculation or purchase of any kind will be made on our own account. Usually commission houses are buying and selling for profit to themselves, as well as receiving consignments. Under these circumstances it is almost impossible for the consignors' interests to receive first consideration. With our company their interests are ours. The better the return for them the more we earn. The farmers will receive liberal cash advances upon their goods and reap the benefit of every advantage we can gain in the British markets.

But what guarantee have the farmers that your company will not be tempted to speculate with their goods, or in some way charge more than the moderate commission you speak of? Well, in the first place, our charter will prevent the company dealing or speculating on their own account—not only so—the company will be largely composed of producers. Already we have many farmers wishing to take shares. Besides which, we have on our board of directors cheese factory presidents, well known as cautious and reliable men of business, the president of the Fruit Canning Association of Canada, and the highly respected president of the Fruit Growers' Association, Mr. Alex. McD. Allan, the representative man of the fruit industry of Canada, who had charge of the Canadian fruit exhibit at the Colonial Exhibition in London, Eng., and last, but not least, I point you to the list of our Toronto directors—my colleagues being gentlemen so well known for their business ability, integrity and financial standing, as to be a guarantee that the company's transactions will be strictly honorable and straightforward as between man and man.

But do you think your company will be able to operate in England as advantageously as the speculators can? Yes, even more so. The Liverpool merchant, as a rule, sells through a broker to a wholesale buyers, and of course each must have his margin. Our company will be established in Britain in the course of a few weeks, and be recognized by the city and provincial cash buyers as the representatives of the Canadian producers, and by selling in convenient parcels, fresh from our Canadian patrons, we will be able to make good returns. There can be no doubt that under the existing system of handling these goods the several profits taken must be at least double what our company will be prepared to charge for handling the goods. It is intended that one of our directors will be located in England? Yes, if you think proper, you may publish a list of our directors. They are as follows:

W. D. Matthews, Esquire, President Toronto Board of Trade, Toronto.

Thomas Lailey, Esquire, Vice-President Confederation Life Association, Toronto.

Thomas Sutherland Stayner, Esquire, Director Freehold Loan and Savings Company.

Walter Stark, Esquire, Produce Broker, Toronto.

Alex. McD. Allan, Esquire, President Ontario Fruit Growers' Association, Goderich county Huron.

Wellington Boulter, Esquire, President Canadian Packers' Association, Picton, Ont.

Samuel T. Wilmot, Esquire, President Cheese Factory, Wallbridge, county Hastings.

Garrett J. Galvin, Esquire, President Cheese Factory, Lakefield, county Peterborough.

CROPS.—Seeding about done and prospects of a good crop of fall wheat.

REMOVAL.—Mr. Walter Redpath, of Evans & Redpath, has dissolved partnership and entered in the employ of his old master, Mr. Hamilton, of Peterborough.

PERSONAL.—There is a vacancy left in our town that will be greatly felt, that is by the removal of Mr. Wm. Clark and family to Carberry, Manitoba, who left on Tuesday. A large number of friends and acquaintances accompanied them to the station.

One of our oldest resident has departed this life, Mrs. James Eggligh, aged 82.

There was never a more favourable season for good roads and working on the farm, and consequently the farmers are in unusually jubilant spirits.

Benafort.

(From Our Own Correspondent.)

CROPS.—Seeding has been done under the most favorable circumstances. The fall crops have suffered little from exposure, and all, so far, are exceedingly promising.

PERSONAL.—The boys congratulate him on his appointment and the force in acquiring his services, for nothing but speed and superior action will get from under his eye. Mr. T. Clark was recently placed on the staff of police in Toronto.

CHANEY'S BODY FOUND.—The body of young Chaney, who was drowned in Rice Lake in the early part of last winter, was found last week. He lived east of Gore's Landing, and at the time of his disappearance was known to have gone on the ice with skates. When the body was found the skates were still attached.

What the People Say.

That the Palace Grocery is the LEADING house, carries the *largest* stock, finest assortment of groceries and gives better value than any grocery house in Peterborough. Elliott & Tierney's celebrated blend of *pure* coffee (fresh ground by Tuerk's water motor) is delicious, try it.

DURING the dull months of May and June the output of the old established G. M. Weber piano factory, Kingston, will be sold at wholesale prices for cash, from elegantly finished pianos to the cheapest styles, all guaranteed. It will pay richly to write for prices. 3aw

CORSICA'S CAPITAL

THE STRANGE AND INTERESTING OLD CITY OF AJACCIO.

Its Huge Oblong Houses—An Island of Great Forests, Snowclad Hills and Olive Orchards—The Chestnut a Staple Food for Man and Beast.

The island of Corsica is most striking and imposing in its nature and scenery. A compact cluster of mountains, rising from the blue depths of the Mediterranean and uniting in a small space all the characteristics of mountainous regions, it may be considered as their epitome—a pocket edition of Switzerland or Norway. Only 120 miles from one end to the other, and about half as wide, it contains a magnificent chain of snowclad heights, crowning a lofty plateau that embraces nearly the whole island. Monte Rotondo is 8,538 feet high, Monte d'Oro 8,690, while Monte Cinto and others almost equal these. Indeed, some calculations have made Monte Cinto the highest. Beside the I have named I have just counted one map seven peaks of about 7,000 feet each. Following the general plan of the earth's arrangement, as exemplified in Italy, Norway and our own country, the mountain chain runs nearly north and south, nearer to the western than to the eastern coast. To the west the declivity is more steep and abrupt, to the east more gentle, sloping out into alluvial plains; to the west the deep harbors and lofty promontories, to the east the more fertile and thickly inhabited regions.

WHAT THE TREES ARE.

Not more than one-tenth of the soil is cultivated, but there are no deserts here, but a small proportion of barren heights. The mild climate and humid air have wrapped the island in a robe of luxuriant forests. These forests are the pride and glory of Corsica and are quite unequaled in Europe. Chestnut trees grow in such abundance that their fruit forms the staple food of the inhabitants, eaten roasted or boiled during the season and ground into flour for preservation, chestnut flour costing in the market only about half as much as wheat flour, and being used chiefly in the form of polenta, or porridge, though the natives boast of twenty-two different ways of cooking chestnuts. The nuts also serve as food for the horses and mules, and their cheapness and ease of production have done much to keep the native population in an indolent and degraded state, an effect similar to that of the bananas and yams of the West Indies upon the people of those countries. The finest timber trees also abound—they supply most of the French and Italian navy yards and have been renowned from the most ancient times, beach, pine, cork, larch and oak. One species of oak (Quercus ilex) which bears a small leaf like a holly, prickly at the edges, is especially valuable. The wood is very dark, and so heavy that a cubic foot of it will weigh seventy pounds; the famous oak of Great Britain only weighing fifty-five pounds to the foot. There is one species of pine that formerly grew here so luxuriantly that it was known as the tree of Corsica, and attained an enormous size, but unfortunately it is now almost extinct, in consequence of fires and careless treatment. This wonderful forest region we have not yet seen, as it exists chiefly in the interior of the island, where there are counted forty-four forests belonging to private domains and 167 belonging to the community. Near the shore the hills are almost entirely covered with olive groves, the valleys between them being laid out in fields and gardens, but everywhere, by the shore and inland, where there is nothing else, there is "macchie." This macchie, otherwise spelt "makis" and called scrub by the English, is really more like a jungle; a thick interwoven growth of bush and tree, myrtle, arbutus, heath, oleander, scrub oak, prickly pear and a thousand other shrubs, forming an almost impenetrable wilderness, which has played an important part in Corsican history and manners.

OF RESPECTABLE ANTIQUITY.

Ajaccio lies curving along the edge of the bay of the same name, in the form of a horseshoe, the hills rising close behind it. It has but three or four good streets; sufficiently wide, but bordered with huge parallelograms of houses, all of the same pattern, like immense bricks or magnified dominoes, standing in rows, from six to nine stories high, flat topped and dotted with small windows. Not joined in a continuous line, like the houses of New York or Philadelphia, but distinct, and about twice as long as they are wide. These houses are let out in flats, each flat being complete in itself. The effect is very singular, and it is evident that the whole town was built at one time, otherwise some variety must have been inevitable. Such indeed was the fact, for although the city is said by its inhabitants to have been founded by Ajax, who gave it his name, and therefore must be of a very respectable antiquity, yet it has not always stood in this spot. At first it was built upon the hill; afterward farther along the shore, and it was only in the Sixteenth century that the Genoese, then masters of the country, decided that it should stand here, and built its houses in the present ponderous style, I suppose that it might never move again.—Cor. As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 35c. buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in liner lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

THE ATTRACTION AT TURNBULL'S.

MILLINERY.—No wonder flowers hold so high a place in Millinery Trimmings—as real to the eye as if raised by the hand of Nature. Everything, from the Daisy that joins the sod, to the Rose that blushes under glass. A gingle of Untrimmed Hats and Bonnets, stacks of Straws every shape you would think to ask for, and designs you would never dream of. Milans, Fancy Straws, Lace, both materials mixed, Chips, Leghorns. Novelties of all kinds; and this is a season of Novelties.

KID GLOVES—Have tumbled into a line of tan. Kid Gloves, stitched backs, we can sell for 35c. a pair; some people can buy them by the ½ doz. Come early if you want this Bargain. We are in a shape to sell a great number of women's Silk and Taffetas Gloves, in the next few days. Our Gloves always fit, so they say. Assortment, quality, price—the tandem team will give their go?

Such a range of Styles of Hosiery is scarcely ever seen in one place. Sizes to fit everybody.

SASH RIBBONS—In handsome Brocades, at 20c. a yard.

DRESS GOODS.—New shades of Henrietta Cloths to fill up the gap. The quick sales of the past few weeks have been making SMOKE GREY, like the silver sheen of the atmosphere of a light, grey day by the sea. SUEZ GREEN. Why Suez? Only that the oddity of the name may mentally fit the color—the color so beautiful in combination with other colors; OLD ROSE—the name suggests the fading leaf; lost beauty, expired fragrance—and yet it *stands for a tinting shade of red so delicate* that to call it red would be an insult. The colors are primary, of course. All told, we have about thirty-six good shades of Dress Goods to select from, in materials from 10c. to $1.00 a yard. New girdles and trimmings to match.

Fashion is always turning a new corner, and we with it. This spring is is fashionable for men to wear Striped Suitings. We have them in good variety, and will save you money in every suit you buy.

Fresh styles of New York Domestic Patterns to hand. Every lady can have a new Fashion Sheet that asks for it.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even *better* prepared to procure for its customers a combination of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORNING SUITS, BEAVER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine SPRING and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the *largest* assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

HOW COBOURG INTENDS TO KEEP VICTORIA UNIVERSITY.

Sudden Termination of the Proceedings of the Advisory Committee and the Board of Regents Yesterday.

TORONTO, May 2.—The Board of Regents and Advisory Committee appointed by the General Conference of the Methodist Church to deal with matters pertaining to University Federation, met yesterday morning in one of the parlors of the Metropolitan Church, Rev. Dr. Williams, General Superintendent, occupied the chair. Mr. G. A. Cox, treasurer, reported cash received by him amounting to $105,695.57. The Secretary said the amount for expenses which had been paid out of the subscription was $6300—so that the amount to the credit of the building fund was within a very small sum of the $100,000. Dr. Potts reported the total subscriptions to be $262,333.25, and of this amount the Secretary explained that $95,000 was for endowment and $177,000 for the building fund. The tenders for the erection of the college building were submitted, the lowest being $130,641, including heating and ventilation. The architect's estimate of the cost of the residence, to afford accommodation for 100 students and two resident professors, is $50,000. After a long discussion and voting on several amendments, this resolution was carried, 26 to 13:

That whereas at a meeting of this Board held on Oct. 11 last it was decided that as soon as $100,000 of subscriptions applicable to the building fund was paid over to the treasurer the contract for the buildings in Queen's Park should be entered into;

And whereas the sum of $104,105 has been placed in the hands of the treasurers: Be it resolved that as soon as the title to the site is completed and the decision of the arbitrators as to its value is accepted by the Building Committee, in our judgment the contracts should be let, so that the main building may be finished at as early a date as possible.

At the evening session this motion by Chancellor Burwash was carried 322 to 14:

Whereas at the meeting of this joint board on Oct. 11 it was resolved that the proper steps be forthwith taken to place Victoria University in federation with the Provincial University by giving the required notice to the Provincial Secretary, provided we have assurance that by special act of the Provincial Legislature or otherwise Victoria College should continue to exercise the power to confer degrees as heretofore, until the date of actual removal to Toronto, and that all such graduates included in the provisions of Sections 7 and 11 of the Federation Act as graduates of Victoria University;

And whereas an act of the Provincial Legislature has been passed which provides for all that was asked in the above resolution as presented by the committee appointed to wait upon Minister of Education;

And whereas it is necessary that Victoria shall formally enter federation before we can occupy and build upon the site in the Queen's Park;

Be it therefore resolved that the requisite statutory notice be given to the Provincial Secretary as soon as the valuation by the arbitrators is accepted by the Building Committee.

Up to this time all had gone in favor of federation. The Board of Regents had been declared in session, the evening was far advanced and it was thought that after some ordinary routine had been gone through with an adjournment would be made. But just about 9 o'clock a messenger entered and laid upon the table before Rev. Dr. Carman a package of papers. They were glanced over, and it was at once announced that an injunction had been served upon the board. The documents were all handed to the Chancellor, and were read by him amidst a breathless silence. The reading of the papers revealed the fact that a suit had been commenced by the Town of Cobourg and by Andrew Hewson, John Vance Gravely and William Kerr on behalf of themselves and other subscribers to the building at Cobourg known as Faraday Hall; also by William Kerr and Henry Hough on behalf of the senate of the university. The injunction was issued on behalf of these three separate interests restraining the Board of Regents from taking any action, that is restraining the defendants, the Board of Regents and Victoria University, from removing the university from the town of Cobourg and from taking any steps to that end, and from carrying on the work of the university in any place outside of or other than the town of Cobourg, and from expending any money on the college buildings at Toronto and from federating with the University of Toronto and from giving any notice to the Provincial Secretary for that purpose. This injunction prevails until May 7, when a motion will be made at Osgoode Hall to continue the restraining order.

ANOTHER BODY RECOGNIZED.

The Victims of the "I" Accident Slowly Being Identified.

HAMILTON, May 2.—The victims of the railway accident are slowly being identified. So far four bodies have been claimed and sent away, and another body was identified this morning. F. C. Oviatt, attorney of Chicago, arrived to-day in search of his brother, B. L. Oviatt, a student in the college of physicians and surgeons, New York—who was in Chicago on business and left there on the Wabash line Saturday afternoon. Mr. Oviatt examined the relics and found a peculiar shaped ring, a steel measuring tape and a bunch of keys, with a calliper on the key-ring. He is postive that these articles belonged to his brother, having seen the measuring tape in his possession on Friday. He examined the bodies in the charnel house, but could not identify any of them. He is satisfied that his brother was killed, but will not claim any of the remains unless he can find means of identification. H. P. De Forest of New York, room-mate of the young man, will be here to-morrow. B. L. Oviatt was about 26 years old.

Edward Kelly of Chicago went to Blachford's this morning and recognized one of the bodies as that of his brother, John H. Kelly, fifty years tracer on the Chicago, Rock Island [illegible] railroad of Chicago. Among the [illegible] he saw a gold watch and identified it by the number. The watch was picked up by two firemen near a body which they also found. They remembered the appearance of the charred remains, and pointed it out to Mr. Kelly as the one they found the watch beside. The dead man was a Canadian, born at Bothwell, and had lived in Chicago for some time. He was on his way to New York. He was married and left a wife and daughter. The body will be sent to Bothwell.

Geo. W. Starns, jr., of Brooklyn, N.Y., is here looking for E. Randall Orr of Peekskill, N.Y. An unclaimed trunk containing a number of letters addressed to the missing man were taken from the wreck.

Additional inquiries were made about Capt. L. L. Butler, Cook county insane asylum, Dunning, Ill. An unclaimed trunk bearing that name was found. It contained letters and papers addressed to Capt. L. L. Butler.

The wounded passengers at the hospital are getting along nicely. Antonio Martz, the Italian from Wisconsin who was on his way to Italy and had his head badly cut, left the hospital this morning. He went east.

A piece of a tie bearing the name of "Messinger & Mayer, London, mfr.," was found on one of the bodies. The first letter of the name was not legible. Is may lead to the identification of the remains. The missing letters are probably "Co."

Explosion of 10,000 Pounds of Dynamite.

HASTINGS-ON-THE-HUDSON, N.Y., May 2.—At O'Dell station, three miles from here, shortly after noon to-day 10,000 pounds of dynamite exploded in a factory where the explosive is made for use at the new aqueduct. Damage to the amount of about $25,000 was done, but nobody hurt.

Disappearance of a Church Treasurer.

SANDWICH, Mass., May 2.—The community is considerably stirred up over the mysterious disappearance two weeks ago of Samuel Fessenden, Treasurer of the Cape Cod Canal Company. He was also treasurer of the Unitarian Church and had in his possession funds belonging to the Episcopal Church. The money of the Canal Company is all gone and Fessenden has left a large number of unpaid bills and notes. His family has also disappeared mysteriously. This will probably end the canal enterprise for the present at least.

Broke Into a Bonded Car.

TORONTO TOPICS.

A Chapter of Accidents—Toronto University Patronage.

TORONTO, May 2.—Yesterday afternoon the Ontario Cabinet granted a lengthy audience to a committee from the Senate of the University of Toronto. The committee asked in effect, as far as can be learned, that the Government agree to the appointment of a patronage committee selected by the Senate for the disposal (subject of course to the approval of the governor-in-council) of the patronage in connection with the University, especially as regards the appointment of professors. At present the Minister of Education is the dispenser of the patronage in question, though of course he consults the university authorities and finally his colleagues. What stand the Cabinet took other than to promise careful consideration, could not be learned.

Two men tried to beat the proprietor of an eating-house on Adelaide-street east of the price of a meal at 10 o'clock yesterday morning. John Geek, a waiter, followed them, when one of the pair turned on him and struck out with a pair of long paper-hangers' scissors. The blades went through the fleshy part of Geek's right arm, near the shoulder. The fellow ran, but his companion remained and gave the name of Geek's assailant as Flynn, who is yet at large.

Mrs. Herring of Scarboro was thrown out of her buggy on King-street yesterday morning, sustaining slight injury and the loss of a satchel containing $100 in cash and a check for $50.

The scaffold in front of some new houses in course of erection on Translay-avenue, a thoroughfare running off Avenue-road, collapsed between 9 and 10 o'clock yesterday morning, two workmen named William Jackson, of 93 Elm-street, and William Translay being precipitated head foremost to the ground, a distance of over twenty feet. The unfortunate men fell on a pile of bricks and stone and were taken up unconscious. Both appear to suffer from serious internal injuries. They were removed to the Hospital in the double ambulance.

Yesterday morning in the Police Court Edward McLaughlin, for having stolen a bicycle from William Merrick, was sent to the Central Prison for one year.

Miss Cusack, better known to fame as the Nun of Kenmare, will visit Toronto next week.

A recently repaired crane was being used yesterday forenoon in the Polson Iron Works to raise a 32-ton fly wheel, which had just been cast for the Electric Light Company of Montreal. Frank Forbes, a machinist, 28 years old and unmarried, stood under the crane to guide the wheel as it was lifted, when suddenly the former collapsed and the poor fellow was instantly pinned beneath the wheel. When released life was found to have departed.

Detective Slemin and Acting-Detective Watson last night arrested two little girls who are charged with several petty larcenies. They are Minnie Boland of 12 Duchess-street, and Maud Sylvester of 7 Duchess-street, aged 14 and 10 respectively, who are charged with having stolen a clock and other articles from the premises of John Croker, 177 George-street. These children it is believed have been doing a good deal of petty stealing.

By 2000 votes to 10 a crowded audience in Shaftesbury Hall last night affirmed that having heard the evidence the members of the new sect, the Christian League, were justified in leaving the Salvation Army. All the speakers had been officers in General Booth's world-wide organization, and pitiful, if not blood-curdling, were the tales they unfolded of hardships, privations, insolence, bullying, autocracy and stupidity on the part of Commissioner Coombs and his division officers. The matter revealed to the sympathetic audience last night was part and parcel of that printed in War Cry Editor Sumner's suppressed book, which it was averred by more than one speaker last night the Commissioner made a burnt sacrifice of.

SUICIDE AT THE FALLS.

A Buffalo Man Leaps From Goat Island Bridge and Goes Over the Precipice.

NIAGARA FALLS, N.Y., May 2.—To-night about 8 o'clock as J. L. Ryan and wife of Holly were standing on the sidewalk near the American end of the Goat Island Bridge they saw a man leap from the upper side of the bridge into the river. The lady screamed and attracted the attention of Samuel Smith of the reservation police, who stepped to the bridge railway and saw distinctly a man floating in the current below. He was out of reach and soon was swept over the brink near Prospect Point.

The policeman found on the bridge near the spot where the man was seen to jump a Derby hat containing the label of Bedford & Faul, 271 Main-street, Buffalo, a leather pocket-book containing a key ring and Music Hall bus ticket, No. 2265, bearing the name of Jacob Blessing, 742 Seneca-street, Buffalo.

INHUMAN BRUTALITY.

How Robert Burns was Beaten to Death in the Cook County Insane Asylum.

CHICAGO, May 2.—At the coroner's inquest to-day into the cause of the death of Robert Burns, a patient in the Insane Asylum at Jefferson, Attendants Richardson, Orogan and Peche, charged with beating him to death, were present. Charles Beck, a reporter who played the insanity dodge and was admitted to the asylum, detailed the repeated acts of brutality which the accused inflicted upon Burns. He declared the patient was not unruly, but seemed to be dazed. Beck testified that Burns was ordered to sit on a bench. He seemed not to understand and did not do so, whereupon he was violently thrown down upon it. Rising in a dazed way Richardson kicked him violently in the abdomen. Burns again arose, when Richardson caught him by the collar and threw him so the floor and so the brutality continued, the accused kicking the helpless inmate in the side and stomach, striking and cutting and bruising his face with their fists. They undertook to dress his wounded leg, jerking him about roughly and causing him excruciating agony, meantime continuing their blows.

Orogan picked up Burns' shoe and taking it by the toe beat the patient over the head with the heel, causing great gashes and covering the victim with blood. By this time Burns was in a semi-comatose condition. He was then jerked out of his seat, which was covered with blood that had run from his head. That night Burns was ordered to remove his clothes, but not complying, was slapped and cuffed. Finally the attendants stripped him and Richardson kicked him in the abdomen, knocking him across the seat.

At another time witness heard blows in Burns' cell and loud cries from Burns lasting several minutes. Attendants Schubert, Orogan and Richardson were there. Then a mop and a pail of water were brought and the door was closed and locked. The attendants concluded witness was too inquisitive and he was removed to another part of the building. The reporter came out of the asylum at the end of 10 days. Burns was then reduced to a skeleton and was a sallow, hollow-eyed idiot.

The reporter told how, when friends secured his release, Dr. Kiernan, Superintendent of the Asylum, shook his head ominously and advised against it. He declared the reporter was incurably insane, he knew this because he had watched the case closely. Dr. Schubert, of the staff, concurred in this opinion.

The Niagara Falls Trotting Association Suspended—On the Diamond.

CHICAGO, May 2.—One of the most important cases up before the Board of Review of the National Trotting Association was that of W. G. Babcock of the Babcock stock farms of Hornellsville, N.Y., v. the Niagara Falls Trotting Association. Complaint was made and an application for an order filed as to the decision of the association's judges in the 2.25 race of July 4 last. The association having been ordered to appear and show cause why it did not pay the money won by the contestants in the race, and having failed to do so was suspended.

Measures which Received the Royal Assent—The Text of the Governor-General's Speech.

OTTAWA, May 1.—When the House met at 11 o'clock this morning, after the transaction of routine business from the Senate, Hon. A. G. Jones inquired what the Government intended to do in view of the rejection by the Upper House of the Harvey and Salisbury line.

Sir Hector Langevin said the Government had not yet considered what course they would pursue, as the action of the Senate had not been anticipated.

The House having adjourned met at 3 in the afternoon when the usual farewell speeches were made, that of Mr. Trow, the senior Liberal whip, being particularly felicitous.

In response to the summons from the Usher of the Black Rod the House proceeded to the Senate chamber, where His Excellency the Governor-General signified the Royal assent to the following measures passed since the assent was last signified this session:

To incorporate the Supreme Court of the Independent Order of Foresters.
To incorporate the Union Railway Company.
To amend the revised statutes, chapter 77, respecting the registry of ships.

Trent Valley Canal Criticism.

Following is the conclusion of the recent debate in the House of Commons upon the item, "Trent River Navigation, $6000":—

Sir John A. Macdonald. The hon. gentleman (Mr. Barron) has made a number of statements which I think unworthy of him, and for which he has no foundation. He suppose everything against the Government, and he suppose everything against the Commission. Who were the commissioners? I suppose he would not object to Judge Weller—

Mr. Barron. No.

Sir John A. Macdonald. Judge Weller, who lives at Peterborough, and he is the chairman of the Commission. Will he object to Mr. Kennedy, of Montreal, one of the first hydraulic engineers on this continent, and who is now absent in consequence of illness and has been obliged to go to Europe, which everybody regrets? The third gentleman is an engineer of standing, Mr. Frank Turner, of Toronto. Everyone knows of him. These are three honorable, upright men, and to say that they were appointed to make a sham report to enable the Government to back down is unfounded, is unworthy of the House and of the hon. gentleman, and, if I had not been called to my feet by the remark of the hon. member for South Oxford (Sir Richard Cartwright), I should have considered it unworthy of reply.

Mr. Barron. I did not say it was a sham report.

Sir John A. Macdonald, I leave it to the House if that is not the case.

Mr. Barron. I said they knew what the report would be and they were likely to take advantage of it.

Sir Richard Cartwright. There is another side to this question. It is six or seven years since the Government asked for considerable sums to carry out this work. It seems to me extraordinary that after this work was undertaken, and after pledges were made by some members of the Government—certainly by Sir Charles Tupper—that the work should be proceeded with, in the sixth or seventh year afterwards the Government should find it necessary to institute a Commission to find out whether, in 1889, it was possible to do a thing which they had declared, or one of their number had declared, was to be done in 1881, 1882, or 1883—I cannot recollect the exact year, but I recollect the facts. The Government ought, before going into the expenditure which they then incurred, to have found out, through their engineers or other competent authorities, whether the thing could be done or not, and the appointment of the Commission appears to me, and I think will appear to the country, to indicate that they commenced this work on very imperfect information, and that they made representations to the inhabitants of the Trent Valley on very imperfect information.

Sir John A. Macdonald. The hon. gentleman is unjust, though I do not think he is intentionally unjust, in the inferences he has drawn. The Trent Valley scheme was before the country and was a subject of discussion many years ago.

Sir Richard Cartwright. Fifty years ago at least.

Sir John A. Macdonald.—Before the hon. gentleman or I was here, the Government of the country got some light on this subject. The Trent navigation was considered to be an inland water carriage similar to the Rideau canal. The reports are to be found, the statements of the cost are to be found. When the Government took up this matter some years ago they decided it must be a work to be built by degrees, as the country could afford it. The Government have gone on and built it by degrees, and the hon. gentleman opposite admits that the work, so far as it has been built, is of great advantage to the country through which it passes, that it has opened out a large stretch of water communication, that there are steamboats plying on those waters, doing a very considerable trade. The Government have gone on steadily in the construction of the canal, bit by bit, coming every year to Parliament and explaining how much would be built in that year, and how much money was wanted. The statement has been made lately by engineers of standing that whatever might have been the grounds on which the original estimates were made by competent engineers—and that original plan was adopted by public sentiment years ago—those grounds have changed, and it would cost much more now. Well, the Government of the day would have to come to Parliament to get a vote. It was a sum exceeding by some millions the original estimate. These two very competent gentlemen were appointed, and a third gentleman of high standing for his character—and certainly any leanings he might have would be in favor of the complete construction of this work—was appointed chairman that he might, as a legal man, marshal the evidence. We are waiting for that report, and that must be submitted to Parliament, it must meet the assent of Parliament; and we would be quite unjustified in going on, having been informed again and again for years that the work would cost infinitely more than was stated by the engineers in those days. And there is no loss of time. The hon. gentleman says we have been idling. We have been carrying out steadily the object with which we have started, that is to build a water line of communication by degrees, taking a vote for enough to employ a certain number of men, and do a certain amount of work during the next year. We are doing so this year, and before this money is expended I hope that Mr. Kennedy will be back and then we will get a report of the whole matter, and it will be for Parliament to judge, when we come down with the estimates, of the expediency of expending this money. I do not believe that hon. gentleman has any grounds for saying that he believes these gentlemen are going to report adversely. I do not think he has been taken into their confidence. I do not think he knows anything about it; and he cannot get up now in his place and state that he has any reliable information that these gentlemen have been such fools as to tell him, or to tell anyone else beforehand, what the report was going to be. I challenge the hon. gentleman to substantiate that statement. It is so absurd in itself that I do not think, with all due respect to him, that we can place any reliance upon it unless he produces additional evidence of it. It cannot be so. These gentlemen know their duties. They are gentlemen of character, they are professional men as well, and they would not have consulted me hon. gentlemen, or taken him into their confidence. The hon. gentleman for South Oxford (Sir Richard Cartwright), when he was speaking about the St. Lawrence canal, although that is part of the policy of the Government, did not hesitate to state, and it was his duty to state, that he had heard that on the whole it would be more economical, and perhaps as well, to use a system of transhipment rather than deepen the canal to 14 feet. Well, the Government were pledged to build a water communication on within a depth of 14 feet, and yet if Parliament chooses to say: We have changed our mind, or if the Government, on full evidence, think that it would be inexpedient to carry out their original intention, they are not to be charged with doing anything wrong; on the contrary, they are to be praised, to be lauded, even though the hon. gentleman might call in-banking down. They should be lauded if, upon a careful study of the circumstances, they think that the original intention ought to be, in the interest of the country, changed. That is the plain state of the case. The hon. gentleman says it is not a political question at all. The whole subject of the hon. gentleman was political in the most miserable party sense.

Mr. Barron—I am not going to be drawn out by the First Minister to give the source of my information. I am willing to admit at once that I have had no conversation whatever with any of the Commissioners, but I am positive that my information is most reliable that the Commission is going to report adversely to the completion of the canal.

Sir David Macpherson—In connection.

Mr. Barron—It can be. It is quite possible that some of the commissioners may have spoken to others and given their views as to what the report is going to be. I will not say whether that is so or not, but it is quite possible that in some round-about way the information may have come to my ears. But we can only wait for the future to prove whether I am right or wrong. I am willing to rest my case with the future. The Premier said that I charged them with idling. Now, I used the word "idling" in connection with the work at Fenelon Falls, and I reiterate it. I say for two years and a half they have had that money expended at Fenelon Falls, the [illegible] there has been no one made of the works, and the reason in the explanation to which I drew the attention of the First Minister two years ago, and nothing has been done from that time to the present. Now, to show that I am not altogether wrong in regard to this matter, I want to read the First Minister's statement in this House on the 11th July, 1885:—

"The system is a very old one. It has been reported on by many able engineers, and at last the Government adopted the idea of making a permanent work by connecting the two great waterways."

Meaning Lake Ontario and Georgian Bay. Now, if that was his intention, then I ask why, in the name of common sense, we should appoint a Commission now to find out whether it is necessary to do that which he said was going to be done in the year 1885. He goes on:—

"It may be it cannot compete in all respects with other and deeper waterways, and with a railway system, but it will be essentially a Dominion work, connecting the two waters, and at the same time a great advantage to the fine district through which it passes."

Now, of course the First Minister may read me a lecture. I am young in the House and he, being so very much my senior, is at liberty to do so; but his lecture will not be accepted by the people of this country who believe that they are being deceived. But I am quite willing to rest my contention as against his with the people of the country who are interested in this great work.

Sir Richard Cartwright.—It was stated by the Government in 1883 that they had full information on this subject. I find that Sir Charles Tupper stated at that time that the facts had all been collected, and that $6,000, the cost of the survey, would complete the work so that he would be able, next session, to report the whole scheme. The Government, according to Sir Charles Tupper, ought certainly to be in possession, before 1889, of all the facts and should have ascertained the cost.

Sir John A. Macdonald.—Even if the canal were not finished there has been substantial benefit done to that part of the country.

Sir Richard Cartwright.—My point was this: that the hon. gentleman's colleagues had many years before stated to the House that the Government would be in a position in a very short time to give complete estimates of the cost of the work and state what they were going to do. Several years elapse, then the Government appoint a Commission. That is not business, and it is not the way a public work should be carried out. In so far as the advantages to the particular localities are concerned, all well and good; but when the Government propose through a responsible Minister to engage in works of this kind, I repeat we have a right to expect that they have made up their minds as to what they are going to do, and have obtained full estimates as to the cost of the work.

R. A. Gunn, M. D., Dean and Professor of Surgery, of the United States Medical College; Editor of "Medical Tribune." Author of "Gunn's New and Improved Hand-book of Hygiene and Domestic Medicine," referring to Warner's Safe Cure, said: "I find that in Bright's disease it seems to act as a solvent of albumen; to soothe and heal inflamed membranes, and wash out epithelial debris which blocks up the tubuli uriniferi (urine bearing tubes): and to prevent the destructive metamorphosis of tissue. * * * I am willing to acknowledge and commend thus frankly the value of Warner's Safe Cure."

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they *are just* out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Peaches at 15c. per tin; 3-lb. Tins Tomatoes three for 25c. W. J. Morrow, 340 George street. dw

GRAND OPENING
OF
GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Spring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a grevience we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

Cross-Examination Fails to Smirch Mr. Parnell's Character.

LONDON, May 2.—The cross-examination of Mr. Parnell was continued before the Parnell Commission to-day. Mr. Parnell admitted that Condon was connected with the Manchester murders. Condon was chairman of the Reception Committee at Washington. Winans always repudiated the dynamite and physical force party in America and denounced them in the House of Commons. He was not aware that The Cincinnati Commercial-Gazette reported verbatim the speech he made at Cincinnati, and in which he is said to have referred to the occurrence of the last link between Russia and Ireland, and that the report was like that in The Irish World. Mr. Parnell admitted he had not found fault with the past action of the Invincibles. He quoted from his speeches and his manifesto of 1881, denouncing outrages and unconstitutional action by Irishmen.

Mr. Parnell said that he advocated the buying out the landlords in Ireland and making the tenants the owners of the land.

The cross-examination of Mr. Parnell proceeded through a mass of detail and was aimed to connect him with the Fenians and also to show that he must have known of the plots to commit murder. Nothing, however, was elicited from the witness to show that he was in any way connected with the Fenians or that he had any knowledge of murderous conspiracies. Attorney-General Webster cited remarking speeches made by W. Redmond.

Mr. Parnell listened to the Attorney-General and remarked that old heads could not be put on young shoulders. Again pressed by counsel as to whether he had ever disowned outrages, Mr. Parnell read extracts from speeches delivered by him in 1879, such as, "Let us remain within the law and constitution;" "I hope the people will not be tempted to imitate the violence and illegal attempts of the Government;" "the Leaguers have prudently peaceful and constitutional and there is nothing behind it." Mr. Parnell further said that in 1880 he denounced the shooting of agents as unnecessary and prejudicial where there was a suitable league organization, but admitted that such denunciation was insufficient to stop such outrages. He denied that he was responsible for the violence of the articles which appeared in United Ireland and said that Mr. O'Brien had supreme control over that paper.

Refused to Side in the Black Maria.

DUBLIN, May 2.—Dr. Tanner and Messrs. O'Connor and Condon, M.P.'s, whose sentences were confirmed to-day, were conveyed from Tipperary to Clonmel. At the railway station at Clonmel they were enthusiastically received by the people. A prison van was waiting at the station to take the three gentlemen to jail. They refused to enter the vehicle and a desperate struggle ensued. The crowd became frantic and the police to prevent a riot finally allowed the prisoners with the exception of Dr. Tanner to walk to the jail. Dr. Tanner was severely injured in the foot during the struggle and was unable to walk.

Goschen's Budget Approved.

LONDON, May 2.—The House of Commons to-day approved of the main proposals of the Budget.

LONDON, May 2.—The false report that the North German Lloyd steamer Weser had yellow fever on board was due to a blundering despatch. The yellow fever occurred on the German steamer Berlin which arrived in the Weser River yesterday from Bahia.

A Wurtemburg Instance.

STUTTGARDT, May 2.—It is stated the King of Wurtemburg insists upon the return of Baron Savage, his American adviser. It is believed that an intrigue is on foot for the dismissal of Prime Minister von Mittnacht.

The King of Holland Restored to Power.

THE HAGUE, May 2.—Owing to the improvement in the health of the King of Holland, Parliament to-day by unanimous vote passed a resolution restoring his power. The announcement was received with cheers. The Duke of Nassau, now Regent of Luxembourg, will retire.

THE GUELPH MYSTERY.

Report of the Accountants With Reference to Harvey's Alleged Embezzlement.

GUELPH, May 2.—The full report of Messrs. Henry Lye, W. H. Cross and John Mitchell, the accountants who examined the books of J. W. Lyon in connection with the alleged embezzlement by W. H. Harvey, is now made public. The result of the examination is thus stated;

"The books have been wretchedly kept. But whether this arose from incapability, indifference or design we cannot determine, as the data necessary to enable anyone to arrive at a definite conclusion is not available. It is certain, however, that if Harvey had the necessary ability and time the defalcation made by Mr. Lyon is amply justified by the condition of the books, and yet it is quite possible that no actual embezzlement was committed, and time may furnish more definite information."

Supposed to be Over 1,000 Years Old.

In the province of Canton are occasionally dug up ancient copper goags or drums, which some say were made by the aboriginal Laos tribes, others say by Ma Yuan, the renowned commander who invaded Tong King in A. D. 41 and quelled the rising of the rebellious tribes against the Chinese, erecting a pillar of bronze on the extreme southern border of the "hill country." The Nan-hai Maio temple, at Canton possesses two of these curious monuments, one large and one small; the characters are mostly indecipherable, owing to the length of time they have been under the ground. The larger one was obtained from the tomb of a barbarian chief 1,000 years ago, during the Tang dynasty at Kao-chow.

Let Your Work Talk.

Mr. Bok says, in his Literary Leaves, published in The New York Graphic, that an editor of one of the great magazines said to him, in reply to his question, "Are personal introductions helpful to young authors?"

"Don't go to a friend who knows the editor and get a letter of introduction; it will bore the friend, the editor and eventually yourself. If you suggest the value of a 'friend at court' remember that the editor has met this scheme a thousand times. It means that you ask him to make an exception of your case against his judgment, and this annoys him to begin with. If you want to sell a firm a bill of goods you do not feel that you need a letter of introduction to the buyer, and an editor is in exactly this position of one who is always buying what he thinks is salable."

There is a good deal of truth in this advice of the magazine editor. The author's best friend or his worst enemy is his manuscript. That should be his letter of introduction without any preliminary flourishes in the shape of actual letters of introduction.—The Epoch.

A New Ruling Pen.

An improved ruling pen, by Thomas Bennet, of Philadelphia, Pa., is made with one of its blades movable when under the finger. The pen may be set to make both light lines and heavy lines. If, in the progress of the work, heavy lines are needed, a pressure of the finger on the pen produces them. On releasing the finger the pen returns to light lines. Scientific American.

That Offer of $5,000.

Our readers will doubtless call to mind the offer so widely advertised for the past ten years by H. H. Warner & Co., the proprietors of Warner's Safe Remedies, that they would pay $5,000 to any person who would prove to an impartial referee that they had ever published a testimonial that was not genuine so far as they knew.

This offer had the ring of honesty about it, and as the matter has an especial interest just now we give a copy of the offer as it appears in the Messrs. H. H. Warner & Co.'s pamphlet:—

$5,000 AN OFFER OF $5,000.00

Every Testimonial published by us is Bona Fide, and, so far as we know, is absolutely true. To any one who will prove the contrary to an impartial referee we will give $5,000. H. H. WARNER & CO.

Rochester, N. Y., January 2nd, 1888.

We ask the reader's careful attention to the following testimonials, as bearing on the offer, and their unbiased opinion of the same with reference to the $5,000.

STRATHCLAIR, P.O., Manitoba, April 17th, 1888.—As I have been cured of Bright's Disease I know a great many more who could be cured by Warner's Safe Cure, if the medicine was brought before their notice.—JOHN L. WILSON.

HAMILTON, (195 Elgin Str.), Ont., July 9th, 1888.—I have been troubled with kidney disease in its worst form for from three to four years. For six months I could not attend to my business at all. As a last resort I tried Warner's Safe Cure, and found almost instant relief. I consider Warner's Safe Cure the best medicine known for all diseases of the kidneys.—A. J. DIAMOND.

PORT HOPE, June 21st, 1888.—Between two and three years ago I was suffering a great deal of distress across the loins and kidneys. I was recommended Warner's Safe Cure, and before taking two bottles I passed a stone from the bladder, very hard, and have suffered nothing of any account since.—E. PHILP.

KINGSTON, July 28th, 1888.—Two years ago my wife was confined to the bed for 3 months the most of the time. She suffered great pain across the kidneys with a burning sensation in the abdomen. Her case was pronounced by her attendant physician to be one of the worst cases of diseased kidneys and prolapsus uteri. I advised her to try Warner's Safe Cure, and before she had taken two bottles was much better. She continued its use until she has taken over a dozen, and is now well and strong and able to attend to all the cares of our home.—THOS. HELDER (lumber dealer).

There is no getting away from such testimony as the above. The offer is genuine. In fact Messrs. H. H. Warner & Co. have always requested that doubters should write direct to persons giving testimonials (enclosing stamp), and where of necessity, in the great majority of cases, totally unacquainted with the firm.

"I am pleased with Burdock Blood Bitters because it cured my rheumatism completely. My son also, and many other people in this vicinity, have used it and say it is splendid." Mrs. C. Perrault, Rat Portage, Ont. 2w17d

For Five Years.

"For over five years we have used Hagyard's Yellow Oil in our family for coughs and colds, burns and sore throat, and our experience is so satisfactory that we would recommend the medicine to any person." Mrs. F. Sanderson, Bosworth, Ont. 2w17d

Our Vancouver Correspondent

From Esquimault, B. C., Mrs. A. B. Cameron writes that being very much troubled with dyspepsia she tried two bottles of Burdock Blood Bitters, which gave great relief, and hopes that others may be induced to try it also and receive like benefits.

It Makes You Hungry

"I have used Paine's Celery Compound and it has had a salutary effect. It invigorated the system and I feel like a new man. It improves the appetite and facilitates digestion." J. T. COFFLAND, Pittsburg, B. C.

Spring medicine means more now-a-days than it did ten years ago. The winter of 1888-89 has left the nerves all frayed out. The nerves must be strengthened, the blood purified, liver and bowels regulated. Paine's Celery Compound—the *Spring* medicine of to-day—does all this, as nothing else can. *Prescribed by Physicians, Recommended by Druggists, Endorsed by Ministers, Commended by the Manufacturers to be*

The Best Spring Medicine.

"In the spring of 1887 I was all run down. I could get up in the morning with no rest a feeling, and was so weak that I could hardly get around. I bought a bottle of Paine's Celery Compound, and before I had taken it a week I felt very much better. I can cheerfully recommend it to all who need a building up and strengthening medicine." The fact cannot be too forcibly impressed upon the minds of all users of paint, that good results can be produced only by the use of good materials. The main expense in painting is not in the cost of the paint, but in the cost of LABOR and OIL, and it requires more labor and more oil to apply inferior paint than to apply the best that can be obtained.

The above Brands are the acknowledged standard by which all other paints in the market may be judged.

DR. DORENWEND'S

HAIR MAGIC.

The equal of this great preparation is yet to be found. It is an unfailing Restorer for grey hair—it stops all falling out of the hair—it removes all dandruff and keeps the scalp clean. On bald heads (if there are but the faintest traces of roots) the Magic will produce a fine growth. Will you try it? Or will you let your hair go, and become prematurely old? What do you say? All druggists everywhere have it for sale. Ask for it. Don't let the druggist tell you he has something just as good—many have dead stock of other hair tonics on hand and try to shove them off in this way. See that each bottle bears seal and signature

The Cadet Corps.

Yesterday afternoon at the regular drill of the cadet corps at the Collegiate Institute the officers appeared for the first time in their new uniforms of navy blue serge, with black braid trimmings, and Glengarry caps. The whole corps can be supplied with almost similar uniforms at $6 each, and it is probable before the summer is over the cadet company will be a uniformed corps, well-drilled and efficiently officered, and a credit to the Collegiate Institute.

The joint meeting will take the place (for the night) of Mr. Kerrick's class.

Willow and Westest.

A cricket match with Lindsay was filled for to-morrow on the home grounds, but the Lindsay secretary wrote that they would play only the pupils and masters of the Collegiate Institute, and of course the match fell through. Surely the Lindsay cricketers have spunk enough to tackle the Peterborough second eleven (Maple Leafs), which it was intended to pit against them.

THE LATE MRS. JAMES SALTER.

The public will learn with regret of the death of the wife of Mr. James Salter, a former resident of the town. Mrs. Salter died unexpectedly in Toronto on Thursday. The remains will be brought to town to-morrow, arriving by the 11.40 C. P. R. express. The funeral will take place at that hour from the station, to the Little Lake Cemetery. Mr. Salter has very many friends in Peterborough who will sympathize with him in his bereavement.

Leitner' Cigars and Barber Shop.

Charles Legree is keeping pace with the times. The cigar department of his business is supplied with a choice line of newly imported cigars, a fresh stock of fine pipes and superior tobaccos. The Rumour Disproved.

For the past few days a rumour has been freely circulated in town that Miss Graham, who disappeared about a month ago, had committed suicide in Detroit. Chief Reeves wrote to the Chief of Police of that city, and to-day received a reply which sets all doubts at rest. The lady of the woman who jumped off the wharf at Detroit, and who answered somewhat to description of Miss Graham, has been identified as belonging to Detroit.

Opera House, May 7th.

This is an important date, the night of the appearance of the "Spanish Students," a first class musical organization engaged by the P.A.A.A. to give one of their unique and high class entertainments. In spite of the substantial guarantee required, the Association has fixed the admission at popular prices —25 and 50 cents. The press speaks highly of the performances of the "Spanish Students," and of the refined humorisms of Prof. Ryerson. Remember May 7th, Bradburn's Opera House. Reserved seats at Scheefold's drug store.

Sons of St. Andrew.

The executive committee of the St. Andrew's Society held their May quarterly meeting last night in their new hall, which is being put in order for the special meeting of the Society called for Thursday next, 9th instant. The members say that the meeting last night was the best they have had for many a year, evincing the increased interest already being manifested by Scotsmen for their national Society since it has been decided to have a hall of their own. Quite a number of new members sent in their names and were added to the membership roll, while many others have been stirred up, whose names will be added at the meeting next week. During the evening the hall committee was heard from, and a report was prepared, recapitulating the work done by the committee, which will be submitted for the approval of the Society next week. Vigorous measures were also set on foot for increasing the membership, and with a view of waking up all Scotchmen and those of Scottish descent to their duty of becoming members. A new form of membership card was also ordered to be printed, which will be presented to each member on his payment of $1 00 for membership fee.

Baseball Notes.

The *World* says the Cobourg baseball team is trying to arrange a match with Peterborough at Peterborough on May 24th. They'd better wait until there is a club in Peterborough. It is to be hoped the meeting to-night at the Commercial House will result in something definite.

The following are the changes in the baseball rules this season :—Foul tips do not put out. Four balls, instead of five, give a base. A runner need not touch bases on returning on a foul. Batted balls will not be stricken unless willfully blocked of foul. The imaginary line has been eliminated from the pitcher's box. If a thrown ball hits the umpire, a runner must return to the base he started from. The extra player or tenth man may take his place in the field at the end of any inning. The umpire shall not reverse his decision on the testimony of any player or bystander. A base runner is entitled to take one base without being put out, if the batted ball hits the umpire on fair ground.

St. John's Reception.

A Delightful Evening Spent at St. John's School Room—The Reception Successful in Every Respect—The Ladies Win Laurels on Hostesses — A Splendid Musical Programme—Beautiful Decorations.

The great success which attended the reception and social re-union held in St. John's school room last night is most gratifying to all those concerned. The success is more to be admired when it is stated that the occasion arose out of a spontaneous desire on the part of the congregation, and its definite origin is as difficult to account for as the origin of the observance, in the popular manner, of St. Valentine's day or Hallow-e'en.

The ladies of the decoration committee had done remarkably well. The beautiful school room had been charmingly arranged as a drawingroom. A carpet led from the walk in front of the porch to the inner door, where admission was gained through *portiere* curtains. The floors were covered with rugs, and here and there *tete a tete* tables were placed, and brightened with cut and blooming flower in vases and pots, while all about the room the tasteful distribution of living flowers gave it the appearance and effect of a large conservatory. Sofas and couches,

INVITING TO REST AND SOCIABILITY,

were plentifully placed. The windows were elegantly curtained, and the entire effect of the artistic use made by the decoration committee of their opportunities was exquisite.

The vestry was used as a butler's pantry, whence, during the evening, industrious relays of young ladies distributed the delicious refreshments provided in abundance. The superiority of the equipment and quality of this department was the theme of much favorable comment.

At eight o'clock the reception committee, stationed at the doors, received and welcomed with cordial grasp of the hand the several members of the congregation who arrived in rapid succession, till the room was filled to its utmost capacity. The company, composed entirely of adults, spent the evening in an eminently social manner, to the accompaniment of the splendid music presented through the successful efforts of the musical committee. The opening piece, an instrumental trio, Mrs. Lewis (pianoforte), Mr. Doucet (violin), and Mr. Butcher (flute), in its excellence gave the key note to the character of the succeeding programme. The second number was a violin solo, air varied by Farmer, performed by Miss Louise Yokome in a finished and artistic manner, the effect of which was greatly assisted by Miss Clarton's sympathetic pianoforte accompaniment. A song and chorus effectively rendered was followed by a violin solo, "Joy and good Will," gavotte, by Master Harold Lewis, who acquitted himself most creditably. A solo and chorus was given with

THE FINE EFFECT NATURALLY EXPECTED

from members of the well-trained choir of St. John's. An instrumental duo, Mr. Butcher, flute, and his daughter, Louie, pianoforte, apart from Mr. Butcher's meritorious playing, was remarkable for the excellence of the performance of the daughter, a little girl of thirteen, but with a finished touch and correctness of time that indicated not only present proficiency, but great promise. The pianoforte duet of Mesdames Lewis and Beresford was characterized by the same high qualities that the public of St. John's are familiar with. Two choruses, one "Mavourneen," Mr. Alex. Elliott taking the solo with fine effect and other "Good Night, Ladies," completed a musical program of much merit, upon which the musical committee is much to be congratulated. The singing of the National Anthem brought a delightful evening to a close, and every one concerned can regard the occasion with gratification.

The following are the ladies comprising

THE SEVERAL COMMITTEES :

RECEPTION COMMITTEE.—Mrs. Beck, Mrs. Vernon, Mrs. (Dr.) Burnham, Mrs. (Dr.) Beasley, Mrs. Weller, Mrs. Best, Mrs. Belcher, Miss Ferguson, Mrs. G. A. Smith, Mrs. Archer.

REFRESHMENT COMMITTEE.—Mrs. Durand Mrs. (Geo. W.) Rutledge, Mrs. Best, Mrs. Perry, Mrs. Somerville, Mrs. Merrick, Mrs. Mills, Mrs. Pope, Mrs. Stapleton.

DECORATION COMMITTEE.—Miss Wallis, Miss Burnham, Miss Hatton, Miss Halliday, Miss Gilchrist, Miss Stennett, Miss Barlee, Miss Kirkpatrick.

MUSIC COMMITTEE.—Mrs. G. A. Smith Mrs. Beresford, Mrs. Lewis.

The foregoing are the names of the members formally chosen, but it must be stated that the members of the congregation generally co-operated and greatly assisted in making the first congregational reception of St. John's a most pronounced success. The Curate-in-charge Rev. Mr. Davidson was also present and was much gratified in having the opportunity of meeting the many members of his flock under such pleasant circumstances. The unavoidable absence of Rev. Mr. Kerrick, assistant curate, who is detained in Toronto by physical indisposition, was generally regretted.

Something You Should Know.

Many of our readers have often asked "What is Bright's Disease of the kidneys, about which we hear so much?" To answer their question we have secured the following explanatory article, written by a competent authority :—

The symptoms of Bright's Disease (which is but an advanced form of kidney disease), differ in different individuals, but generally the patient presents a fatshy, bloodless look, is drowsy and easily fatigued, has pain in the back, vomiting and febrile disturbances. The urine is reduced in quantity, is often of dark, smoky or bloody color, and exhibits to chemical examination the presence of a large amount of albumen, while under the microscope blood corpuscles and casts are found.

There are several forms of the malady, but their common prominent characteristics is the presence of albumen in the urine, and frequently also the co-existence of dropsy. These associated symptoms, in connection with kidney disease were first described in 1827 by Dr. Richard Bright, an English physician, who first investigated them. Sometimes there is a degeneration of the tissue of the kidney into fat, thus impairing the excreting powers of the organ so that the urea is not sufficiently separated from the blood. The flow of the blood, when charged with this urea, is retarded through the minute vessels, congestion ensues, and exudations of albumen and fibrin is the result. The disease is often accompanied by eruptions on the skin, as boils, etc., and is frequently associated with enlargement of the heart.

The causes of this terrible malady are, indulgence in too much tea-water as a beverage, strong drink, high living, indigestion, exposure to wet and cold, various kinds of fevers, malaria, pregnancy, and other bodily derangements, such as a complication of certain acute diseases, like erysipelas, diphtheria, and especially scarlet fever (to which it is one of the most frequent and serious after effects), diseases of bones and other scrofulous affections.

Common-sense treatment of Kidney Disease of the character referred to necessarily involves removal of the causes, rectification of other secretions and increase in the number of blood-red corpuscles, by the administration of Warner's Safe Cure. It is a specific even in the advanced stages, when the blood has poisoned the nerve centres, restoring the secretion of healthy fluids and relieving the congestion of the brain. It speedily arrests the inflammatory action, which is marked by an increased amount of urine. The albumen gradually disappears, the dropsy subsides and the patient recovers. There is no standstill in advanced Kidney Disease; those who are afflicted with it are either constantly growing better or worse. How important, therefore, that this terrible disease be taken in hand in time and treated with a known specific.

Ashburnham Brevities.

Miss Emma Burnett, eldest daughter of Mr. H. Burnett, left yesterday for Michigan to visit friends there.

The embankment at the foot of Lake street, adjoining Mr. H. T. Strickland's property, is being levelled. The work will add very much to the appearance of this part of the street. The council are determined to make the streets of the village second to none.

The tea held in St. Luke's school room Thursday evening under the auspices of the Women's Auxiliary, was a decided success, and added a neat sum to their finances. The tea was got up in the very best of style and was done justice to by a large number of the members of the congregation and their friends. The tables were spread from six till nine and the waiters had all they could attend to for those three hours. During the afternoon and evening the ladies of the Auxiliary held a sale of useful articles, manufactured by themselves at their regular meetings. The sale was as successful as the tea and a great many articles were disposed of.

No set-to-pay programme of amusements had been provided, but the proceedings were interspersed by vocal and instrumental music, which very materially added to the enjoyment of the evening. St. Luke's suppers are noted for their joviality and this one certainly detracted none from their former reputation. A fish-pond, under the joint management of Misses Saunders and Cooke, assisted by a host of bright young ladies, was a source of great amusement. A basket of carved work, in wood, presented by Mr. T. Leah for the benefit of the Auxiliary, was admired by many and found ready purchasers. The Women's Auxiliary, of which Mrs. John Burnham is president, is to be congratulated on their deserved success.

Police Court.

FRIDAY, May 3rd.

Walter Kerr's case does not come up till Monday.

Jno. McMurray wandered into the police station last night while very drunk, and He was given a chance to sober up when asked what he wanted told the officer that it was none of his business. "Get out of this, now, or I'll look you up," replied the constable. "And you got out of this or I'll look you up," retorted the lubberly visitor. He was boarding at Cavanagh's and he was going to sleep there, he said and wanted to know if they had a beer and wine license. This was more than the ordinary blue coat and brass buttons could stand, and after a tussle McMurray was incarcerated. during the night, and this morning was discharged on promising to get out of town at once on pain of being sent up for a month if arrested again. The prisoner was rather respectably dressed, and on answer to the magistrate's interrogation, said he was not a farmer.

An assault case, Harry Lynch vs. Harry Drake, was enlarged till to-morrow.

"F" Tonic Party.

A novel entertainment was held at the residence of Mrs. J. G. Early last evening. About 100 young people were present and made merry until a late hour. Each lady and gentleman received a programme, very neatly printed, on which were thirteen topics of conversation; the first duty of the gentlemen was to obtain some favorite lady's card, write his name on it, opposite a certain topic, and then, when the time comes to discuss that topic, they would meet and enjoy a short and pleasant *tete-a-tete*. This plan for spending an evening is a new one in Peterborough, and may with profit be continued by party-givers. The tenth topic was "Abraham and Hector of the Goths," or, to be less classical, "Refreshments." The thirteenth and last subject for conversation was, "Promenade, Home, Sweet Home." During the evening solos, instrumental and vocal, were rendered, the participants being Mrs. Duff, the Misses Lansdale, Fawcett, Cameron, Pearson, Wrighton and Messrs. Bowman, Norton and McKee.

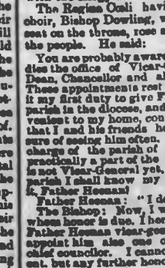
THE BISHOP OF HAMILTON

INSTALLATION OF RIGHT REV. DR. THOMAS JOSEPH DOWLING.

An Impressive Ceremonial — Addresses from the Clergy and Laity—Important Changes in the Diocese Announced.

HAMILTON, May 2.—In St. Mary's Cathedral two years ago yesterday, with all the pomp and splendor which in the Roman Catholic Church attends such ceremonies, Rev. Thomas Joseph Dowling, for twenty-three years parish priest at Perth, Ont., was consecrated Lord Bishop of Peterboro by the late Archbishop Lynch and to-day in the presence of a large number of church dignitaries and clergy and a vast throng of the laity which crowded the ancient edifice the good Bishop, transferred to the Diocese of Hamilton, was installed in



BISHOP DOWLING.

his cathedral church of St. Mary's. Bishop Dowling, who was consecrated by several distinguished prelates and many priests, arrived in the city by the 8.40 train from Toronto. He was welcomed at Oakville by a number of prominent laymen, who went down in a special car for that purpose, and was escorted at the station here by a crowd of almost 2000 people. From the appearance of the people and the enthusiasm that fell from their lips it was evident that the appointment of Dr. Dowling as Bishop of Hamilton is a popular one.

The ceremony of installation, which was a most impressive one, was participated in by Archbishop Fabre of Montreal, Bishop Walsh of London, Bishop Cleary of Kingston, Bishop O'Connor of Peterboro, Bishop Foley of Detroit, Vicar-General Heenan and Chancellor Craven of Hamilton. Administrator Laurent and Rectory, Fathers L. Brennan, Murray (C.S.S.R.), J. F. McBride, J. J. McCann, J. E. Tooly, M. M. G. O'Reilly, J. L. Hand, H. J. McPhillips, G. Vincent, (C.S.S.R.), D. Cushing, L. E. Cherrier, L. Brennan of Toronto, and nearly seventy others of the clergy of the province.

The Te Deum having been sung, and the Bishop of London having said the prayer for the Pope, Bishop Dowling was enthroned by the Bishop of London, the senior Bishop of Ontario. On his way to the Throne Bishop Dowling walked between Bishop Walsh and Archbishop Fabre. Being seated, and his mitre removed, the new Bishop received the address of the clergy of the diocese, who gathered in a group before the throne. Vicar-General Heenan read the address, which extended to His Lordship a most hearty welcome to his Episcopal See, promised reverence, obedience and co-operation, and referred in happy terms to Dr. Dowling's labors in the diocese as a parish priest and as Vicar-Capitular, to which position he was elected by the votes of the priests of the diocese.

In reply Bishop Dowling said that there was no welcome more grateful to him than this cordial greeting of his diocesan clergy. His only regret was that he was not amongst them as of old, a simple priest of the diocese.

His Lordship having finished his reply, all the clergy, in order of seniority, knelt before him and kissed the episcopal ring in token of obedience

Then His Lordship's chair was taken to the front of the sanctuary, facing the vast audience, and when he was seated the address of the laity was presented to him. It was read by Henry Arland, and presented the homage and reverence of the people, tendering a hearty welcome to the cathedral city.

His Lordship in replying alluded feelingly to his life in Hamilton and his happy relations with the clergy and the people.

The Regina Coeli having been sung by the choir, Bishop Dowling, who had resumed his seat on the throne, rose and again addressed the people. He said:

You are probably aware that when the Bishop dies the office of Vicar-General, the office of Dean, Chancellor and all other offices cease. These appointments rest with me. I consider it my first duty to give Father Heenan the best parish in the diocese, and the parish most convenient to my home, connected with the city, that I and his friends here may have the pleasure of seeing him often. I request him to take charge of the parish of Dundas, which is now practically a part of the city of Hamilton. He is not Vicar-General yet, but if he accepts this parish I shall know my duty. Do you accept it, Father Heenan?

Father Heenan: "I do."

The Bishop: Now, I wish to give honor to whom honor is due. I hereby appoint Very Rev. Father Heenan vicar-general of the diocese, and appoint him also one of my council and my chief councilor. I cannot do any more at present, but any further honors I can bestow on him I will do so with the greatest pleasure. I will ask Father Keough to make a sacrifice. It is not the first time he has done so. Two or three times he has given up his parish in obedience to his bishop. Are you prepared to give up the parish of Dundas?

Father Keough: "Yes."

The Bishop; As a reward I appoint you also Vicar-General, and send you back to my old home in Paris. There is a debt upon the parish, but I know your energy and that you will soon have that removed. I appoint Father O'Donnell in charge of the deanery of Walkerton, and I charge him to carry out the instructions of the late bishop to build a separate school there, for I am told that the good priest has not accomplished that. Out of respect for him, the aged Father Lalor shall remain a dean of the diocese until I find a proper parish. Rev. Father Funchion, the venerable principal of St. Jerome's College, is appointed archdeacon of the diocese and a member of my council. Rev. Father Craven of St. Patrick's will act as chancellor of the diocese in place of Father Keough. Father McVey has come with me from Peterboro merely to act as my private secretary. Father McCann will return from Walkerton to the cathedral, and in a short time I will consult my senior priests with reference to him, but let it be understood once forever that I am the parish priest of the cathedral and my priest in authority there is simply my representative.

WARNER'S Safe Cure removes defective vision or sight. WHY? Because it gets rid of the poisonous kidney acid circulating in the blood. Impaired vision is caused by advanced kidney disease, another name for Bright's disease, which "has no symptom of its own." Warner's Safe Cure removes the cause, when normal vision returns.

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the larve majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50 —mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 25c, buys a pair of Cashmere Hose that have been sold at 35c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"As Others See Us."
"Oh that some power the gift would gie us,
To see ourselves as others see us."
Thus sighed old Scotia's Bard in vain,
For what he could not then attain.
But had he lived in this fair town
He had no cause to sigh or frown,
For if he walked on Hunter street,
An eager throng he'd surely meet,
With faces bright as summer light,
All coming from one fifty-eight.
Where photos always are in view,
Which are to life so very true,
That each one who has seen them there,
Does to his comrades all declare,
"SPROULE is the very man can gie us,
The power to see as others see us."

GOOD PASTURE.
THE undersigned has good Pasture for a limited number of horses, two east of Dewser's Corners. It is well watered watered by a never-failing fountain. Horses will only be taken for the season. Terms, $10.00 for the season, which will last about five months.
The farm is well fenced, but it must be distinctly understood that I will not be responsible for any accidents that may happen to any animals while running on the pasture. I have been cutting hay from this farm in the past, and it will be good pasture.
As only a limited number of animals will be taken, those making arrangements will have the preference. Apply to

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe
The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular :—
THE CITY CLOTHING STORE
in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those ongoing inducements in the future for which it has been noted in the past.
MEN'S CLOTHING.
The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.
MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.
Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.
MERCHANT TAILORING.
"For the apparel oft proclaims the man."
Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.
BOYS AND YOUTHS CLOTHING.
Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.
This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.
This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.
GENTS' FURNISHINGS.
Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

PARNELL'S EXAMINATION.
A Mis-Statement Admitted.
The Ruse Found With Which He Confesses to Making a Gross Mis-Statement in the Commission Witness Stand.
LONDON, May 3.—The cross examination of Mr. Parnell was continued before the Parnell Commission to-day. Mr. Parnell testified he had often reproved Mr. O'Brien, editor of United Ireland, for the violent articles that appeared in those papers. He had not publicly reprehended the articles because he did not consider that to be the way to effect the alterations he desired in the tone of the articles. Mr. Parnell said he considered Mr. O'Brien's teachings to be in advance of his own.
Mr. Parnell denied that he knew "Number One" under the name of Tynan or any other name, and said he had never heard of Mr. Brash being associated with "the martyrs' fund" for the benefit of the families of Phœnix Park murderers. He saw nothing criminal in the fund, and rather thought it was right to assist the bereaved victims. "The martyrs' fund" might not, however, have been the most appropriate name for such a fund.
He could not, he said, recollect describing outrages between 1879 and 1881. He believed the outrages perpetrated to have been the work of small secret societies. Witness was then asked whether if secret societies adverse to the League had existed and if a vast majority of the people had belonged to the League there would not have been ample evidence obtained to convict the perpetrators of outrages, but he parried this question, saying that that might or might not have been the case.
Here occurred the most remarkable incident in the witness' cross-examination. Attorney-General Webster quoted a statement made by Parnell in the House of Commons, during the debate on Mr. Forster's bill in 1881, suspending the writ of habeas corpus, to the effect that secret societies had not been known to exist in Ireland. "Did you believe that when you said it?" asked the Attorney-General.
"No," replied Parnell. "It was like it was a grossly exaggerated statement."
There was a burst of surprise throughout the court-room at this response.
"Did you or did you not," continued the Attorney-General, "intend to mislead the House when you made that statement?"
"I have no doubt I did," was the reply.
The Attorney-General: "Deliberately?"
Mr. Parnell: "Yes, deliberately."
The Attorney-General: "You deliberately made the statement, knowing it to be untrue?"
Mr. Parnell: "Yes, or if not untrue, very extravagant and boastful."
The Attorney-General: "And you have never since withdrawn it?"
Mr. Parnell: "No, I have not."
The nonchalance with which the witness made these admissions astonished the audience and elicited hisses.
"Probably," added Mr. Parnell, "the statement was meant to mislead the House. I am afraid it did not, for the bill was passed. My purpose was to exaggerate the effect the League had in reducing the number of secret societies. The League undoubtedly diminished the number of secret societies, though it had not swept them away as I stated."
Mr. Parnell was next asked what had become of the Land League's books. He explained that some were brought to London and were before the Commission. The cash-books and ledgers had disappeared, he did not know where. Neither were Treasurer Kenny, Mr. Egan nor any other of the League officials able to tell what had become of them. The letter books and files of letters had also vanished.
Presiding Justice Hannen here impressed upon the witness the fact that the Queen's catches great importance to the missing documents and Mr. Parnell promised to try and find them.
How King John Met His Death.
LONDON, May 3.—Advices from Mazzowah give details concerning the recent death of King John of Abyssinia. On March 10 the monks made an attack on the dervishes in the stronghold at Metamnaeh but hisgrooms were demanded, the King being badly wounded. Two days afterward the dervishes made an assault and completely routed King John's army, killing the King and his generals, Ras-ares and Ras-alula. The King of Shoa then proclaimed himself negus and marched upon Adowa.

THE TORONTO BUDGET.
MICHAEL MALLORY COMMITTED FOR TRIAL FOR ARSON.
The Furnishers Ordered to Pay the Costs of the Big Libel Suit—The Victoria University Injunction.
TORONTO, May 4.—In the litigation connected with the Victoria College injunction the Master in Chambers yesterday made orders for the examination of Chancellor Burwash, George A. Cox and others. The committee of consultation with Mr. Bristow, solicitor for Victoria University on the injunction case, consists of the following members: the General Superintendents, the Secretary of Education, the Chancellor of the University and the Bursar. The committee at their meeting yesterday morning added the name of Rev. Dr. Dewart.
Arbor Day was felicitously celebrated at the Normal and Model Schools yesterday, trees being planted by Miss Marjorie Campbell, Mrs. Mowat and others.
At Osgoode Hall yesterday morning Justice Rose gave judgment in the matter of costs in the recent libel suit of E. & G. Farquhar against John Ross Robertson, proprietor of The Evening Telegram. The defendant was allowed full costs of litigation, including the costs of the special jury, and amounting, it is estimated, to some $15,000. It is generally supposed that other pavement contractors will assist in payment. Mr. Robertson is congratulated on all hands over his complete victory.
Michael Mallory, the Queen-street merchant arrested for arson in setting fire to one of his own buildings for the insurance, was committed for trial yesterday morning in the Police Court.
The Police Commissioners are investigating the charges made by Broker Priestman against Inspector Archabold in connection with the raid made by the latter upon the former's office. The main point in which Mr. Priestman thinks he has Inspector Archabold "on the hip," is that the judgments and deliverances of the superior courts in previous cases of a like character decidedly and emphatically state that even a breach of the provisions of the Racket-Shop Act would not entitle officers of the law to treat offenders as keepers of common gaming houses, and in the face of this Mr. Priestman's arrest was made and he was put in the cells like a common felon.
The Ontario Gazette to-day will contain these appointments : J. H. Radford, Galt, associate coroner of Waterloo ; J. K. McLeod, Teeswater, notary public ; J. C. Wells, Gore Bay, bailiff of the Fourth Division Court of Manitoulin.
Letters patent have been issued incorporating these companies : The Leaden Medical Dispensing Company, with a capital stock of $3000 ; The C. Rook Manufacturing Company of Penetang, with a capital stock of $25,000 ; The Ontario Basket Company of Walkerville, with a capital stock of $12,000 ; The Windsor Crimped Stay Company, with a capital stock of $10,000 ; The Hawksburg Milling Company, with a capital stock of $15,000 ; the corporation of Toronto Church School with a capital stock of $26,000.
Yesterday afternoon three boys broke the window of Alfred Fagin's store, 101 Queen-street east, and stole two revolvers and a shotgun. Later in the evening Detective John Caddy arrested Nicholas Hendry, Frank Wells and Edward Wells, the latter two being 8 and 10 years old. The Wells children were arrested in bed in their father's house, 182 Adelaide-street west, and were found sleeping peacefully in their little cots each with a revolver below his pillow.
The police were notified last evening that four boys had broken out of the Mohawk Institute, on the Indian reserve at Brantford during the day. One is a fullblooded Indian, Peter Hemhawk, and other three, Lewis Lane, Thomas Shaw and John Ross, are halfbreeds.
WOODSTOCK NEWS.
Many Persons Poisoned by Eating an Unwholesome Cheese.
WOODSTOCK, May 3.—A remarkable case of poisoning has just come to light in town. Two of the children of Samuel Creighton were taken ill with every symptom of poisoning. After a severe struggle the little ones were brought around. On the same night the children of George Clark and those of Mr. Barton were taken ill in exactly the same way. On examination it was found that all the parties named had purchased cheese at the same store. The cheese is being analyzed.
About 180 have professed conversion at the revival services being held here by Crossley and Hunter.
Both sides are conducting the Scott Act contest on the still hunt principle.
Deputy-Sheriff John Perry and Constable Martin left to-day for the penitentiary in charge of Aaron M. Faunsworth, the young fellow sentenced at the assizes to three years for committing an unmentionable crime.
Samuel Derry was charged yesterday with having robbed Amos Adams of a sum of money and also with having stolen a rubber coat from J. R. Oliver. The case was adjourned.
Attempted Highway Robbery.
BRIGHT, May 3.—At 5 o'clock to-day as Mr. E. Michener, Bible agent, of Berlin, 20 years of age, was driving on the town line between Brantford and Bright a person stepped him and asked for a ride. After riding for two miles the stranger asked him if he could change a $5 bill. Michener told him that he had only a $5 bill and some small change. The stranger then asked if he would sell his horse. Michener said he would take $80 for it. Upon reaching Burk's swamp, a mile from this village, the man said he would take the horse without pay, as the same time holding a pistol at Michener's breast. Michener clutched the pistol, when it went off, the ball going into his hand. He pulled out the ball with his knife, and got Dr. Lake to dress the wound. The scoundrel jumped from the conveyance and made for the swamp. He is a man of 35 years, of slender build, 5 feet 9 inches in height, red mustache, wears a grey sack coat and black pantaloons with a light stripe in them.
After the Salt Vendors.
KINGSTON, May 3.—W. Johnson has returned from looking up and prosecuting salt dealers for infringement of the law. The salt seized was between 2000 and 4000 lbs., and varied from 16 to 60 pounds short on the barrel. The salt was the product of four manufacturers, three of whom have been prosecuted and fined $10 and costs. The other case is pending. In each case there were from five to thirteen charges, but all the charges except one was withdrawn upon their promising to repack the salt which they had sent out and upon promising to keep within the law hereafter.
Change in Telegraph Rates.
NEW YORK, May 3.—By orders issued by the Western Union and Postal Telegraph Companies a large number of long distance rates have been reduced, while for short distances the rates have been advanced slightly. All the Mutual Union offices are by the new orders closed or turned into Western Union offices.
THE MISSING JEWELRY.
P. W. Ellis & Co. Unable to Find Part of the Valuables Lost by Von Reinsdet.
MONTREAL, May 3.—M. C. Ellis of P. W. Ellis & Co. of Toronto is in town to-day for the purpose of recovering the jewelry lost by Von Reinsdet. For that purpose it is understood a conference took place between him and the accused, Maloney and Phillips. One-third of the total amount lost is in the hands of the High Constable and can probably be recovered by a seizure before judgment. Two-thirds, however, are still missing and the hunt on the part of the police is being pushed with the prospect that they know where it was and could lay their hands on it wherever they chose, have not been substantiated. A civil action will probably be taken for their recovery.
A Murderous Blow.
MONTREAL, May 3.—A murderous attack occurred in the basement of the new Imperial Insurance building opposite the Place d'Armes this afternoon. A Scotchman named James McIntyre, a fitter by trade, was engaged at his work, when, according to McIntyre's friends, a carpenter named F. Lebbee without any provocation came up, raised a heavy piece and struck McIntyre a murderous blow across the temple. The Scotchman fell as if dead and was carried upstairs.
Queen's Birthday.
WINNIPEG, May 3.—Preparations are being made for the celebration of Queen's Birthday. The Governor-General's Body Guard will parade on the occasion. Most of the city offices are to be closed. The closing of the offices are hours from 9 a.m. until midnight. When the mail is ready for delivery there is usually a line of men half a mile long waiting for it. About 3000 letters and 1000 newspapers are delivered from that office daily. There are five hundred [illegible]

PRICES AND PROSPECTS.
BRADSTREET'S REPORT OF THE STATE OF TRADE.
The Volume of Business Checked in the United States by Cold Weather and the Centennial Celebration.
NEW YORK, May 4.—Special telegrams to Bradstreet's indicate that the volume of general trade has been checked at nearly every city of special importance during the week. At the larger and centres the New York centennial celebration was largely responsible. At Kansas City, St. Joseph and New Orleans report has activity in demand and prices, but for both commercials quiet and dull. Savannah, St. Paul and Chicago have enjoyed a moderate activity. Cold weather has checked demand in Pittsburg and tributary to Cleveland, Louisville and St. Louis.
Another vessel has been chartered to load wheat for Australia at San Francisco. Offers at western markets are 2s to 2s 1½d with few offerings. The breadstuffs markets all have shown a downward again. Flour prices are off 5 to 15 with wheat. After Friday's rally wheat is 1-8c lower on the week with a bearish west in spite of stronger cables and reserved exports. Freer shipments and offerings of corn depressed prices 1-4c and similar influences put oats down 1-4 not on the week. Reports of stocks of wheat at nearly 1000 points of accumulation east of the Rocky Mountains show 84,000,000 bushels so held last Saturday, a decrease of 5,283,000 bush. during April and 14,000,000 bush. less than were held a year ago. Indian corn stocks are 15,065,112 bushels or 35 per cent. less than April 1. Stocks of wheat flour are 90,000 barrels larger in excess of stocks held May 1, 1888. Hog products excepting lard, which is heavy, are generally active and firmer. Exports of flour and wheat this week are equal to only 992,000 bushels of wheat against 1,504,000 bushels last week and 1,533,000 bushels in the like week last year.
New York trade has been greatly curtailed. Exceptions are shown in the stronger local demand for country produce and fruits. Groceries, naval stores, building materials, dry goods, furniture, boots and shoes and rubber goods are quiet. Wool, paper, glassware and china, machinery and leather are dull. Paints and oils continue in good demand. Crude rubber and building materials are strong and tend upward.
A bullish temper animates the New York stock market, based on good crop prospects and favorable net earnings reports for March by Western railroads. Bonds are strong on active investment demand. Money at New York is easy, call loans 2½ per cent.; foreign exchange is dull and strong. On Friday $2,750,000 gold was engaged for export. Demand sterling $4.89 to $4.89½.
There were 61 strikes, involving 12,193 strikers, reported to Bradstreet's during April, against 123 strikes, with 26,007 strikers, in April, 1888. Since Jan. 1, 1889, there have been reported 221 strikes and 48,294 strikers against 313 strikes and 97,960 strikers in the four months of 1888 and 363 strikes and 180,036 strikers in 1887.
Several orders for steel rails have been placed for $26 at the mill, a cut of $1 in price causing surprise in the trade. There is no improvement in pig iron. Unfavorable weather and holidays have curtailed dry goods sales at New York and Boston but the latter part of the week has witnessed a good trade in job offerings at New York. Commission men report no change. April trade at Boston was of satisfactory volume, prices are unchanged except for print cloths which are 1-16 cent higher on steady demand and increasing cost of cotton which in town is ¼ higher on light crop movement, good demand and increasing speculative interest. Raw wool is quiet and unchanged, the new clip is reported to be of good quality. Raw sugar advanced ⅛c. at New York although extreme dulness characterized the market owing to the interruption to business the first half of the week. The movement of refined was very quiet and prices left off as one week ago. The price of coffee in speculative circles advanced ¼ to ⅜c. The Week's Failures.
NEW YORK, May 3.—Business failures reported to Bradstreet's number 151 in the United States this week against 161 last week and 156 this week last year. Canada had 20 this week against 25 last week. The total failures in the United States from Jan. 1 to date is 4396 against 3892 in 1888.
A TORONTO FIRM'S LOSS.
W. D. Matthews & Co.'s Malt House at Leroy, N.Y., Burnt—Loss $200,000.
LEROY, N.Y., May 3.—At 7.45 to-night flames were seen issuing from the cupola of W. D. Matthews & Co.'s large malt house situated in Church-street. The alarm was sounded by the company's whistles and in a short time two heavy streams were in operation. After some time the fire was subdued but an immense quantity of malt by which the building was filled was thoroughly soaked and spoiled. The damage to the building and contents will, it is believed, amount to about $200,000, which is covered by insurance. This malting establishment is one of the largest in the country. The company also own malt houses at Toronto and Palmerston, Ont.

The Corner Lots Affair.

The Matter of the Post Office and Customs Site Discussed in Parliament.

We have not before had space to re-publish from Hansard the debate in supply on the item, "Peterborough Customs House, $10,000." The discussion is somewhat lengthy, but we shall continue it in the form of a "thrilling serial story" till it is completed.

Peterborough Customs House.....$10,000

Mr. LANDERKIN.—There ought to be some explanation given of this item. If I am rightly informed this vote has a history. I would like to know upon which lot this custom house is to be built.

Sir RICHARD CARTWRIGHT.—The other lot.

Mr. LANDERKIN.—They bought two lots for a custom house and a post office. They bought one lot originally for the custom house and post office; they did not put the post office on that lot, and they do not put up the custom house at all. Now they are going to put up a custom house, and where is it going to be built?

Sir HECTOR LANGEVIN.—The post office has been built on a lot on Hunter street, a street that leads to the village of Ashburnham. We thought that the post office would be better there, because it would serve both the town and the village. The other lot, as the hon. gentleman calls it, is near the city hall, or market place. That lot is destined for a custom house and an inland revenue office. We think it is a proper place, being in the business part of the town, upon which the custom house and inland revenue office, and other minor offices we may have in Peterborough may be located.

Mr. LANDERKIN.—Which one was purchased first?

Sir HECTOR LANGEVIN.—I think it is this lot.

Mr. BARRON.—I wish the hon. gentleman would have the same difficulty in satisfying his friends about this transaction as he had in satisfying the gentlemen who came from the town of Peterborough, insisting upon their particular lots being purchased. The hon. member for West Peterborough (Mr. Stevenson), above all others, should condemn this transaction. The House should know that as soon as it was known that the Government were going to build a post office in the town of Peterborough syndicates were formed composed entirely of supporters of the Government. Each syndicate determined that the Government should buy their respective lots and not buy the lots of their opponents. The members of the syndicate or their friends instead that their respective lots should be purchased. The Government found such difficulty in satisfying their friends that they bought both lots, and now they make the excuse that it was necessary to have both a post office and a custom house. The House well knows that there is not in Ontario a town the size of Peterborough where the post offices and custom houses are not combined in one building. In Lindsay, a town not quite as large but rapidly growing, and it will exceed Peterborough in a very short time, the post office and custom house are in one building. The same is the case at Port Hope, I now ask the member for West Peterborough (Mr. Stevenson), whether this is not the case?

Mr. STEVENSON.—I tell you it is not so.

Mr. BARRON.—I challenge the hon. gentleman to deny the fact that there were syndicates formed. Does not the hon. gentleman know that?

Mr. STEVENSON.—It is not true.

Mr. BARRON.—Also that these syndicates owned two lots, and that each insisted on the Government buying their lot, and that the Government found themselves in such a difficulty that they had to buy both lots and have now been obliged to go to the expense of putting up an enormous custom house, two [illegible] which a vote is asked of $10,000, as well as a post office. The member for West Peterborough (Mr. Stevenson) knows what I say is true.

Mr. STEVENSON.—It is all humbug.

Mr. BARRON.—Be candid, and you will say, speaking from the heart, that every word is true. The hon. gentleman knows the members of the syndicates as well as I do, and he knows that, in order to get over the difficulty with respect to rival claims, the Government bought both lots and are putting up two large and extravagant buildings, when one lot and one building would suffice; and all this is done for the purpose of satisfying their own supporters. The Government had not the courage to say to one of the syndicates that they would not buy their lot, but they purchased both lots and have now entered upon an enormous expenditure to put up two buildings. I ask the hon. member for West Peterborough to rise and say if what I state is not correct, that two syndicates were formed and two lots bought owing to the demands of the syndicates.

Mr. STEVENSON.—The hon. gentleman expects this House to take everything he has said for granted, as he did the other night in regard to the timber question. There is not the shadow of truth in a great deal of what he has said. There never was a syndicate formed to my knowledge, and I trust there never was. Four persons, two years before there ever was talk of a post office, bought the lot from Robert Nichols, and with that lot I have nothing to do, and I never was a party to the transaction and never had any interest in it.

Mr. BARRON.—I never said you had.

Mr. STEVENSON.—You said I was a party to it or had an interest in it. The other lot was sold by individuals; I never owned any part of it. I say more, that the Government bought the property at a very low price. Where they bought there was not room for a custom house, but it was convenient for a post office to supply two places, the town and a village with over 2,000 inhabitants. The sum of $60 per foot was paid for it, and to-day it is worth $120 or $140 a foot, or more than double. It is true we did not get a very good post office but only a cheap one, because we are to have a custom house as well. We are not getting as much spent on it in Peterborough as was spent in Lindsay, although that town is only half the size of Peterborough—it is not half the size, what is more it is not like to become more. I distinctly contradict the statement that there have been syndicates formed to sell to the Government one inch of the land in Peterborough, nor have there been syndicates formed, and I am well aware of the facts with respect to the whole transaction. But more than four years ago the land was bought by four individuals, whose names I could mention, some of whom were supporters of the Government and some were not. They bought it to make money out of it. I think they sold the whole of it; they sold part to the Government and part to other parties. They sold part to the Government at $100 a foot, and they received from Mr. Cox $125 a foot immediately afterwards. The revenue paid by the post office of the port of Peterborough amounts to $15,000 a year and that at the western limit to $30,000 a year, and the hon. gentleman knows that Lindsay does not compare with it. The hon. the [illegible] gentleman says about this matter the better, for we could tell something about him.

Some hon. MEMBERS.—Tell it.

Mr. STEVENSON.—I do not want to be personal, but I could tell some things. There was not a word of truth in his statement in so far as the syndicates are concerned. This much of it is utterly untrue, and I am sorry the hon. gentleman ever mentioned it. Private parties bought the post office ground and sold it, and they sold it for less than they could obtain for the adjoining property. The other lot was sold for $700 a foot and to-day it is worth at least $1200 a foot and it could not be bought at that figure. I am quite satisfied that it was long ago understood that we should have both a custom house and a post office, and the Government chose to erect two buildings [illegible] accordingly.

Mr. BARRON.—Out of the fulness of the heart the mouth speaketh, and I hope that my remarks will be pardoned when made by the hon. gentleman himself. He said that one lot was owned by four individuals, one of whom was Mr. Fenerelle.

Mr. STEVENSON.—It was bought three years before.

Mr. BARRON.—It was known that the Government contemplated building a post office. Then the hon. gentleman knows that there were four gentlemen who contemplated selling the lot to the Government.

Mr. STEVENSON.—They never had the least notice of it.

Mr. BARRON.—However, they bought it, and the hon. gentleman says for speculative purposes. I have not to be concerned as asserting that the hon. gentleman had any interest in selling those lots to the Government. I know very well that the hon. gentleman, who could afford to give all Peterborough just before the election, cord upon cord of wood to the people, would have no necessity to go into such a speculation. But the hon. gentleman has said the other lot was owned also by a gentleman who wanted to sell it to the Government. I think he has made out my case. Each of these wanted to get their lot to the Government, and between them they got wrangling over the matter and the hon. gentleman himself now has admitted out of the fulness of his heart [illegible] what I have said. I ask him if upon that lot for the post office there is not plenty of room for a custom house?

Mr. STEVENSON.—No.

Mr. BARRON.—I am bound to take the hon. gentleman's word, but I have seen the post office and the business is not sufficient to occupy the whole building.

Mr. STEVENSON.—Well, it is all occupied.

A Common-Sense Letter.

To THE EDITOR:—I see that newspaper articles are again making their appearance calling attention to matters pertaining to health as well as to the means whereby disease may be removed and good health preserved. I am thereby reminded that I have received from time to time, pamphlet publications issued by the well-known firm of H. H. Warner's & Co., which dwelt upon the history and growth of kidney diseases; showing how such is the cause of consumption, heart, brain and nervous disorders, which can only be successfully treated by removing the primary disease from the kidneys. At the same time care is taken to remind the reader that Warner's Safe Cure is the only means whereby the physician or the individual can successfully prevent and cure this class of disease.

While I have personal cause to feel grateful to Warner's Safe Cure, for the benefit which I derived from it when suffering from kidney trouble last spring, I cannot see, since that remedy is already so well known in every household, why the parties interested in its manufacture should continue to expend money in calling attention to what the public already knows so well. I am aware, Mr. Editor, that the members of the medical profession are seldom disposed to give due credit to proprietary medicines, but public confidence is likely to be even more shaken in those learned gentlemen since the startling discoveries in the Robinson poisoning cases were made in Somerville Mass.

Here it was discovered, through the efforts of an insurance company, that eight cases of death from arsenical poisoning had occurred—seven of them in one family, and within five years and the other that of a relative—where the true cause of death had not been even suspected by prominent physicians who were in attendance, but who treated the cases for other causes, and finally when death occurred, issued certificates for such causes as pneumonia, typhoid fever, meningitis, etc.

After such an evidence of the utter incompetency of these physicians who were regarded as experts in their profession, I cannot conceive why it will be longer necessary for further advertising to be done in behalf of Warner's Safe Cure, since I deem the Somerville disclosure to be the best possible endorsement of the good many manifested by those who take matters of health in their own hands and use a remedy which experience has shown to be fully adapted for the purpose intended, instead of trusting themselves in experimental hands.

EXPERIENCE.

A MARVELLOUS FIND.

The Peculiar Animal that Disturbed a Young Lady's Slumbers.

WALLACETOWN, May 4.—The Herald-Record says: A most important discovery was made one day this week at the residence of Peterson Thompson, on Wallace-street, South Wallacetown. Some nights ago Thompson's daughter complained that she felt surprised and was unable to go to sleep. She said she felt as though there was some sort of warm animal in her pillow. The girl's mother chided her for her seemingly foolish fancies, but the girl persisted that she could not feel anything moving in the pillow yet she was satisfied that there was something more lively than feathers in there. Finally, to convince her restless daughter of her mistake, Mrs. Thompson emptied the feathers out of the pillow, and to her great surprise found one of the greatest animal curiosities that has ever been seen in this section. A reporter of The Herald-Record visited the Thompson's home yesterday morning, asked to see the strange creature, for the second one had been found in another lot of feathers that had been emptied from ticks and pillows.

At the request of the scribe Mrs. Thompson brought forth the mysterious stranger, which were encased in a box of feathers. An exact description of the creatures it would be difficult for us to give our readers. In the first place there is no sign of life in either beyond the fact that both are sub-stances that give forth a considerable heat. The larger of the two is about the size of an ordinary chicken at two months old. The body as a little larger than an oyster and of a yellowish white color. No head or limbs can be found on it, and the body itself is a shapeless mass. From all parts of this peculiar creature's body hair about a foot long is growing. The hair is of a brownish reddish color and as stiff as a hog's bristles. Springing from the body the hair grows straight out about half an inch and then coils around the body in large curves. The strangest part of the matter is that from its body and entwined in these coils of long hair is growing as pretty a coat of feathers as ever a chicken boasted of. There is not the least doubt in the world that the feathers that the industrious creature uses as a coat to its tragically bare are those of a duck and had been put in the pillow last spring by Mrs. Thompson. The feathery covering is handsomely made. The grey, brown and white feathers are carefully assorted and resemble an ordinary fowl's back. The whole mass is probably about inches thick again inches in diameter and about twenty in circumference. Being for the most part feathers and hair the mass would not weigh perhaps more than three-fourths of a pound. It is really a very peculiar animal and is a source of much wonder to the [illegible] people who have during the past [illegible] days gone to see it.

Boy one Year and a Half old. Face and Body in a Terrible Condition, being covered with dreadful eruptions appearing like Boils. Cured by Cuticura Remedies.

I have used your CUTICURA REMEDIES in some cases of eczema of the face and head that were in the course of a boy a year and a half old. His face and body were in a terrible condition, the former being completely covered with [illegible] sores. Nothing that I could do, or any physician could prescribe, had the least improving effect, but did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his scalp and the CUTICURA SOAP in washing him. He is now five years of age and all right. The other case was a disease of the [illegible] was cured by washing with the CUTICURA SOAP and using in the CUTICURA SOAP and CUTICURA RESOLVENT freely. They have proved successful in every case where I have advised the use of them. It is surprising how readily a child will improve under their use. I recommend them for any disease of the skin as being the best in the world. This is my experience, and I am ready to stand by my statements. JOHN R. REED, American House, Hornellsville, N.Y.

GRAND OPENING

OF

GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Spring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a grievance we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

HAMILTON, May 3.—The best preserved of the seventeen bodies have been identified, or rather those that have the most clothing attached to them. There are two bodies, one man and a woman, which are comparatively well preserved, and unless the relatives turn up pretty speedily they will be too late, as the remains will soon begin to go the way of all flesh. So far no steps have been taken to have the bodies preserved for the purposes of identification, and they are just as they came out of the wreck.

To-day Mr. Jewell, 265 King-street west, Toronto, arrived to look for his son Thomas Jewell. Young Jewell was on his way back from California, where he spent the past few months, and was to have arrived here on the Sunday morning express. He telegraphed ahead on Saturday night that he had decided to stay over with an aunt in Detroit, and his friends in Toronto were congratulating themselves on his escape, but have since received word that he did not stay over as intended, and as he has not turned up they are convinced that he is dead.

Mr. Oviatt, Mr. Barnes and Mr. Deforest of New York examined the bodies in search of the remains of E. Randall Orr of Rochester, N.Y., and L. B. Oviatt, secretary of Judge Masterson, New York, and found two bodies which they think are the ones, but have wired for information to friends about some clothing found. Mr. Deforest thought he identified one body by the size and shape as that of Mr. Oviatt, with whom he was very well acquainted, having roomed with deceased in New York. Mr. Orr's body was identified by a coat tie and some underclothing.

Chief McKinnon has an inquiry from Mrs. Ida Myra, 1266 State-street, New York, about Harry Everest of Ferguson's show, who was on his way to Philadelphia. He left Chicago all right, and as he has not reported in Philadelphia yet and his papers were found in the wreck, it may be concluded that he is dead. The friends of Harry Pringle were also enquiring about him. His brother, A. Pringle, lives at 26 Bond-street, Toronto.

All the injured at the Hospital will recover.

LOUIS COMBREMANT'S FATE.

A New York Jewelry Traveler a Supposed Victim of the Horror.

TORONTO, May 4.—Probably the body of L. Combremant, New York agent of a Swiss watch firm, is among the charred remains of the victims of the horror at the Y. The workmen, in clearing away the wreck, came across a couple cases of watches. Up to date nobody has claimed it, and the local jewelers have now reason to believe that the owner perished in the accident, and that he was Louis Combremant. On April 25 P. W. Ellis & Co. and A. Kleiser both received cards from him with the information that he would be in town on the 27th. He did not come then nor has he come since. Jewelers who have seen the sample case pronounce the watches Swiss. Mr. Hutchison of P. W. Ellis & Co. has written to friends of the missing man in New York, to inform them of his fears. Combremant was well known and well liked by [illegible], making regular monthly visits to the city. So far as known he was a single man. His New York address was 2 John-street.

PAUNCEFOTE AND HARRISON.

The British Minister and the President Say Pretty Things to Each Other.

WASHINGTON, May 3.—Secretary Blaine appeared at the State Department this morning looking very well and showing no traces of his illness. Soon after his arrival, Sir Julian Pauncefote, the British Minister, came to the Department, accompanied by Mr. Edwards, Charge d'Affaires, and Secretary Herbert with several other attaches. The new minister was introduced to Secretary Blaine, who immediately proceeded with the party to the White House, where Sir Julian was formally presented to the President. Sir Julian said:

MR. PRESIDENT: Sir, I have the honor to place in your hands a letter from the Queen my august sovereign accrediting me as her Envoy Extraordinary and Minister Plenipotentiary to the United States. In fulfilling this pleasing duty I desire to express my sense of the distinguished character and special importance of the mission which Her Majesty has been graciously pleased to confide to me, and to assure you that no effort shall be wanting on my part worthily to discharge so great a trust. My utmost endeavors will be devoted to the object which Her Majesty and her people have most at heart: the maintenance of the relations of peace and friendship which happily subsist between Great Britain and the United States and the strengthening if possible of the bonds which unite these two great English-speaking countries destined to exercise a most beneficial influence for the advancement of civilization and the promotion of happiness throughout the world. I believe that the citizens of the United States reciprocate the feelings of amity and good will I have expressed and are animated by [illegible] sentiments toward Her Majesty and her people. I am also convinced that in my relations with the Government of the great country over which you preside I shall meet with that spirit of justice and consultation for which her statesmen are so eminently distinguished. Such qualities will ever be my earnest wish to emulate, and the circumstance that I enter upon my diplomatic functions at the time of the Washington centennial, when a special tribute is being offered in this country to the grandfather of her sons, will ever be associated in my memory with the distinguished honor I have had this day of being presented to the chief of the State. I beg, sir, in conclusion to offer you the assurance of my highest respect and esteem.

The President replied:

MR. MINISTER: The pleasure I have in receiving from your hands the letters whereby Her Britannic Majesty accredits you as her Envoy Extraordinary and Minister Plenipotentiary to the United States is enhanced by the earnest assurance of good will with which you have accompanied their delivery. It is gratifying that Her Majesty's choice of a representative charged with the expression of sincere amity between the two nations has fallen upon one whose official station for many years past has fostered his acquaintance with the relations between the United States and the British Empire. I am happy to assure you in return of no less zealous efforts on my part and on the part of those who are associated with me in the Government to perpetuate the relations of peace and friendship between the United States and Great Britain. It is especially pleasing to me, at the opening of the representative of the British people, to express the cordial reciprocation of the sentiments of courtesy and friendly observer of our national commemoration of the inauguration of the first President of the Republic. To yourself personally, Mr. Minister, I am glad to offer the greeting due to your distinguished reputation and eminent qualities.

A Subterranean Waterway.

HARTFORD CITY, Ind., May 4.—A remarkable subterranean waterway was discovered yesterday at the Salamonie stone quarries twelve miles north of here. By a system of dykes the course of the Salamonie River has been changed and the quarries underlie the old bed of the stream about 40 feet below it. Yesterday the foreman discovered a stream of water 12 feet wide and six deep, the swift current of which was at right angles to the course of the river. The next layer of rock will completely uncover the subterranean watercourse. The quarry in several places shows the effects of violent volcanic action and from the formations in the vicinity there is thought to be a cave of which the stream is the outlet. Five miles west there is a lake of great depth which it is thought gets its supply by subterranean inlets.

They Report the Cash Short.

GUELPH, May 3.—W. S. Andrews, auditor for Mr. Lyon who examined the books of The Worm Fence Publishing Company from November, 1887, to March, 1889, in connection with the [illegible] assignment by Wm. H. Harvey, who now lies in jail awaiting trial for the murder of his wife and two daughters, reports a deficit in the cash of $734.28. The books of The Oceanic Publishing Company appear to have been correctly kept. Messrs. Ganeby of Guelph also examined the books and make the same report.

Peculiar Methods.

The aphorism that "all is fair in war," seems to be the guiding star of those whose aim it is to attract the reader's attention in the latter-day newspapers.

Formerly, the casual mention of the merits of an article was all that was necessary to attract attention; but when the advertising columns of the papers became crowded, the reader of the newspaper soon realized that too much time would be consumed in reading all of them, and, as a result, these columns were oftentimes skipped altogether.

It was then that advertising developed into a science—for the preparation of advertising matter which will attract public attention is a task which, nowadays, requires a degree of tact and skill which not everyone possesses. The modern advertiser, aware of the public disposition to hurriedly pass over the ordinary advertisements, has called to his assistance all conceivable ingenious devices of the printer's art which will tend to render his advertisement attractive to the reader.

Peculiar methods are often employed—as is usual in the case of the extensive advertising which is done in behalf of Warner's Safe Cure, the noted discovery for all diseases of the kidneys and disorders arising therefrom.

What appears to the reader as current news is discovered upon perusal to be an interesting article which impresses the fact that kidney disease is the original cause of most lung, brain, heart and nervous disorders and that these disorders are not diseases itself, but only symptoms of a disease which can be successfully treated by the use of Warner's Safe Cure, which will remove the primary cause and thereby restore other affected organs to a vigorous and healthy state.

In this instance, the advertiser succeeds in attracting the reader's attention and not only in the name of the advertised article impressed upon the mind, but also the purpose for which its use is adapted.

COLD IN HEAD CATARRH THE 4 STAGES CONSUMPTION DEATH

There is positive danger to health and life in neglecting a case of Cold in the Head or Catarrh, and at this season with its changeable weather, unusual moisture and sudden changes from heat to cold, there is peculiar liability to cold in the head. An neglected case of Cold in the Head rapidly develops into Catarrh, as neglected Catarrh just as certainly develops into Consumption and leads to premature death. Medical testimony proves conclusively that a large percentage of all the deaths occurring from Consumption has their origin in a neglected cold, which by gradual stages, developed into Catarrh, and then into Consumption, that dread disease with which medical science is as yet unable to cope successfully. If you are suffering from Cold in the Head or any of the numerous symptoms of Catarrh, such as bad breath, dull oppressive headaches, droppings from the head into the throat, hawking and spitting, copious discharges from the nostrils, loss of sense of smell, or taste becoming dull hacking cough, or a general feeling of debility, husky voice, a wheezing or creaking sound in your chest when breathing, a feeling of dizziness particularly when stooping, a feeling of tiredness and indisposition to exertion, a feeling of nausea in the morning when attempting to dislodge accumulations in the throat. Do not neglect these symptoms. There are but a few of the many symptoms of Catarrh, and if you experience any, BE WARNED IN TIME. Do not permit them to run under the mistaken impression that the disease will eventually wear away. It will not, but on the contrary will wear you away as it has thousands before. Procure at once a bottle of NASAL BALM, the only certain and speedy cure ever offered the public for Cold in the Head and Catarrh. This is no idle assertion, but an unquestioned fact, which is verified by the thousands of testimonials in our possession telling of marvellous cures. These testimonials we have received from all parts of the Dominion and we append a few, selected at random, as fair samples of the whole:

Mr. Alex. Burns, of Sudbury, Ont., says: Gents I may state that I have been afflicted with catarrh for 7 or 8 years, and it was attended by consequent symptoms, such as foul breath, constant dropping into the throat, hawking and spitting, partial deafness, ringing in the ears, and sickening pain in the head directly over either eye. I have used powders and douches, but all to no effect, the only result arising from the use of such was temporary relief, followed by the usual symptoms in a more aggravated form. The results arising from the use of Nasal Balm are sweet breath, stoppage of the droppings into the throat (consequently less hawking and spitting), cessation of hearing and not once since I began its use have I had pain in the head—in fact it is my opinion that a careful and persistent use of the "Balm" will effect a cure in the worst case of catarrh.

Mr. John H. Adams, merchant, Brantford, Ont., says: I have used NASAL BALM for catarrh, and found it to be a CERTAIN CURE.

W. A. Doyle, Beulah, Man., writes:—As a family medicine to check Catarrhal affections, or cold in the head, NASAL BALM HAS NO EQUAL. We prize it highly.

Henriette Blackwell, Parker, Ont., says:—Your NASAL BALM is the BEST REMEDY I have yet used for catarrh. I can breathe more freely than before and my breath has regained its sweetness. I consider NASAL BALM a boon to the suffering.

W. Chas. Hanley, Postmaster, Grey Bay, N. S., says:—I am glad the following is to the public that any one who may be afflicted may be benefitted by the same remedy. Two bottles of your NASAL BALM has RESTORED to PERFECT HEALTH a three year old child of ours, suffering from Catarrh.

Alpha H. Dales, Tarbert, Ont., writes:—Your NASAL BALM has made a new man of me. I have never used a remedy so satisfactory.

Miss Maggie M. Martin, Tecumseth, Pa., says:—Through a friend in Canada I became acquainted with your NASAL BALM. I have suffered for years with catarrh and it is the first remedy from which I have experienced relief, and I feel certain that it will cure me.

Miss Minnie McNairn, Mills Roches, Ont., says:—Your bottle of NASAL BALM did me much good. The pain in my head disappeared before I had used the bottle, and I find myself receiving the greatest benefit. I am certain NASAL BALM will cure any case of Catarrh if its use is preserved in.

James H. MacLeod, Mink River Road, N.S., says:—I have tried different remedies for Catarrh, but received little or no good from them. Your NASAL BALM is certainly the BEST REMEDY I have ever tried, and all you claim for it. The fact that it is pleasant and convenient to use adds greatly to its value, but its chief merit lies in being a CERTAIN CURE for that unpleasant disease—Catarrh.

Mr. Solloway, Toronto, says:—For a number of years my wife has been badly troubled with Catarrh. Dr. —— here promised to cure her, but after using his remedy for six months it became worse and worse, and we gave it up, and I found that I had spent $20 for medical treatment that did no good. My wife then began to use your NASAL BALM and has improved wonderfully, and she is better and stronger than for 3 years. Your remedy is the best in the market and you can use this testimony.

Emilie Pelletier, Cornwallis, says:—I can scarcely find words to tell you how highly I prize NASAL BALM. Its effects in my case have been wonderful.

A CAUTION:—Beware of imitations. If your dealer has not NASAL BALM in stock do not let him persuade you to take any other remedy which he may say is just as good, but send direct to the undersigned and it will be sent you post paid on receipt of price—50 cents and $1 a bottle. dw FULFORD & CO., Brockville, Ont.

A GOOD MISFORTUNE.

To Mr. J. J. Turner, Sail, Tent and Awning Maker :

DEAR SIR.—The sheeting awnings you put up for me on the front of my hotel this spring are very satisfactory in every respect. The material is good and the workmanship first-class, and if the pleasure is mutual in having you to anybody wanting anything in your line.

I remain, yours truly,

"The disease proceeds silently until apparent health." That is what Wm. Roberts, M. D., Physician to the Manchester Infirmary and Lincoln Hospital, Professor of Medicine in Owen's College, says in regard to Bright's Disease. Is it necessary to give any further warning? If not, use Warner's Safe Cure before your kidneys entirely become beyond the reach of medicine.

R. R. Porter Assigns.

Decision was given this morning in the case of Hall vs. Fortye, in which the plaintiff sought to supersede R. H. Fortye as assignee of the estate of Porter Bros., dismissing the action with costs. The case was tried at the recent assizes and judgment reserved.

Afternoon Services.

The two weekly afternoon services were begun at the Salvation Army barracks last night by Col. and Mrs. Gowdie. There was a large attendance. The services for to-morrow are particularly suitable for the church non-communicants. The local corps is expecting to receive much spiritual benefit from the ministrations of Col. Dowdle and his wife, who conduct their services on the ordinary revival plan.

Obituary.

The body of the late Mrs. Scalter was brought to town on the C.P.R. train to-day. There were a large number of friends and relatives of the deceased at the station to meet the corpse. Service was held in the waiting-room by Rev. E. F. Torrance, after which the remains were interred in the Little Lake Cemetery.

Drowned in Long Lake.

Last Sunday a young man named Fred Brissett, working for Mr. J. M. Irwin on T. A. Dunglas's drive, was drowned in Long Lake. He and a companion were visiting a neighboring camp and attempted to swim to their own camp on a log. Brissett was drowned, but just how cannot be said. Deceased lived near Apsley, and his body was sent home.

A Decided Success.

At sharp 11 o'clock the doors of the store of Wyatt & Turner were opened and a grand rush was made for the bargains in pants. The firm had announced that they would sell any pair of pants in stock at $1.99, consequently the rush. The sale will continue to-night. Any pair of pants in the store will be sold for $1.99 between the hours of 6 and 9.

A Renowned Footballist.

The *Scottish Referee*, a sporting journal, published at Glasgow, in its last issue prints brief sketches of the members of the London Caledonian Football Club. It says :—"W. Stirling (goal) is one of the secretaries of the club, and, with the exception of W.R. Moon (Corinthians), is without a rival in the south of England as a goalkeeper. He was for many years a member of the Glasgow Rangers, and is well known in the 'Second City' as a sprinter, where he ran under the colours of the Clydesdale Harriers." The Mr. Stirling referred to is a brother of Mr. John Stirling, the capable secretary of the Peterborough Cricket Club.

C. P. R. Notes.

This evening Mr. James Ellis and wife leave for the Western States, where they will in future reside. Mr. Ellis was the competent day operator at the C. P. R. station. Both he and Mrs. Ellis will be followed by the best wishes of many friends.

No. 456, one of the new fast engines of the C.P.R., drew the 11.40 train to-day. The new engines are of enormous size, much larger than the ordinary ones, and supplied with three large drive wheels on each side, while the cab has a round top. The engine to-day was surrounded by a crowd of curious spectators, who examined it pretty thoroughly.

Masonic Notes.

There was a large assembly of the fraternity in the Masonic hall last night at the regular monthly meeting of Peterborough lodge, No. 155, A.F. and A.M. Conspicuous among the representatives of King Hiram was a number of visiting brethren from Brockville, Millbrook and other places, all of whom during the evening took occasion to express their pleasure at the opportunity they had of sitting down among the skilled craftsmen of Peterborough and of witnessing their impressive elaboration of the work in the ceremonies of the 3°. During the evening it was announced that Thursday, June 6th, had been secured from the Grand Trunk Railway Company as the day for the Masonic excursion to Toronto, further particulars to be made public after the meeting of the joint committees, to be held on Monday evening next, 6th instant. At the close of the lodge the brethren adjourned to the refreshment room, where they spent a short time in a pleasant way.

The Paper of the Season. "Canvas" Note Paper and Envelopes, "Brown Holland," Calico Grey and Cream Note Paper and Envelopes.

The Peterborough Bookstore has received direct from England a large import order of the above splendid lines.

Read what the highest authorities say of these papers :—

The *Court Journal* says :—"The Canvas Note Paper is most elegant."

The *Queen* says :—"The Papers may be recommended by us with perfect safety, as not only new in style but nice to write upon. As regards appearance, they are very neat, and leave nothing to be desired."

The *Lady's Pictorial* says :—"It is a real pleasure to be able to recommend to the notice of our readers anything so artistic in appearance, and so pleasant to the eye and to the pen, as the New Canvas and Brown Holland Note Paper."

Life says :—"The imitation of the Cloth materials has been capitally carried out, and the paper has not only a genteel appearance but is well suited for being written on, and should become popular."

The *Whitehall Review* says :—"A novelty in writing paper " " very pleasant to write upon."

The *York Herald* says :—"A better kind of paper for letters we have seldom met with, and we expect there will be quite a run on Brown Holland and Canvas. It is about time some taking Novelties were introduced and the manufacturers are to be complimented on their enterprise."

That Potential Lemon.

Messrs. Elliott & Tierney, of the Palace Grocery, do not believe in putting their light under a bushel, but they set it up on a post and fill it with electricity, and it gives light to the cooker after first class groceries, a beacon light to the housekeeper. Reference is made to a beautiful, lofty, large, octagonal lamp, of coloured glass, lighted with electric light, placed in front of the Palace Grocery. This is in keeping with the improvements that are being made in their premises this spring. At the right of the entrance a door has been substituted for a side plate of glass, and this forms the only access to their wine and liquor department. At the rear of the shop in the office. In the rear wall of this has been placed a window looking upon a trim tidy lawn nicely cobbled, about ten yards square. In front of this window grows an evergreen shrub and along one side a flower border is planted fitted with various flowers; and although plants almost hide the brick wall that forms one side of the border. Here are walks which lead to the splendid 20 x 40 refrigerator 12x12 feet square and 12 feet high. It was constructed on the most approved principles by Mr. Wm. Fitzgerald. It will hold ten tons of ice, and will hold and keep fresh an immense stock of beer or liquor, of which the firm will receive (from Milwaukee and O'Keefe Toronto), about two or three carloads per week. In the rear of the lawn referred to, in the boarded storeroom, the only one possessed by a grocery business in Peterborough. The colleague of the establishment as well as all departments of their premises is extensive and equipped in first-class manner for the facilitating of the large business of the firm.

A Field Night For Foresters.

Addresses and Presentations to Bro. J. D. Brooks, P.V.C.R.—Installation of Officers—Brooks Unfortunately Recognizes the Blarney.

Last night was a veritable field night of the rooms of Court Peterborough, No. 29, C. O. F. It was the regular night of meeting and the the installation of officers for the current term, was performed by Bro. H. W. Watson, D. D. H. C. R., and Bro. R. Robertson, Acting-High Marshall, assisted by Past Chief Rangers, F. J. Jamieson and R. McWhinnie respectively acting H.V.C.R., and H.Sec. Below is a list of the officers installed :—

Bro. Alex. Rutherford	J.P.C.R.
" A. D. Rennet	Chief Ranger
" John Carpenter	V.C.R.
" Chas. Curtis	R. Sec'y
" H. Hankin	F. Sec'y
" J. R. Mastoral	Treas.
" E. Rutter	Chaplain
" George Carpenter	S. Woodward
" Wm. Harrison	J. Woodward
" John Agnew	S. Beadle
" D. Hillier	J. Beadle

Bros. R. McWhinnie, F. J. Jamieson and Alex. Rutherford, Delegates to High Court.

At the close of the regular business of the Court the Foresters present, to the number of about one hundred, were entertained at luncheon by the newly installed officers. This handsome acknowledgement of the honours of office-holding was followed by an even more interesting ceremony. This was the presentation to Bro. J. D. Brook, P.V.C. R., of a

COMPLIMENTARY ADDRESS,

on the occasion of his leaving town for Hespeler, and handsome presents. Bro. F. J. Jamieson, P.C.R., read the following

ADDRESS

Mr. J. D. Brooks, Past Vice Chief Ranger, Court Peterborough 29, Canadian Order of Foresters :

DEAR BROTHER.—Knowing of your intended departure from town to take residence in Hespeler, your brethren desire to take this opportunity of bidding you a formal good-bye and of placing on record an expression of the high estimation to which you are held as a brother Forester. All of us—those who were members at the time you associated yourselves with us, or who have become members since your connection with this court can bear testimony to the exemplary discharge by you of the duties incumbent upon the typical Forester. You have always been active in the promotion of the interests of this Court. You have always borne your full share of work in all your different relations with the Court, and have been to us all an example of what a true Forester should be. The majority of us have known you from your boyhood and can appreciate the many virtues you possess and practice in the walks of private life, and can bear unqualified testimony to the qualities which make you worthy of respect in the several capacities of a devoted son, a faithful Forester and honourable citizen. In earnest of our appreciation, and as a memento of the many warm friends you leave behind you, we ask you to accept these accompanying presents. Wishing you every success and happiness in your new home, we give you a cordial farewell.

ALEX RUTHERFORD, J.P.C.R.
F. J. JAMIESON, P.C.R.

The gifts which were presented by Bro. Alex. Rutherford, P.C.R., consisted of an elegant old rose plush photographic album, a gentleman's companion, complete, and a writing desk.

Mr. Brook was thoroughly surprised and deeply touched by the evidence of the good will of his brethren, and expressed his thanks in brief but touching terms. Mr. Brook leaves town this evening for Hespeler, which town will gain in him what Peterborough parts with—a good citizen in every respect. He has been eight years foreman of the furnishing department of Brodie's woollen mill, a position he retains at Hespeler.

The District Convention.

Lacrosse Delegates Adopt a Schedule of Championship Games for the Summer.

The convention of Eastern District delegates, C. L. A. series, at the Phelan House yesterday afternoon resulted in the adoption of a schedule of games to decide the championship of the district. Mr. C. J. Phelan, secretary, presided, and there were present : Dr. Brennan, Peterborough ; J. Harper, Norwood ; P. McMillan, Beaverton. Mr. Orr, of Madoc, telegraphed that he missed the train at Belleville.

Among the resolutions passed was one adopting the seven system of games, and another that home clubs take all the gate receipts, visiting clubs to pay all their own expenses. A rider was also added to the clause in the rules governing lacrosse, providing that in case any club defaults a game it shall pay all the legitimate expenses of the opposing team, which also is awarded the game. The "legitimate expenses" referred to were fixed at $10, in order to avoid the possibility of over-charging.

THE SCHEDULE.

The following schedule of games was adopted :—

May 24—Madoc vs. Norwood, at Norwood.
June 5—Norwood vs. Peterborough, at Peterborough.
June 7—Madoc vs. Beaverton, at Beaverton.
July 1—Beaverton vs. Peterborough, at Peterborough.
July 1—Norwood vs. Madoc, at Madoc.
July 12—Beaverton vs. Norwood, at Norwood.
July 16—Peterborough vs. Madoc, at Madoc.
July 26—Norwood vs. Beaverton, at Beaverton.
August 8—Peterborough vs. Beaverton, at Beaverton.
August 20—Madoc vs. Peterborough, at Peterborough.
Sept. 5—Peterborough vs. Norwood, at Norwood.
Sept. 5—Beaverton vs. Madoc, at Madoc.

The official referees are as following :—Peterborough, J. J. Sheehy and R. H. Fortye ; Norwood, W. H. Mallins and Dr. Pettigrew ; Beaverton, Frank Madill, M.P., and D. McNab. On account of the absence of the Madoc delegate, no referees could be appointed for Madoc.

Each of the opposing teams in this district are supposed to have different uniforms, so that there will be no danger of mistakes in a match. The Riversides' uniform is blue throughout.

The Riversides will likely arrange a match for the 24th of May with some club outside the district. There is great enthusiasm manifested over lacrosse here this year, and with such a compact league and a team that will no doubt be able to retain the championship banner, the prospects are for a most successful season.

Personal.

Dr. Yelland, who has been confined to his house by illness the past week, has recovered and able to again attend to his patients.

T. GRAINGER STEWART, M.D., F. R. S. E., Ordinary Physician to H. M. the Queen in Scotland, Professor of Practice of Physic in the University of Edinburgh, writes :—"Hypertrophy of the heart is almost always present in cases of advanced chronic disease, and also in the advanced stages of the inflammatory affection. One may trace in patients the gradual development of this hypertrophy advancing *pari passu* (together) with the progress of the renal (kidney) affection." In a large number of these cases the kidney disease is entirely overlooked and the trouble ascribed to heart disease as a cause, when in reality the kidney disease is the cause and the heart trouble the effect. This error is made easy on account of the kidney disease having no local manifestations in the majority of cases. The kidney disease can be cured by the timely use of Warner's Safe Cure and the consequences avoided.

Requiem High Mass.

There was a large congregation at St. Peter's Cathedral this morning, when Requiem High Mass was celebrated for the repose of the soul of the late Bishop Jamot, the occasion being the third anniversary of his lamented death. His Lordship Bishop O'Connor pontificated and Rev. Father O'Connel was deacon, Rev. Father Casey, Campbellford, sub-deacon; and Rev. Father Cotey, master of ceremonies. The full choir was present, under Mons. Laliberte, and sang a requiem mass harmonized by Boscher, Montreal, with excellent effect.

What the People Say.

That the Palace Grocery is the LEADING house, carries the *largest* stock, finest assortment of groceries and gives better value than any grocery house in Peterborough. Elliott & Tierney's celebrated blend of *pure* coffee (fresh ground by Tuerk's water motor) is delicious, try it.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

It is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

Police Court.

SATURDAY, May 4th.

The assault case of Lynch vs. Drake was dismissed, with costs to the plaintiff, who did not appear.

Mrs. James Farley accused Wm. Pothish, of South Monaghan, of having cheated her out of the price of a bag of potatoes, which she said she bought on the 13th of April but never received. James Farley, her husband, was brought as a witness to identify the man whom he paid for the potatoes, but as he could not see anyone in court whom he recognized as such the case was dismissed.

ROYAL BAKING POWDER

Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in Cans.* ROYAL BAKING POWDER, No 106 Wall street, N. Y. lydtfw

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to shew the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price ; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.25 —mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 35c, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"As Others See Us."

"Oh that some power the gift would gie us,
To see ourselves as others see us."
Thus sighed old Scotia's Bard in vain,
For what he could not there attain.
But had he lived in this fair town
He had no cause to sigh or frown,
For if he walked on Hunter street,
An eager throng he'd surely meet,
With faces bright as summer light,
All coming from one-fifty-eight.
Where photos always are in view,
Which are life to very true,
That each one who has seen them there,
Does to his comrades all declare,
"SPROULE is the very man can gie us,
The power to see as others see us."

NEWS OF THE DOMINION.

THE MANITOBA LAUNCHED AT OWEN SOUND.

A Canadian Yard Builds the Finest Steel Steamship Afloat on Fresh Water—Sherman's Sanity Questioned.

OWEN SOUND, May 4.—The new steel steamship Manitoba, being constructed here for the Canadian Pacific Railway, was successfully launched to-day. A very large number of people arrived by trains and boats to witness the event, which took place at 1.45 p.m. and was very successful. The ship slid from the ways into the water easily and without mishap. The Manitoba is the finest steel steamer on the great lakes. She is 305 feet in length, constructed of plated steel, and has a carrying capacity of 73,000 bushels. Her passenger accommodation is 400. The model and general lines of the vessel are of the finest, while the workmanship is unprecedented in shipbuilding architecture. The Manitoba will be finished and ready to take her place on the Canadian Pacific Railway between here and Port Arthur in about six weeks.

SCRAWLED ON A BOX.

An Alleged Complaint from a Central Prison Convict.

WINNIPEG, May 5.—A croquet box received with a consignment of goods from Toronto had a badly written scrawl to the effect that it came from the Central Prison, where the prisoners did not get enough to eat, and asked the receiver to write and ask the Governor-General if the Government couldn't send a little more provisions.

A young English boy named Alcord has been brought in from near Cartwright suffering from hydrophobia.

Manager Miller of the Merchants' Bank will be presented with a gold watch and silver service before his departure for Toronto.

A land agent named W. J. Robinson has been arrested in Dakota for embezzlement of half-breed scrip, and a warrant is also out for him here for contempt of court.

MR. BALFOUR'S [illegible]

A South Essex Liberal Deputation to Interview Mr. Mowat To-morrow.

WINDSOR, May 5.—The deputation appointed by the South Essex Liberal Association to wait on the Ontario Government in regard to the resignation of Mr. W. D. Balfour, M.L.A., will meet the members of the Government in Toronto on Tuesday next. An effort is to be made to obtain a return from the Government to all promises made by a railroad from Amherstburg to the Detroit river border to Windsor.

The Jesuits v. The Mail.

MONTREAL, May 4.—Trudel, Taschereau & Lamothe, attorneys for the plaintiffs, have produced a motion in the Jesuit-Mail suit asking that certain portions of The Mail's preliminary plea be struck out as being irregular, illegal and incomplete, and that further information be given in other suggestions. Argument will be heard on Monday in the Practice Court. Speaking of the motion Mr. Lamothe says: "We shall first make a general defence en droit to show that the method employed to test the constitutionality of the law is illegal and not contemplated by the code of civil procedure. Then we shall make a special defence, which can only be [illegible] when drawn. The statute of Elizabeth never applied to the colonies, and is a dead letter even in England, where Catholics enjoy the greatest freedom. It looks now as if the case was to go to the Privy Council on preliminary objections as to the constitutionality of the law, and not on the merits of our original declaration based on The Mail's article headed, The Jesuit Oath."

Wiman at Ottawa.

OTTAWA, May 4.—Mr. Erastus Wiman arrived here to-day in relation to litigation before the Supreme Court. He addressed a meeting under the auspices of the Board of Trade on the trade relations of Canada with the United States. Mr. Wiman said that as a colony the progress of Canada has been far behind that of the United States. The reason was that the unrestricted intercourse between the states had been the cause of their development and growth, and nothing would so much contribute to the continual growth of the United States and the progress of Canada as to obliterate the customs line between them. The best asset that Canada could possibly have was the market for the national products which the United States would afford and there was no asset within the control of the United States which would so greatly augment her present wealth as the development, marketing and manufacturing of the enormous stores of raw material which Canada possessed.

Is Morrison Sane?

MONTREAL, May 4.—Detective Arcand, who arrived home from Sherbrooke last evening, paid a visit to the Sherbrooke jail and saw Morrison, the Megantic outlaw, in his cell. He says that he is progressing favorably, and when asked, "Do you think he is sane or insane?" replied: "Well, I must tell you, that I thought his eyes denoted a certain vagueness which had the appearance of insanity, and I shall be very much mistaken if that is not the ultimate verdict pronounced upon him. He speaks rationally, but when his wrongs are touched upon his whole nature undergoes a great change and he is not the same man. The people out that way seem to be very glad that he has been arrested."

The Postal Changes.

OTTAWA, May 4.—The changes contemplated under the amended postoffice act of last session will take effect on Wednesday next. On and after that day the charge for drop letters in the cities which have the benefit of a free delivery system by letter carriers will be two cents. The registration fee for all letters will from that date be five cents, and the weight of letters which will be carried for three or two cents is increased to an ounce.

They Are Not Satisfied.

OTTAWA, May 4.—A row has been raised by the Conservative Workingmen's Association on account of the alleged undue amount of patronage distributed among French-Canadians.

"TAY" DISASTER VICTIMS

COMPLETE LIST OF THE KILLED IN THE RECENT ACCIDENT.

The Remains of Seven Fully Recognized—The Coroner's Inquest to be Kept as Long as Necessary—Funerals in Progress.

HAMILTON, May 5.—From the names on the unclaimed [illegible] identified bodies and jewelry and [illegible] evidence connected with the disappearance of friends, the following are considered the names of the victims of the lamentable accident of Sunday, April 28, at the Junction Cut:

Rudolph J. Eberer, Chicago; body identified.
L. S. Gilbury, New York; body identified.
John H. Kelley, Chicago, Rock Island & Pacific Railway; Chicago, body identified.
R. Randall Orr, late [illegible] Passenger, N.Y., relics found in the wreck and identified on him.
Capt. L. L. Butler, Cook County Insane Asylum, near Chicago, baggage unclaimed and owner missing.
R. A. Peterby, 295 Broadway, New York, relics found in the wreck and identified on him.
C. G. Fraser, stenographer, Toronto, relics found in the wreck and identified on him.
[illegible] and wife, Empire City, known to have [illegible] their trunks now missing.
H. Levy, Chicago, baggage unclaimed.
Mrs. Smith and two young daughters (no address), baggage unclaimed.
M. R. Scullen, 731 West Lake-street, Chicago, body identified.
J. S. [illegible], retired merchant, Kankakee, Ill.; body identified.
Dan Ferguson, joiner, Boston, Mass., baggage unclaimed.
Harry Pringle, Chicago, known to have been on the train and missing.
Harry Evarts, "little giant orator" Forepaugh's show, known to have been on the train, cards found in the wreck, and man now missing.
R. L. Owens, medical student, New York, body and relics identified.
Mrs. Grummell, Chicago, body identified.

As will be seen from the above list seven of the victims have been identified and thirteen remain unidentified. It is thought that the Mrs. Smith whose name appears on some unclaimed baggage had two young daughters with her, but no one has arrived yet to look for the bodies, nor has there been any inquiry for missing children.

Out of the bodies, the [illegible] of which the doctors could not determine, [illegible] been found to be that of a man from the remains of the tongue and the pad of the cent, under the shower.

The relatives of J. H. Kelley, of Chicago, identified "the [illegible] by the [illegible] identification [illegible] to have them [illegible] [illegible] stone erected in memory of the unidentified.

As yet there have been no arrangements made for a public burial. The remains will keep for a long time, owing to their [illegible] condition, and as long as there is any possibility of identification they will be kept.

The coffins and all expenses in connection with the bodies are at the cost of the Grand Trunk. The company is also fitting up the wounded "regardless," including silk hats.

Mr. Cowbrough is Still Whole.

NEW YORK, May 5.—Louis Cowbrough, who it was alleged, was killed in the Tay disaster, was found by a reporter sitting at the [illegible] to-day. [illegible] annoyed by [illegible] that he had been deceased. Mr. Cowbrough is the agent of the Dubois Watch Case Company, and he said that he had learned that the rumor had originated through a member of the firm of P. W. Ellis & Co. of Toronto, who had found a sample case in the ruins, by the side of the charred and unrecognizable remains of one of the victims of the disaster, and as he (Mr. Cowbrough) had written to P. W. Ellis & Co. his intention of visiting Hamilton about that time, it was considered that he was one of the victims, and that it was his body that had been discovered.

Memphis' Cotton Exchange Celebrates.

MEMPHIS, May 4.—Receipts of cotton at Memphis since Sept. 1 aggregate 700,201 bales. This exceeds by 26,923 bales the entire receipts for any previous year. The crossing of the 700,000 line was the occasion of a big jollification by members of the Exchange this forenoon. The blackboards were elaborately decked with blue ribbons and champagne flowed as freely as water. Memphis is not only the largest interior cotton receiving city in the world, but is the second largest receiver of spot cottons, being only surpassed by New Orleans. The receipts for the year ending Aug. 31 will approximate 720,000 bales.

A Run Caused by Pratt's Flight.

ANOKA, Minn., May 5.—A run on the Anoka National Bank occurred yesterday. Less than $20,000 was drawn out, and the bank had over $100,000 to meet it. The money was drawn out by farmers. Business men kept on depositing. The run is supposed to be due to the panicky feeling prevalent since the Pratt embezzlement and rumors of the closing out of the Anoka lumber business.

Business on the Bourses.

LONDON, May 5.—During the past week at the Stock Exchange business was restricted but the tone was firm. The English railway boom was checked by realizations. The advance in American railroad securities steadily continues, dealings being largely those of investors.

Business at the Continental Bourses during the past week was quiet.

The Duluth Strike.

DULUTH, May 4.—At noon to-day the striking coal handlers endeavored to make the men stop work on the steamers at the coal docks in the harbor. A squad of twenty police were in ambush and dashed out against the strikers, driving them off like sheep. The men on the vessels continued to work.

Believed to be a Murder.

OWEN SOUND, May 5.—Yesterday morning the body of a new born infant was found on the east hill of the town. From all appearances it is a clear case of murder. An inquest will be held.

Terrible Murder in Chicago.

CHICAGO, May 4.—A party of Italian laborers occupied an abandoned freight car near the Grand Trunk Railroad tracks in the southern part of the city. Yesterday they decided to go to New York and all left except Michael Rochi, between whom and the rest a feud existed. Before leaving one of them, supposed to be Joseph Deddido, put a number of track torpedoes into the stove and when Rochi lighted a fire to cook his supper there was an explosion which burnt the stove into a thousand pieces and wrecked the car. Rochi was dreadfully injured and is dying at the hospital.

Lynching at Last Recalled.

BIRMINGHAM, Ala., May 5.—After deliberating nearly three hours, the jury in the Hawes murder trial returned a verdict of murder in the first degree, with the recommendation that the defendant suffer death. This is the case of the wretch who killed his wife, and who was indirectly the cause of the riot in which 12 persons were killed.

The Mississippi's Source.

St. Paul, May 5.—The report last night sent out by the Minnesota Historical Society to discover the source of the Mississippi River returned yesterday. They report having discovered two lakes 110 feet above Itasca and seven miles distant to which they trace the head of the river.

THE PARISIANS ARE VEXED

FOREIGN MINISTERS WILL NOT ATTEND THE SNOW TO-DAY.

The American Bureau Received a Circular Renewed Interest in the Panama Canal Question.

LONDON, May 5.—The French officials are in a state of disquietude not unmixed with indignation at the action of the various powers with regard to the opening of the Exposition. Owing to the continued presence of Germany and the clerical element over the Belgian Minister has been ordered to absent himself from the opening ceremonies to-morrow, and the result is that charges d'affaires will represent all of the foreign embassies and legations save that of Russia. The wives of all the Ambassadors and Ministers, however, with the exception of the Baroness von Mohrenheim, wife of the Russian Ambassador, will witness the great spectacle, including the passage of the President from the Tuileries under the Eiffel tower to the Central Hall. The keenest regret is felt at the absence of Lord Lytton, the British Ambassador, at the French have long looked upon England as sympathizing with their fraternization of a despotic form of government. What expression of resentment the French Government may make in retaliation for the action of the various powers in withdrawing their representatives remains to be [illegible] possibly [illegible] will be taken of its [illegible] passage of the [illegible] their opinions as to the [illegible]

PARIS, May 5.—A [illegible] name of Perrin and [illegible] store keeper, fired a [illegible] President Carnot to-day, when the latter was leaving the Hôtel de Ville. Perrin was [illegible] to shoot himself from the opening ceremonies to-morrow, and the result is that charges d'affaires will represent all of the foreign embassies and legations save that of Russia. President Carnot and [illegible] were [illegible] through Cheville, where [illegible] was enthusiastically [illegible] Versailles the President inaugurated the memorial tablet fixed to the building in which the States-General met 100 years ago to-day.

The President and his escort then repaired to the Hall of Mirrors in the Palace, where there was a good assemblage of deputies and senators. At the palace Mr. Leroyer delivered the address of welcome to the President. In the course of his speech he said: "It is no longer humble deputies of the third estate to whom even the privilege of standing upright was denied, but elected representatives of the nation who, bowing before their freely elected chief, pay tribute to the great dead to whom we owe our liberty. It becomes those old strugglers for liberty to remind us that the revolution bequeathed not only doctrines but lessons. If the revolution sinned by the audacity of its dreams we sin by our want of self-abnegation, by our incomplete knowledge of our duties, by hesitation as to our policy. If the revolution flew too [illegible] too low. The [illegible] of [illegible] having [illegible] a union of hearts [illegible] for our country and its institutions."

President Carnot replied as follows: "With ardent hope for the future I greet in the palace of the monarchy the representatives of a nation that is now in complete possession of herself, that is mistress of her destinies and that is in the full splendor and strength of liberty. The first thoughts on this solemn meeting turn to our fathers, that immortal generation of 1789 by dint of courage and many sacrifices secured for us benefits which we must bequeath to our sons as a most precious inheritance. Never can our gratitude equal the grandeur of the services rendered by our fathers to France and to the human race. The revolution was based upon the Rights of Man, it created a new area in history and founded modern society. After many cruel shocks France has finally broken with the personal power of one man whatever title he may take. She now recognizes as sole sovereign the laws enacted by the representatives of the nation. Under the aegis of the republic let us seek in a spirit of mutual forbearance and concord the irresistible strength of a united people and thus enable France to maintain her post in the vanguard of nations. Vive la Republique."

Sir Richard Scored a Point.

LONDON May 5.—The Parnell Commission is now entering upon another interesting phase. The Attorney-General seems to be reserving his most searching questions for the closing hours of Mr. Parnell's cross-examination. The most damaging incident was his admission that when opposing Mr. Foster's bill of 1881 he wilfully deceived the House of Commons. How many times Disraeli, Mr. Gladstone and other statesmen have done the same thing history records not. Sir Richard Webster nevertheless scored a point over this part of the cross-examination.

The Recent Ministerial Defeat.

LONDON, May 5.—The Ministerial defeat on Tuesday night on the sale of liquors in India was a matter of no importance, and was discussed in a House of never more than 220 members. Through defection some Unionists helped to put the Government in a minority. No attempt was made by the whips to avoid defeat.

The American Duchess Presented.

LONDON, May 4.—The chief interest of yesterday's drawing room was the presentation of the Duchess of Marlboro by the Dowager Duchess. She wore among other jewels the diamonds worn by the first Duchess of Marlboro on her presentation to Queen Anne.

Dr. Knappe's Complaint.

BERLIN, May 4.—Dr. Knappe complains that toy flags and handkerchiefs, on which are imprinted the American colors and the portrait of the President of the United States, have been hoisted promiscuously over native houses since the outbreak of the civil war in Samoa. He also says that American and British flags were hoisted on plots of land pledged by the "rebels" in lieu of cash in payment for arms and ammunition. The commander of the British cruiser at Apia, he says, declined to support claims to land thus pledged.

The Samoa conference sat to-day from 4 to 5.20 o'clock. The land report was the subject under discussion.

A Boycotted Newspaper's Suit.

ROCHESTER, May 5.—Papers were served yesterday in an action brought by The Post-Express Printing Company against members of the Central Labor Union, who, it is charged, have placed a boycott on their business, and damages to the extent of $10,000 besides costs are asked.

It Might Have Been Worse.

HARTFORD, May 4.—An extra freight train of 41 cars bound south on the Central Vermont Railroad broke apart on the heavy grade between Roxbury and East Granville last night. The break was discovered by the forward brakeman, who notified the engineer. The whistle was sounded but the rear portion came crashing into the forward part of the train wrecking 21 cars, among which were 10 containing live hogs belonging to John P. Squires & Co. of Boston. The other cars were loaded with dead freight. One hundred and fifty hogs were killed but none of the train hands were injured.

The Corner Lots Affair.

The Matter of the Post Office and Customs Site Discussed in Parliament.

(CONTINUED)

Mr. BARRON. The Minister of Public Works may be sincere in making this excuse but he has been misinformed. The post office is not so near Ashburnham as to make it a reason why it is to be put on that lot. The Minister of Public Works said it was necessary to put the customs house near the market; why, Sir, where the custom house is, is not a stone throw from the market.

Mr. BOWELL, Oh!

Mr. BARRON. The Minister of Customs says "Oh!" Has he been there?

Mr BOWELL. Yes; last winter.

Mr. BARRON. Then the Minister could not know as the custom house was not built. It is perfectly outrageous to think that the Government is wasting the money of the country in this way to please two rival claimants, the one a syndicate composed of one gentleman as the member for West Peterborough (Mr. Stevenson) said and the other composed of four. The hon. gentleman cannot get up in his seat and say (without drawing a long bow at all events, if I may use that expression) that there was not great excitement in the town of Peterborough as to which of the two parties was to sell their lot to the Government, and the pressure was so strong upon the Government that they had to buy both lots to satisfy their supporters. I know whereof I speak and the hon. gentleman has proved my case to a certain extent when he said that one of the syndicates was composed of four men, one of whom was Mr. Peenette.

Mr. STEVENSON. Your own brother-in-law.

Mr. BARRON. Yes, my own brother-in-law, and I mention him to show whereof I speak. I say it is an outrage that the money of the country should be expended in this way. I am sorry to see the member of West Peterborough (Mr. Stevenson) who is so well off, and so indifferent about the wasting of money and who can give cords of wood to the poor of Peterborough;—I am sorry to see him get up in the House and justify this extravagant transaction.

Mr. MULOCK. Was it possible to have combined these two buildings having regard to the public convenience of the town of Peterborough.

Sir HECTOR LANGEVIN.—No.

Mr. STEVENSON.—There is not room for them.

Mr. MULOCK.—Why has the rule been departed from in this case, was it to suit the convenience of the town of Peterborough, or was it for the reasons advanced by the member for North Victoria (Mr. Barron)?

Mr. SOMERVILLE.—We have not only to consider the first cost of the two buildings, but we have to remember that for all time to come they will require different staffs of caretakers and different systems of heating and lighting, which will make a great additional expense. I think the Government have made a great mistake in this, and I think they should have shown a little more manliness and refused to be duped by those Peterborough people. They should have been satisfied with buying only one lot and erecting both buildings upon it, and if they had done this it would be a great saving to the public, not only in the erection of the buildings but in their cost and maintenance afterwards. The Government has never experimented in this way in any town, and it is evident from what the member for North Victoria (Mr. Barron) says that this was done in consequence of a disagreement among these syndicates with regard to the purchase of the lot, and that the Government found its way out of the difficulty by acceding to their request and purchasing both lots. The lot first purchased was that on which the custom house is to be erected now, and the lot I believe was large enough for both the custom house and the post office. The hon. member for West Peterborough (Mr. Stevenson) says that the lot was not large enough, but if that is so they should not have purchased it at all, because, in the first place, they intended to erect both custom house and post office on that lot. I cannot see how it is possible that in a town the size of Peterborough it was found necessary to have separate buildings for the custom house and post office. The population is not so numerous and the extent of the corporation is not so great that there should be two public buildings there. There is no doubt in my mind, and there can be no doubt in the mind of anybody, that in this transaction the Government have perpetrated a job which cannot be justified.

Mr. STEVENSON—There is no job about it.

Mr. SOMERVILLE—I think that this extravagance should not meet with the approbation of the people of Peterborough no more than that of the people of the country, because the people of Peterborough are as much interested as the people of the rest of the country in maintaining a system of economy in the public expenditure. This extravagance does not suit the people generally, although it may suit a few individuals who are the friends of the member for West Peterborough (Mr. Stevenson).

Mr. STEVENSON—There are no friends about it. It is not the truth you are talking.

Mr. SOMERVILLE—The sensible men of the town of Peterborough who desire to see this Government carried on in an economical manner will be opposed to this extravagant and unnecessary expenditure, which ought to be condemned not only by the sensible men of Peterborough, but by the sensible men of the whole country. The member for Victoria charged here that the member for West Peterborough had been gracious enough and philanthropic enough to present to the poor people of his town no less than 400 cords of wood, just prior to an election. I think it would be interesting to the members of this House to know whether the men who got these 400 cords of wood were voters, and whether the member for West Peterborough was exercising undue influence over these men by this gift?

Mr. STEVENSON.—That statement is just as true as the statement made by the hon. member for Victoria (Mr. Barron). All I can say is that it is not true. The hon. member for North Victoria is laughing at you and if he can make you believe it it is all right.

Sir RICHARD CARTWRIGHT.—I do not know anything about these philanthropic contributions which have been made by the member for West Peterborough. I did not hear the Minister state what has been the total cost of the post office with the land, or what is expected to be the total cost for the Peterborough Custom House?

Sir HECTOR LANGEVIN.—The contract for the post office was $18,000, and the land cost $6,000.

Mr. LANDERKIN.—How much does it contain?

Sir HECTOR LANGEVIN.—Sixty feet by 100, that is, for the post office. For the custom house the lot has cost $3,900, and the building is expected to cost about the same amount as the other.

Sir RICHARD CARTWRIGHT.—The result is that $24,000 is required for the post office and the hon. gentleman expects that he will require $22,000 for the custom house, in all, $46,000. What my hon. friends have stated, as the hon. gentleman knows, is perfectly correct, that in every case without exception, where the town is no larger than Peterborough, these buildings have been put together, and there is no doubt they could be put together there, and maintained at a cost of probably $25,000 or $30,000. It does look to me as if a scandalous job had been perpetrated here for no reason under heaven except to conciliate the two wings of the hon. gentleman's Peterborough supporters. Of course, we know that his position is such that he requires a good deal of nursing at the hands of the Government. I think his majesty was the same as that of the hon. member for Kingston, so that there may be a fellow feeling between them.

Sir JOHN A. MACDONALD.—I really forget what my majesty was.

Sir RICHARD CARTWRIGHT.—The majority of the hon. member for West Peterborough was thirteen, I am told.

Mr. STEVENSON.—Twenty-three.

Sir RICHARD CARTWRIGHT.—Ten more than that of the hon. member for Kingston. There is not much doubt that half the sum would have been sufficient but for these political exigencies.

Mr. STEVENSON.—The hon. member himself has had small majorities as well as me. In Queen Wellington he had not much more than I had. We need not complain very much, neither of us, in this respect; we both did our best.

Mr. LAURIER.—I have this to say, with regard to the building of post offices, that the system pursued by the Government is a gigantic system of bribery. I am not surprised that they should have treated the hon. member for West Peterborough (Mr. Stevenson) in the way they have done, in view of the fact that his election expenses cost $12,000. He said he "didn't care a d——, because Cox's cost him $12,000."

Mr. STEVENSON.—I am sure the hon. gentleman never heard me say so. That is another story got up by the hon. member for North Victoria (Mr. Barron).

Mr. LAURIER.—The hon. gentleman does not deny it.

Mr. STEVENSON.—Yes, I do deny it.

Carnegie to the Rescue.

(From the Lindsay Post.)

"Mr. John Carnegie has joined the 'third' party. At a public meeting in Peterborough Monday evening Mr. Carnegie declared that he would have voted for the disallowance of the Jesuit bill had he been at Ottawa; he would have made the thirteen members an issue. Mr. Carnegie did not always talk in that vein. Not long ago he played a different tune. But, if he is sincere, he will be found opposing Mr. Stevenson for West Peterborough. We venture to predict that Mr. Carnegie will see to it that West Peterborough is all right for the "Chieftain." Mr. Carnegie's great concern is to get into power in Ontario. He will do his utmost to intensify the agitation in order to carry West or East Peterborough for the local house. Mr. Carnegie denounces 'Jesuitical politicians,' but there is no politician on the Conservative side who has a more 'jesuitical' record than Mr. Carnegie and who more strikingly exemplifies the alleged jesuitical maxim that 'the end justifies the mean.' Mr. Carnegie has designs on West Peterborough and the Ontario treasury benches; and to him that end fully justifies the means he may adopt to get there. The McCarthy-Howland-Wild-Sutherland combination will have to take him into the coming 'cabinet,' when it is made. In the words of the popular song:—

'The bell goes a-ringing for Surrey.'

and Mr. Carnegie responds to the appeal and comes out 'nobly.' Most of the Reformers of Peterborough know him of old and will see through his little game."

WINNIPEG SCORCHED.

The Nickel Plate Hotel, Jewish Synagogue and Five Stores Burnt.

WINNIPEG, May 5.—The Nickel Plate Hotel, the Jewish Synagogue, Bell's grocery, Parmenter's stationery store, Baskerville's hardware store and a couple of second-hand stores were burnt down tonight.

A Blaze at Kincardine

KINCARDINE, May 5.—At 3 o'clock this morning a fire broke out in the brick block in Queen-street west owned by Thos. Wilson and occupied by Dr. Wilson, veterinary surgeon, and R. Hicks, stationer. The firemen responded quickly to the alarm and succeeded in confining the flames to the veterinary surgeon's office, where the fire originated. Mr. Hicks' stock is badly damaged. Loss on stock and building about $800, covered by insurance. The cause of the fire is not known.

Fire at Owen Sound.

OWEN SOUND, May 5.—About 4.30 this morning a fire broke out in the furniture store in Baker-street occupied by George Ross. The fire made such headway that before the brigade could control it nothing was left but a heap of ashes. The building was of brick, owned by J. H. Little and insured for $600. The stock of furniture, tools, etc., owned by Mr. Ross was valued at nearly $2000 and insured for $900.

A Brutal Crime.

SAULT STE. MARIE, Mich., May 4.—A most dastardly crime was committed last night at Alexander, a village a few miles from here. About dusk a woodsman walked into the house of Mrs. Richardson, who lives near the section house, where she and her granddaughter were alone. The fellow pushed the old woman into a bedroom, locked the door and assaulted the 11-year-old girl most brutally. Hearing the child's screams the old woman broke in the door, when the brute attacked her, knocking her down and bruising her badly. The villain then calmly walked off towards the woods and was soon out of sight. Assistance was called and a party started out to capture the assailant but no trace of him could be found. The woman and child are badly injured and the latter is in a precarious condition.

Decreasing the Death Rate.

The mortality among Consumptives has been materially decreased of late years by the use of SCOTT'S EMULSION OF COD LIVER OIL with Hypophosphites of Lime and Soda. Pathisis, Bronchitis, Abscess of the Lungs, Pneumonia, and Throat Affections are completely subjugated by a timely use of this excellent pulmonic. Palatable as milk. Sold by Druggists, 50 cents and $1.00. w15ed.

The Loss of the Hair

Is a great misfortune and the sight of a bald head should be a warning to you to take the best possible care of your hair. A little of Dr. Dorenwend's "Hair Magic" used occasionally will prevent all chances of its falling out or turning gray, and will remove all traces of dandruff. Every druggist has it in stock. Ask for it. dw

Eczema, Itchy, Scaly Skin Tortures.

The simple application of "Swayne's Ointment," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Itch, Sores, Pimples, Eczema, all Scaly Itching Skin Eruptions, no matter how obstinate or long standing. It is potent, effective, and costs but a trifle. Lyman, Sons & Co., Montreal, Wholesale Agents. dw

The Blood is the Life,

And on its purity largely depends the general health. No one is free from danger, and nine-tenths of humanity actually do suffer from one form or other of impure blood. No one remedy has such a wide range of curative power as has Burdock Blood Bitters—that best of all blood purifiers and tonics.

Like Half a Dollar.

"About eight years ago my feet and legs became poisoned, and came out in great sores as large as a half dollar, which ate in almost to the bone. After the failure of other remedies, the sores were completely healed by one bottle of Burdock Blood Bitters." Joseph Gonyon, Tupperville, Ont. 2w17d

Life and Limb

Are often in jeopardy through various accidents on land and water. A prompt relief and sure cure for all painful wounds, bruises, burns, cuts, scalds, rheumatism, neuralgia, sore throat and croup is Hagyard's Yellow Oil, known as reliable over 30 years. Keep it in the house always. 2w17d

A REMEDY that is of such benefit in cases of Indigestion, Neuralgia, Loss of Appetite and Dyspepsia, as Dyer's Quinine and Iron Wine, is worth gold. It is easily taken by the weakest invalid. W. A. Dyer & Co., Montreal. 6d90

GRAND OPENING

OF

GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Spring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a greviance we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

25 REASONS

FOR

DRINKING

ROYAL DANDELION COFFEE

Some drink because they are hungry,
And some because they're dry,
Some drink to keep them in good health,
And some that they may thrive.

Some drink because they are too hot,
And some because they're too cold,
Some drink to strengthen them when young,
And some when they are old.

Some drink to keep them wide awake,
And some that they may sleep,
Some drink because they merry are,
And some because they weep.

Some drink when they do money gain,
And some because of loss;
Some drink when they are pleased,
And some when they are cross.

Some drink when they are hard at work,
And some when they do play;
Some drink it right so drink at night,
While others drink by day.

Some drink for sake of company,
While others drink on the sly;
And many drink but never think,
About the reason why.

Some say they drink for pleasure,
And some they drink for pain,
Some say 'tis good, some very bad,
But never can refrain.

Yet all must own the proverb true:
"When true's hot to strike it"—
I've just found out the reason why—
All drink because they like it!

TORONTO TOPICS.

Accused for Theft—The Civic Estimates—Mallamy Seated.

TORONTO, May 6.—Detectives Saturday morning arrested W. J. Barber, of King-street east, on a telegram from Waterford which alleged that he committed theft in that town. Barber and a companion have been selling a map of Ontario in that vicinity.

Mrs. C. L. Van Wormer, wife of the late proprietor of the Grand Pacific Hotel, has instituted proceedings against several firms for wrongful distress and eviction. She claims $10,000 damages.

Gertie Stevenson, a little 4-year-old girl, fell down stairs at her home, corner of Sumach and Carlton-streets, and fractured her right arm.

At a meeting of the Executive Committee of the City Council Saturday morning the City Treasurer submitted the estimates for the year. The expenditure, as estimated, will amount to $6,840,636, an increase of 3½ per cent. over last year's. According to these figures the rate of taxation will be over 16 mills.

Justice McMahon Saturday morning granted Michael Mallamy bail in two sureties of $2000 each. Mallamy is charged with arson and is accused of having set fire to his own house for the purpose of getting the insurance on it.

Market Gardener Charles Karlyson on Saturday afternoon left St. Lawrence market about 5 o'clock to drive to his home at Jones-avenue and Hunter-street. He was crossing the G.T.R. track about two hours later at the former street when he was caught between the G.T.R. express from the east and a G.T.R. freight going east. The passenger train struck the wagon, knocking the unfortunate man out of the vehicle up against the freight, which ground him terribly beneath the wheels. He was killed instantly, the wagon smashed to atoms, but strange to say, the horse escaped without a single scratch. The body was taken to the dead man's late residence in Hunter-street. There will be no inquest.

A FATAL RIOT.

Five Hundred Men Engaged in a Fight Over a New Jersey Railroad.

NEW BRUNSWICK, N.J., May 5.—Last night and this morning a fatal riot occurred at the Sayerville brick yards, five miles below this city. Agent E. P. Hendrickson with 100 men started last night to put in a spur from the main line of the Raritan River Railroad across the land of ex-Freeholder Edward Furman down through the brick yards to William F. Fisher's yard. Furman was opposed to their crossing his land and called out his men. The railroad men were reinforced by brick yard men favorable to the railroad, until by midnight 500 men were engaged in the fight. Furman's men attacked the railroaders and burnt the ties, material and a car. Pistols, clubs and stones were freely used. George Kissenger, one of Furman's laborers, was killed outright. He was knocked down with a club and a sharp pointed crowbar was jammed through his head. John Kennedy, a railroad man from South Amboy, was so badly injured that he died in an hour.

At 4 o'clock this morning Sheriff Fick of Middlesex County called out a posse of fifty men and went to the scene. When they reached the place all was quiet and the railroad men had stopped work to recruit their force. The Raritan River Railroad is a new enterprise running from South Amboy to Boundbrook. General E. T. Ripley of New York is President. Furman complains that the company is crossing his land without his consent, which the company claims he had given. Up to 6 o'clock this evening all was quiet but the railroad men who are encamped in the woods near the disputed spot are being heavily reinforced from all along the line and trouble is expected to-night as both parties are determined.

Murdered the Mayor.

COVINGTON, Tenn., May 5.—A warrant having been issued for the arrest of Henry Donaldson, a negro charged with attempting to outrage a white woman, Mayor W. T. Douglass and a posse of nine men went last night to the negro's house to arrest him. They found his cabin closed and called upon him to open the door. Receiving no answer they warned him that unless the door was opened they would break it down, and informed him they had a warrant for his arrest. At this point a gun was thrust through the door and discharged. The contents struck Douglass killing him instantly. The posse retreated and Donaldson escaped. Mayor Douglass was very popular. He was about 27 years old. If Donaldson is caught he will probably be lynched.

Murder Will Out.

PALESTINE, Tex., May 5.—One night 20 years ago Polk Ables was shot and killed by concealed assassins while on his way to a dance. Melain, Oscar and Henry Fields and John Parker were arrested on suspicion. It was rumored that Ables had detected the prisoners in running off a number of stolen horses. For some reason they were not tried. During the past 20 years 20 persons connected in one way or another with the murder have died including Parker, Oscar Fields and Melain. Melain on his deathbed some time ago confessed that he and Parker did the shooting while the two Fields notified them of Ables' approach by a blast on a horn. The grand jury has now indicted Fields for murder and he was bailed in $5000 yesterday.

A Boston Scheme.

BOSTON, May 5.—Prominent citizens of Boston propose to form a stock company to establish a factory in one of the poorest districts in Ireland to furnish employment to evicted tenants. The plan will be submitted to Messrs. Parnell, Davitt and O'Brien for approval. It is proposed to manufacture boots, shoes, clothing and underwear. There is already a flourishing underwear factory in Mullingar run upon this principle. Some of the stock is held by Boston friends of the Irish cause.

A Mysterious Murder.

PORT BLAKELY, W. T., May 5.—Mr Silber was found to-day hanging to the mast of a small boat drifting about in the bay. In the middle of the forehead was a bullet hole. The deceased was well dressed and seemed to have plenty of money. He came to Port Blakely a few days ago and hiring a small boat went out into the bay. Nothing more was seen of him until the body was discovered suspended from the mast. The murder is supposed to have been committed by smugglers or pirates.

Suicide of a Steamship Surgeon.

JERSEY CITY, May 5.—Dr. Sydney J. Armstrong, surgeon of the steamship City of Berlin, committed suicide to-day by taking morphine. He was 27 years old and was the son of an Episcopal clergyman of Nottingham, Eng.

Miners Strike.

BERLIN, May 5.—Miners on strike at Gelsenkirchen, Westphalia, engaged in a riot to-day and wrecked a number of shops. The police dispersed them with drawn swords and order was restored with the assistance of a detachment of troops.

They Rank It Up.

The superior merits, as a blood-purifier and invigorating tonic, possessed by Dr. Pierce's Golden Medical Discovery, warrant its manufacturers in selling it (as they now do) through druggists) under a positive guarantee that, if given a fair trial, it will cure all diseases arising from a deranged or torpid liver, as indigestion or dyspepsia, and all humors, or blood taints, from whatever cause arising, as skin, scalp and scrofulous affections. The terms are, a benefit or cure, or money refunded. 8

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is absolutely harmless, and will affect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. Luxuriant Growths of Hair

are seen on the heads of all who use

DR. DORENWEND'S

GREAT HAIR MAGIC.

The equal of this great preparation is yet to be found. It is an unfailing Restorer for grey hair—it stops all falling out of the hair—it removes all dandruff and keeps the scalp clean. On bald heads (if there are but the faintest traces of roots) the Magic will produce a fine growth. Will you try it? Or will you let your hair go, and become prematurely old? What do you say? All druggists everywhere have it for sale. Ask for it. Don't let the druggist tell you he has something just as good—many have dead stock of other hair tonics on hand and try to shove them off in this way.

An Ashburnham Affair.

Saturday night a couple of young lads from the country got their first overdose of whiskey in Ashburnham, and promptly proceeded to raise a row in which they implicated another man. The three disturbers of the peace were marched off to gaol by Constable Craig, and this morning the two younger men, brothers, were let off with a light punishment, by Mr. John Wood, J.P. It was their first offence of the kind and their names are withheld out of respect to their family.

Night Watchman Gordon's Finds.

The following is a record of three months' observation of Mr. Gordon, night-watchman. Among the doors found unfastened or open: Three bank doors, nine back doors of stores. The following articles were found hanging outside shops at night, where they had been exposed during the day:—Six overcoats, three suits clothes, five flannel shirts, three pairs drawers, lady's silk mantle, pair gaiters, oil painting, five pairs shoes. During the time mentioned, Mr. Gordon extinguished one incipient fire and found one lamp left burning in a dangerous place. He also found a new grinding stone, for which an owner is wanted. From this it will be seen that night-watchman Gordon's services are very important, and that his vigilance his employers are indebted for the prevention of numerous serious conflagrations and loss of valuable articles. The ordinary burglar does not often need a written invitation to enter a shop, and when he finds a door open it is a temptation he will not probably resist, unless Mr. Gordon, which he has done in scores of cases, stands in the way.

The Watch Case.

Walter Kerr's case was disposed of at the police court this morning. He was accused of buying a watch which had been stolen, knowing the same to have been stolen. Mr. R. E. Wood, C.C.A., conducted the prosecution, and R. M. Denniston the defence. Walter bought the watch, which originally cost $20 but was now in a bad state of repair, for 50c. from a young lad of respectable parentage who, it was said, had stolen it from the house. Kerr had it repaired and afterwards sold it for $10 to a young man named Wm. Cummings. The question was asked every witness if Walter was of sound mind, and they all admitted that he was somewhat light in the upper story, but in some things, particulary a watch deal, he was sharp enough—and sharp enough to try to mislead the police by telling falsehoods when they enquired about it. The evidence, however, did not show that the watch had been stolen, though there was no moral doubt about it, nor was the prisoner shown to have any knowledge of the article's being stolen. The case, therefore, fell through and Walter was discharged. Before going, the magistrate gave the prisoner a lecturing regarding his future conduct, advising him to be very careful if he wished to have the sympathy and encouragement of the public, a thing one of his mental calibre could not do without. Walter promised to be more circumspect and departed.

Ashburnham Brevities.

St. Luke's rectory is tenanted.

Mr. D. Costello, for some months past proprietor of the Albion hotel, and formerly of Young's Point, died on Sunday morning about five o'clock. Mr. Costello has been unwell for some time and confined to his bed, but Saturday morning he felt so much better he got up and walked round. Sunday morning early he took a severe fit of coughing and, it is thought, burst a blood vessel, death resulting from hemorrhage. The remains will be interred to-morrow.

Mr. John O'Connor took possession of the Albion hotel on Saturday. John is determined to keep a first-class house.

The row on Saturday proves quite conclusively that when Constable Craig undertakes to put an end to such rowdyism he generally succeeds, and disturbers of the peace would do well to make a note of this.

The teachers and scholars observed Friday as Arbor Day. The school yards were cleaned up and the flower beds planted with seeds and plants, and things generally placed in good order.

Sunday morning a number of youths from town crossed the railroad bridge to Burnham's point and amused themselves shooting at a target with revolvers. It may seem very brave to them, but it might be well for them to choose some other place in future when they wish to desecrate the Sabbath, or they will be allowed to square matters in the police court.

The village fathers meet to-night to talk over municipal affairs.

George Street Church.

The First Sunday in May Celebrated in an Appropriate Manner.

Yesterday services of an interesting and appropriate nature were held at the George street church. It being the first Sunday in May, the exercises of the day had special reference to the children.

A large number of young people attended the morning service and listened attentively to the interesting remarks of the pastor. The words of the reverend gentleman were designedly plain and practical, and replete with [illegible] calculated to awaken and incite the youthful mind.

The church, altar and pulpit were handsomely decorated with flowers, and every thing presented a gay and May-like appearance.

AFTERNOON.

One of the most interesting services ever held in connection with the church took place Sunday afternoon. The pastor, after the regular Sabbath school exercises, administered the sacrament to over 300 members and scholars. The great majority of these partook of the sacrament for the first time. The whole service was a most impressive one, and those who were present say it was a very solemn sight. The children have been formed into four classes under the direction of suitable leaders.

EVENING.

In the evening the reverend gentleman delivered a forcible discourse; proposing and answering three important questions. First of all, "Who am I?" Secondly, "Where am I going?" Thirdly, "What, under the existing circumstances, is the best thing to be done?" After the sermon Mrs. Daly sang most sweetly, "Where is Heaven?"

A large number of new converts remained at the conclusion of the evening service and gave their names to the pastor, as desiring to be taken into the church.

Church Chimes.

A reception service was held in the Charlotte Street Methodist Church yesterday, at which about 20 new members came forward.

Confirmation will take place in St. John's Church June 23rd. Between 50 and 100 candidates are being prepared.

The adjourned vestry meeting of St. John's Church will be held to-night.

The Young Men's Guild of St. John's Church meets Thursday evening of this week, instead of Tuesday.

Mr. Ketcham, of the Ketcham Concert Company, acted as choir-master in St. Andrew's church Sunday.

To-morrow evening there will be a meeting of the Evangelical Alliance in the Y.M.C.A. hall.

At St. Paul's church Sunday morning there was one of the largest congregations that ever assembled within the four walls of the sacred edifice. It was communion Sunday, and about seven hundred persons partook of the sacrament. There were 57 new communicants, a result, largely, of the recent Crossley and Hunter meetings. In the evening Miss Weir sang her farewell solo before leaving for Europe. Her rendition of "Oh, Come let us Worship," by Himmel, surpassed, perhaps, all previous efforts.

Rev. Mr. Kenrick, assistant-curate of St. John's, who has been recuperating in Toronto, has returned and resumed his duties Sunday.

At St. Peter's Cathedral Sunday His Lordship Bishop O'Connor officiated at the eight o'clock mass and at 10:30 preached an admirable sermon on the Virgin Mary. In the absence of Miss Ealand, Miss Jennie McCabe took the organ at the 10.30 mass and Sister St. Aubert at Vespers. Rev. Father McGuire, of Bracebridge assisted at the services. His Lordship Bishop O'Connor announced that he had confirmed the appointment of Rev. Father Redkine as Chancellor of the Diocese and Bishop's Secretary, and said he would himself act as parish priest.

A Successful Artist.

A Young Lady Who is Known and Has Relatives in Town.

The *Globe* of Thursday last has the subjoined article regarding a young lady who is known in Peterborough. She is a cousin of Dr. R. W. Bell and Mrs. (Dr.) Kincaid. The *Globe* says:

The honor of having a large picture hung in the Paris salon has been won by a very young Canadian painter, Miss M. A. Bell, daughter of Mr. Andrew Bell, of Almonte. Her subject is a domestic scene in the interior of Brittany, the principal representation consisting of three figures—a peasant woman bending sadly over a sick baby, to which a little girl offers food with pitiful entreaty. This picture, which has been much praised by French critics—who assert, from the skill of the drawing and coloring, that "Miss Bell will arrive at the rank of a master"—is a canvas of five feet by four. It was painted at Pont Aven, Finisterre, during the past winter. The attempt to accomplish so large a picture might have been called very ambitious in so young an artist had our brilliant Canadian girl not justified her confidence by an admirable success. It is, we presume, almost unnecessary to say that the winter works of the most accomplished French artists are exhibited at the Paris salon, that many meritorious works are annually rejected, and that the young painter who gains a place has achieved a very gratifying distinction.

Canadians have particular reason to be proud of the young lady's manifestation of high talent because she is "a Canadian of the Canadians," having a liberal share of good old U. E. L. blood in her veins. In childhood she disclosed, as we happen to know from having seen her early sketches at the time, a remarkable bent toward the art she has adopted. In the Province of Quebec, where her parents resided for some years while her father was engineering great public works, Miss Minnie, stimulated by the picturesque aspect and figures of French Canadian life, made fine progress in self-tuition. Afterwards she studied for a year under Robert Harris in Montreal, and then for two years in New York at the Union League, under Champigny. Something over a year ago she began studying in Paris in the studio of the famous Julien, and it is evident that all her masters have reason to be proud of sharing in the development of her great gifts.

The prediction of her critics that she will take rank with the masters ought to have a good deal of interest for those of her wealthy countrymen who buy pictures. All know that the early works of distinguished artists increase vastly in value. The hint to picture buyers should be enough.

Apsley.

From Our Own Correspondent.

SNOW.—The ground is white with snow this morning (May 1st).

THE LATE FRED. STEVENSON.—We had the painful duty to perform yesterday of committing Fred. Stevenson's body to the grave. He went to work on Tom Douglas' drive a week ago, and on Sunday he was drowned in the creek near Long Lake as he was crossing some logs. He was about twenty-six years old. He was a very nice, quiet young man, and lived with his grandfather, old Mr. Brissett, in Anstruther. They came here about ten years ago from Montreal, and took up several hundred acres of land. Fred's grandfather and grandmother died a short time ago. He was himself buried at the English church in Apsley. Rev. Mr. Harding read the service. The neighbors are all sorry for poor Fred., and sympathize with his friends in their sore bereavement.

Otonabee.

Another Pioneer Passed Away.

Mrs Fife, wife of Thomas Fife, of Otonabee died on Saturday May 5th inst, in her 76th year, and will be buried in the family burial plot near Fife's church on Tuesday May 7th at 2 p.m. Her maiden name was Janet Hacket. She was born in Renfrewshire, Scotland, April 1814. She came to this country with her father, mother and family in 1820, and, with them settled in Asphodel. In Dec. 1831 she was united in marriage to her now sorrowing husband. She was the mother of eleven children all of whom lived to adult age and seven of whom survive her, of whom Dr. Fife of Peterborough is the eldest. In 1881 she and her husband celebrated their golden wedding, at which there was a considerable gathering of children, grand children and friends. She has been in delicate health for many years but the immediate cause of death was an acute attack of erysipelas. Her life work was principally in her own house and for her own family, and faithfully was her work done.

—An arrangement has been arrived at by which the Rice Lake general road is now free of tolls, in advance of the legislature to that end.

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. How it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we run out you must make an allowance. We have another consignment of beautiful 2-lb. Tins Pembos at 15c. per tin; 2-lb. Tins Tomatoes three for 25c. W. J. CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and consequently economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to shew the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These gloves were sold by us and others at $1.25—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 20c, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular :—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little men—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

THE TORONTO BUDGET.

AN EX-BARTENDER ATTEMPTS ETO ISHOOT HIS BETTER HALF.

The Sum of Kenmare Interviewed—The Gunslinger Remanded—The Deputation from South Simcoe.

TORONTO, May 7.—A young girl, apparently about 20 years old, wandered into Mr. McDowall's residence, on Avenue-road Sunday. When questioned, it was seen that her mind was affected. She cannot give any account of herself. Her appearance indicated that she had walked a long distance.

Wallace or Davis, the man who manhandled the street car driver, was remanded yesterday morning for a week.

Miss Mary Cusack, known formerly as Sister Mary Frances Clare, the Nun of Kenmare, is in the city, her first visit to Canada. In an interview yesterday morning she said she was at first induced to come to Canada through a lady friend at Buffalo. She will attend the convention of the Christian Alliance this week, and will lecture on the Jesuits, and, if opportunity offers, on the Irish question as well. "I have left the Church of Rome," said she, "for good, but I don't think the Church will excommunicate me for anything I may say or do." Miss Cusack's sympathies are with the poor people of Ireland, but she says she is not altogether a Home Ruler. Her advent here creates quite a little flutter. She dresses in modest black and that she is a lady of refinement and grace her demeanor testifies. Sir R. Cusack, her nearest relative, is anxious that she should return to Ireland and her kindred.

At the meeting of the Civic Executive Committee yesterday the estimates were cut down to $188,780, which, it is expected will make the rate of taxation 14½ mills, the same as last year.

A special emigrant train from Quebec on the C.P.R. arrived at the Union Depot last night about 8.30. The train was made up of eight passenger and four baggage cars and there were on board about 400 emigrants. The majority of them will go to the Northwest, a few, however, will remain in Toronto.

Mr. W. D. Balfour, M.L.A., South Essex and Messrs. H. W. Allen, Essex Centre; Dr. Brien, M.P., Essex Centre; Samuel McGee, Police Magistrate, Merrisburg; Simon Fraser, Walden; Marwood Barrett, President of the Liberal Association of South Essex, Delos R. Davis, Colchester; Walter Walsh, Essex, Tilbury West; Geo. A. Morris, ex-Warden of Essex; J. C. Shepley, councillor, Gosfield; Robt. Lamarsh, Vice-President Liberal Association, Essex; Clement Malloux, Vice-President Liberal Association, Essex, and D. W. Campbell, Kingsville, arrived at the Walker House yesterday. To-day these gentlemen, with the exception of Mr. Balfour, will wait on Mr. Mowat and his colleagues to know what they mean by not giving a grant to the Sandwich Railway. They will give the Government one more chance to aid their railway project, and will support their demand for a grant by showing that the Dominion Government has given $64,000 towards building the road. The gentlemen who will wait on the Government have Mr. Balfour's resignation in their hands, and if the Government refuse to give any help towards building the road they will place the resignation in the hands of the Government.

About 6.30 last evening Edward Tyler, generally known as "Ned," was arrested in front of the Parkdale Hotel, St. Alban's Ward, with a bull-dog revolver in each hand, full of bad whisky and a heart filled with anger and jealousy. His wife was the the complainant, and the surrounding circumstances briefly as follows : About two years ago Mrs. Parker kept the Parkdale Hotel, with "Ned" Tyler as bartender, and so well did the employe suit his bosses employer that it was not a great many months before Mrs. Parker became Mrs. Tyler. Since the marriage, however, things have not gone at all happily. Domestic unpleasantness led him to drink and culminated last night in his meeting her in the subway and snapping the revolvers in her face. Fortunately they did not go off. Mrs. Tyler ran up Queen-street with the enraged husband following and had him arrested.

A man who gave his name as McElwaine and his residence Trafann-street rushed into Police Headquarters last night, with blood flowing in large quantities from an ugly gash in the back of his skull. He said that at supper he had said something which has displeased Mrs. McElwaine, and in her anger she had thrown a lamp at him, which smashed on his head. Not contented with this she then seized the bottom part of the missile and inflicted the cut he was suffering from with the improvised weapon. He said he took the beating from her without defending himself, as he was under bonds to keep the peace towards her. He was told to call in the morning and see the Police Court Clerk.

Ellen Ennis, a woman residing in Coatsworth-lane, was arrested by the police of Wilton-avenue station last night charged with aggravated assault on a neighbor named Eliza Merritt. What makes the case peculiarly harrowing is that the Inspector felt compelled to take her four young children, the oldest scarcely 6, with the mother to the station, afterwards sending the party of five to headquarters in the patrol wagon. Happily a kind-hearted acquaintance took charge of the two oldest, but the other unfortunate babies had to pass the night in the cells with the mother.

"Queenberry" was one of the names registered on the book at the Queen's Hotel yesterday afternoon. It meant nothing less than that the Most Honorable the Marquis of Queensberry, in the Peerage of Scotland, John Sholto Douglas, is in town. The Marquis, whose name is most familiar in sporting circles, arrived in town from New York last evening and will view Toronto for a day or so before going back to England. He travels and lives very quietly. His Lordship was in bed before 10 o'clock last night.

About midnight this morning a free fight took place on the corner of Queen and Yorkstreets the result of which was the arrest of Thomas Green, 197 York-street. He was charged with being drunk. About 12.45 a.m. James Graham, 31 McCaul-street was taken to Headquarters in the patrol wagon when a charge of assaulting Inspector Stephen was laid against him.

A Thief for Many Years.

PROVIDENCE, R.I., May 6.—Lincoln Curtis, chief salesman for Congdon & Aylsworth, wholesale boot and shoe dealers of this city, was arrested to-day charged with embezzling $12,000. His method was to ship goods to houses in New York and other cities without entering the shipment on the books. The money in payment was sent to him as chief clerk and he kept it. His workings cover a long period of years. He is said to have had bad habits and was trusted and respected.

A Tumble in Rose.

NEW YORK, May 6.—The Thomas Iron Company to-day reduced iron for May and June delivery $1.50 per ton. President Clarke said : "The reason for the reduction is that southern people are crowding the market and trying to sell $1 per ton below our prices."

A SOMBER HALF-HOLIDAY

THE UNIDENTIFIED DEAD TO BE BURIED AT HAMILTON TO-DAY.

A Sorrowful Surprise to a Rogersville Wife —Thorndale Excited Over a Mysterious Disappearance.

HAMILTON, May 6.—The eleven unidentified bodies of those killed in the railway accident at the Junction Cut on April 26 will be buried to-morrow at 2.30 from Bleakford's undertaking establishment. Extensive preparations are being made on behalf of the city to show every possible mark of respect to the occasion, though none of the dead were citizens of Hamilton and most of them were undoubtedly from distant parts of the United States. It is the feeling of the people generally that the city should show its sympathy and respect in a fitting manner, and arrangements are being carried out with that end in view.

The remains will be placed in handsome metallic caskets. Each casket will be numbered and all the clothing and effects which belonged to the different persons or were supposed to belong to them, will be carefully preserved and numbered to correspond with the remains, so that in case any may at any time hereafter come here in search of relatives or friends the means of identification will not be destroyed.

The Mayor has expressed a wish that the occasion be observed as a civic half-holiday. The schools and civic offices will be closed. When the procession moves all the church bells will be tolled. A large detachment of police will represent the city. Theme ministers representing the various denominations have been invited to be present: Rev. S. Lyle, Rev. John Morson, Bishop Hamilton, Rev. J. S. Ross and Rev. R. G. Boville.

A week ago last Friday Mr. Mathew Griffith and Mr. George Cowlen (cousins), left the house of the former, at Cass City, Mich., and came to London. There they parted on Saturday, it being the intention of Cowlen to take the limited express for this city. Griffith went back to Cass City. He did not see a daily newspaper, but when the Detroit weekly paper reached his household and he read of the accident on the Grand Trunk Railway, he concluded that his cousin was in the wreck and came on here, arriving yesterday. He was shown the articles found in the wreck and identified the missing man's watch chain and a shirt stud which he knew Cowlen had worn when he was on his journey. Griffith had a look at the human remains lying at Blachford's undertaking establishment and picked out Cowlen's. The deceased had just six teeth in front, and this fact, together with a knowledge of the clothing (fragments of which were unburnt), assisted in the identification.

Cowlen was on his way to Hagersville to meet his wife and convey to her the glad tidings that he had procured a situation at Manchester, Mass. It was his intention to remove her thither last week. His father and other relatives are located there. Cowlen was a weaver by trade, and had been in the Old Country lately. He meant that his visit to his wife should be a surprise, as he sent her no word of his coming. Mr. Griffith went on to Suspension Bridge last night to have an interview with Conductor Poole about the matter, and to-day proceeded to Hagersville to break the sad news to Mrs. Cowlen, and bring her here to identify the remains.

To-day Mrs. Oldfield arrived from Buffalo to examine the remains of the dead with a view of identifying those of her son-in-law, Mr. Harry Evarts, who was connected with Forepaugh's show, and was known to be on the ill-fated train. Mrs. Oldfield was accompanied by Mr. Evarts' little son, aged 8 years, and Mr. Wheeler of Messrs. Wheeler & Platt, a Buffalo legal firm. It is said that Mr. Evarts had a large amount of insurance on his life; hence the anxiety of his relatives to prove beyond a doubt that he was lost in the wreck. Mr. Wheeler and Mrs. Oldfield are satisfied that Mr. Evarts was in the burning car and suffered the awful fate of some of his fellow-passengers. A card with his name on a pencil and a watch charm on which was engraved an alligator and a toad, which were known to have been worn by Mr. Evarts, were discovered.

Mrs. Fraser, wife of Mr. C. G. Fraser, stenographer, of Toronto, came to the city to-day and was shown what was left of the victims. She could not identify the body of her husband, although there is no doubt he was a passenger on one of the cars that were burned. A chain belonging to Mr. Fraser was found amongst the articles picked up at the wreck. This Mrs. Fraser identified.

Thorndale, Middlesex County, is in a state of excitement over the disappearance of a well-known resident, Mr. Steele, who left his home some eight or ten days ago and has not been heard of since. Some of his friends are inclined to think that he may have perished in the disaster.

The jury had a meeting to-day at the office of Dr. Woolverton, coroner, with reference to the appointment of experts. The coroner was instructed to engage Mr. T. B. Townsend of East Flamboro', who is said to have had considerable experience as a railway man. Messrs. C. R. Smith and Mr. Geo. Magill were appointed a committee from the jury for the purpose of examining the train time book. The coroner was also instructed to arrange with the Chief of Police so that Constable Bainbridge could devote all his time to assisting the jury while the investigation progressed.

VIOLENCE AT THE POLLS.

Armed Men Prevent Negroes from Voting in a Louisiana Town Election.

LAFAYETTE, La., May 6.—At 6 o'clock this morning the Court House was surrounded by 25 or 30 armed men. These men in menacing tones proclaimed that no negro should vote at this municipal election. A large number of men with arms were in the immediate neighborhood of Court House-square. At the several entrances to the square armed men were posted and negroes were not permitted to enter. At 6.30 Sheriff Broussard offered to escort men to vote at the north entrance to the square. He attempted to enter with those men, when there was a rush of armed men to the entrance with cries of "Shoot 'em," "Kill him," "Don't allow the —— to go in." The voters turned back. The sheriff entered the Court House and the Commissioners and the clerk of the court and the sheriff who were holding the election closed the polls and retired. A sworn statement by these officers was mailed to the Governor.

Ten of the "Regulators" Arrested.

NEW ORLEANS, May 6.—A dispatch to Governor Nichols from Sheriff Broussard states she latter has arrested ten of the regulators concerned in the election outrage at Lafayette. The sheriff thinks the parish authorities will be able to suppress the disorder and punish those engaged in the crime. As a precautionary measure the military has been ordered to be ready to move at a moment's notice. The interrupted election will be held at some future day. It is stated that the larger portion of the regulators were non-residents of the town.

Hamilton's Chief Gets a Raise.

HAMILTON, May 6.—At a meeting of the police commissioners to-day the salary of the chief was increased from $1600 to $2000.

Mr. George Nota of No. 10 Tiffany-street has a duck which produced an egg weighing 4½ ounces and which measured 7x8½ inches.

Hendrie & Co.'s teamsters, about forty in number, struck this morning for higher pay, and no horses went out for some hours. The men are getting $23 per month and they wanted $25. A compromise was effected on a basis of $24 and the men all resumed work.

George Nash, pattern maker in the E. & C. Gurney Company's works, was seriously if not fatally injured Saturday afternoon by a flying board, which struck him in the abdomen while he was operating a circular saw.

The Indiana Miners' Strike.

BRAZIL, Ind., May 6.—Four thousand miners will go to work to-day, the difference with their employers having been adjusted. The block strikers are still out.

TRADE AND TRAFFIC.

Leading Features of the Grain and Produce Markets at Home and Abroad.

TORONTO, May 7.—St. Lawrence market was quiet yesterday. Little was offered and there was slack demand. Quotations : Butter, pound rolls, 22c. to 23c.; large rolls, 19c. to 20c.; inferior, 15c. to 17c. Lard, tubs, 12c. to 13c. Cheese, 12c. to 12c. Beans, 80c. to 11c. Eggs, fresh laid, 12c. to 13c. Beans, 25c. to 45c. a peck. Lettuce per doz., 25c. to 30c. Radishes per doz., 15c. to 20c. Rhubarb per dozen bundles, 40c. to 60c. Spinach per dozen bundles, 30c. to 40c. Apples per barrel, $3.

The hay market was fair. Receipts were small, the demand poor, and prices nominally unchanged. One load of straw sold at $10.

The sales of grain on the street were 50 bushels of spring wheat at 87c., 50 bushels goose at 84c., 100 bushels barley at 49c to 52c., and 30 bushels of oats at 32c.

THE EXPOSITION OPENED.

A BRILLIANT SPECTACLE IN THE GAY CAPITAL.

"The City in the People's"—Enthusiasm at the Show—The Czar to be Crowned King of Poland—General Cable Notes.

PARIS, May 6.—President Carnot formally opened the exposition this afternoon. The President was accompanied to the exposition grounds by the Presidents of the Senate and the Chamber of Deputies. The party were escorted by a squadron of cavalry. They left the Elysee at 1.30 o'clock and the artillery salutes announced their arrival under the central dome of the exposition building. President Carnot ascended a dais that had been erected under the dome. He was surrounded by the members of the Cabinet and members of the Senate and Chamber of Deputies. M. Tirard, the Prime Minister, made a speech welcoming the President. He declared that the exhibition exceeded all expectations and proved that the French people still possessed all the qualities for which they had been celebrated. President Carnot in his answer referred to the indomitable energy of France in emerging from severest trials to fresh industrial triumphs. He afterwards inspected the various departments of the exhibition.

All the diplomatic representatives now in Paris attended the opening ceremonies of the Exposition unofficially, although their Governments had declined to permit them officially to assist in the opening. The gallery of the great building was a garden of Parisian beauty and fine toilets. Mme. Carnot occupied a seat in the centre. President Carnot was greeted with cheers. The Marseillaise was played by an orchestra and sung by a chorus.

Premier Tirard's speech made an excellent impression and was loudly applauded. President Carnot's speech was delivered with much earnestness, and it aroused the enthusiasm of the assemblage. Afterwards the President started the machinery in the building by touching an electric button.

There were nearly 400,000 people inside and outside of the building and they gave a great shout. The exhibitors number 30,000.

To-night Paris is ablaze with illuminations. No vehicles are permitted in the streets. The city is the people's.

Although the monarchical governments have declined to make appropriations for representation by exhibits the exhibits classified nationally vastly exceed in scope and interest those of all preceding exhibitions. The variety of articles exhibited is almost infinite. No one department is complete nor is the catalog of any group ready for the printer. The total ground surface allotted to exhibitors exceeds 3,000,000 square feet.

The Eiffel tower, which is nearly 1000 feet high, cost $1,400,000. The observatory of the tower will be used for scientific observations and experiments.

A Terrific Thunderstorm.

PARIS, May 6.—There was a terrific thunderstorm at Boulogne to-day which lasted three hours. Roads were upturn and many cellars were flooded.

A NEW MARKET BUILDING

Endorsed by the Town Council And to be Begun at Once.

A Description Given of the New Building—A Number of Street Improvements to be Made—A Grant of $200 to the Band—A New School Trustee Appointed—A Little "TIF" Over the Street Watering Business—Other Matters of Importance to the Town.

At the regular meeting of the Town Council Monday night there were present: Mayor Stevenson and Messrs. Cahill, Davidson, Wilson, E. H. D. Hall, A. Hall, Dawson, Ingate, Rutherford, Langford, Kendry and Huntley.

A communication was read from Mr. H. Pearse, asking the council to issue debentures to retire those which fall due on January 1st last, amounting to $4,500. Mr. Pearse also stated that the C. P. R. Company had not fulfilled the terms of their lease of property, and he had so notified them. The communications were received. Mr. DAVIDSON moved that the commissioners be instructed to issue these debentures.

The motion was carried.

There were a number of applications for street watering. John King and a large number of others asked for the sprinkling of George street north to Argyle and Water street north to Sperry. Wm. H. Moore and others asked for the watering of McDonnell street, from George to Reid street. Mr. R. M. Dennistoun and 100 others applied to have the street sprinkling extended on George and Water streets north to Argyle street. These were all referred to the Committee on Fire, Water and Light.

There was another batch of applications for sidewalks, as follows:—P. J. McNamara and others, for sidewalk on Farmer street; Napoleon Tromley and others, sidewalk, crossings and grading on Patterson street; W. H. Hill and others, sidewalk on Aylmer street, between McDonnell and Murray streets; Samuel English and others, sidewalk on the western extension of King street. These were all referred to the Street and Bridge Committee.

Mr. Wm. Brownscombe called the attention of the council to the dangerous condition of the C.P.R. crossing on George street, asking if it would not be advisable for the Company to place a signalman there.—Referred to the Street and Bridge Committee.

Samuel Anglesye and others called the attention of the Street and Bridge Committee to the dangerous condition of Murray street east of Wm. Hamilton's foundry, which required cribbing along the creek and grading so as to give access from Stewart and Rubidge streets to Reid street; also calling attention to the need of a foot bridge across the creek at Rubidge street, leading to McDonnell street.—Referred to the Street and Bridge Committee.

W. G. Morrow, secretary of the School Board, notified the council that Mr. J. B. Stratton had resigned his seat at the Board.—Received.

Mrs. Irvine's appeal against her dog tax was referred to the Court of Revision.

John White and others applied for an electric light on the corner of Park and McDonnell streets, the gas lamp there to be removed to the corner of London and Park streets.—Referred to the Fire, Water and Light Committee.

Mr. Jas. Gordon, night watchman, applied to be employed upon salary or placed upon the regular force of the town protectors. The application was referred to the Committee on Appointments.

Bruce Boring applied for rebate on his butcher licenses of last year, claiming to have used it only six months.—Referred to the Licenses Committee.

Mr. Richard Hall, on behalf of the Nicholls Hospital Trust, asked for a hydrant at the corner of Argyle and Sunnyside streets.—Referred to the Fire, Water and Light Committee.

REPORTS.

Town Clerk Macdonald read the statement of the poll taken on the several by-laws, which already been published. At a late stage of the proceedings the by-law which had been adopted by vote was given a third reading and finally passed.

Mr. Alfred Hall read the report of the Finance Committee, of expenditures during March and April. In No. One Ward $32.10 had been disbursed in charity; No. Two, $93.10; No. Three, $159.80; No. Four, $32.25; Total, $321.25. The report was adopted.

Mr. Davidson presented the report of the Finance Committee, recommending payment of the following accounts:—Geo. Hibberd, water certified to; Salisbury Bros, $5.00; W. J. Lynch, $3.00; Rathbun Co., $3.25; A. O. Mortimer, $3.75; Mrs. G. W. Hall, $4.00; W. J. Morrow, $15.00; Geo. I. Bennet, $1.75; Review, $120.00; Jas. Hagerman, 15.00; Douglas & Logan, $15.44; A. L. Davis & Co. $12.00. The committee also recommended that rule 60 be strictly enforced, as they find that several contracts have been contracted by parties without the knowledge of the council; also, that the fire brigade be granted $200 for the band provided that they play at once a week during the summer months.

The report was adopted.

EXTENDING THE WATERWORKS.

Mr. A. Hall read the following report:—To the Mayor and corporation of Peterborough:—

GENTLEMEN,—Your Fire, Water and Light Committee beg leave to report and recommend that Terence Smith supply an extra man and horse for street watering purposes, etc., and that he receive $675 for the same from May 1st to October 1st, 1889; also that the Waterworks Co. be instructed to lay their mains and place hydrants on the following streets:—

Main to be laid from London to Brock street, with hydrant to be put on corner of Aylmer and Murray, and hydrant now on McDonel street to be moved to corner of MacDonel and Aylmer streets.

Hydrants to be placed on the following street corners:—Corner King and Aylmer, Townsend and Aylmer, Lake and Aylmer and George and Lake streets.

Main to be laid from Charlotte street to King, on Rubidge street. Main to be laid from Reid to Park on Brock street.

Hydrants to be placed on Park street, corner of Cedar, Weller and Gilmour streets.

Main to be continued on King street.

Hydrants to be placed on corner of George and Bernardo streets.

Stand pipes at the corner of MacDonel and Aylmer streets and corner of Sherbrooke and Aylmer streets.

Your committee awarded the contract for the two watering carts to Wm. Yelland for the sum of $520.

All of which is respectfully submitted.

ADAM HALL, Chairman.

Mr. Kendry moved in amendment that a hydrant be placed on the corner of Cemetery and Water streets. After a little discussion, Mr. Cahill moved, seconded by Mr. Davidson, that a hydrant be placed on the corner of Park and Patterson streets. These motions were referred to the Fire, Water and Light Committee.

Mr. HARTLEY objected to an item in the report which gave the whole town work to one man. There were lots of men paying taxes who had teams to do the work, and it was unjust to give one man six horses while others wanted to do it. He was supported in this contention by Messrs. Dawson, Rutherford and Langford, who held that it should be let by tender, the latter stating that as the street sprinkling was unsatisfactorily done it might be better to let other men do it.

Mr. ADAM HALL pointed out that they had one horse standing idle in the stables now and it would be cheaper to get another horse than a team.

A motion for the adoption of the report was lost. As this threw out the whole report, a motion was passed to reconsider it so that the other matters could be dealt with.

Mr. DAVIDSON said he thought Mr. Hartley had a grudge against Mr. Smith when he would deliberately vote away $100 of the town's money to take the work out of a man's hands.

Mr. HARTLEY denied all personal feelings and said he only objected to one man monopolizing the work.

Mr. DAWSON said he was told by an old resident who had paid taxes for 25 years that Mr. Pope was not distributing the work fairly. He said he had a team and could not get anything for them to do.

Mr. DAVIDSON—Who was it?

Mr. DAWSON—It was Mr. Bolton.

Mr. DAVIDSON—Why, that's the man you said you would go ten miles rather than employ him. (Laughter.)

Mr. DAWSON—No, sir, I never said any such thing.

Mr. KENDRY objected to Mr. Pope being found fault with, for he was an efficient officer.

Mr. DAWSON agreed with him there, but said it had been told him and he wanted to know if it was so.

Mr. LANGFORD said there was no doubt the street sprinkling had been loosely done this spring, and he considered Mr. Smith had enough to do already with the fire hall and the other horses.

Mr. DAWSON said the committee had no intention of favouring Mr. Smith, but they had looked upon it as a saving of $100, when only one extra horse would have to be got for the new watering cart.

The following motion was finally carried:

Moved by Mr. Hartley, seconded by Mr. Kendry,—That the first part of the report referring to T. Smith providing an extra horse for street watering, be struck out, and that another team be engaged to water the streets with the extra watering cart; and that tenders be taken for the work; the lowest or any tender need not be accepted unless otherwise satisfactory; and the Fire, Water and Light Committee have power to close the contract.

STREET IMPROVEMENTS.

To the Mayor and Councillors:

GENTLEMEN,—Your Street and Bridge Committee beg leave to report and recommend the following work:—

Continuation of Aylmer street; if parties interested will give the land for the street the corporation will take over the street and grade it.

On the petition of Geo. Dunsford, we recommend a crossing at Charlotte and Water streets, but cannot recommend removal of steps.

The petition of P. J. McNamara be granted. New sidewalk, four feet, to be laid on McDonnell, from Downie to Park streets.

Sidewalks on Ware and Bolivar streets, as recommended last year.

Sidewalks five feet wide to be laid on London street between George and Water streets.

Sidewalk four feet wide on Aylmer street, from London street north to G. T. Railway.

Culvert to be put down on the corner of Dublin and Aylmer streets.

Sidewalks four feet wide on Rubidge street, from Sherbrooke to Dalhousie streets.

Sidewalk four feet wide on Rubidge street from Sherbrooke to Dalhousie streets.

Sidewalk four feet wide south side on Wolfe street, from Aylmer to Bethune streets.

George street to be watertabled from Murray to Edinburgh street.

That sixteen M feet of cedar be delivered on Crescent street to complete cribwork.

That portion of Water street known as the "goose pond" to be cribbed at least five feet above water mark.

The petition of the Bell Telephone Co. be granted, on condition that the Company can arrange with the G. N. W. Telephone Co., for the use of their poles, and that the number of poles on George street shall not be increased, and that the system as proposed in their petition, of fire alarm, be carried out and maintained to the satisfaction of the Fire, Water and Light Committee, or this privilege to become void.

WM. LANGFORD, Chairman.

Mr. RUTHERFORD objected to the committee recommending erect a large expenditure without waiting for all the petitions to come in and taking their annual rounds.

Mr. LANGFORD said the council was committed to most of the work already, and all that was recommended would not cost over $400.

The report was adopted.

THE TOWN PHYSICIAN.

Mr. JAMES KENDRY, Chairman of the Committee on Appointments, reported recommending that Dr. Yelland be appointed town physician at a salary of $100.

Mr. E. H. D. HALL thought the office was an unnecessary one while there was a hospital so close, but Mr. Kendry said that if a doctor had to be engaged whenever wanted his bill at the end of the year would be over the $100.

Mr. HALL asked if there were any other applications and if any salary was mentioned.

Mr. KENDRY said there were but this had all been decided in committee, and he wouldn't say any more.

Mr. HALL said Dr. Clarke, the Medical Health Inspector, had very little to do and it seemed to him that either could do the work of both offices for the same salary as he is now getting.

The report was here concluded.

THE MARKET.

Mr. Cahill read the following report:—To the Mayor and Town Council:

GENTLEMEN,—Your Market Committee begs leave to withdraw a report submitted at a previous meeting, recommending that a market house should be built along Water street, south from the present house, and that the following be adopted in lieu thereof: That it is to say, a market house be built along George street, south from the present open house.

The present shed house is [illegible] description of the proposed building, prepared by the town engineer.

Your committee recommend that work on the proposed building be proceeded with at once under the supervision of your committee and the town engineer; and for that purpose that your committee be authorized to ask for tenders and enter into contracts for that purpose. Also that the present market house be taken down when the new one shall be ready for occupation.

Your committee further recommend that the ratepayers be requested to decide whether the building shall be paid for by direct taxation this year, or by the issue of debentures covering a period of years; and for this purpose that a by-law be prepared for submission to the ratepayers, [illegible] that the revenue arising from said building be appropriated to meet the interest and sinking fund on such debentures, which your committee believe will be amply sufficient for such purposes.

Your committee are in doubt whether it is necessary to ask the consent of the town commissioners to use the ground proposed to be [illegible] but in order to remove any doubt on that point, recommend that their approval be requested.

All of which is respectfully submitted.

THOMAS CAHILL, Chairman.

THE MARKET BUILDING.

The plans submitted propose a building 127 feet in length by 60 feet in depth, with a rear addition for storerooms and entrances. The plans provide for four single stores, two north and two south of a central arcade. This arcade is 64 feet in width, having a central passage through from George street to the market square in the rear, of 25 feet wide, with 5 stalls at each side, each 19.6x11.0. The ground floor stores and arcade to be 15 feet in height, with a market over on the first floor, of 126 feet by 60 feet, with a height to ceiling of 20 feet. It is intended that this market shall be fitted with the necessary counters and benches required for the display of produce. Two grand staircases form an easy approach to this market, under which retiring rooms are provided for women. Besides, approaches to the cellars, which run under the entire block.

The fronts are to be of white brick, having plate glass and metal columns, the entire connected with a mansard roof all covered with slate and galvanized iron.

Mr. RUTHERFORD enquired what would be the probable cost?

Mr. CAHILL replied that the engineer estimated the cost at $11,000. Mr. Cahill added that he believed everyone felt that a new market building was necessary, and it was hoped to begin the work if not to-morrow at least next week.

The report was adopted.

THE LIQUOR LICENSES.

Mr. Kendry presented a by-law granting $300 to the Horticultural Society. It was given its three readings and finally confirmed.

Mr. E. H. D. Hall introduced a memorial to the Ontario Government, regarding the legislation recently enacted by which they claim half of the extra amount imposed on licenses by any municipality. The memorial requests the Government to return this money, as only two places, Brockville and Peterborough, are affected by this legislation.

Mr. HALL said he had a letter from the Mayor of Brockville which stated that they were willing to enter into any scheme to recover the money, and it was agreed that a deputation be appointed to wait upon the Government, and notify the Brockville delegates to be there the same day. The committee appointed was the Mayor and Messrs. Davidson, Cahill, E. H. D. Hall and Rutherford.

THE NEW SCHOOL TRUSTEE.

The appointment of a school trustee to fill the position resigned by Mr. Stratton next came up. Mr. A. Hall moved, seconded by Mr. E. H. D. Hall, that Mr. E. B. Edwards be appointed.

Mr. Rutherford moved in amendment, seconded by Mr. Langford, that Dr. Bruther be appointed.

The amendment was carried.

Mr. Davidson just before adjournment suggested that the town take steps to ascertain from the government who owned the lease of the submerged land along the shore of the river west of the spur line and between Dalhousie and Simcoe streets, and find out if it could not be obtained from the government by the town and filled in.

Nothing was done with the matter at this meeting, but probably at a future time the valuable suggestion will be taken up and acted upon.

GRAND OPENING

OF

GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Spring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a grevance we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

Sixteen of the Border Troubles about International Railway Cars.

WASHINGTON, May 7.—The question of exacting a duty upon every Canadian built car that enters the United States does not appear to be giving the Treasury Department a great deal of concern, although it is under consideration and is being regarded by some of the Northwestern people who are interested in it, with a good deal of anxiety. The controversy is an old one renewed. The revival of interest has been attributed to different causes, the chief of which was the alleged growing indifference of the railroad people to be governed by the international understanding that only cars used in the transportation of the international freight should be exempt from the imposition of duty.

The collectors at Detroit and Port Huron have appeared to be particularly interested in having the law strictly enforced and to secure to the Government the payment of duty on every car entering the United States. A gentleman who has been familiar with the merits of the question says that nothing would be heard of it if the Congress should repeal one little clause in the revised statutes, as follows: "Section 2646. Collectors and surveyors of the collection districts on the northern, northeastern and northwestern frontiers are authorized to keep on sale at their several offices blank manifests and clearances required for the business of their districts, and to charge the sum of 10 cents and no more for each blank, which shall be prepared and executed by them."

The importunity of the collectors to have the duty imposed on all Canadian cars, even at the risk of provoking retaliation by the Dominion Government, with possible serious interruption of the international traffic, is declared to be attributable mainly to the desire to secure the largest possible numbers of fees for the sale of blanks. It can easily be understood that the uninterrupted passage to and fro of cars that need no clearance papers, under international agreement, must, to an extent, reduce the income of the Collectors, who are never quite indifferent to compensation.

While it is probable that the Treasury officers will be required to keep a sharp lookout to see that Canadian cars are not brought into the United States to be used in the transportation of local freight, it is not at all probable that the regulations will be so applied as to destroy the trade between Canada in cars built in both countries. In connection with this, it should be stated that Senator McMillan, of Detroit, has taken a very positive stand against the imposition of the duty and is anxious that the Treasury Department shall as an early date make an order relieving the railroads in the Northwest from all doubt concerning the application of the law to strictly international traffic.

TOLD ALL HE KNEW.

Chairman Fink Describes the Grand Trunk to the U. S. Senate Committee.

NEW YORK, May 6.—The Senate committee which is to investigate the alleged ownership by Canadian corporations and capitalists of American railroads reassembled this morning at the Fifth-avenue Hotel. Maps of the railroad lines throughout the country lay before each of the members of the committee, and a map of the railroads in the Dominion of Canada hung conspicuously on a screen at the side of the room. The [illegible] present when Chairman Cullom called the committee to order were Blair of New Hampshire, Hiscock of New York, Harris of Tennessee, Gorman of Maryland and Reagan of Texas. The first witness was Commissioner Albert Fink, Chairman of the Trunk Line Association, which he explained was an association of railroads to arrange joint and competitive tariffs to secure uniformity in charges and classification and to maintain established tariffs. To a request by Chairman Cullom, Mr. Fink first described the Grand Trunk Railway and its branches as far as he knew.

In reply to a question why the Canadian roads have of late been increasing their freight business, the witness said he did not know how to account for it unless it was that they had the advantage of carrying freight by subsidized English steamship lines.

"Has the Canadian Grand Trunk line any natural advantages over American roads?"

"No, sir."

"Then why do some of the roads need differential rates?"

"In most cases because they are not first-class roads."

"Then is not the manner in which the railroad business of this country is conducted an argument in favor of the consolidation of all the various roads under one central management by the state?"

"That is what we are coming to," replied Mr. Fink, "but for the present I believe that it is better for the roads to remain under the present management."

Sudden Death of a Torontonian.

ST. THOMAS, May 6.—Mr. Thomas Hamilton of Toronto, formerly a partner with Mr. T. Alcock in the Standard Soap Works in this city, died suddenly Saturday morning at the residence of Mr. George Brown, 33 Bristol street. Mr. Hamilton has been ailing for about three weeks and accepted an invitation to spend a few days in town with Mr. Samuel Eccles, arriving here with his wife about a fortnight ago. Ten days since he left Mr. Eccles to visit Mr. Brown, his wife returning to Toronto to rent a house. Mr. Hamilton was around as usual all day Friday, returning home about 6.30 in the evening. Shortly before 4 o'clock Saturday morning he awoke Mr. Brown and complained of feeling very bad. Dr. VanDusen was sent for, but before his arrival the vital spark had fled. Death was due to heart disease. Deceased was about 60 years of age.

A Big Railway Deal.

OTTAWA, May 6.—The indications are that a big railway deal is on the tapis. The Northern Pacific and Manitoba on the one hand and the Manitoba and the Northwestern on the other are negotiating, and have been for some time past, with a view of either consolidating the two last railways into one system, or at least arranging a running and traffic agreement by which trains of either road will pass over both lines. Attorney-General Martin of Manitoba is here. He says he does not know anything about the alleged deal. Railway men here say the consolidation is sure to be brought about.

Winnipeg Wireless.

WINNIPEG, May 6.—Col. McMillan will succeed Treasurer Jones in the Greenway Government and it is announced to-night that the election will be brought on at once.

American contractors are here to put in tenders for the Morris-Brandon branch of the Northern Pacific and Manitoba and there is consequently delay in letting the work.

One hundred and thirty miles of the Regina and Long Lake Railway will be built this season, and next year the road will be pushed into Prince Albert.

Burglary at Belmont.

ST. THOMAS, May 6.—The store of Mr. William Dyer, at Belmont, was broken into one night last week and a quantity of goods stolen, about with what cash was left in the till, amounting to about $3, mostly coppers coin. The goods taken consisted of shoes and other small articles, the value of which cannot be ascertained as yet. The burglars found their way in by cutting a panel out of the front door. There is no clue so far. This is the fifth time the store has been robbed.

A Strike Settled.

PETERBORO, May 6.—The building trades strike, which involved nearly 2000 men, has been settled. Work will be resumed on all contracts to-morrow morning.

Thay Knock It Up.

The popular cathartic, and blood purifier and invigorating tonic, possessed by Dr. Pierce's Golden Medical Discovery, cannot be counterfeited even in effect. It (as they say of eating through dyspepsia) under a positive guarantee that, if given a fair trial, it will cure all diseases arising from a deranged or torpid liver, as indigestion or dyspepsia, and all humors, or blood taints, from whatever cause arising, as skin, scalp and scrofulous affections. The terms are, a benefit or cure, or money refunded.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

By Taking

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal T. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. E. Sutherland, Evangelist, Shelby City, Ky.

DR. DORENWEND'S

HAIR MAGIC.

The equal of this great preparation is yet to be found. It is an unfailing Restorer for grey hair—it stops all falling out of the hair—it removes all dandruff and keeps the scalp clean. On bald heads (if there are but the faintest traces of roots) the Magic will produce a fine growth. Will you try it? Or will you let your hair go, and become prematurely old? What do you say? All druggists everywhere have it for sale. Ask for it. Do not let the druggist tell you he has something just as good—many have dead stock of other hair tonics on hand and try to shove them off in this way.

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. To-morrow's Convent on.

This evening and to-morrow morning sixty or more delegates will arrive in town to attend the annual convention of the Grand Ontario Council, Royal Arcanum, which opens at ten o'clock in the Foresters' Hall. Mayor Stevenson will read an address of welcome to the visiting delegates at that hour, before the business of the meeting is begun. To-morrow evening a public meeting will be held in the same hall, at which addresses will be delivered by several dignitaries of the Order.

Interfered with the Police.

Last night about six o'clock James Patterson, of Fraserville, was driving home and, being under the influence of liquor, could not retain his seat upon the heavily loaded waggon. Opposite Elliott & Tierney's, on George street, he fell off his high seat to the hard road, and was bruised and cut about the head, but fortunately not seriously hurt. P. C. McGinty, seeing that the man was incapable of looking after himself, took him to the police station to sober up. On the way he was interfered with by a friend of the prisoner's, who tried to get him out of the officer's hands. He, too, was arrested and taken to the "cooler," and this morning was fined $2 and costs. Patterson was allowed to go.

Green's grocery, corner Hunter and Aylmer streets, Peterborough, including another fresh supply of that celebrated tea at 25c. per pound. Also a large stock of sugars and other groceries bought before the recent advance in prices, of which the purchasers will get the benefit. Choice butter, fresh eggs, a good assortment of apples and other fruits are always on hand, including a large stock of first class potatoes, which is now being sold at 60c. per bag, delivered to any part of the town. dw

Endeavor Society.

At the Charlotte street Methodist Endeavor Society last evening a very enjoyable evening was spent. The following programme was rendered:—Song, Mr. Cosens, "I cannot sing that Song To-night"; contributions from "The Casket" by Mr. Rowen—Trade Reports, Selected, and a very humorous original story, "He did not Like the Short Cuts"; song, Mr. A. Tebb, "There is a Green Spot Over the Hills"; reading, Mr. G. Wilson, "That Silent Girl"; song, Miss Lansdon, "That Husband of Mine." Miss Fawcett was elected chairwoman of the entertainment committee in place of Miss M. Hall, resigned. At the devotional meeting next Monday night the subject is:—"What is the Cause of our Spiritual Degeneration."

Young People's Christian Association.

Last night the lecture room of the George Street Methodist Church was well filled with young people, the occasion being the first regular prayer meeting of the association. The meeting lasted but a short time, and a large number took part. E. A. Pearson, B. A., occupied the chair and opened the discussion of the question, "What shall we do with our blindnesses?" This association bids fair to be a power for good among the large number of young people in the church. At the conclusion of the prayer meeting a business meeting was held, President Scott in the chair. A large amount of business was transacted, all evincing much interest in the discussions.

Laymen's Association.

The monthly meeting of the Laymen's Evangelical Association was held in the parlor of the Y.M.C.A. last evening. In the absence of President Cummings, Vice-President Might occupied the chair. The report of the month's work at the gaol, hospital, Nassau and other places was given and was eminently satisfactory. Rev. M. L. Pearson was present and spoke of the association's work at Nassau and of the evidences he witnessed there of the effects of a recent revival service conducted by the laymen. The people there had organized a class and had requested that he should go and administer the sacrament. He said it was the strong wish of the people there that the laymen should continue their work there. It was, however, the wish of the laymen that the George Street Church should take charge of the work there, and they would assist. Mr. Pearson promised to do as was desired. The Charlotte Street Church is requested to take charge of the appointment in Monaghan.

The Mechanics' Institute.

Twenty First Annual Meeting of the Board of Directors—Reports Read and Adopted—The New Board Elected.

The twenty first annual meeting of the Directors of the Peterborough Mechanics Institute was held last night. Mr. Robert Robertson, President, occupied the chair. There was a fair attendance.

The first business was the reading of reports, which were presented by the Directors, the Treasurer, and the Library and Class Committees. All were of a satisfactory nature, but owing to the crowded state of our columns their publication is withheld till to-morrow. The Treasurer's statement showed a balance on hand of $64.52.

THE BOARD OF DIRECTORS.

The election of officers then took place. Mr. T. A. Hay was unanimously elected President. The Board of Directors for 1889-90 will be as follows:—Doctors Brennan, Burnham and Clarke, Messrs. John Corkery, Wm. English, Jas. English, John Fraser, F. J. Lewis and Robt. Robertson.

Mr. John Corkery, the efficient secretary-treasurer, was re-elected to that position.

A vote of thanks was passed to the retiring president, Mr. Robertson, and to the retiring directors, and the board adjourned.

Ashburnham Council.

Accounts Paid—Plans of a New Village Hall Approved of—A New Town Hall Talked Over—Plans Submitted—A Temporary Look-up Agreed Upon.

The council met at 8 p.m. Present:—Mr. John Burnham, Reeve, in the chair, and Messrs. Calcutt, Tivey, Marshall and Craig. After routine the following

ACCOUNTS

were ordered to be paid:

Pay list No. 6	$ 73 60

" " 8	151 60
" " 9	22 00
Total for streets	$276 55
Charity expenditure	$ 51 20
Sundry accounts	27 00

The charity accounts included payments of two months previous to April.

The consideration of a communication from Mr. J. H. Roper, president of the Peterborough and Ashburnham Horticultural Society, asking a grant from the council was laid over till the next meeting.

Mr. Calcutt moved, seconded by Mr. J. T. Craig, that the plan of part of Block N, Ashburnham, prepared for registration by Theodore Ludgate, P.L.S., and dated 6th April, 1889, for D. W. Dumble and Wm. Fitzgerald, is hereby sanctioned and approved by this council.—Carried.

Mr. Blackwell, architect, submitted ground plans and elevation for new town hall, corner of Elizabeth and Mark streets. After being informally examined by the council, certain details modifications, were suggested, and Mr. Blackwell instructed to make the same and furnish the plans for public inspection, at Collins' shop, Elizabeth street.

Mr. Craig, chief constable, was instructed to provide a temporary look up in the old drill shed.

Council adjourned.

Our Collegiate Institute—What is the Matter?

To the Editor of the Examiner:

Dear Sir,—As a ratepayer and a father, I have an interest in the school and a growing impression that there is something wrong. I am quite satisfied both from conversation and observation, that but little is being done and that a general spirit of insubordination and unrule prevails to a very great extent. At almost any hour of the day, pupils by any one hope out playing ball or lounging about the place. It is notorious that Peterborough Institute has become a by-word not only in town but the surrounding neighborhood. The attendance is constantly decreasing, while the town is growing. Quite a number of pupils have left the school for other places of education, public or private, and many are taking lessons outside the school.

The general impression throughout is plainly an immense failure and that something is radically wrong some place. Many towns have good and efficient schools, with which the people are satisfied and of which they are proud, and these are maintained on less money than we are paying. I know I express the general wish, and I know the interests of the town demand it, when I ask the Board of Education to immediately look into and rectify this state of things. This may be a very unpleasant duty, but our children must be protected at all hazards.

Reception to Bishop O'Connor

The Pupils of the Convent Honor the New Prelate—Addresses and Music Given by the Pupils.

Monday night was a great day at the Convent of the Congregation de Notre Dame, the occasion being a reception by the pupils in honor of Rt. Rev. Richard O'Connor, D.D., Bishop of Peterborough. The hall of the convent was beautifully decorated, the walls bearing banners with inscriptions expressive of welcome, devotion and duty. The chief decorations were evergreen wreaths and festoons, a screen of evergreens broken by a large central arch flanked by two smaller ones, separating the main hall from the sloping bank of seats which held the children, clad in festal attire. In the main hall a dais had been raised for the throne of the bishop. At 8 o'clock His Lordship, accompanied by the following clergy, entered the convent and took his seat:—Rev. Father Lynch, Rev. Chancellor Redikin and Rev. Father Cotey. A duet, *d'entree*, was performed on two pianofortes, by Misses May Doherty and Aggie Sullivan and Misses Ida Mahoney and Mary Smith. The opening song of welcome was a quartette in which Misses Maggie Doherty, Jenny McCabe, Lottie McQuade and Katie Mahoney took part, as well as Miss Maggie Faubert, who rendered a contralto solo in good voice. This was followed by addresses recited by the "little ones," and to these succeeded a trio, contributed by Misses Jennie McCabe, Lottie McQuade, and Ida Mahoney, and Misses Essie Crummie, Maggie Doherty and Maud Kelly. Miss Essie Crummie next gave a recitation, and Misses Jennie McCabe and Annie Dunn a vocal duet. Miss Crummie, on behalf of the pupils, read a dutiful and loyal address to his Lordship, to which he replied in happily chosen terms. The closing song consisted of chorus and soli, the latter taken by Misses Annie Simons, Lily Jackson and Gertie Sullivan, two little bands of children, each of different ages, singing semi-choruses. His Lordship, after

WARMLY COMPLIMENTING THE PUPILS

upon the gratifying proficiency displayed during the exercises of the evening, attended by his clergy, retired.

Besides the ecclesiastics present, there were in attendance several gentlemen, the patrons of the school. The occasion was extremely gratifying to all concerned.

To-night there will be the annual musical rehearsal or review, to which all the parents of pupils are invited, and at which the medals for musical proficiency will be presented.

Presented with a Jewel.

Past President Gunn, of the Sons of England, Honored by the Brethren of Lansdowne Lodge.

Last night at the regular meeting of Lansdowne Lodge, Sons of England, Past President Thos. Gunn was presented with an address and handsome jewel. Bro. Gunn has occupied this position for the last three years, and these tokens were in recognition of his valuable services to the lodge. The address was read by President F. J. R. Mitchell and the jewel was pinned on Bro. Gunn's breast by Secretary Elcome.

Following is the address:—

Bro. Thomas Gunn:

Dear Sir and Brother,—We, the officers and members of Lansdowne Lodge, No. 25, S. O. E., have much pleasure in presenting you with a past president's jewel as a slight acknowledgment of the long and valuable services you have rendered the lodge as past president, trusting that you may long be spared to wear the same and also to give your valuable services to this lodge and the society at large.

Signed on behalf of the officers and members of Lansdowne lodge,

F. J. R. Mitchell, W.P.
E. W. Elcome, W.S.

Ambitious Ashburnham.

A New Village Hall—The Village Fathers Will Ask the People for Funds to Erect It—Description of the Proposed Structure.

As will be seen by a reference to the report in this issue of the meeting of the Ashburnham council, it has been decided to erect a new village hall, that is to say, if the people adopt the by-law to raise the funds, which is to be submitted to them.

The plans, which have been prepared by Mr. W. Blackwell, architect, call for a handsome two story brick structure. It stands on the site of the old market building and has a frontage of 76 feet on Elizabeth street and 45 on Mark street. The entrance is in the corner which is carried up in a circular form. The door admits to a vestibule 11x22, from which rise the stairs 6 feet wide to second floor, large well lighted hall 42x73 feet (with 15 feet ceiling including a committee room 16x24 feet, provided with folding doors which admit of its being thrown into the main hall which has a stage at one end.

The ground floor contains five shops each 13x42, with plate glass fronts and twelve feet ceilings. There is cellarage under the whole building and underneath the vestibule and stairs, is space for a look-up. The elevation presents a pretty and neat appearance. The Elizabeth street façade is broken vertically by pilasters with fine panels while horizontally a cornice of galvanized iron marks the dividing line between the two stores. The roof which is surmounted with cresting, is broken by gablets and in the middle a bell tower is placed thirteen feet in height, or 55 feet from the pavement. The roof will be covered with metallic shingles and the walls are to be of red brick.

Wainwright's Estate.

To day the whole estate of Mr. Robert Wainwright was sold by public auction. There was a large attendance of buyers. The estate realized as follows:—Real estate, $3,000; personal estate, $940.25. Mr. J. B. McWilliams bought the ice business and implements in connection therewith for $175, and made a present of the same to Mr. James Wainwright, eldest son of Mr. Robert Wainwright. This act of kindness on the part of Mr. McWilliams speaks volumes in his behalf, and is a most graceful and pleasing exhibition of that sympathy which everybody feels for Mr. Robert Wainwright in an adversity caused by too implicit confidence in the integrity and honesty of his fellowman. The bidding was not very brisk as most of the buyers seemed anxious to give the Wainwright family the benefit of what was going.

St. John's Vestry.

There was a good attendance at the adjourned vestry meeting of St. John's Church last night. The auditors' report was received and adopted, and Mr. J. E. Belcher was appointed on the musical committee in place of Mr. H. A. Hammond. A vote of thanks was also passed to Mr. Belcher for the design and plans of the new pulpit, furnished by him gratis.

when I will be pleased to meet all those requiring my services for the Treatment of Rupture (no matter how bad your case may be, come and I will give you relief), Club Feet, Bow Legs, Weak Legs, Spinal Diseases, and any other Deformities corrected by mechanical treatment.

Read what some of your neighbors have to say and be your own judge:—

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto.

Dear Sir,—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM,

Rupture.

Dear Sir,—I am only to inform you that the Scientific Truss you put on me last spring has been all it was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, Yours truly,

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt," is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 25 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now retiring them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 35c, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE
in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.
The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.
MOSE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.
Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.
"For the apparel oft proclaims the man."
Fine drawers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and fitters. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.
Clothing for the little men—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.
This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.
This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.
Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

PARNELL TAKES IT BACK

HE THINKS NOW THAT HE WAS MISTAKEN ON FRIDAY.

His House of Commons Speech Referred to Richardson and Was Fairly Accurate—General Cable News.

LONDON, May 7.—The Parnell Commission resumed its sittings to-day. Mr. Parnell upon taking the stand said he desired to correct that part of his evidence given Friday in relation to the statement made by him in the House of Commons concerning the non-existence of secret societies in Ireland. Upon referring to the Hansard reports of the proceedings of the House he found that his remarks which had been quoted by Attorney-General Webster referred particularly to ribbonism and not to secret organization generally. His remarks therefore were a fairly accurate statement of the facts, as ribbonism at that time practically did not exist in Ireland. The cross-examination of the witness was then resumed.

Mr. Parnell said he had not heard of 100 guineas being paid for the defence of incendiaries at the Cork Assizes in 1881. If he had been asked to make such payments he should in these days have approved of them if he had reason to believe the law was being strained against a man, but his general rule was to limit such payments as much as possible. He remembered one case in which he had sanctioned the payment of £50 say for the defence of a prisoner and the man was acquitted. In another case he reimbursed Mr. Harris, who had made himself responsible for the costs of the defence, but at the same time witness instructed Mr. Harris not to undertake in the future the defence of accused moonlighters. Mr. Parnell said he sometimes paid money from his own private account in behalf of the League. He did not object to an inspection of his accounts.

Attorney-General Webster here began a protracted examination of the witness as to his banking transactions, but failed to elicit anything tending further to implicate him upon his knowledge of General Millen and other members of the Physical Force party. Mr. Parnell declared that a majority of the members of that party were utter strangers to him. He heard that Mr. Egan had joined the Clan-na-Gael. He would regret to find that Mr. Egan had joined the Physical Force party, but he should not think such a course unnatural.

Referring to his speeches made in America, as reported in The Irish World, witness said he could not accept the reports as correct. Mr. [illegible] garbled the speeches in order to suit the tastes of the readers of The Irish World. Witness had never made this statement publicly before because it was not necessary. Resuming the cross-examination Mr. Parnell said that he considered that a person who joined the league and continued to be a member of the Clan-na-Gael acted to the injury of the league's policy. Any member of the league who would advocate the use of dynamite would be a traitor.

O'Brien and Harrington Were There.
LONDON, May 7.—Messrs. O'Brien and Harrington were present at to-day's session of the Parnell Commission.

Gone Over to the Gladstonians.
LONDON, May 7.—The annual meeting of the National Liberal Club was held to-day, 2000 members being present. A resolution was adopted rescinding a previous declaration of the club, "That owing to the divisions at present existing in the party it is not advisable for the club to be actively identified with any section of it." To-day's action is tantamount to declaring the club a Gladstonian body.

Elected a Life Member.
LONDON, May 7.—After an excited discussion Mr. Parnell was to-day elected a life member of the National Liberal Club by a large majority.

Vincent's Commercial Union Motion.
LONDON, May 7.—Mr. Howard Vincent's motion in favor of the commercial union of the British Empire was the third order of business in the House of Commons to-night, but when the House resumed at nine o'clock only 30 members were present. The House therefore adjourned, and the question has now little chance of discussion this session. The motion has been on the order paper without any action being taken upon it since the opening of the session of 1888. There seems to be a widespread feeling even among the friends of Imperial Federation that public opinion is not ripe for such a proposal, and that a premature debate would likely injure the general movement.

The Naval Defence Bill.
LONDON, May 7.—The Naval Defence Bill passed its second reading in the House of Commons to-day by a vote of 297 to 126.

Carnot Cheered.
PARIS, May 7.—President Carnot to-day received M. Eiffel, the designer and builder of the tower bearing his name, and the workmen who were engaged in its construction. All the President's visitors inscribed their names in a book provided for the purpose. Upon leaving the visitors cheered President Carnot and the republic.

A Lively Funeral.
PARIS, May 7.—The funeral of Rochefort's son-in-day was attended by MM. Lockroy, Susini, Clovis-Hughes, Laur, Herrisse, Derouche and a large number of Boulangists. The passage of a tram car occasioned a collision with the police. The car was wrecked in the fight and a number of police and other persons were injured.

Carnot Congratulated.
PARIS, May 7.—Most of the European sovereigns have congratulated President Carnot upon his escape from assassination. Berris, who fired at the President, has engaged M. Lagasette to defend him. From this it is inferred that the prisoner is a Boulangist.

Russian Suspects Expelled.
BERNE, May 7.—The Bundesrath has ordered the expulsion from Switzerland of a number of Russians suspected of being concerned in the secret manufacture of bombs at Zurich.

Proposed International Conference.
BRUSSELS, May 7.—King Leopold has proposed that an international conference be held in September to complete the work of the Congo conference at Berlin.

The Samoan Conference.
BERLIN, May 7.—At the Samoan Conference the details of the coming changes in Samoa are being debated at length, but no differences as to the principle now exist. The delegates desire the neutrality of the Islands. The Americans have achieved marked success and have impressed Prince Bismarck with their firmness and diplomacy. Prince Bismarck spoke to the commissioners to-day in English. His manner was very affable. He said he was glad to hear of the progress made by the conference.

Bismarck and the Commissioners.
BERLIN, May 7.—Prince Bismarck gave an audience to the commissioners to the Samoan conference to-day. Count Herbert Bismarck was present. The audience lasted for ¾ of an hour.

The Pilgrim Will See the Sheriff.
GUELPH, May 7.—Sheriff McKim and John Runyan of the City Hotel had a tiff on Monday night in the Royal Hotel over a $100 bond, in which considerable insulting and insulting language was indulged in. The sheriff was to be database, called in the police force and Runyan was taken in charge. He was let go on promising to put in an appearance at the Police Court to-day. The case was by and Runyan was discharged. He now intends suing the sheriff for false arrest.

INGERSOLL NEWS.

Annual Meeting of the Cheese Association —Good Prospects.

INGERSOLL, May 7.—The annual meeting of the members of the Ingersoll Cheese Association was held in the council chamber this afternoon at two o'clock. A very large number were in attendance. Mr. E. Caswell, the oldest cheese exporter in the province, was unanimously elected chairman. The following board of directors were elected for the ensuing year: Messrs. Fewster, Galloway, Caswell, Nunneskivell, Fulton and Patterson; Treasurer, Geo. Galloway. The old auditors, Thomas Mayberry and Thomas Winders, were re-elected.

A resolution was passed thanking the council for their very liberal donation of $150 to the board. It was also passed at a subsequent meeting of the board of directors that all members must pay $5, their annual dues, before the first of June in order to entitle them to receive the cash prizes.

W. R. Smith, the cheese maker, will be retained secretary for the ensuing year. From the present prospects a larger number of factories will offer their cheese for sale here than have done so for a number of years.

The Removal Railway Bond—Meeting of the Royal Society—The Railway Committee's Busy Day.

OTTAWA, May 7.—The impression seems to gain force here that Mr. Haggart, Postmaster-General, will be removed from the sphere of Railways and Canals. Senator Abbott, if not otherwise barred from accepting the office as a Canadian Pacific Railway director, is altogether unwilling to undertake an office the duties of which would require his constant presence at the Capital. It is much more probable that the locale of the Senate will undertake the duties relinquished by Mr. Haggart, and there is no doubt that in every sense he would be a most acceptable substitute. In this case there will be no necessity for Mr. Abbott to leave the Senate, and his presence at Ottawa would not be required with the regularity and frequency that the other department would entail.

The Northern Pacific head officers were closeted all day yesterday with the directors of the Northwest Central Railway, with the view of purchasing the road. Captain Murray, one of the leading directors of the Central, was telegraphed for yesterday and arrived here this morning.

The Royal Society met to-day in one of the committee rooms of the House of Commons and adopted the annual report. The Society presented an address to Lord Stanley this afternoon.

It was a busy day before the Railway Committee of the Privy Council to-day. The members of the committee present were Sir John Macdonald, Sir A. P. Caron, Sir Hector Langevin, Hon. John Carling and Sir John Thompson.

The first case taken up was the application of the Grand Trunk to build a cross from their line as the town of Chatham so as to reach the wharves on the river front. Objection was taken on the ground that it would interfere with private property and also with the streets, to the detriment of the town. The company's solicitor, Mr. Bell, argued that they did not come under the Railway Act. The question for the committee to decide was: Is it in the public interest that it should be built? The company would have to decide with private property holders afterwards. After delegations were here, both [illegible] against, the company took the matter into consideration.

The next application was that of the Grand Trunk to build a spur from a point on their main line round by the Beach to reach the Hamilton and Northwestern. The application stands over.

The Dominion Statistician, Mr. George Johnson, speaking to a reporter on the matter in which Mr. Erastus Wiman compared the progress of Canada with that of the United States in his lecture here on Saturday evening last, said the lecturer took it for granted that the Dominion had not made the same advance in respect of population as her neighbor. This statement was not proven by the fact that the Dominion had 560,000 people in 1818. The United States in that same year had 7,250,000. Canada has increased six times, the United States but nine times. Had the United States increased their population as rapidly as the Dominion of Canada they would now have 72,500,000 instead of the 65,000,000 Mr. Wiman claimed for them.

The Supreme Court met to-day and only sat for a few minutes. This was owing to the first cause on the list being withdrawn and the counsel for the others not being present. The court meets again to-morrow.

Messrs. McKay & Co.'s flour mills, one of the largest in Central Canada, have suspended operations owing to the high price of wheat. Ald. Funeral of Eleven of the Victims of the Disaster at the "Y."

HAMILTON, May 7.—The funeral of the unidentified bodies of the disaster at the "Y" took place this afternoon. Out of respect for the unknown dead many of the places of business throughout the city were closed as the hour of the funeral and flags were flying at half mast. Thousands of citizens viewed the procession. The authorities of the Grand Trunk Railway made all the necessary arrangements.

The funeral services were conducted by Rev. S. Lyle, Central Presbyterian Church; Rev. John Merton, Congregational Church; Rev. Geo. A. Ferguson, All Saints' Church; Rev. R. G. Boville, James-street Baptist Church; and Rev J. S. Ross, Centenary Church. Rev. Father Hennan, Vicar-General, and Rev. Father McAvay attended the funeral in their own conveyance. A large body of police, all that could be spared from station and street duty, attended on foot under Chief MacKinnon. There were two sets of pallbearers, one from the Grand Trunk Railway and one from the City Council. Hundreds of people followed in cabs and private conveyances and went to the cemetery, where the last sad rites were performed.

The eleven caskets were deposited side by side in one large grave. They were so arranged that there will be six inches of earth between them. The plot is in the city burying ground, midway between the two large gates, and beautifully situated down a slight slope to the south, near a huge spreading apple tree.

This morning two gentlemen from Toronto, Messrs. Leslie, came to the city and viewed the remains. One of them, Mr. George Leslie, stated that his brother, Mr. John Leslie of Toronto, was missing and was supposed to have been on the train. They could not identify any of the remains. The gentlemen went to the Superintendent's office and looked through the personal effects here. They discovered a match box which was exactly similar to one carried by Mr. John Leslie.

Mr. W. H. Hunter, of Aneaster, viewed the remains this morning in search of traces for the identification of his sister, Mrs. Mary Smith of San Francisco, Cal., and of her two children, girls of 14 and 6 years of age. There is little doubt that Mrs. Smith and her two children are among the dead.

AGAIN THE INSTITUTE!

Is the Chief Subject of Discussion by the School Board.

The Collegiate Institute Management Overhauled—Another By-Law to be Submitted to the People—$20,000 to be Borrowed for Public School Purposes—Work to be Soon Begun on the South Ward School.

There were present at the meeting of the School Board Tuesday evening Mr. Jas. Stevenson, chairman, and Messrs. English, Kendry, Weir, Wrighton, McWilliams, Hamilton, Deane, O'Meara, Hughes, Dumble and Rutherford.

Mr. J. H. Long addressed the board re an account for $17.35, for desk bells, rules, etc., for the gymnasium, supplied by Messrs. Ingelis and Lisle. On motion of Mr. Dumble, seconded by Mr. Weir, the account was ordered to be paid.

A communication was read from Town Clerk Macdonald, notifying the board of the appointment of Dr. Beemer school trustee.

A report of Geo. C. Robb, chief engineer, of his inspection of the steam boiler of the Collegiate Institute, was received.

The following fees for the term were reported:—Collegiate Institute, $577.50; public schools, $7.75.

The following reports of school attendance during April were read:

	No. on Roll.	Ave. Att.
Collegiate Institute	—	127
Central school	324	282
South Ward school	223	197
West Ward school	305	255

THE SOUTH WARD SCHOOL.

Mr. STERLING, principal of the south ward school, suggested that during the time of the repairs about to be made to the school the hours for study be from eight to one o'clock.

There was some discussion as to when the improvements should be begun, and the contemplated improvements that should be made to be borrowed and the work began at once, in order to have the school as near completion as possible at the close of the summer holidays.

Mr. HUGHES recounted the experiences of a trip of a deputation composed of Messrs. Rutherford, English, Weir and himself to Toronto to inspect the Smead-Dowd system of heating. He said the committee unanimously approved of it, and for himself he could say he never saw anything to equal it for heating, ventilation and closets. The only possible objection was that the system was an expensive one.

THE SCHOOL BOARD.

Mr. DEANE stated that there were a number of complaints of children attending the central school who lived outside the limits for that school. He understood they were doing so on a permit from the chairman.

Mr. STEVENSON replied that in one single instance a child who could not attend the school had come to him, and after consulting other members of the Board, for good reasons he had given the child a permit.

Mr. Hughes said he believed there were children who should attend the west ward school going to the south ward school, and vice versa.

BORROWING MONEY.

Mr. Kendry moved, seconded by Mr. Dumble, that the chairman and secretary of the Board be and are hereby authorized to borrow from the Ontario Bank the sum of $20,000 for the use of this Board, for the current year, and that they are hereby authorized to make and sign such notes as may be necessary for the purpose; that this resolution shall have the effect of a bylaw and that the corporate seal be attached to this resolution and that the same be signed by the Chairman and Secretary of this Board.

Mr. Dumble explained that some twelve or fourteen thousand dollars would be wanted for ordinary school purposes, and this with the ten thousand dollars to be raised for the public schools would make up the $25,000 provided for in the by-law.

The motion was carried.

GETTING DOWN TO WORK.

Moved by Mr. Dumble, seconded by Mr. Kendry, that the building committee be and are hereby authorized to advertise for tenders for the erection of the south and north ward public schools; that immediately on receipt of the tenders they call a special meeting and report to this Board.—Carried.

Moved by Mr. English, seconded by Mr. Stephen, that Mrs. Sarah Drake receive four dollars per month for cleaning Adelaide school during the time it is occupied for school purposes.—Carried.

THE CHAIRMAN'S SUSPICIOUS BY-LAW.

The CHAIRMAN, speaking of the defeat of the Collegiate Institute by-law, said he believed it was because the people did not take the trouble to vote for it, for it was his opinion that the majority were in favor of it.

Mr. DUMBLE thought the press had been derelict in its duty in undertaking a silence on this subject, and as no information had been given the public and no public meetings were held the people naturally viewed it with suspicion. He would like to have the town council asked to have the by-law again presented.

Mr. WRIGHTON did not think any such thing should be done.

Mr. MCWILLIAMS suggested that the county council might be got to give them a suitable site behind the court house.

Mr. DUMBLE said if people understood the value of the Maurice property they would not say anything against it. He advocated it simply because he believed it would be a good financial investment. He thought that if the property was bought at $10,000 the building itself would be covered for almost nothing, for he was satisfied the land alone would bring $8,000. It was a good site for a school, far better than forcing pupils to climb a hill.

Mr. STEVENSON said he was of the same opinion as Mr. Dumble; the property would be made into one of the best school premises in Canada.

Mr. WEIR said he believed the by-law was defeated because the majority of the people thought this building belonged to the Collegiate Institute and they thought it good enough; but when they were told that this building was rented from the common school board they were surprised and wanted to know why things were not explained to them.

Mr. WRIGHTON did not think the Maurice property would only be a school if the old building was preserved it would deter the town from ever putting up first-class buildings.

Mr. MCWILLIAMS proposed that the town papers were asked to discuss this question, a public meeting be called to give information to the ratepayers.

Mr. HUGHES moved, seconded by Mr. MCWILLIAMS,—That the council be respectfully requested to present a by-law to take $20,000 for the purchase of land and erecting thereon a Collegiate Institute.

Mr. WRIGHTON objected. The by-law had already been defeated, and in any case $20,000 was not enough.

The motion was put and declared carried. The yeas and nays were taken as follows:—Yeas—Messrs. O'Meara, English, Weir, Kendry, McWilliams and Dumble; Nays—Messrs. Deane, Rutherford, Wrighton and Hughes.

THE INSTITUTE MANAGEMENT.

Mr. MCWILLIAMS said he saw a letter in an evening paper complaining of the management of the Collegiate Institute. He would like to know if the statements were true.

Mr. DUMBLE said they all recognized the evils which had cropped out in the paper. The Peterborough Collegiate Institute had a name, but it was only a name. The school was not now a success, and he thought the blame was largely due to the action of the Board itself. They did not give the committee power enough to make proper appointments. There was demoralization in the schools, and cramming by some of the teachers; whiskey was brought right into the grounds by the pupils. The principal he held was incompetent for the position, and there was one other teacher who was not fit to be in the school. The duty of the Board was plain; and if they had to send every teacher out of the school in order to bring it up to the proper standard, it should be done. The Board had shirked its duty long enough. The newspaper article expressed the feeling of a great number of the ratepayers. He had first intended to move that the matter be referred to a committee but he was prepared to go further and demand the resignation of two teachers at the end of the present term. It was for the Board to say which course should be taken.

Mr. DEANE said the committee might also take into consideration the complaints against the other schools.

After a little discussion the following motion was adopted:—Moved by Mr Dumble, seconded by Mr. McWilliams, that the condition of the Collegiate Institute be referred to a committee with authority to make a searching investigation and report at the next regular meeting of this Board; the committee to consist of the following:—Messrs. English, Hamilton, Dr. Burnham, McWilliams, O'Meara and the mover.

TO BE RE-SUBMITTED.

Moved by Mr. DUMBLE, seconded by Mr. WEIR,—That Messrs. O'Meara, Hamilton, English and the mover be a committee to wait on the town council and urge the re-submitting of the Collegiate Institute by-law.

Mr. RUTHERFORD said he did not believe in buying the Maurice property, because it was not fitted for such a purpose.

The motion was carried and the board adjourned.

Further Great Cures of Skin Diseases by the Cuticura Remedies.

Boy one Year and a Half Old. Face and Body in a Terrible Condition, being Covered with Sores. Sulphur Springs fail. Cured by Cuticura Remedies.

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy two years and a half old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to Sulphur Springs, but he did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one half bottles of CUTICURA RESOLVENT, when the skin began to smoothen and heal, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAP in washing him. He is now five years of age and all right. The other case was a disease of the scalp, which was cured by washing with the CUTICURA SOAP and rubbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. They have proved themselves in every case where I have advised the use of them. It is surprising how readily a child will improve under their treatment. I recommend them for any disease of the skin or scalp to those in the world. This is my testimony, and I am ready to stand by my statement. JOHN H. REED, American House, Hagerstown, N.Y.

An Unbearable Skin Disease Cured.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was one solid crust, and the nervous irritation and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended, I concluded to give them a trial, using the CUTICURA and CUTICURA SOAP externally, and the RESOLVENT internally for four months. I call myself cured, in gratitude for which I make this public statement.

GRAND OPENING

OF

GOUGHS' GREAT HAT and CAP DEPARTMENT

During the past month our Store has been undergoing extensive alterations, and now with pardonable pride, we have much pleasure in announcing that the Store is one of the Finest in Canada. Our aim has been to clothe a man or boy from head to foot, and we have been adding department after department until we have reached the goal of our ambition. Our last Great Department, namely, HATS and CAPS, is now open, and we are showing the Latest Styles from London, New York and Paris. We will not enlarge on the prices these Goods will be sold at, suffice to say,—they will simply astonish our patrons. Remember our Great HAT and CAP DEPARTMENT is now open.

A WORD ABOUT OUR CLOTHING DEPARTMENT, THIS SPRING:

Never in the history of the trade has such an Array of Fine Clothing been placed before a buying public. Our Stock this Saring embraces all the LATEST DESIGNS and PATTERNS, and as they were made under our own special supervision, the workmanship is of a SUPERIOR quality. Notwithstanding all this our prices will be found LOWER than ever. When we came to you as the Revolutionizers of the Clothing Trade, we promised you then that we would benefit the public, and now after a long trial have we kept our word? If so, let that be our best guarantee to the public, that we deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please every one, (our Divine Master when on earth did not please everyone) still to those who we did not please, as well as those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes and our judgment like any human being's may err in buying. Still we try to avoid errors, as much as possible, and therefore it is our proud boast when anyone has a greviance we never refused to make it right when brought to our notice. This spring we are going to REDOUBLE OUR ENERGIES, and by keeping GOOD GOODS, NICE GOODS, SQUARE DEALING, and EXTREMELY LOW PRICES, we hope to merit a Continuance of your Generous Patronage.

By HON. MRS. PETHERSTONHAUGH.

PART I.

WELL, it's my last chance of pulling through, mother, so there's no use hesitating about it; all your life you have been urging me to marry an heiress, and now that I want to do so, you make moan over it as if I were bringing utter disgrace on the whole family!"

And Lord Francis Eridon, the impecunious younger son of a defunct Scotch peer, threw the morning paper down on the breakfast table with most unnecessary violence, as he rose from his chair and took up a commanding position on the hearthrug, the better to face his lady mother and all her expected remonstrances.

The Dowager Countess of Knottingham was tree-grande dame, that all the world realized, for was she not born a Pendragon of Tintagel, a family which claimed to have lived for many generations before ever the Norman laid the Saxon low? And as if it were not hard enough to know that her eldest son was a confirmed old bachelor, with a mania for moths, here was her favorite child, her Benjamin, threatening to sully the family escutcheon by a contemplated matrimonial alliance with a simple manufacturer's daughter, to whose children the time honored title of Knottingham must in all probability descend.

The great [illegible] breakfast room at Eridon house was a perfect blaze of warmth and sunshine on this bright September morning, but the faces of both mother and son were clouded and dark, and the barometer stood obviously at "stormy."

"If her father had only been in some decent trade, I should not have minded half so much," observed the irate dowager, after a melancholy pause. "But I must say, my dear Francis, I do draw the line at buttons!"

"Well, mother, it's not to be denied that the great firm of Harding, Metal & Co. did make their money by the manufacture of those useful little articles, but I don't see what that matters! A button 'rampant' will make a nice change in the family arms, with their endless dragons and wyverns!" And a smile of hazy amusement crossed Lord Francis' well bred face as he glanced mischievously at his agitated parent.

"Now look here, my dear mother," he continued with sudden gravity, "let us face the whole position quietly, and then I think you will very likely come round to my opinion without another word. It's a novelty to you to hear that I am hard up, for I never was anything else so long as I can remember, but as yet my impecuniosity has been merely steady and chronic. Now, however, a crisis has arrived, and it simply comes to this —I can't go on any longer! I knew that Knottingham can't afford to do more for me than he has done, and I won't take another penny of yours—I've robbed you both enough as it is. But money I must have, by hook or by crook, and all I ask you is: to help me procure it by what seems the most feasible way! This daughter of old Harding the millionaire is the daughter of one of your oldest friends, no matter whether the latter married a button manufacturer or a king; therefore it is easy enough for you to ask her to come and stay here for a bit, and as she has neither father nor mother to consult, and has seldom left her dreary home amongst the smoky factory chimneys of the Black Country, it's easy also to [illegible] she will very gladly accept your invitation, you know."

"No, it's not all," moaned the dowager, refusing to be comforted. "Next week is just the very last in which I should like to ask any questionable person to the house, when you know well how particular our Aunt Doldrum is with regard to whom she meets!"

A stern look passed over Lord Francis Eridon's face, making him appear ten years older than had been the case five minutes before, as he said decisively:

"Mother, the woman I consider fit to be my wife is surely fit for even the dowager duchess of Doldrum's society! If all reports concerning her grace in days gone by are true, the 'unfitness' lies more on my great aunt's side than on that of this young girl."

Lady Knottingham kept a severe silence. Perhaps there was more truth in her son's words than it was well to own, for the high born ladies of the house of Pendragon had been more remarkable in times past for beauty of person than rigidity of virtue.

"One more reason I wish to urge against asking Miss Harding here next week is, that Laura Fairfax will be with us then," and a tinge of aristocratic spite was apparent in her ladyship's tones as she spoke.

Lord Francis' brows contracted with a look of deep vexation, but he looked his mother straight in the face with his keen dark eyes before which her own sank, as he said:

"All the more reason for her to come then, mother, I should say. It's as well to make sure that one really has lived down the follies of one's youth before asking some one else to share the wisdom of one's middle age," and Lord Francis' careless laugh told how easily his thirty-five years' rest on him, in spite of debts, duns and difficulties.

"Well, my dear, if it must be, it must." Lady Knottingham was never very long in coming round to any idea entertained by this son of her heart. "I'll write to Miss Harding at once, if you wish it; and, oh! my dear boy, how I trust and pray she may prove even in the remotest degree worthy of you!"

"Worthy of me!" re-echoed Francis Eridon in bitter sarcasm. "You had better pray that she may never discover how unworthy I am of her, mother."

"You underrate yourself, my son."

"Do I? Is it a thing to be proud of to sell oneself for an heiress' money bags? to wish to rob a girl who at least has never done one any harm, of every chance in life of being married for sake of what she is, not for sake of what she has got? No, it will be a very one sided bargain, mother; so keep all your pity for her, poor girl, if ever she marries me!"

And Lord Francis walked abruptly across the room and out at the door, with an [illegible] bang of the latter, which caused the dowager countess of Knottingham to jump in her chair in a manner the reverse of dignified.

"Certainly his affairs must have taken a most vexatious turn, poor boy," she murmured quite meekly. "And so I'll e'en do my best to secure this girl's money for him, but oh! if only it had not been Laura!"

* * * * * *

A week later, and the hour 8 p. m., saw what the local county paper called "a large and aristocratic company" assembled before dinner in the long tapestry hung drawing room of Eridon house.

Lady Knottingham was moving amongst her guests with urbane and [illegible] trying hard to conceal by the warmth of her own manner the [illegible]

[illegible] world coldness of her eldest son's, the actual lord of the domain. After submitting with ill grace to one or two necessary introductions to people who were there as his own own guests, Lord Knottingham had subsided sullenly into a dark corner far away from every one, only wishing from the bottom of his weak heart and mind that he had the nerve to get up and run away, turning his back on them all sans cerémonie.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal T. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. E. Sutherland, Evangelist, Shelby City, Ky.

WHERE CREDIT BELONGS.

We have frequently and still receive from those who heard Rev. Canon Dumoulin's address in St. John's, warm commendations for the completeness and literal correctness of the report as published in the EXAMINER. WET DRILL.

Last night the members of the Fire Brigade were called out for "dry drill," but after turning out it was decided to hold a wet drill. Four hydrants were tapped and three streams of water were seen laying the dust on the market square and George street, while the other was utilized for a little while in dispersing a couple of fighting dogs. Several lengths of hose were burst, but the remainder satisfactorily stood the test of high pressure water. There was a race for time between the hose cart and hose wagon; both made good time.

A VICTORIA RINK.

Our Hamlenore correspondent writes:—On Saturday evening as Mrs. Wm. Crough was passing through the basement carrying her breakfast, she was knocked by a rum, which knocked her down and broke her leg above the ankle. Fearing for the safety of the child, Mrs. Crough attempted to rise, when the rum again struck her and re-fractured the same leg below the knee. They were finally rescued from their perilous position with the assistance of the blind girl, who was also attacked by the rum, but not severely injured. Mrs. Crough is now under the care of Dr. McGrath, but her injuries are so severe, it will be some time before she can be about again.

Mr. Little will place a competent man in charge of the studio and conduct the business in his own name. Mr. McFadden has bought some property in Toronto and intends becoming a permanent resident of the Queen city. His removal from town will be regretted by his many friends, for Mr. McFadden was ever an industrious and upright citizen, and has done more perhaps than any single man in Peterborough to advance the cause of Christianity, in his own peculiar way.

VOLUNTEERS WANTED.

We learn that the Brigade Camp will take place near Kingston during the last two weeks of June. It will consist of two brigades from the third and fourth military districts respectively, composed of some 2,000 men. The Peterborough cavalry troop requires about a dozen recruits to fill up their ranks, which offers a rare opportunity for young farmers, to whom ten days' drill, with a change of scene and work, after spring seeding and before haying commences, would be beneficial, with ample remuneration ($1.00 per day for men and horse and found).

A GREAT ATTRACTION.

Mr. Robert Harper, of London, Eng., has been engaged at large expense to give his superbly illustrated lecture, "Ireland and its Evictions," now presented for the first time in this country. He will appear at the opera house, Peterborough, on Tuesday, May 14th. Mr. Harper recently made a special tour of Ireland (with all parts of which he was already familiar) for the purpose of bringing his facts down to a very recent date. This lecture will be illustrated in the same superb manner as all his other lectures, and during the evening he will describe graphically and show numerous views of the recent evictions. It will be found of intense interest. 14

DID THEY MEAN IT?

The story goes that on Sunday two members of the Leyman's Evangelical Association were appointed to visit the jail and hold religious services among the prisoners. One of the laymen was a Bible lads, and when he arrived found the door locked and his entrance leading the prisoners in the song, well known in connection with Crossley and Hunter's meetings, "It is good to be here; it is good for us, Lord, to be here." The absurdity of the situation was too much for him, and wherever he tells the story it creates plenty of amusement. The prisoners did not just mean what they sang, though perhaps the majority of law-abiding citizens will agree that it was quite appropriate.

SPANISH STUDENTS.

A not very large but select audience assembled in Bradburn's Opera House Tuesday night to listen to the Spanish Students. Their performance was peculiar, the mandolin and guitar and the traditional castanets and tambourine predominating. Their several members were warmly received by the audience, many of them being encored. Their music was of high order and faultlessly performed in tone, tempo and expression. Madam Anna Rowes Hernandez was accompanist, and her pianoforte "Scotch Fantasie," gave the audience the enjoyment of perhaps as good a performance as was ever given in the opera house, and worthy of the encore it received. The humourisms of Prof. Byerson were very taking and well received, his facial contemporaneous were very good, but the tendency to low comedy, and the flavor of Spanish chestnuts that hung round many of his jokes, might have been omitted, with advantage. On the whole the Spanish Students gave a delightful and unique performance, and the public have to thank the P. A. A. A. for a very pleasant evening.

Mr. Principal Long's Rejoinder.

To the Editor of the Examiner:—

SIR,—Your issue of this evening contains a letter, signed "Pater Familias," upon the Collegiate Institute.

In reply to this letter I beg leave to say:

1. The statement that "but little is being done, and that a general spirit of insubordination and misrule prevails to a very great extent" is a falsehood. The classes for examinations are working well, and the discipline and order are good.

2. The pupils, girls and boys, are required by government regulations to drill and to practice gymnastics. Every form spends at this exercise two spaces of forty-five minutes each a week. As our gymnasium is, unfortunately, separated from the school building, the pupils must pass outside in order to reach the gymnasium. Were the drill room and gymnasium in the school building, the pupils would not be seen outside. Again, it must be remembered that there are, in addition to our pupils, but in the same and in the adjoining building, several hundred children of the public school; and these children are entitled, under certain conditions, to use the gymnasium.

3. The assertion that the attendance is "constantly decreasing," is misleading. The attendances in every Collegiate Institute necessarily diminishes as midsummer approaches. We have, however, about 150 pupils, a very respectable number.

This number would, as I have often urged, be much larger were the fee for Ashburnham and the county smaller.

How can a school which charges two dollars and a half a month compete with surrounding schools which charge very low fees, or no fees at all? The cry last year was that there were too many pupils, and individual pupils were neglected. "Pater Familias" now complains that there are too few.

4. As to "the general department" referred to by your correspondent, I know that I am correct in saying that the pupils have improved, and improved greatly, in gentlemanly bearing and in what is far more valuable, honour, during the last two or three years.

Before closing I may repeat *what is so well known*, namely, that our Institute labors under great disadvantages. High fees, a poorly equipped gymnasium, defective school buildings, proximity to hundreds of pupils attending another school, numerous changes in the staff—surely it cannot be a wonder that under such circumstances we have not done as well as we might have wished. Yet, at the last midsummer examination we had a very creditable record. Further, Mr. Hodgson, the Inspector gave us in his last report the highest marks for order and management; and he has, unsolicited, expressed to me since then his perfect satisfaction with the working of the school. And further, there have been introduced, during the past two years, the following new and, I believe, useful features:—Gymnastics and calisthenics, drill (we have a uniformed corps of girls, and a corps of boys with uniformed officers), a literary society, and printed monthly reports.

I shall be happy to meet your correspondent at the Trustee Board, where, and not in newspapers, matters of this kind should be discussed. I shall be happy, also, to adopt any reasonable measures of improvement. At any rate, the Inspector will soon be here, and we shall then have a correct statement of what the Institute is doing.

I am, sir,

Respectfully, yours,
J. H. LONG.
Principal.

Peterborough, May 7th, 1889.

P.S.—I may say that almost all, if not all, the pupils who have gone elsewhere for study—and the number is very small—have done so for personal reasons. Their leaving had nothing to do with myself or with the general management of the school.

ADDRESSES OF WELCOME.

Mr. James Stevenson, M.P., Mayor of Peterborough, accompanied by Messrs. Councillors R. S. Davidson, E. H. D. Hall and Thos Kelly, presented the following address of welcome on behalf of the corporation:—

To the Grand Council of the Royal Arcanum:—

GENTLEMEN,—In my representative capacity as Mayor of the Town of Peterborough, it is my pleasant duty to extend to you a cordial welcome to the town of Peterborough, which, I beg to assure you, appreciates the compliment implied by the presence, within its precincts, of the Grand Council of so important a body as the Royal Arcanum.

I have not the honour of being a member of your Society, yet from what I have read, seen, and learned otherwise, it is an organization which appeals to the sympathy of every person who has a proper regard for an institution with such admirable aims and objects and with such admirable means of attaining both.

On behalf of the citizens generally, I beg to extend to you the freedom of the town; and assure you that my best personal as well as official efforts shall be enlisted in the task of making your stay pleasant, and am sure I shall therein receive the hearty co-operation of our citizens personally.

I have every reason to hope that at the conclusion of your business deliberations, which I trust will be of the most successful character, you will feel that in welcoming you in the name of the citizens I am employing no mere conventional formality, and that your reminiscences of the present Town of Peterborough will suggest only pleasant recollections.

Permit me gentlemen of this Grand Council to ask your acceptance, at the hands of its Mayor, of the hospitalities and freedom of the Town of Peterborough during your stay within its borders.

Dated this 8th May, 1889.

(S'd) JAS. STEVENSON,
Mayor.

The Grand Regent on behalf of the assembled Council, accepted the welcome so warmly and gracefully extended and referred in complimentary terms to the town, touching upon its commercial importance, the beauty of its situation and appearance, the solidity and elegance of its business and residential structures, which were a reflex of the push, energy and enterprise of the citizens.

Mr. J. R. STRATTON, M.P.P., as representative of the West Riding of Peterborough, in response to repeated calls, confirmed the welcome of Mayor Stevenson and endorsed the sentiments expressed in the address, read by him.

THE LOCAL COUNCIL'S GREETING.

Mr. R. E. WOOD, County Crown Attorney, supported by Messrs. B. Shortly and D. Bellegham, then read the following address from the local Council, No. 735:—

To the Grand Council, Royal Arcanum, in the Province of Ontario:

BRETHREN,—It is with sincere brotherly affection that the members of Peterborough Council, No. 735, bid you welcome to this the fourth convocation of this Grand Council.

The objects and principles of the Royal Arcanum are truly such as to command the attention and respect of all who make themselves acquainted therewith, and who understand and appreciate the virtues their application implies.

The distribution within the last twelve month of over two millions of dollars, and of over eleven millions within the last twelve years, among the widows and orphans of our deceased brethren speaks eloquently of the grand and noble work of benevolence carried on under the supervision of our Supreme Council.

The increase of nine thousand in our membership, during the year 1888, gives ample proof that our system, founded in integrity and justice, needs only be known to be appreciated.

The strict adherence to fraternal union observed in all our communications, can only result in a continuance of that energy which has thus far contributed so largely in the building up of strong bulwarks around our brotherhood, which will doubtless enable it to resist the destroying hand of time.

We again extend to you our warmest welcome and hospitality, and venture to express the confidence that your deliberations will result in the development of still greater zeal, and that the future of the Royal Arcanum, both in the Supreme and Subordinate Councils, will be marked with such prosperity as will eclipse even the magnificent record of the past.

Dated at Peterborough, this 8th day of May, 1889.

Yours in V. M. C.,
(S'd) R. SHORTLY,
(S'd) F. J. JAMESON, Regent.
Secretary.

THE GRAND REGENT replied in most felicitous terms, elaborating a statement of the growth, prosperity, influence, and beneficial functions of the Royal Arcanum Order. He wished the local council the largest measure of success and trusted that within a brief period it would be one of the most numerous important and prosperous subordinate councils in Ontario.

ORDER OF BUSINESS.

Grand Supreme Treasurer Skinner then addressed the council, giving interesting details of the growth, prosperity, benefits and immense capacity for good, inherent in the Royal Arcanum.

The morning was chiefly occupied in confirming credentials, the presentation of reports, &c., and the Grand Council adjourned for luncheon.

Content of the Reports Presented at Monday Night's Meeting.

SUBSCRIPTION'S REPORT.

After routine the Secretary, Mr. Corbett, read the report of the Board of Directors, as follows:

The Board of Directors beg to submit for the consideration of the members, the following report for the year ending April 30th, 1889:

As the Institute was established in the year 1868, this is the twenty-first annual meeting, and the Peterborough Mechanics' Institute may be said to have come of age. During the 21 years it has been in operation, while it has had its ups and downs like other institutions, it has on the whole made fair progress, and, as your Directors believe, has been the means of doing good to many connected with it during that period.

To show that there has been reasonable progress, according to the first annual report the number of volumes owned by the Institute was 351; they now number 5,172; the number of volumes issued was 262; for the year just closed the number issued was 7,889; and the membership has increased from 139 to 292.

Although the past year has not been noted for briskness in trade, yet the last into has made some advance over the preceding year in the number of members and amount of subscriptions received.

The reading room has been supplied with several new magazines periodicals and newspapers, and parents will be doing a lasting good to their children, and merchants and others to their employees, by presenting them with tickets entitling them to the privilege of the library and reading rooms.

A class in machine drawing taught by Mr. A. McCallum (draughtsman for the Wm. Hamilton Co.,) was held during the winter and 21 joined. It was fairly successful, and would have been still more so had the attendance been as regular as it should have been. Ten members competed in the examination required by Government, and we trust that most of them will succeed in obtaining certificates.

One of those who tried the examination last year, obtained a certificate from the Education Department which entitles him to teach drawing.

The financial statement and report of the Library and Class Committees are herewith appended.

All of which is respectfully solicited.

R. ROBERTSON, President. JOHN CORBETT, Sec.-Treas.

THE LIBRARY.

The following is the report of the Library Committee:—

To the President Peterborough Mechanics' Institute.

SIR,—Your Library Committee beg to report that 196 volumes have been added to the library since the last annual report at a cost of $341.05 and classified as under:—

	Vols.	Value.
Biography	8	$15 45
Essays and lectures	12	24 10
Fiction	49	97 80
History	7	20 15
Reference works	27	88 75
Natural history	1	90
Standard works	16	14 75
Sundries	27	27 30
Poetry	1	1 00
Periodicals	3	5 30
Religious works	3	3 15
Science and art	17	41 00
Voyages and travel	25	50 05
	196	$341 05

Included in the above number are the following volumes presented to the Institute:—By Col. H. C. Rogers—a Cyclopedia of Canadian Biography; by Hon. Wade, Esq., Secretary Agricultural and Arts Association—9 vols. Canada Shorthorn Herd Book, and 3 vols. British Canada Shorthorn Herd Book; by Jas. Stevenson, Esq., M.P.—5 vols. Transactions of the Royal Society of Canada.

The reference library, already "strong," has been increased by the addition of several valuable works, including Appleton's Cyclopedia of American Biography, in six vols.

The library has been improved by the addition of some shelving during the winter, which will permit of a better arrangement of the books, and of adding to their number.

The number of members on 1st May was 292.

The number of volumes issued during the year was 7,580, classified as under:—

Biography	392
Essays	741
Fiction	3,822
History	226
General literature	1,796
Miscellaneous	1,215
Poetry and drama	47
Periodicals	161
Religious works	50
Science and art	332
Voyages and travel	439
Total	7,580

This total is about the same as last year. There has been an increase in the issue in the following classes:—Biography, essays, fiction, history, periodicals and voyages and travel. In the other classes the number issued was about the same or slightly less than last year.

Your committee has pleasure in reporting that the librarian has continued to fill his duties to the entire satisfaction as heretofore.

All of which is respectfully submitted,

F. J. LEWIS,
Chairman.

THE CLASSES.

The report of the Class Committee was as follows:—

To the President and Members of the Peterborough Mechanics' Institute:—

GENTLEMEN,—Your Class Committee beg leave to report that during the past winter a class in mechanical and freehand drawing has been conducted by Mr. McCallum. Twenty-one members were on the roll, of whom sixteen took mechanical drawing, two boiler making and two freehand drawing. Sixteen of these made an average attendance of twenty lessons, this being the condition under which the Government grant is obtained. On Monday evening last the examination was held, ten students presenting themselves, eight in mechanical drawing and two freehands. The results are not yet known, but judging from the progress of the pupils, it is believed they will be creditable. Your committee regrets that no other classes could be formed, as the public seem to favor well-advertised institutions in preference to ours, even though conducted by efficient teachers and at the nominal rate charged by the Institute.

Respectfully submitted.

J. CLARKE, M. D.,
Chairman

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The purity of materials used, their purity, and the nicety of their combination, renders Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

CLEVELAND BAKING POWDER CO., ALBANY, N. Y.

ROYAL BAKING POWDER

Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in Cans. ROYAL BAKING POWDER, No 106 Wall street, N. Y. 1y6lw

MUSICAL REVIEW—A Pleasant Programme—Parents Delighted—Pupils Acquit Themselves Very Creditably.

There was held at the convent last night a most interesting musical review of the pupils of the convent. There was a large attendance of the parents of the pupils, and the rooms had the same decorations as those for the bishop's reception the night previous. The following programme was presented in a most creditable manner:

Entree duet	M. Doherty, A. Sullivan; I. Mahoney, M. Smith
Chorus	Welcome Song
Greetings by the little ones	
Piano solos	M. Kennelly, J. Reilly, D. Delaney, M Galvin, A. Davis J. Morrow
Fun and Frolic	M. Lynch, K. Griffin
Convent Bells	M. Donohoe, J. Walsh, N. Mooney
Spinning Wheel	M. Kelly, M. Young, K. Mahoney
Figure d'Oranger	M. Kelly, J. Quinn
Charming, K. Cavanagh, M. Reilly, A. Simons	
Vocal duet—Holy Mother, guide His Footsteps	
Bard of Erin	M. Begley, L. McAuliffe
Sunrise Mazurka	G. Coleman, E. Lynch
Recitation	E. Crummey
Moonlight on the Hudson	M. Butler
May Flowers	M. Smith
Dames Nespolitaine	K. Cassett
Meeting of the Waters	Maud Kelly
Trio—Welcome to Spring	
Heavenly Voice	I. Mahoney
Banner Rain	M. Doherty
La Bonnsamboule	E. Crummey
Operetta—The Little Mother	
Love's Young Dream	E. Howden
Spaniards de Rossini	J. McCabe
Closing Song	

When all did so well in the musical portion of the programme, it will not be invidious to mention that the little ones covered themselves with glory, and that the recitation of Miss Essie Crummie, "The Death of King Conor McNessa," was given with a grace and spirit rarely found in so young a reciter. The girls who took the principal part in the operetta also distinguished themselves. They were, Annie Simons, "Little Mother," Miss Jessie McCabe, "Countess," and Lily Jackson and Josie Morrow, "Two Little Sisters."

SUPERB STATIONERY.

A superb stock of stationery, representing an import order of twelve cases of staple and fancy stationery, received at the Peterborough Bookstore (late A. L. Davis & Co.) The newest in style, the most fashionable, the most elegant stock of stationery in the district is there found. Novelties in papers and envelopes. These goods, being direct importations, they are sold at prices far below goods otherwise bought. The stock of stationery at the Peterborough Bookstore, in beauty of design and material and in low price, will be found, on inspection, to be something new in the experience of the public of Peterborough.

THREE LONG YEARS IN BED WITH SPINAL WEAKNESS.

CHARLES CLUTHE, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and [illegible] every day. The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 25 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.25—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

By THE LIFE PETERBOROUGH.

(Continued.)

Lord Francis Erldon, as he stood beside his hated great aunt of Doldrum's chair, and soothed that worthy old fidget's dread of draughts, and fears for the consequences of uncovering her old shoulders up recklessly at her time of life, formed a startling contrast to his sprawling and ferocious elder brother. His handsome thoroughbred face wore the kindly smile which he always seemed to have for high or low, and the true courtesy of his bright winning manner inevitably gained for him much flattering favor from both women and men, for Francis Erldon was one of those many in this world who are "nobody's enemy but their own."

And yet an old friend of his was sitting even now amongst that assembled throng, who was rapidly changing into a calmly vindictive enemy; such an enemy as only a woman can become who sees her power over a man dying out, when her love for that same man has been merely a passing caprice, born of vanity—not the real and loyal faith which forgives all, and with lips trembling with pain can still lovingly say: "The king can do no wrong!"

If Lord Francis Erldon was but a lad of 20, fresh from college, Laura Gray had given him his first lesson in woman's perfidy—and engaged herself to him for the space of one week, during which she had coquetted with and fooled him to the top of the best, and when the "black display" came, she had quietly intimated that he was no longer wanted, and must give place to a better, i. e., a richer than, whose unexpected offer of marriage lay carefully ensconced in her pocket at that very moment.

The boy was too young and too honest to conceal his dire pain, and when they met again ten years later, after Laura had become both wife and widow in the interim, the eagerness with which her soi-disant victim accepted the very first overtures which the fascinating Mrs. Fairfax tendered to him, caused that astute lady to smile inwardly with a dulcet murmur: "What fools men are!"

And so the old game was played out in the old fashion—the man honestly and nobly in earnest, longing for the day when he should take this woman to be his wife until death should them part; the woman retaining his allegiance as a sop to her own vanity, but never for one instant using either her heart or her head in the transaction which in her private estimation was a big stroke of business.

Lord Francis Erldon was but a lad of twenty-one when he had closed with the dignity of twenty-one years.

"If Parliament can stand by prepared to vote, Miss Harding in place of his elder brother, who is deep in an entomological discussion at the far end of the room," said Lady Knottingham apologetically, "Lord Francis Erldon—Miss Harding."

The frank gray eyes that met his own with a quick, penetrating look had a disconcerting effect on Lord Francis' susceptibility, for they seemed to read his very soul. Moreover, he was unpleasantly conscious of Mrs. Fairfax's mirthful smiles and audible whispers to her lonely chert, so he cut the ceremony of this sudden introduction with admirable short.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE
in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to as exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.
The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the best cutting lines, styles and patterns, and can fit the tall, the short, the fat and the lean.
More Suits, Better Fabrics, Finer Styles than were ever handled before.
Special values in Fine Spring Overcoats, and Fine Spring and Summer Suits. Don't fail to see them. The expert styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.
"For the apparel oft proclaims the man."
Fine dressers in search of new, neat and nobby Overcoatings, Suitings or Trouserings will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first-class workmanship, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.
Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.
This season this we are showing a large assortment of Boys' and Children's Suits, Boys' and Children's Blouses, Shirt Waists, Pants, &c.
This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.
Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of Neckwear, Hosiery, Underwear, Gloves, Shirts, Handkerchiefs, etc., to be found in any First-class establishment in this country.

OUR CROPS AND LIVE STOCK

THE PROSPECTS OF THE HARVEST FOR THE COMING SEASON.

The Fall Wheat is all Right—Clover Will not be Good—Fruit and Vegetation—The Condition of Farm Animals Better Than Could be Expected.

TORONTO, May 8.—The Bureau of Industries has just issued a bulletin on the prospects of the Crops and Live Stock in Ontario. The statements are based on the information derived from 700 correspondents throughout the Province.

FALL WHEAT.

There is a remarkable and most gratifying contrast in the tenor of the fall wheat reports this year compared with those received in the spring of 1888. This year's crop was put in during one of the best seedbeds within memory; the winter was mild, and the spring early—in some sections too early—for the wheat was uncovered and left subject to damage by the repeated freezing and thawing weather of March. But on the whole the reports now at hand are the most favorable that have been received since the gathering of crop statistics was commenced in Ontario. Less winter-killing is reported than has occurred for many years past, and the acreage that has been plowed up is insignificant. Lambton is the only county which complains seriously upon this score, and in parts of that county the ground was bare in January. Other complaints of winter-killing are confined to mere mentioning of the smothering of wheat under snow banks near fences and of the heaving of the plants on low and wet land since the spring has set in. The great winter wheat counties of Simcoe, Grey and Bruce report in a very favorable strain. The Middlesex reports are extraordinary except one from Lobo, and from McGillivray and Biddulph where it is stated much has been plowed up. Essex reports are very good, as are also those of Kent, Perth (except one from the township of Downie), Oxford, Haldimand, Brant, Wentworth, York, Ontario and many other counties. In the northern counties, the wheat, though looking in excellent condition, has not made much progress lately owing to the coldness of the weather. Throughout the reports is to be noticed testimony to the efficacy of drainage, even in a season such as the present where has not been a superabundance of rain or of snow water to carry off. The crop has been singularly free from insect ravages. The wireworm is mentioned only a few times as having been destructive, while the Hessian fly is only named once in the whole series of reports, and on that occasion only in order that it may be mentioned that the county (Lambton) seems to be getting free from the pest.

WINTER RYE.

This is a very important crop in Northumberland, Durham, Prince Edward and a few other counties. Wherever it is grown extensively, the prospects are reported good for an extraordinary crop. Exceedingly good reports come from the townships of Haldimand, Hamilton, Murray, Percy and Amelasburgh.

CLOVER.

From the province as a whole the reports relating to this crop are very bad. Owing to the prolonged drouth, which existed in the east, north, centre, and part of the west, the "catch" last summer was unusually bad. What little germinated stood very poor chance against the long continued dry weather. The early spring has been against the plant. It is reported as destroyed by heaving in many places. Still there are a number of reports describing the clover crop as excellent.

LIVE STOCK.

The condition of the farm animals throughout the Province is very much better than the most sanguine could have hoped for six months ago. The drouth has been so destructive that farmers in the east and north had been compelled to reduce the number of their stock in many cases to only sufficient to carry on the work of the farms. Into the worst affected countries large quantities of hay were imported. The known scarcity of feed set farmers to work to economize their resources. As one of the correspondents says, "less feed was wanted than usual." Then the weather became most favorable to the keeping of live stock. Gentle but plentiful rains fall during the early and late fall months. The pastures yielded abundantly up to an unusually late period. A mild winter followed, rendering it unnecessary to feed heavily in order to maintain the animal heat. The open spring enabled farmers to turn out their cattle early. Generally speaking the winter was the easiest for stock on record. The result is that feed, instead of being scarce is now abundant. Hay is cheaper in Lennox now than it was in the fall, and live stock has come through the winter in better condition than for [illegible] years. One correspondent reports from Huron that the farmers anticipating scarcity chopped great quantities of oats and cut straw, leaving the hay over till spring. From other parts of this county large quantities of hay were shipped to less fortunate sections. A correspondent in South Gower, Grenville, reports cases of death from actual starvation among cattle, and states that some of the cows are now so weak that they have to be lifted. In almost every other place reported from there has been a surplus of food left over. In Wellington, Waterloo and other root-growing counties the abundant crop of mangels and turnips supplied the place of dry fodder. In Waterloo turnips were so plentiful that they were sold at five cents a bushel. About one-tenth of the reports state that the cattle are in poor condition, but most of these reports add that the animals are healthy and strong. The condition of the health of the cattle, sheep and pigs seems to be unusually good. We find no epizootic diseases among them is anywhere reported. Among horses there has been an outbreak of the old epizootic which caused so much inconvenience on its first appearance about eighteen years ago. It is reported in greater or less severity from the counties of Renfrew, Peterboro', Hastings, Parry Sound, Durham, Northumberland, Prince Edward, Carleton, Frontenac, Prescott, Bruce, Grey, York, Oxford, Brant, Perth, etc. It appears to have existed in a virulent form in the shanties of the Upper Ottawa, where many horses died from the disease. There is one report of glanders in Prince Edward.

FRUIT AND VEGETATION.

Reports from all parts of the province are to the effect that vegetation was a week or two in advance of the previous year at the same date (May 1). The opening of the spring promised a still earlier start of bud and leaf, but the latter half of April was cold and kept vegetation in check. Pastures are reported to have made a growth of from two to four inches, and in many cases sheep have been turned out for a week. A few farmers have also allowed their cattle to get a bite of grass, but the opinion of some practical men is that the fields will not be fit for grazing before May 10. There is a remarkable unanimity of opinion regarding fruit trees. Very little damage was done to orchards by the winter, but in the case of peaches early blossoms were nipped by spring frosts. Early cherries were also in bloom, but did not suffer to any great extent from late frosts. Apple, pear and plum buds were swelling, but had not blossomed when the reports were sent in. The black-knot continues its work of destruction to the plum and cherry trees of the province, but not a single complaint has been made of injury to orchard trees by mice or other field vermin. Some fruits are said to have come through the winter in good condition.

Ontario County Farmers Happy.

OTTAWA, May 8.—The crop prospects are excellent. Scarcely ever before at so early a season were they so far advanced. The fall wheat looks well but the acreage is small, barley promising well and the acreage large; spring wheat, oats and peas are doing well and the farmers have bright anticipations for a bountiful harvest. The hay crop is promising well, especially clover. Vegetation is good and is in unusual [illegible] there will be an abundance crop of fruit, [illegible] while [illegible] promising. Cattle are in good condition, and [illegible] spite of [illegible] feed.

Shooting Over Trespass.

WESTPORT, May 8.—Crop reports from nearly all parts of the province show crops is in fine condition and about one month ahead of last year.

AN EXPRESSION TO WHICH JUSTICE HANNEN OBJECTS.

The Examination of Mr. Parnell Before the Commission Concluded—Archbishop Walsh Gives Evidence.

LONDON, May 8.—Mr. Parnell's examination was finished before the commission today. He testified that the Reception Committee in America comprised the leading merchants of New York, representative citizens and ministers of religion. In his speeches in New York witness declared that not a farthing contributed to the Irish cause would go towards organizing rebellion in Ireland. Throughout his tour of the United States he had never even reserved a handbreadth from that declaration. Attorney-General Webster, the witness said, had quoted from five out of sixty speeches he had made in the United States, ignoring the general tenor of his speeches so as to misrepresent his words. All the names the Attorney-General had mentioned of persons connected with the meetings were only a small fraction of those who attended. Men of prominent position and undoubted respectability attended these meetings. In no cases could the American reception be identified with the proceedings of the Physical Force party. Witness firmly believed that none of his colleagues since joining the Irish parliamentary party had had anything to do with the Fenians. Only casually did the Fenians come within the orbit of the constitutional movement. Here Mr. Parnell neared by remarking that the Tories were more certainly associated with the movement, for instance when they cooperated with the Parnellites to obstruct the Criminal Code Bill to the death. Referring to some letters of his, Mr. Parnell said he had copies made from his secretary's shorthand notes.

Attorney-General Webster: "It seems that there exists a book of Mr. Parnell's letters. I would like to see that book."

Sir Charles Russell: "By all means."

Presiding Justice Hannen: "If these letters refer to the League they ought to have been disclosed."

Mr. Parnell: "Your Lordships are welcome to see any letter I ever wrote or received."

Attorney-General Webster, recurring to Mr. Parnell's private bank account, wanted to trace a number of checks. A warm discussion ensued, Sir Charles Russell declaring that such action would be unfair.

Justice Hannen suggested a postponement of the matter until fuller documents were before the Court.

Archbishop Walsh testified that he came to the conclusion before 1879 that there was need of a defensive land organization and was proceeding to give his opinion on the subject.

Justice Hannen said the enquiry must be limited whether or not the Land League was necessary.

Attorney-General Webster submitted that matters of opinion were not admissible.

Mr. Biggar urged that opinion evidence had been given over and over again by hirelings of the Government.

Justice Hannen warned Mr. Biggar not to use such expressions.

Mr. Biggar said that unless such evidence was admitted the whole enquiry would end in a farce.

The judges retired to consider the matter privately. On their return Justice Hannen announced they had decided that it was not permissible to ask any witness, however distinguished, abstract questions of opinion. The facts known to the witness ought to be laid before the court before opinions based thereon were mentioned.

The Archbishop continuing said that in the course of visits through his diocese he had abundant means of knowing that the League denounced outrages. Many priests had joined the League with his approval. He saw nothing in the action of the League to forbid the clergy joining.

His Silence is Golden.

LONDON, May 8.—Bradlaugh, the cab driver who was at Mayerling when Crown Prince Rudolf died, and who is one of the few persons in possession of the truth about the catastrophe, has been allowed to return from Russia to Vienna, and he is to receive a pension from Emperor Francis Joseph, which is to be paid daily and which is to be continued for so long a time as he holds his tongue.

A Hohenzollern to Wed a Bourbon.

LONDON, May 8.—A Hohenzollern, for the first time in the existence of his house, is soon to marry a Bourbon. He is the eldest son of the Prince of Hohenzollern-Sigmaringen, who was the pretext for the war of 1870 and of the Portuguese Infante, who used to be often on visits at the Tuileries before the war. The bride is the daughter of the Count de Trenal and of Mathilde of Deux Ponts, in Bavaria, the sister of the Empress of Austria, and has been chiefly brought up at Cannes and Paris. She has a wonderful head of hair, as long, as rich and as rippling as that of her Aunt Elizabeth, but with more gold in her ripples.

There is great beauty in the Sigmaringen branch of the Hohenzollerns.

BOARD OF TRADE RETURNS.

Canada's Commerce With Great Britain—Immigration Affairs.

LONDON, May 9.—The Board of Trade returns show that British exports to the Dominion increased £7160 during April, and £18,325 during the four months. Imports from Canada decreased £79,073 during April and increased £58,996 during the four months. There were large decreases in flour and fish, and increases in cheese and sawn wood.

The direct Canadian emigration from Liverpool last week decreased 41 per cent. as compared with 1888. This week again shows a decrease, though the numbers of continental immigrants, chiefly Scandinavians and Germans, still show an increase of 20 per cent. over last year.

LIVE TOPICS FROM OTTAWA.

A Stormy Meeting of the Presbytery—Another [illegible] Quarrel.

OTTAWA, May 8.—There was [illegible] lively meeting of the Ottawa Presbytery in St. Andrew's Church yesterday afternoon. A resolution was put in regard to the Jesuit Estates question and unanimously carried. Rev. Mr. [illegible] of St. Andrew's Church, who is Moderator, refused to sign the resolution on the ground that he was not opposed to the State granting money to a religious society, nor was he in opposition to the Order. It was moved and carried that he vacate the chair. This he also refused to do, saying he was competent to act as Moderator. "If not," said Dr. Armstrong, "we will elect a new Moderator." After a lively discussion Mr. Herridge vacated his seat and the resolution was carried.

Another postoffice robbery has been made on the mails in this vicinity. A bag which came in from an outlying district was found shortly afterwards in the Ottawa office cut and some registered letters abstracted. So far about $1000 is missing.

The Royal Society met at 10 o'clock this morning for business purposes. The work of the different sections was then taken up.

When the Supreme Court met this morning it proceeded with the case of the Canadian Pacific Railway Company and the New Brunswick Railway Company against the Western Union Telegraph Company. This is an appeal from the Supreme Court of New Brunswick involving the validity of a contract between the Western Union Telegraph Company and the New Brunswick Railway, giving to the Western Union the exclusive right of its telegraph poles along its track. The Canadian Pacific are now asking to use the poles, having proceeded to do so and were stopped by the injunction.

The Y.M.C.A. Convention.

PHILADELPHIA, May 8.—The twenty-eighth International convention of the Young Men's Christian Association was called to order here to-day by General O. O. Howard of New York in the presence of the most [illegible] hymns of the Evangelical churches of the city, United States, Canada, Bermuda, Germany, Sweden, Switzerland and Australia. There are over [illegible] delegates here. Addresses of welcome were made by General Howard, Robert Byrne of London, Robert McCune of Ireland, Baron Von Stenck of Germany and Dr. D. Seabury. H. B. Chamberlain of Denver, Col., was elected chairman of the convention. The report of the International Committee was read by Cephas Brainerd of New York. Papers upon various subjects

THURSDAY, MAY 9, 1889.

Mr. Barron and the Post office Site.

To the Editor of the Examiner:—

Sir,—In the "Hansard" report of the discussion in Committee of Supply, on the item "Peterborough Custom House $25,000," which you have thought fit to publish, I find my name is used more than once by Mr. Barron, the member for North Victoria, who admits, that he brought out my name in particular because I happen to be his political opponent. The statements made therein are the opposite of authority. I suppose he did, that Mr. Barron was not the meeting in Auburn on the date he claims to have been present, and of course, if he was not present, he could not have heard what I said. But it so happens that Mr. Barron's memory are a pieces of self-glorification, and that Mr. and many of the citizens of Peterborough are well aware. It may be that the proudly imagined so long ago that Mr. Barron was present. The fact is that, on Barron's favor before the post office was changed, the corner lot on the corner of Hunter and Water streets was purchased by a number of town citizens, Mr. Hilliard, solicitor, acting as the trustee, intended in getting the post office there, but after the post office was changed to its present site, Mr. Hilliard, acting for his client, refused to convey the property to the Government, unless they paid him $1,000 for his client's interest in the transaction. Subsequently the Dominion architect was sent up from Ottawa to make an examination and report; and, although he received much attention from Mr. Barron, in order to sell, neither I nor any of my partners took the trouble to go near him, nor, as far as I know, did anyone recommend one lot. Nevertheless, no possible room is there the corner of Hunter and Water streets was the most suitable site for a post office which had to serve both Peterborough and Ashburnham, that the architect recommended in addition. Then it was that an agitation was gotten up to have the building placed elsewhere, and consequently several petitions were sent to the Hon. the Minister of Public Works, representing that this site was more suitable for a post office, and that more applicable for a custom house, and so on. These petitions were signed, without regard to politics or personal considerations, and it is well known that a leading Reformer made a proposal to certain Conservatives, that if they, would by action to get the site, induce the Government to build upon it, he would augment the price to their figure out of his own pocket. However, the then the Minister, whose sole consideration in his department received the praise of the Liberal whip even, the other day in the Commons, came to the conclusion that in view of the rapidly increasing proportions of Peterborough and Ashburnham, within the ensuing eight fairly to expected to form together an inconsiderable city, (it is gratifying to find that your population is nearly doubling, it would be advisable to erect two buildings instead of one; hence the purchase of the two lots. No one pretends that I and my friends obtained a higher price for our property in this month, and it is quite true as stated by Mr. Barron, that Mr. Carnegie, who speculates in such matters to a large extent, paid as $25 per foot more for the adjoining 44 feet. If Mr. Barron had been consulted with all these facts, as he might have done had he had the opportunity of intimate relations, he would have been in a position to give the honorable member for North Victoria the crushing reply he deserved.

In this a matter of mere public interest I am sure, sir, you will not object to the considerable space I have been obliged to occupy.

Yours, &c.,
A. P. POUSSETTE.

Ennismore.

(From Our Own Correspondent.)

Winter Blues.—April is always looked on as the month for removing the cold weather, and the advent of the genial spring, but that of '89 is unparalleled by many former years. Although cold for a few days in March, still the very few days did it reach the freezing point, many falling on 5 days, but only to the depth of five inches. Rain fell on 6 days, to the depth of 1 inch. The coldest day was the 15th and the hottest the 26th, the thermometer at 1 p.m. being 76 degree in the shade, giving the mean temperature of the month of 49 degrees. Butterflies were plentiful on the 6th, current; Robin on the 7th, first swallow on the 9th, first frogs on the 12th, first bees of the 13th, first swallows on the 14th, first song sparrow on the 15th, first bluebird on the 16th, first snake on the 20th, and several gulls on the 21st and 22nd. The following are the several points from which the wind was blowing and on what days, viz.: northwest 7 days, north 4 days, southwest 11 days, southeast 2 days, and south 2 days.

Short and Severe Work.—Several men employed carting logs on the 9th, before Green & Co., finished their work in two days earlier than anything we have yet heard, with the work actually finished still to rule to ensure any shipping on the 10th, we had only 15-100th of an inch in February, none in March, and only one inch in April, so that the week has got a fine hail and spring rain is well advanced. Fall wheat has a fine appearance, generally any quantity sown. Work on the roads is now in full swing, and everybody is busy. Mr. Green's mill is also running full time.

Sowing Wheat.—I have my wheat already sown and did not know either on the 7th of March nor 7th April, see Hapgood's Valley Oil and Gasoline 15, and it drove out the frost and heated it in a few days. I will now be without it.—Mary Liquid, 29 Chad St., Toronto. 2w168

A Good Recommendation.

To Mr. J. J. Turner, Hall, Tent and Awning Maker.

Dear Sir,—The awnings you put up for me in the front of my hotel this season are a perfect fit in every respect, and I feel pleased to say that your workmanship is A1, and I can recommend you to anybody wanting anything in your line.

I remain, yours truly,

The Victoria University Education Bill—The Grand Trunk Council.

Toronto, May 8.—Before Chief Justice Galt yesterday the appeal for the various parties concerned in the establishment of the legislation restricting the Board of Regents of Victoria University from taking any further steps necessary regarding the affiliation from Cobourg, appeared for appellants, Mr. [illegible] Water Commissioner Kirkpatrick, Mr. [illegible] Cobourg and the individual plaintiffs. The counsel for the respondents were Mr. [illegible] Q.C., and J. K. Kerr, Q.C., Registrar for the Board of Regents. The Chief Justice then delivered judgment, saying that [illegible] the Act [illegible] Mr. Justice [illegible] Mere unlawful that the Legislature were merely taking away from the individuals what they had a right to, but that the legislature had a right to do what it did. In the end, he was agreed on the Robinson's support to dismiss the motion [illegible] Friday next to allow the plaintiffs time to prepare their case. Several objections to be filed, such as members of the Board have been appointed for a special purpose, then as Cobourg to compete for the position.

The [illegible] which has appeared in several issues to Methodists by Dingman was by a Grand Trunk train on the night of Saturday, the 4th of May, instead of Monday, as stated in this city, but on the other side of the G. T. Railway Company and the City Council of the thousand City of [illegible] the quality of [illegible] and [illegible] [illegible] [illegible]

MUNCASTER'S

JEWELRY SALE

MUNCASTER'S

As Night Follows Day.

By MRS. HUMPHRY FITZHERBERT-HAUGH.

(Continued.)

Lord Francis Erldon, as he stood beside his hated great aunt of Doldrum's chair, and soothed that worthy old fidget's dread of draughts, and fears for the consequences of uncovering her old shoulders so recklessly at her time of life, formed a striking contrast to his sprawling and favourite elder brother. His handsome thoroughbred face wore the kindly smile which he always assumed to have her high or low, and the trite courtesy of his bright winning manner invariably gained for him much flattering favor from both women and men, for Francis Erldon was one of those many in this world who are "nobody's enemy but their own."

And yet an old friend of his was sitting even now amongst that assembled throng, who was rapidly changing into a calmly vindictive enemy; such an enemy as only a woman can become who sees her power over a man dying out, when her love for that same man is merely a passing caprice born of vanity—not the real and loyal faith which forgives all, and with lips trembling with pain can still lovingly say: "The king can do no wrong!"

That Francis Erldon was but a lad of 19, fresh from college, Laura Gray had given him his first lesson in woman's perfidy—had engaged herself to him for the space of one week, during which she had coquetted with and fooled him to the top of the best, and when the "bleak Monday" came, she had quietly intimated that he was no longer wanted, and must give place to a better, i. e., a richer than, whose unexpected offer of marriage lay carefully ensconced in her pocket at that very moment.

The boy was too young and too honest to conceal his dire pain, and when they met again ten years later, after Laura had become both wife and widow in the interim, the vagueness with which her maiden vanity accepted the very first opportunity which the fascinating Mrs. Fairfax tendered to him, caused that astute lady to smile inwardly with a dulcet murmur: "What fools men are!"

And so the old game was played out in the old fashion—the man honestly and boldly in earnest, longing for the day when he should take this woman to be his wife until death should them part; the woman retaining his allegiance as a sop to her own vanity, but never for one instant losing either her heart or her head in the transaction which in her private estimation was always bound to be remunerative from a pecuniary and business like point of view; and to give up her rich jointure (as she was bound to do if she married again) for sake of a younger son encumbered with debt, seemed to her philosophical soul nothing short of perfect lunacy.

So for a year two things drifted on, and the fair widow still pleaded for "time;" but one fine day Francis Erldon lost all patience and forced the plain truth from her at last, that if she ever did consent to forfeit her rich inheritance, it would be for sake of an elder son and not a younger. He wanted no words on such a version as Laura Fairfax, but turned on his heel and left her then and there—and never again did her beautiful face and caressing tones regain their hold on him.

But because he still treated her with the courtesy whensoever they met, her heartless vanity accepted his unfavorable thought as soothing to itself, "never, believe me, to love you more than I love you now!" And she knew, in that moment, vanity had been severe when Lady Knottingshame, with scarcely veiled spite, told her of the unexpected arrival of the great heiress that evening, and all the hopes and fears which she entertained with regard to the success that she prayed might be the portion of her most dearly beloved younger son, in securing unto himself the richly endowed hand of the millionaire daughter.

Before either name the entrance door of the reception room with a background of [illegible] the pale rose pink dress to good advantage, pretty Mrs Fairfax was actively engaged in [illegible] the professed matrimonial [illegible] the pair, and most unconcerned [illegible] a challenging [illegible] in whose sympathy she could rely.

"So vulgar as she must be, too!" sighed that fair widow with ostentatious horror for her hapless lover. "I think I love it must gall the pride of a man like Francis Erldon to be obliged to submit himself [illegible] to the Boston banker's daughter."

"Incomprehensible! And after the experience which has been his of what a proud woman can be!" and Cassandra Tondy turned one eye towards her companion to exhibit what face flattery went down, and the other up to the heavens to denote her indignation at man's fatuity.

"Is he sure, my dear Cassandra, your [illegible] is not [illegible]?" observed Mrs. Fairfax sotto voce. "I couldn't tell for my [illegible] whether you were admiring the chandelier or myself! But I wonder whether the heiress will appear covered with diamonds presently—it's quite to do something outrageous."

"And the most splendid diamonds in the world!" murmured the lady enthusiastically. She had not yet forgiven the jest.

"Pooh! Never mind all the same. Let us hope that the heiress for child forget girl-ish silly, that Lord Francis Erldon will have made a sorry bargain after all when he marries old Harding's daughter to save himself from bankruptcy."

The [illegible] of Mrs. Fairfax struck distinctly on the ear of one who at that moment entered the door which was close behind the former lady's seat, and who for one single instant paused and stood still, as if listening for more. Then a quiet smile of contempt crossed the stranger's face, and Janet Harding walked calmly across the circle of assembled guests to greet her hostess, with the most admirable composure and self possession.

A tall, slender girl, dressed very simply in white, and with no single atom of all her wonted diamonds on either arms or neck, the millionaire's daughter had still a distinct personality of her own which made her stand out clearly from the crowd of fashionable women surrounding her. Unlike these latter, her hair was not black from her forehead quite simply, and twisted into a mass of reddish brown plaits at the back of a very neat head; and though she could never by any chance lay claim to the coveted title of a beauty there was that in Janet Harding's face which made [illegible] looked at it once, look at it again and again.

Its most striking characteristic was a resoluteness almost strange in the face of so young a girl, and her eyes which [illegible] matched so well with it, and which seemed to speak of great decision of character. But the bright, honest smile which [illegible] never [illegible] as she [illegible] Lady Knottingshame's [illegible] and the [illegible] of welcome with which she greeted Mrs. Fairfax, were those of a thoroughly unaffected girl, and the latter lady's first impression was a favorable one.

"Lord Francis Erldon—Miss Harding."

The frank gray eyes that met his own with a quick, penetrating look had a disconcerting effect on Lord Francis' equanimity, for they seemed to read his very soul. Moreover, he was unpleasantly conscious of Mrs. Fairfax's sibilant asides and audible whispers to her lovely object, so he cut the ceremony of this public introduction [illegible] abrupt.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal Bowen, Cedar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I procured a bottle of Ayer's Sarsaparilla, and before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. H. Sutherland, Evangelist, Shelby City, Ky.

Belleville's Assessment.

The assessment returns of the city of Belleville are not satisfactory this year. Last year the total assessment as returned by the assessor was $9,295,505; this amount was reduced by the Court of Revision to $8,905,577. The total assessment as returned for 1889 is $8,923,673. The total population in 1888 was 10,500; this year it is only 10,168.

Shot a Peterborough Forger.

The Toronto *Mail* yesterday stated that A. E. Playfair, late of Peterborough, was arrested at Milwaukee, Man., on a charge of forgery. It is alleged he forged a note on S. J. Playfair and Simon Playfair, for $94, and cashed it on the 23rd of April with Mr. Alex Fisher, of Peterborough. This is evidently a mistake. Playfair belonged somewhere else, it is believed to Lindsay, as Chief Russel knows nothing of the matter.

The Glorious 24th.

In spite of appearances the twenty-fourth of May is not to pass by without due and loyal recognition. The P.A.A.A. and the 57th Battalion have arranged a joint celebration to be held on the Association grounds, Ashburnham, similar to that held last year. A committee was elected this morning meeting prices, and they were exceedingly successful. These two organizations make a strong team, and when they pull together, as they are doing now, success is as certain as sunrise.

Their Hopes Dashed.

A Cobourg correspondent writes to the *Guide*:—"The high hope of a large portion of our citizens that a railroad would be built through the county of Northumberland, connecting Cobourg with the Canadian Pacific, have been dashed to pieces, because of the failure to secure from the Dominion Government the necessary funds to help construct it." The Cobourg *World* is confident that, though nothing will be done this year, next season will see the line being built.

An Important Decision.

Mr. E. B. Edwards this morning received telegram stating that decision had been given in the case of Fitzgerald vs. Midland and Grand Trunk Railway, heard at the last chancery sittings here. Held, that the Grand Trunk, and not the Cheneng Railway, built the embankment, corner Smith and Bonner streets. Mr. Edwards, Jennings & Chisholm. The Grand Trunk to pay damages, the amount to be fixed by the local master, and defendants to pay all costs of suit and reference. Mr. Edwards and Mr. Donnelly, town, for plaintiff; Mr. Cassels, Q.C., Toronto, and Mr. Bigar, Belleville, for the defendants.

The Late Daniel Costello.

The late Daniel Costello, of Ennismore, who died on Sunday at the age of 46 years, was a native of Ennismore, son of the late Daniel Costello, sen. He was reeve of the township for several years, as was his father before him, who had the honour of being the first reeve of the township. Twenty-three years ago he was married to Elizabeth, daughter of Mr. Patrick Young, of Young's Point. Six years since he removed to Young's Point where he remained till last fall, when he took residence in Ashburnham. His sudden death leaves orphaned seven children, four girls and three boys. He has two brothers, Edward and Paul Costello and one sister, who lives in Keene, Mrs. Daniel Shanahan.

A Successful Launch.

Yesterday afternoon Mr. H. Calcutt's new boat was successfully launched in Little Lake. There were about 20 persons aboard. The "City of Peterborough," as she has been named, is as yet only a scow, and will be used for carrying plants purchased. Next ——— on she will be fitted with machinery and transformed into a steamer, side-wheeler, with a carrying capacity of 300. The "City of Peterborough" is 90 feet in length and built with a special view to plying on the Otonabee. Her draft of water when loaded will not be more than eight inches. She will be supplied with decks only this year, but next season will see her a fully equipped steamer. Her builder, Mr. John Stoneberg, of Belleville, made a very pretty model for the "City of Peterborough," and Commodore Calcutt is to be congratulated upon this addition to his fleet.

"Ireland and the Irishmen."

These lectures have received the most pointed and profuse commendations from press and people of any public entertainments of the past season in America. Mr. Harper is now for the first time visiting Canada, under the management of the Canadian Lyceum Bureau, and association presided over by Mr. Geo. M. Elliott, of Napanee, a connoisseur in these matters, and personally known to the editor of this paper as a fellow-journalist of some repute. Mr. Elliott is enamored in his testimony. In a personal letter he says that "there is no doubt of the superiority of Mr. Harper's repertoire to the best productions of Stoddard, hitherto acknowledged as a prince amongst this class of entertainers." Mr. Harper delivers his lecture in the opera house, Peterborough, Tuesday evening next. Plan of hall at the Peterborough Bookstore, (Late A. L. Davis & Co.) 1d

When the Spring Time Comes,

Then the good housewife can turn her husband out of doors to smoke and lounge while she can devote herself to house-cleaning and note the different articles of furniture that are decrepit or worn out. Then the husband, who has been reading the paper, comes in and tells her that D. Bellegheen, the furniture king, is selling furniture at lower rates than ever before offered in town. She investigates and finds that at Bellegheen's warerooms there is indeed a magnificent stock of furniture of every imaginable variety. Splendid parlour suits, excellent dining room suits, carpet bed room suits. A magnificent stock to select from, and every choice possible between plain and high-priced goods. But it is hardly the thing to speak of "high-price" goods—the best qualities have been so reduced in price that they are as reasonable in price as the common furniture found elsewhere. Therefore, it is to your interest, when you want first-class furniture at the lowest living prices, to call on Bellegheen, or if you want fine, neat upholstering or general repairing done promptly, strongly and neatly, go to Bellegheen's. He has a large factory, equipped with the best machinery, manned by the best workmen. Remember Bellegheen when you want to buy new furniture, order new furniture, or have old furniture made good as new.

The Scots' Ain Biggin.

The New Hall of Peterborough St. Andrew's Society.

To-night a special meeting of St. Andrew's Society will be held, and for the first time the members will assemble in their new hall on Simcoe street. For thirty years the Society has been in existence without any fixed place of abode, but now the enthusiastic and warm-hearted Scotchmen have comfortable and commodious headquarters of their own. What a contrast is furnished to the early days of the Society. In the year 1858 four patriotic Scots, not long out, whose hearts were filled with love of their native land and who were desirous of perpetuating its memories and traditions, met in committee on the sidewalk at the corner of George and Hunter streets and decided to organize a St. Andrew's Society. Of the four only one, Mr. Chas. Cameron, the present energetic and capable president, remains in town. The second is now in Montreal, and the other two have long since passed away to their eternal rest. The first organization meeting was held shortly afterwards in McGregor's hotel, on the site now occupied by the Central Canada Co.'s offices. Since then the Society has flourished and survived all the ups and downs to which such organizations are subject, till to-day it stands with a membership of about 160 ardent sons of Auld Scotia, and a brave, new he', which does credit to the executive committee who had the selection and fitting up of the premises in hand. The hall will be taken formal possession of to-night.

The EXAMINER had the pleasure of an inspection of the new "digs" this forenoon, in company with Mr. President Cameron. The entrance is on Simcoe street, alongside Flavelle's store, and an ascent of two flights of stairs brings one to the doorway. The painter and paper-hanger have been at work for several weeks past, and their labors have resulted in a complete transformation of the interior aspect of the rooms. The main hall is about 50x30 feet, with a doorway between, which it is intended to replace by an arch. At present the front portion is used as a committee room, but when the doorway is removed the entire space will be thrown into one room. At the rear end of the hall is an ante-room to be used as a library and Secretary's office. The whole place has been thoroughly renovated, and it will for years, no doubt, furnish ample accommodation for the loyal sons of Scotland in Peterborough who have banded themselves together for the preservation of those old country memories which are so dear to them and for the practical relief of brethren in distress. The St. Andrew's Society has done much good in extending the hand of charity and protection to needy fellow-countrymen. No deserving applicant for assistance has ever been refused aid by the Peterborough St. Andrew's Society.

THE ROYAL ARCANUM.

Close of the Session of the Ontario Grand Council.

Berths the Next Place of Meeting—The New Officers Elected—Some Important Amendments to the Constitution—What the Delegates Think of Peterborough.

The fourth annual session of the Ontario Grand Council of the Royal Arcanum closed yesterday afternoon, and most of the delegates left on the evening trains for their homes.

A number of important amendments were made to the constitution and by-laws of the Grand Council, and the reports of the various officers were received and confirmed. Much satisfaction was expressed with the growth in the membership of the Order, which had increased in the past year by 12½ per cent—a most satisfactory showing compared with other grand jurisdictions.

It was decided to request the Supreme Council to amend its constitution so that Secretaries and Collectors who had faithfully served their Councils for three consecutive years have the honor of Past Regent conferred upon them.

A PRESENTATION.

During the afternoon Bro. Miller, Deputy Supreme Regent, on behalf of the Supreme Council presented the Ontario Grand Council with a handsomely bound copy of last year's proceedings of the Supreme Council, which was held in Toronto, accompanied with an engrossed resolution.

Fraternal greetings were exchanged by telegraph with the Grand Councils of Missouri, Massachusetts and Maryland, in session at the same time.

VOTES OF THANKS.

A vote of thanks was passed to the Mayor and corporation of Peterborough for the welcome contained in their address, and also to the local council for their kind reception. The members of the Grand Council were warm in their expressions of commendation for the way in which they had been received by the civic authorities and local brethren, and all expressed the hope that they would again have an opportunity of visiting Peterborough. They referred in glowing terms to the thrift and growth of the town, and the beauty of its streets and generally solid appearance, and considered that Peterborough should rank as a city. As a compliment to the town and local brethren, Bro. J. E. Stratton, M.P.P., was appointed Grand Orator.

A vote of thanks was also passed to the Retiring Grand Regent and to the Supreme officers, who all made grateful acknowledgements.

THE OFFICERS.

The following officers were elected:—

GRAND REGENT—D. F. Macwatt, Barrie, by acclamation.

GRAND VICE REGENT—Isaac F. Toms, Goderich.

GRAND ORATOR—J. E. Stratton, M.P.P., Peterborough.

GRAND SECRETARY—W. E. Brown, Hamilton, re-elected by acclamation.

GRAND TREASURER—Chas. Cotsh, Guelph, re-elected.

GRAND CHAPLAIN—Rev. E. P. Crawford, Brockville, elected by acclamation.

GRAND GUIDE—F. G. Morley, Toronto, by acclamation.

GRAND WARDEN—Thos. T. Mortimer, London, by acclamation.

GRAND SENTRY—C. A. Winters, Preston, by acclamation.

GRAND TRUSTEE—T. Sargent, Toronto.

SUPREME COUNCIL REPRESENTATIVE—Daniel Spry, Barrie, by acclamation.

SUPREME COUNCIL ALTERNATE—T. Sargent, Toronto, by acclamation.

NEXT MEETING.

Several places were mentioned for the next place of meeting, but Berlin was decided upon by a vote of the Grand Council. The next annual session will take place there in May, 1890.

Sports and Pastimes.

Baseball.

Yesterday afternoon an amateur baseball club was organized in connection with the P.A.A.A. The following officers were elected:—

PRESIDENT.—G. W. Hatton.
VICE-PRESIDENT.—W. J. Gross.
SECRETARY.—C. H. Allison.
CAPTAIN.—Dr. Brennan.
COMMITTEE.—Messrs. E. A. Pearson, F. D. Mackay and J. F. Turnbull.

Practice will be held on the Association grounds every evening. The club will be run on a strictly amateur basis, and all ball players are invited to become members. An advantage in belonging to this club is in the fact that the Association furnishes all the material for the team.

THE ATHLETICS.

The other evening the Athletic Baseball Club was organized at the Cavanagh House. The officers are:

CAPTAIN—J. Farley.
SECRETARY—G. J. Taber.
TREASURER—R. Cavanagh.

The Athletics practice on the "Diamond" lot, near the C.P.R. track, and there is material in the club to enable it to put a splendid amateur team in the field. They have two batteries, Taber and Graham, and Scott and Hazard. They will arrange to go to either Norwood or Bellleville to play on the 24th of May. They will have their new uniforms for the trip, consisting of white jersey, blue knickerbockers and red stock; flags.

Notes.

The bicycle club had its first run of the season last night. Notwithstanding the intense heat there was a good turn-out.

A cricket match, bachelors vs. benedicts, is announced for three o'clock Friday afternoon.

The Riversides practice every night on Riverside Park. They are getting in trim for the match they expect to arrange for the 24th of May with the Young Torontos or Ontarios at Peterborough. A meeting of the Club is called for Friday evening at the Phelan House. Important business.

News Nuggets.

—The dog poisoning fiend is operating in Norwood.

—The thermometer to-day in some places registered 99° in the shade.

—To-night in St. Paul's church a reception will be tendered to members of the congregation by the Ladies Aid Society.

—Campbellford has a population of 2,235 and a total assessment of $492,158, according to the assessors' returns.

—Mr. R. Baldwin, a student at McMaster Hall, Toronto, has been sent to Bellsboro by the Home Mission Board.

—The Peterborough Orchestra has been engaged for Rev. Father Conway's annual picnic at Norwood, on May 24th.

—On Monday seven cent laden with emigrants leaved for the Northwest, passed through Peterborough on the C.P.R.

—At the Baptist church last night Rev. P. C. Parker performed the rite of baptism upon seven new church members.

—At a meeting of the fire brigade Tuesday night a committee was appointed to arrange for a display of fireworks on the night of May 24th.

—Rev. Dr. Hunter was announced to lecture in Peterborough this week on the Jesuit Bill. His engagement has been cancelled.

—Mr. W. H. Manning has recovered a valuable parrot which escaped from his cage several weeks since. It was found at a farm house two miles east of town.

—Old Adam Dobbin applied to the police magistrate this morning to be sent up to gaol as a free boarder for the term of one month. He was given his committal paper and Adam walked off, apparently quite content with the prospect of gaol fare and close confinement before him.

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just as long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Peaches at 15c. per tin; 3-lb. Tins Tomatoes three for 25c. W. J. From Our Own Correspondent.

OUR TOWN BOYS.—A few nights ago a very peculiar incident occurred in the neighborhood of Willams. While the inhabitants were wrapped in peaceful slumber they were awakened by a fearful clatter. Upon some of them getting up to investigate the matter they found that some mischievous boys had taken a wagon that was standing in front of Mr. Wale's residence, and ran swiftly down the hill with it, upsetting it over the cross-way and leaving it in a very rueful condition. How boys this is not very friendly. Do not try to make fun for yourselves by injuring others.

BUSINESS ITEMS.—There is some talk of a new blacksmith and carriage shop starting in Allendale. Our new painter Mr. Thos. Bryan, is getting all the work he can attend to at present, (long may it remain so).

I. O. G. T.—The Good Templars of Keene are increasing very rapidly, and as it is their object to do good they are sure to prosper.

Personal.

Mr. A. W. Brosie and family left for Hampden this morning. For several weeks past the removal of the broken mill machinery and household goods has been going on, and this morning the family bid adieu to Peterborough. It is of course to be regretted that a man of Mr. Brodie's enterprise will be lost to the town, but all his friends will wish him success in his new home. The family will be greatly missed in town, particularly at St. Andrew's church, of which they were staunch adherents.

Miss Vair leaves this evening by the 5.52 C.P.R. express for Toronto, *en route* for New York, where on Saturday at 2 p.m. she will sail, in the "Umbria," for Europe. It is Miss Vair's intention to spend from six months to a year and a half, according to her inclination, in travelling in Great Britain and on the continent. Miss Vair's hosts of friends, public and personal, while wishing her a delightful tour, cannot but regard her absence from town with regret. As a vocalist of high merit, whose services were always willingly and unceasingly rendered, she was deservedly popular and made herself felt as a necessity to the programme of every concert of importance, where the best local talent was employed. St. Paul's Church choir, of which she was a leading member, will especially deplore Miss Vair's absence.

Official Board Meeting.

The quarterly official board of the Charlotte Street Methodist Church met last night, Rev. S. J. Shorey presiding. There was a fair attendance of members of the board. A resolution was passed, making the salary of organist Schneider $250 per annum, dating from the first of October last. The board, to lessen the possibility of the conference changing the pastor, Rev. Mr. Shorey, to another circuit at the end of his first year, passed a resolution expressive of their belief that it would be necessary for the welfare of the church in all its relations, ministerial, pastoral and material, for him to continue as pastor. Messrs. Richardson, Holland and Capt. Piper were appointed local preachers, and the number of stewards was fixed at 7. The chairman read a letter from J. H. Wyatt, Secretary of the Laymen's Evangelical Association, with reference to the North Monaghan appointment, and on motion Rev. Mr. Shorey was asked to take the appointment and hold Sunday services there. Messrs. Sutherland and McCreary were appointed auditors. Mr. J. L. Hughes was elected representative to the District quarterly meeting. The Recording Steward submitted a financial statement showing the position of church affairs, and after a lengthened discussion an adjournment was made for two weeks for the further consideration of the accounts.

The Flour Output.

MINNEAPOLIS, May 8.—The Northwestern Miller says: The flour output for the week reached very fair proportions considering that there was almost complete idleness during one day. The aggregate output was 88,290 barrels against 102,930 the previous week and 108,600 for the corresponding time in 1888. The number of mills in motion to-day was 13, representing a daily product of about 17,000 barrels. Millers quite generally report a better demand for flour, though usually at the expense of a trifle lower prices. Direct exports of flour for the week were 46,000 barrels against 61,200 the preceding week.

A Kingston Blaze Recorded.

KINGSTON, May 8.—Early this morning a fire broke out in a shed in the rear of Callender's Hotel. An awning reached from the shed to the Millard room and quickly caught fire, communicating the blaze to Mr. Doolan's building. Mr. Doolan's store-room and the club room over it were completely destroyed; the roof of the billiard room has been bashed and cut to pieces and the billiard tables which had been taken down and stored were seriously injured. The loss will foot up to nearly $2000 and the insurance is trifling.

The Anarchists Escape.

CHICAGO, May 8. — The indictments against Hirsch, Capco and Sevic, charged with conspiracy to blow up the homes of Judge Gary and Grinnell and Police Inspector Bonfield for their part in the prosecution of the Haymarket anarchists, have been stricken from the docket. Hirsch is serving a twelve-years' sentence at Joliet, and there was no evidence against Capco and Sevic.

Accidentally Shot Himself.

BOWMANVILLE, May 8.—Wilson Power, sr., of Darlington, a retired farmer, aged about 60, accidentally shot himself this morning. He went out about 7 a.m. to shoot a dog, when the gun was in some way discharged, the contents entering below the jaw, carrying away one side of the face. The deceased was highly respected and well known, having lived here all his life.

A Great Oil Strike.

TERRE HAUTE, Ind., May 8.—The great oil well here is being visited by thousands of people. No stronger flow has ever been found in this country. A twenty-barrel tank was filled yesterday in twenty minutes. The well is thought to be good for 1000 barrels per day. The pressure is 400 pounds to the square inch. The gusher is 2½ miles south of the city.

ROYAL BAKING POWDER

PICTURE FRAMING

We have now on hand an Excellent Assortment of MOULDINGS for Picture Frames, and do all kinds of Framing with Neatness Promptness and Cheapness and in a Style unsurpassed anywhere.

Leave your Pictures at

THE PETERBOROUGH BOOK-STORE

and have them Well Framed.

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "BOLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination is fast—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Buttoned HANDKERCHIEFS, in a variety of 25 different Styles and Designs, the brave majority of which are 25c. Many of the identical lines have been sold by us at that price; our prices to-day are 15c. and 25c.

A bountiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50 —mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CAMBRICS, HOSE and SCOTCH LISLE HEMMED. Say Mc, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in other lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

DEFORMITIES and HERNIA. or RUPTURE

I AM COMING!

CHAS. CLUTHE

The Surgical Machinist, of 115 King st. west, Toronto, will be at the

Oriental Hotel, Peterborough, on Friday and Saturday, 14th and 15th June.

when I will be pleased to meet all those requiring my services for the Treatment of Rupture (no matter how bad your case may be, come and I will give you relief), Club Feet, Bow Legs, Weak Legs, Spinal Diseases, and any other Deformities corrected by mechanical treatment.

Read what some of your neighbors have to say and be your own judge:—

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto.

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to ——— me I had to be held up, ——— the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend, MATTIE GRAHAM,
Peterborough.

Rupture.

DEAR SIR—I am only to inform you that the Scientific Truss you put on me last spring has been all it was recommended to be—more, as it has healed my Rupture, which I was troubled with for a long time, and ——— been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, yours truly,
ALEXANDER BUCKMAN,

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given to thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices give us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER SUITING than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine drawers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment in an advantage we offer to our customers, backed up by the skill of experienced cutters and fitters. Besides perfect fit and first-class tailorings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

ONLY ONE COUNTY LEFT.

MAJORITIES FOR REPEAL IN ALL THE CONSTITUENCIES.

Oxford, Middlesex and Lambton Ballots at the Polls that the Scott Act is a Failure—The Largest Majority in Middlesex.

Three Ontario counties—Oxford, Middlesex and Lambton—voted on petitions for the repeal of the Canada Temperance Act yesterday. Returns are not complete, but enough has been received to show that the friends of repeal carried the day in Oxford by about 2000 majority, in Middlesex by 2500 and in Lambton by over 1000. This leaves Elgin the only Ontario county in which the act will be in force. The date for polling in Elgin has not yet been fixed.

Oxford Votes for Repeal.

WOODSTOCK, May 9.—There was little excitement over the Scott Act vote to-day, it being a foregone conclusion that the act would be defeated, which it was by about 2000 majority. Following are the returns:

A GREY MYSTERY.

Rufus Huntley Found Dead on the Sidewalk at Hanover.

HANOVER, May 9.—Rufus Huntley, a farmer who formerly lived a short distance from this town, left the Queen's Hotel to take the early train this morning for Michigan and was found dead on the sidewalk a short time afterwards.

He was taken into Mr. Messinger's house near by and Coroner Lauderkin sent for, who began an inquest this afternoon.

A large wound was found across the left cheek, how received is a mystery.

Swept Over the Falls.

BUCKINGHAM, Que., May 9.—Rev. Mr. Evans of the Church of England, Buckingham, was drowned this morning at the high falls 25 miles above here. He was out for a sail in a bark canoe and getting into the strong current lost control and was swept over the falls, which are over 100 feet high. Deceased was a native of England and had only been in Canada about 9 months.

The Corner Lots Affair.

The Matter of the Post Office and Customs Site Discussed in Parliament.

[CONTINUED.]

Mr. LISTER.—The town of Peterborough has two public buildings, a post office and a custom house. There were two wings of the hon. gentleman's party who owned lots which they wanted to sell to the Government, and they sold them to the Government for about four times what they were worth. It was considered then these buildings should have be a gem on one lot; but one wing of the hon. gentleman's party kicked, and so the Government bought the other lot, and now they are putting up two buildings in that town. Two or three Sessions ago I obtained a return of the post offices and other public buildings erected by this Government, and I found that in small towns of 700, 800 or 900 inhabitants, yielding scarcely enough revenue to pay expenses, this Government had erected public buildings at a very great cost to the country, when the requirements of the particular communities did not demand them at all. The Minister of Finance has a little town of 800 or 900 in his constituency, where a post office was erected at a cost of $18,000 or $20,000. If the hon. Minister of Public Works had to pay the cost of these buildings out of his own pocket, he would not be so ready to construct them; but he draws his $8,000 or $9,000 a year, lives like a lord, and snaps his fingers at the hard-working people of the country who have to pay for them. In Walkerton, a small town of 2,800 or 3,000 inhabitants, a post office is to be erected. In the town of Strathroy, with only about 2,500 inhabitants, for the purpose of carrying the county, the Government promised to erect a post office, and the people there are now having a fight as to which corner of the town that post office ought to be in. But in large towns, such as Woodstock, yielding a revenue of from $10,000 to $13,000, no public building is erected, because the place is represented by a Liberal. In the town of Sarnia, a place of 6,000 or 7,000 inhabitants, yielding a revenue to this country of $8,000 or $10,000 a year, there is no talk of building a post office—why? Because the intelligent electors of county in which that town is situated have thought proper to send a Liberal here to oppose the Government. On no principle is this Government guided in the construction of post offices. Not by the revenue of the place, not by the size of the town, but simply to please their political supporters, and to make the constituencies sound, so far as they can do so by the expenditure of public money. The Minister of Agriculture was formerly Postmaster General, and in my town his brother-in-law is the owner of the building in which the post office has lately been removed, and the Government pays a rent of $300 to their very worthy gentleman, and so long as he lives and the Minister of Agriculture remains in the Government, I suppose that amount or more will continue to be paid to him. And there it goes on, and the people's money is squandered. In the town of Cayuga, with only $700 or $800 of revenue the Government erect a post office, at a cost of something like $20,000, for the purpose of making that constituency secure for the late member, Mr. Mesmagee. We find the small villages throughout the country are demanding public buildings. There is no end to this system when once started. The towns first, then the villages, demand this expenditure, and political exigencies force the Government to yield to their demand. The sooner the Government lay down a hard and fast rule from which they will not depart, the better it will be for the country at large. This system is a cancer, growing every day; it is a cancer in the body politic, something like the system of railway subsidies which, to a short extent, was necessary, and Heaven only knows where they are going to lead to. This system is destructive of the independence of the country, it encourages the people to put their hands into the public treasury, and the sooner it is put a stop to, the better it will be for the whole community. The day must come sooner or later when the Government will be condemned for this extravagant expenditure. If towns yielding large revenues are not to be entitled to public post offices and buildings, on what principle can you justify the expenditure in the small towns and villages on public buildings? We will find every village demanding a post office, and then the more humble, and the Government will have to yield to their demands.

Mr. LANDERKIN.—I would like to say another word before this item passes. If the hon. member for Leeds (Mr. Taylor) is in the House, I would like to draw his attention to what I am going to say. He goes in for the purification of the House and the prevention of placemen having seats in the House. If he is not here, perhaps the hon. the Minister of Public Works will send for him. I see the Government have rented, through Cox & Stevenson—I believe that is the firm to which the hon. member belongs—a building for the Trent Navigation Company, and pay a rent of $600. I would like to draw the attention of the hon. member for Leeds (Mr. Taylor) to this, for I am sure he would like to know it. I am sure he would like to see if it is true that a gentleman occupying a seat in this House can have a contract with this Government. Another little point in History in connection with this matter I would like to give, and then spare the Minister of Public Works, who will be pleased to have this piece of history known, as it will probably close the discussion. It appears there was a lot bought in Peterborough, this very lot concerning which we are now legislating, for the purpose of building a custom house and a post office. That lot was bought and paid out, and the deed specified the purposes for which it was bought. There were four gentlemen who owned the other lot, known as the Sawer's lot, and they thought they would sell their lot to the Government also. They brought it, I believe, for speculative purposes, and they succeeded in selling it to the Government. The difficulty that arose was this: The four gentlemen were those who rode under the banner of the Minister of Customs, that is when he used to ride under that banner—when he used to uphold the flag. I wish the hon member for North Simcoe (Mr. McCarthy) were here, I would like to call his attention to this matter as it may aid him in his crusade. There four gentlemen, in this syndicate were of one party, the gentleman who who owned the other lot was of another party. He was an Irishman, and his lot had been bought, but the building had not been put upon it, for it appears the party at that time was based on the motto: "No Irish need apply." The followers of King William apparently were in the ascendant at that time, and they triumphed over the followers of King James, and so the post office was taken away from the lot bought for it, and placed on the other lot, no doubt mainly through the influence of the hon. the Minister of Customs. Then was the day when the Minister of Customs used to parade on the Protestant basis. He does not do that now. Since he has got into the Cabinet, he put the horse in the stable, and some people think the latter starved to death. At all events he never takes it out for a canter or a promenade on any occasion. It is necessary now to consolidate the other party, so blind the orange and green, and this beautiful not-work has been devised through the skill and ingenuity of the hon. member for Peterborough (Mr. Stevenson). The other member [illegible] and he had to retire between these two factions. I do not know but that the hon. member for West Peterborough was behind the Minister on these occasions, and I suppose was the late member had to retire. The hon. gentleman put his wits to work to blend in harmony the orange and green in Peterborough, and what was the result he took? It was the expenditure of public money. The Government gave him $40,000 or $50,000 to build two buildings, where one would have done, and this was done for political purposes. The hon. Minister of Public Works knows that every word I have said is true, and will be obliged to me for giving him this explanation, because it spares him the disagreeable necessity of making the facts known to himself.

Mr. SOMERVILLE.—The hon. the Minister of Public Works must have made some mistake in the figures he gave. The Auditor General's Report shows that the first year the amount was $16,500. Last year we expended $18,120, less $640, which makes a total of $34,982, expended on the post office already, and there is a further grant in the estimates now under consideration for $1,000. This does not include the purchase of the lot at all; $6,000 was the price of the lot the post office was erected on. If the customs house is to cost an equal amount, we will find the expenses for public buildings will foot up to something over $80,000.

Sir HECTOR LANGEVIN.—I have not the figures here, but, when one of the hon. gentlemen opposite put a question to me, I thought I remembered that the amount for the building contract was $18,000. That was stated simply from memory. As to the purchase of the lot, I said I thought it was $6,000, and I think I was not far from the figure in that case. Then for the other lot, I stated the amount was $3,900. I did not expect that the question of the post office lot would be brought up, because this vote is for the custom house only.

Mr. SOMERVILLE.—The hon. gentleman will see that the amount for public buildings in Peterborough will be over $80,000.

Sir HECTOR LANGEVIN.—No; if the first building cost as much as the hon. gentleman says, the second will not be so expensive.

Mr. MULOCK.—I would like to ask if it would not be convenient to have the post office adjoining the custom house? I thought probably the Minister of Public Works hesitated in replying to that question, when I put it before, because he had not the local knowledge, and therefore I think the member for West Peterborough (Mr. Stevenson) should furnish the Committee with that local information. You have now the post office a completed structure, and have not started building the custom house. Would it not be better to have them together? What is your opinion in regard to that?

Mr. STEVENSON.—It was intended from the beginning that we should have two buildings. I was not in the House at the time, but I know two plans were submitted, one for the custom house and one for the post office, and the estimated cost for one building was $16,000 and for the other $20,000. Our neighboring town of Port Hope has a building, including the post office and custom house, which has cost over $46,000, although it has a much smaller population than we have. In Belleville, which is a town of about the same size as ours, the building cost a much larger sum. The place where the custom house is to be is much more suitable than it would be if it were placed near the post office, as it is in the neighborhood of the two railway stations. I admit that there was a great deal of fighting about the post office, but I had nothing to do with it; I took no part in it; I never signed a petition or asked the Minister to put that building in one place or the other.

Mr. LISTER.—You saw the Minister about it.

Mr. STEVENSON.—The building lot was purchased in the place where the post office is now, because the people said the original place selected would not do, that it was too far from the business part of the town. That is where it is now proposed to build the custom house. If the Government had built the post office, they would have had to put another office in Ashburnham, but now we will have only one post office for both places.

Mr. MULOCK.—Does the hon. gentleman remember in what year the lot which is now to be used for the custom house was purchased, when it was intended to be used for the post office?

Mr. STEVENSON.—I think it was in 1885.

Mr. MULOCK.—It was bought then with the intention of being used for the post office, and the plan was afterwards changed?

Mr. STEVENSON.—The people would not have it there.

Mr. MULOCK.—Will the hon. gentleman tell us in what way the question was submitted to the people? Was it decided by a vote of the people?

Mr. STEVENSON.—The people petitioned to have the post office in another place.

Mr. MULOCK.—Does the hon. gentleman think it would be in the interests of the people of Peterborough, irrespective of any considerations which might arise from the fact of the Government having bought lots in different places, to have those two buildings adjoin one another?

Mr. STEVENSON.—No.

Mr. MULOCK.—If it had to be done over again, you would select those sites?

Mr. STEVENSON.—Yes; I think I would.

Mr. MULOCK.—I would ask the member for West Peterborough (Mr. Stevenson) whether the Government is under any special obligation at this time to erect this custom house in Peterborough; whether they have made any pledge or promise to that effect?

Mr. STEVENSON.—When Mr. Hilliard was member, I understood that they agreed to build a custom house and post office, and that they bought the land for both buildings.

Mr. MULOCK.—Then a promise was given to the people of Peterborough to erect a custom house there. I suppose that promise was given after the lot was bought. Now, we are getting at the true inwardness of this matter. We discover now how the Government are obliged to ask for this vote. A promise was made to the people of Peterborough, on the eve of the last general election, that they would erect a custom house. The hon. gentleman says that Mr. Hilliard was promised a custom house, and now we are called upon to enter into this expenditure in order to fulfil a promise which was made as a means of procuring a Dominion election. We have the admission made by the hon. member for West Peterborough (Mr. Stevenson) that Mr. Hilliard promised this custom house, having regard, of course, to the election which was shortly to take place, and the Minister of Public Works last himself to this and made this pledge. I would like to know whether he really endorses this pledge of which the hon. gentleman speaks?

Mr. STEVENSON.—I did not know anything of the Minister in the matter. It is Mr. Hilliard I am speaking of.

Mr. MULOCK.—However, the Minister of Public Works has given the House to understand that this vote of $20,000 has been placed upon the estimates in his possession, and such other information as will enable him to tell us what will be the probable cost of this public work?

Sir HECTOR LANGEVIN.—I suppose this building, when completed, will have cost $24,000.

Mr. MULOCK.—Would the hon. gentleman say whether this is more guesswork, or have there been any plans prepared showing the character of the work?

Sir HECTOR LANGEVIN.—The plans are never prepared before the vote is given by Parliament.

Mr. MULOCK.—Here we vote $16,000, and the building may cost $40,000. That does not seem to me to be a business-like way of proceeding. We should know before we commence to build what the cost is likely to be. We should also have some explanation of this statement made by the hon. member for East Grey (Mr. Sproule). It appears that you are able to rent buildings in Peterborough for certain Government officers. That great public work that is going on now, the construction of the Trent Valley Canal, should have an office there. While you are preparing these plans you might get a small corner in that great office for that purpose.

Mr. LISTER.—Nobody can charge the hon. member for West Peterborough (Mr. Stevenson) with a desire to conceal any information he may possess, but there is one thing he did not tell us. He did tell us that he was brought in to decide between two positions. I understand from the discussion to-night that there was internal dissension as to where these public buildings should be, and in order to consolidate one party or the other it was decided to put up two buildings instead of one. The hon. gentleman has told us that this was done under a promise made just before the election. He tells us that public opinion was calculated, and expressed itself by several petitions numerously signed by the residents of the town from which he comes. He also tells us that he did not sign either of those petitions. He wants the House to understand that the sites were selected purely on account of their suitableness for public buildings. I want to ask the hon. gentleman if he did not come to Ottawa and see the Government?

Mr. RYKERT.—Don't answer him.

Mr. LISTER.—Did he not use his influence for the purpose of having two buildings put up, instead of one? Did he not see the members of the Government for the purpose of arranging this little trouble within the party?

Mr. STEVENSON.—I did not.

Mr. MULOCK.—You had no correspondence with them?

Mr. STEVENSON.—No, Sir.

Charles Francis Adams Continues the Interstate Commerce Law.

NEW YORK, May 8.—The Senate Committee to-day continued its investigation in regard to the relation of Canadian to American railroads. Charles Francis Adams, President of the Union Pacific road, was the first witness. He stated that owing to the manner in which the Interstate Commerce Law had been disjointed it was impossible to give any opinion as to whether the act was beneficial or not. In connection with the other railroad presidents, he was anxious to see what would be the effect if the law was strictly carried out. He might remark it was good law in effect if not in order. He was sure that any railroad that had enforced the law had lost considerable business.

Mr. Adams approved the suggestion that by joint legislation both Canadian and American roads be put under the same conditions and then pooling be legalized. He said he did not believe in pools, but we in this country need a study.

Thos. Lyman Greene, a railroad expert, said the Interstate Commission should have power to fix rates and represent the public in the transaction.

President James J. Hill of the St. Paul, Minneapolis and Manitoba Railroad testified that the American people have about a one-third interest in the Canadian Pacific Railroad. The Canadian Pacific got a great portion of its trade from a substituted line of steamers running from the western terminus of the road to Yokohama. This gives it an advantage over every other road on this continent. Witness thought that if the Canadian roads were obliged to operate under a law similar to our interstate law they would shortly cease to exist.

Stanton Wiman was the next witness. He said any one of the United States which should bar out the Canadian roads would be detrimental to the interests of this country. The Canadian Pacific road had done more than all else in building up the west and northwestern parts of this country. The Canadian roads were willing to conform to American laws if they could. Mr. Wiman favored Commercial Union between the United States and Canada and said it was a short cut to Annexation. He said that Canada cannot, will not, remain in her present condition. The tie that binds her to England is the merest sentiment. She must either become an independent republic or join with the United States. The hopes of one great party there rest entirely upon one old man. After the death of Sir John Macdonald will come the deluge.

The committee will continue its work to-morrow.

The Collector Has His Eye Upon It Still.

WASHINGTON, May 8.—Secretary Windom and Assistant Secretary Tichnor to-day gave hearing to persons interested in the question of the dutiable character of Canadian eggs used in the transportation of merchandise between Canadian and United States points. There were present General G. L. Spalding of St. Johns, Mich., Benj. Flagler of Suspension Bridge, E. B. Ball of Detroit, Henry Russell of Michigan and Mr. Baker of Detroit. These gentlemen represented American roads and American capital and each spoke in opposition to the proposed imposition of duty on the cars in question. They represented that these cars had been admitted free of duty for 20 years and any change in the practice would result in great damage to domestic interests. There was no one present to advocate the other side of the proposition although it is understood the collector at Detroit takes that view of the case.

Evading the Interstate Law.

WASHINGTON, May 8.—The Interstate Commerce Commission devoted a session to-day to hearing representatives of Western railroads in the matter of mileage allowance on different classes of cars furnished by shippers, car companies, individuals or companies, the manner of conducting this business, etc. There were between forty and fifty railroad men present. The testimony showed that the railroad companies generally are paying a mileage allowance of 1 of a cent per mile on all cars of connecting lines and that many cars furnished by shippers owning their own cars. It was also developed that for a short time back contracts have been entered into by a number of Western railroad companies with Armour & Co., Swift & Co. and other shippers of refrigerator cars, by means of which a mileage allowance of one cent per mile is paid to these shippers and not to other shippers.

A Rector in Trouble.

CHATHAM, May 7.—Dr. Bright is in trouble again. A policeman this morning between five and six o'clock found Clara Wrightman in the street, apparently very ill. He took her to the police station, where he elicited the statement that she had a miscarriage in Victoria Park last evening, the result of medicine given her with that intent by Dr. Bright. The doctor was arrested, and a preliminary examination with closed doors held. During the cross-examination of the girl she got so ill that the magistrate had to stop the enquiry. The bottle of medicine which the girl says Bright gave her to procure an abortion, and she had given to another young girl in a similar predicament, who gave it up to the police. Bright was remanded till next Monday in $10,000 bail himself in $5000 and two sureties in $2500 each.

The Trouble in Algoma.

THESSALON, May 8.—The police expedition arrived Monday morning. The bridge had been blown up in anticipation of their arrival. The shantymen are all well armed, and threaten violence. They say there is no law to protect their interests, and they must look out for themselves.

The police, under Detective Grier, at once set about the construction of another bridge, and, although threats of violence were made by the shantymen, they refrained from carrying them into effect. As soon as the bridge was sufficiently advanced to allow the police to cross they charged up the opposite hill to the shanties. They then sent a gang of laborers at work to complete the bridge. They are compelled to remain on the scene, however, to protect the workmen from violence on the part of other gangs.

Oil Sixteen.

PETROLIA, May 7.—The conference committee of the various oil exchanges who met here to-day decided to recommend dealing in futures. Rules governing the same similar to those in vogue on the Chicago Grain Exchange were adopted. The rules will be submitted to the exchanges for action, and if acceptable to a majority dealing in futures will begin one of the leading features of the oil trade.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

By Taking

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal T. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. E. Sutherland, Evangelist, Shelby City, Ky.

The fact cannot be too forcibly impressed upon the minds of all users of paint, that good results can be produced only by the use of good materials. The main expense in painting is not in the cost of the paint, but in the cost of LABOR and GAS, and it requires more labor and more oil to apply inferior paint than to apply the best that can be obtained.

The above Brands are the acknowledged standard by which all other paints in the market may be judged.

THE MESSENGERS' RACE.

One of the most amusing features in connection with the 24th of May annual sports of the 57th Battalion and P.A.A.A. will be the messengers race. Capt. H—l has been seen several times already speeding his thoroughbred rooster in anticipation of the event.

COURT HOUSE PARK.

It has been arranged to formally open Court House Park for public use, by a concert to be given by the Fire Brigade Band, on Tuesday evening, May 21st. Work on the park this year is delayed by the dry weather. The leaves are already looking parched. Unfortunately city water has not been available.

SOUTH WARD TALENT.

The pupils of the South Ward school have clubbed together and rented an organ, which they use every day in their regular school songs, and in addition at a musical and literary entertainment which they held every other Friday, when songs, recitations, dialogues, etc., are rendered. The children get up very creditable programmes, and they are to be commended for their enterprise.

OBITUARY.

Last evening Mr. Wm. A. Chamberlain died at the age of 38 years. Deceased was well-known in town in connection with the contractors' which bore his name, and was well liked by his friends. For some time past he has been lingering in the last stages of consumption, and the dread disease completed its fatal work last night. He leaves a wife who will have the deep sympathy of the public. The funeral takes place to-morrow morning at nine o'clock to the R.C. cemetery.

WILLOW AND WICKET.

OTTAWA, May 9.—The Ottawa Cricket Club has made arrangements for a week's cricketing tour about the end of July. The places visited will be Peterborough, Brantford, Toronto, Guelph, Galt and Hamilton. If successful, the tour will commence on July 22nd at Peterborough and finish on the 27th at Hamilton. The committee have the making up of the team and other arrangements now in hand.

A SLIGHT MISTAKE.

Mr. Alexander Morrison, of Bridgenorth, attended the meeting of St. Andrew's Society in town last night, and found on returning home that the kitchen of his house had been badly burned and the dwelling itself saved from destruction only through the efforts of kind neighbors. His family were at home, but do not know how the fire started. The damage, estimated at about $60, is covered by insurance in the Queen's.

Congregational Reception.

THE LADIES of St. Paul's Church Entertain the Congregation—A Delightful Evening in the School Room.

The school room of St. Paul's Church was about as cool and inviting a place of retreat as one could find last night, and so the congregation thought, for it was the unanimous expression of all those who attended that the reception was a delightful success. The lofty, well ventilated room was cooler than the outside atmosphere, the walls were tastefully decorated with flags, bunting and evergreen, while the tables and platform were resplendent with beautiful blooming house plants. The ladies went to a great deal of trouble to make the affair a pleasant one, and their efforts were appreciated.

Several hundred members of the congregation and their friends attended the reception. It was quite an informal gathering. There was no programme rendered; it was intended to be a large social party, a generally friendly-every-time, and that is what it was. The utmost good humor and harmony prevailed. The people intermingled and [illegible] the quiet delights of conversational [illegible]ourse, as only a congregation of church-goers on perfectly friendly terms with their pastor as with each other could do. All seemed intent on carrying out the spirit conveyed in the two handsome mottoes, "Welcome" and "By love serve one another." There was a large people present, and their vivacity and joviality added enhancement to the scene. Altogether the reception was a gratifying success.

During the evening the choir sang a couple of anthems, which it is needless to say were rendered with the precision and harmony that characterizes the choir of this well trained chorus. Refreshments were also provided by the ladies for the delectation of their guests, consisting of cake and lemonade (not of the pie-nic variety,) was dispensed with lavish hand.

The members of the Ladies' Aid Society are to be congratulated upon their success. Where all worked so indefatigably and in unison it would be invidious to make special mention of any of those who took part; suffice it to say every lady contributed her share towards the general result. The young people of the Endeavor Society undertook the decorations, and their portion was to admirably carried out as were all the other arrangements. The decorations will be left in position till next Thursday, when a bonnet and sale is to be held under the same auspices as was this most successful reception.

St. Andrew's Society.

FIRST MEETING IN THE NEW ST. ANDREW'S HALL—THE FINANCIAL AFFAIRS OF THE SOCIETY—A NEW TREASURER ELECTED—PLEASANT AND RECREATION—GIFTS TO THE SOCIETY.

A special meeting of the St. Andrew's Society was held in the new St. Andrew's hall on Thursday evening, the president, Chas. Cameron, Esq., in the chair.

THE HALL COMMITTEE'S REPORT.

After the reading of the minutes the secretary read the report of the committee appointed to procure a new hall. The report detailed all the circumstances in connection with the negotiations between the committee and Mr. Jas. Stevenson, from whom the hall was rented. It showed that Mr. Stevenson had acted in a liberal spirit towards the Society. The report stated that the hall could be leased for one or five years at the option of the Society, and recommended the acceptance of the offer. It was also stated in the report that Mr. Stevenson had kindly donated a set of gas chandeliers, gas pendants and fixtures, a number of useful hat pegs and other suitable articles towards the furnishing fund of the new hall; also that Mr. Geo. Noble had put in the gas pipes, chandeliers and fixtures free of charge, and given his services in various ways towards the furnishings of the hall. The report called upon the members for donations of necessary articles still required to furnish the rooms, and asked for a generous response towards the maintenance and support of the Society in the future.

The following motion was then carried unanimously—Moved by Mr. Roderick McLennan, seconded by Mr. Max Dennistoun—That the thanks of this Society are due and are hereby tendered to Mr. Jas. Stevenson, Esq., for his liberality towards the Society and especially on behalf of the furnishing fund of the new St. Andrew's Hall.

Moved by Mr. Roderick McLennan, seconded by Mr. Geo. Noble—That the President and Secretary be authorized to sign a lease of the new hall, on behalf of the officers of the St. Andrew's Society, for a term of one year, with the privilege of renewing the lease for four years.—Carried.

Mr. GEO. NOBLE, on behalf of the Committee, then formally handed over the hall to the President, in behalf of the Society. He took occasion to urge upon the members to give the Society their best encouragement.

The PRESIDENT thanked the Committee for their services in procuring them their new hall, and for the time, trouble and attention they had so freely given in connection therewith. He expressed the hope that the Society would flourish better than ever it had done before, and grow more useful and prosperous in the years to come. He had much pleasure in accepting the hall from the Committee, in the name of the Society.

THE FINANCES OF THE SOCIETY.

The Secretary read a detailed report of the financial affairs of the Society up to May 1st, 1889. The report showed a cash balance to the credit of the Society of $32, with liabilities amounting to only about $5.00 for printing expenses.

On motion of Mr. W. Cummings, seconded by Mr. Noble, Mr. Max Dennistoun was unanimously elected Treasurer, *pro tem.*

EXCURSION AND PIC-NIC.

Moved by Mr. Jas. Hendry, seconded by Mr. W. Monzies,—that a committee be appointed to make arrangements for holding a St. Andrew's excursion and pic-nic this summer, the committee to consist of the President, and Messrs. Max Dennistoun, Geo. Noble, Thos. T. Alford, Roderick McLennan, Alex. W. Strachan, Alex. Morrison, and the mover and seconder.—Carried.

On motion, the meeting adjourned for two weeks.

PRESENTATIONS.

Mr. William Telford, the esteemed bard of the Society, was present during the evening, and handed the President a copy of his Book of Poems as a present to the Society, and as a memento of the occasion of the opening of the new hall. Accompanying the gift was the following appropriate lines written under the cover of the book:—

Reader, when you this volume open—
Brim full of truth and Scottish glee—
Accept it as a true heart's token,
Placed in this hall—for you—by me.

Long I have ranked among your number,
Near thirty years your humble Bard;
When I with our old members slumber,
My name, this book—preserve, regard.

WILLIAM TELFORD,
Bard.

St. Andrew's Hall, May 9th 1889.

It was observed during the evening that a handsomely upholstered arm chair had been placed at the head of the hall, and was occupied by the chairman. Who the valuable gift came from no one seemed to know, and all enquiry failed to find out the name of the thoughtful donor. Some of the knowing ones hinted that the modest President himself was in some way "at the bottom of it."

"Isaiah's Menagerie."

Mrs. Dowdle Talks About the Lions, Tigers, Wolves, Etc., in the Jungle of Sin.

Revival services are being conducted in the Salvation Army barracks this week and next by Col. and Mrs. Dowdle. In contrast to the usual accompaniment of drum and tambourine, hallelujah salvos and noisy demonstration peculiar to the Army, these meetings are conducted very quietly and in orthodox style. The big drum is laid away on the benches, no brass band renders earsplitting music, no cornet choruses are heard—their plan of campaign is simple, earnest exhortation, fervent prayer and singing of the hymns of salvation. Col. Dowdle plays the violin, but there are no other artificial instruments used.

The meetings have been fairly successful. Night before last two souls were brought to Christ, the Colonel said, and no doubt others were convinced of their sins last night, though the audience was a very small one to operate upon. The side seats were roped off, apparently to prevent the slim congregation from losing itself altogether in the wilderness of empty benches. No doubt the latenes hour proved a hindrance to a large attendance, but probably a greater obstruction was in the ten cent admission fee which was charged. Last night was a special occasion; the usual services are free to the public. Meetings are held every night.

Mrs. Dowdle spoke for an hour and a half on "Isaiah's Menagerie," but her small band of listeners did not seem to tire. She is a clever speaker, and being English has a pronounced tendency to use the letter "h" where it shouldn't be used. However, her address was

PRACTICAL, PLAIN AND PUNGENT,

and her amusing illustrations "took" immensely. She read the 35th chapter of Isaiah, commenting upon several verses, dwelling at length upon the passages:

"And an highway shall be there, and a way, and it shall be called the way of holiness; the unclean shall not pass over it; but it shall be for those: the wayfaring men, though fools, shall not err therein.

"No lion shall be there, nor any ravenous beast shall go up thereon, it shall not be found there but the redeemed shall walk there."

In meditating over these passages, Mrs. Dowdle said, she had tried to think what were all the ravenous beasts referred to.

Satan resembled the dragon, which with its poisonous breath destroyed every living thing in its presence.

First the lion was mentioned, the king of beasts, and she thought it typified worldliness, which was the greatest drawback to the church of God to-day. Fashion had so crept into the church that it was impossible to tell the Christian from the worldling. All dressed alike with the latest foibles and fashions. This was not as it should be. God wished the Christians to be a "peculiar people, and zealous in good works;" they should be separate from the world and dress to distinguish themselves from the worldlings.

Then the tiger, which springs suddenly upon its prey, was typified in a bad temper, which springs up in one's heart when least expected. But though anyone has a temper like a Bengal tiger, thank God, he could kill the tiger. Professing Christians with a bad temper do much injury to the cause; they are not rightly saved.

The leopard, a pretty little animal, but ferocious just the same, was likened to the sin of pride. Many people wear fine clothes and ornaments and say they are not proud; but the very fact that they wore them showed that they liked them and would

SPEND THEIR MONEY

to gratify their foolish desires. Mrs. Dowdle was very severe upon those women who so closely follow the fashions, which as a Scotchman once said, were got from Glassow and Glasgow from Edinburgh, and Edinburgh from London, and London from Paris, and Paris, the wickedest place on earth, from the devil. Christians should come out, and separate themselves from the world; it needed some of God's people to lead the way and set the example.

The wolves of jealousy were next noted, which were responsible for many churches split up and Army Corps spoiled. It was one of the worst of sins, and had caused endless woe.

Bears, which hug their prey, were typified by selfishness. Nearly all that is bad comes out of selfishness, Mrs. Dowdle said. In doing a kindness to another, you are yourself blessed, as surely as you are yourself injured if you injure another.

None of these beasts would be met on the highway of holiness; they lie and wait in jungles, among the rank weeds. The jungle or swamp was characterized by lager beer, whiskey and strong drink. Mrs. Dowdle said the Salvation Army was a total abstinence body, and the largest one in the world at that. She dealt with the statements that the Bible spoke in favor of wine-drinking. She pointed out that the fermented wine, which giveth its color in the cup, was condemned by the Bible; the wine made by our Lord was water blessed and sanctified; the wine and oil carried by the good Samaritan was for dressing wounds, a mixture of the two made a splendid healing ointment; while the wine recommended by Paul to Timothy was

FOR HIS STOMACH'S SAKE

and for his infirmities. The only way in which a person could justify himself in drinking wine was by proving that he had Timothy's weak stomach and was subject to his infirmities. There were just two things, Mrs. Dowdle said, which she felt certain St. Paul would be sorry for saying if he were alive to-day. Those were his recommendation of wine to Timothy, and his statement that "he never suffered women to speak in the church."

Then for the rank weeds in the jungle Mrs. Dowdle took tobacco. She said she would make a statement which she had carefully considered. It was that tobacco was the cause of more backsliding than strong drink, because men cling to the weed after they should give it up. Men say there is no harm in it, but why are they self-condemned and when they meet their minister hastily put their pipe out of sight? Smoking and chewing were acquired habits; God never intended a man to smoke or he would have built a little chimney out of the back of his head. God demanded that we defile not our bodies; no man who uses tobacco can have a clean heart.

In conclusion Mrs. Dowdle said that the Christian on the highway to holiness must be separated from all these things. Dead fish always floated with the current, but live fish swam against it. Any worldling can go along with the tide of their sins, but it took a live Christian to go against the stream and be separate from the others.

"Self-Reliance" to the Front.

What He says on an Important Subject.

Several days ago we published a letter from "Experience," upon a subject which is attracting considerable attention, and we have since received a similar communication from another, which we publish in full:

TO THE EDITOR:—A short time ago I noticed in your columns a letter signed "Experience." At first I was inclined to regard the letter referred to as a clever advertising scheme of Messrs. H. H. Warner & Co., to attract notice to their well-known Warner's Safe Cure, which is, it must be admitted, of the greatest value and merit, but upon more mature consideration I am inclined to believe that the letter is a genuine expression from a well-informed individual, who is not afraid to grapple with a question which should receive greater attention.

It is daily becoming more apparent that there is something radically wrong in the manner in which disease is being treated by those whose profession it is to heal the sick. A man is taken ill and a physician is called in. "Only a slight nervous disorder," remarks the physician. The slight nervous disorder, however, refuses to be controlled, and in a short time the physician ominously remarks that the patient is [illegible] from consumption. Things go on for a while until the patient is afflicted with what the physician calls "a series of complicated disorders." Treated for first one thing and then another—dosed with all sorts of vile concoctions—the patient finally succumbs, and then for the first time it is learned that the real cause of suffering and death was disease of the kidneys, which manifested itself in various other disorders—all of which could have been promptly cured if timely use had been made of Warner's Safe Cure, which is the most important discovery made in connection with scientific progress in recent years. The reference made by "Experience" to the Robinson poisoning case, where no less than seven members of one family died within five years from the effects of arsenical poisoning without attracting the attention of skilled physicians, who were in attendance, to the real cause, but who issued death certificates for pneumonia, typhoid fever, bowel disease, etc., is a startling evidence of the ignorance which prevails among those whose duty it is to diligently search and trace the true cause of disease.

Trusting you will "Experience" in the coming time, after all, those who take matters of health in their own hands and place their reliance upon a well-known remedy which is time-tested and known to be of benefit are better off than those who trust themselves in experimental and ignorant hands.

DEFORMITIES and HERNIA, or RUPTURE

I AM COMING!

CHAS. CLUTHE

The Surgical Machinest, of 128 King st. west, Toronto, will be at the

Oriental Hotel, Peterborough, on Friday and Saturday, 14th and 15th June.

when I will be pleased to meet all those requiring my services for the Treatment of Rupture (no matter how bad your case may be, come and I will give you relief), Club Feet, Bow Legs, Weak Legs, Spinal Diseases, and any other Deformities corrected by mechanical treatment.

Read what some of your neighbors have to say and be your own judge:—

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You knew when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM,
Peterborough.

Rupture.

DEAR SIR—I am only to inform you that the Scientific Truss you put on me last spring has been all it was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, yours truly

A^T TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"

FROM THE NEW FIRM OF

H. LeBRUN & Co.

Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even *better* prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MOSS SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel fit proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the *largest* assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and fitters. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS' CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SEMI WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS. HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

The Daily Examiner.

SATURDAY, MAY 11, 1889.

Mr. Erastus Wiman has won golden opinions from the friends of the C. P. R. by speaking before the Senate Committee, in New York, charged with investigating the circumstances connected with the relations of Canadian and American railroads. He testified that the Canadian Pacific Railway had done more than all the other roads in building up the American Northwest. This is indeed gratifying and a great tribute to Canadian enterprise, of which the C. P. R. is so potent an example. But Canadians, with minds of an utilitarian trend, will naturally inquire as to the wisdom of Canada expending something like a hundred million dollars for the sake of developing the country of the Yankees. It is a great feat to take the "blow" out of our southern and western neighbors, and beat them on their own ground, but is it a question whether the enjoyment of such a privilege is worth a hundred million dollars.

An exchange gives the information that a large flouring mill in Ottawa has been shut down and thus moralizes on the cause:—It pays better to allow a valuable property to stand idle and to deteriorate in value through disuse than to continue competing against the discriminating wheat and flour duties. From one end of Ontario to the other, the flouring mills are standing still. Stock in milling companies, which a few years ago was at a premium, is now not worth half a dollar, and no small number of the millers have been ruined. An industry native to our soil, of great importance to the welfare of this community, and one in which more money was invested than in any two of the industries injuriously stimulated, or a host of the hothouse industries forced into unhealthy exuberance or an unnatural existence by the National Policy, has been blighted, if not entirely destroyed, because the Government of Sir John Macdonald were required by political exigencies to discriminate against it. To use plain terms, the Government of Canada has plundered the millers of Canada of all, or a goodly portion, of their property in order to cajole the farmers into believing themselves protected without arousing the hostility of the people of the Maritime Provinces.

The London *Advertiser* thus descants upon the policy of supporting the old man:—"It will be recollected that when, shortly after his vote on the Jesuits' Estate Act was taken in the House of Commons, Mr. Joseph Marshall, the representative for East Middlesex, was interviewed by an *Advertiser* reporter, when he said in effect:—'what are the people kicking about? They sent me to Parliament to support the 'old man' and I did it. That's all.'" Mr. James Stevenson, M.P. for Peterborough, seems to take a somewhat similar view. At a meeting in Peterborough town a few days ago he was ask to explain his vote on the Jesuit Bill. Mr. Stevenson's answer was that 'they sent him to Ottawa to support the Government and he had obeyed instructions. He thought no man should desert his chief.' According to Mr. Stevenson's idea a Tory member of Parliament is a mere slave or automaton, without individuality or will power, whose simple duty is to obey the party boss."

Very Candid Testimony.

(From the Toronto Mail)

To the Editor of The Mail: As a constant reader of your paper I will thank you to insert the following:

Having read so many valuable testimonials as to the value of Warner's Safe cure, I think it my duty to contribute one, and I speak from actual knowledge.

In 1883 my wife took pains across the kidneys, and from there to her shoulders and to the pit of the stomach. The skin came of her finger ends and also off her lips, and turned purple red. She was under a doctor's care for about three years, and took different medicines, but no relief came. I got disheartened, and said one day, "Will we try some patent medicine?" She said: "Jack, let me die; I have taken medicine enough." I went down to W. Clark's drug store and procured two bottles of Safe Cure, and one of pills. I continued on until she had taken eleven bottles, when she said: "I need no more; I have no pains anywhere, and I feel quite myself again." My wife has never once suffered from the dreadful pains which she had before taking Warner's Safe Cure. I am sorry that in justice to the newspapers of that invaluable medicine I have not reported on it before, but nevertheless I recommend it to every human being suffering with the same affliction.

Yours, etc., J. Cooper,
Lighthouse, Port Arthur.

April 22.

[The foregoing letter comes to us direct from Mr. Cooper, without the knowledge of the purveyors of the medicine, unsolicited, and may therefore be considered as unsolicitous testimony. We publish it at the request of the writer, and it is not an advertisement.—Ed. The Mail.]

PRICES AND PROSPECTS

BRADSTREET'S REPORT OF THE STATE OF TRADE.

Advices From Some Leading Trade Centres Favorable While Others are Disappointing—The Reaction in Breadstuffs.

New York, May 11.—Special telegrams to Bradstreets, from leading trade centres indicate an improvement in general trade at Cincinnati, Chicago, St. Louis and Kansas City. At no other point reporting have there been any widespread gain in the movement of staples. Advices from Philadelphia, Boston and Baltimore might partly be construed as disappointing while at New York general trade is more active in lines (jobbing), naval stores, fruits, coal and coal. The centennial week was disappointing to hotel and restaurant keepers, dry goods, fruit and other wholesale dealers. Country produce and naval stores prices used lower. Rain is much needed in Louisiana, Ohio and Kentucky. Recent rains followed by warm weather in Minnesota and California have improved crop prospects. Kentucky leaf tobacco is strong or firm the effects of drouth.

Stock speculation at New York is flat and dull. The reconstruction of the Atchison movement fails to counteract the unfavorable effect of the annual report and poor showings of current earnings. Good crop prospects aid in keeping up an underlying bullish sentiment notwithstanding drouth in the central western states. Bonds are strong with a heavy investment demand. Money at New York is easy, call loans 2 to 2½ per cent. Foreign exchange is firm and quiet, demand sterling $4.89 to $4.89½.

The cut of $1 for No. 1 and 2 Lehigh pig iron brings prices down to $16.50 and $15 respectively, the lowest recorded. This is the second effort to check southern competition in the East by reducing prices, the same company having dropped quotations from $20 to $18 in December, 1884 for like reasons. The outlook is for a reduced output of anthracite iron and a better trade. Bar iron has only a moderate demand. Steel rails are still demoralized, $35 "or less" having been reported accepted this week. This if true makes the lowest price on record on steel rails in this country. Anthracite coal is said to have improved since May 1. The demand at the reduced rates is undoubtedly a little more active with greatly reduced output during May.

There has been a reaction in breadstuffs and prices have advanced 2 cents on wheat, 5 to 10 cents per barrel for flour, 2c for Indian corn and 1 to 1½c for oats. There has been an increasing activity in wheat among both millers and shippers. The dry and hot weather west, unpromising crop reports, stronger cables and a more active export movement combined to affect prices upward. Exports aggregating 700,000 bushels are expected this week and next. There is a fair home and foreign demand for corn, and oats are active and higher. Total exports of wheat and flour both coasts this week equal 1,221,000 bushels of wheat against 899,000 bushels last week and 1,485,000 bushels the second week of May, 1888.

New York dry goods jobbers report a quiet trade. The volume of commercial trade proved disappointing in all leading lines. At Boston there is only a moderate activity. Prices are generally firm and unchanged. Leading makes of staple cottons tend higher, woolen goods sell slowly. Manufacturers of cashmeres and worsteds are well supplied with orders. Wool is unchanged. Wool growers and dealers are wide apart for the new crop as better prices are demanded than those obtained last year. At the London sales prices have advanced ½d. to 1d. per pound all round. Raw cotton is 9-16c. lower on weaker foreign advices.

Raw sugar has been very dull owing to lack of demand by refiners, though holders have generally been reserved. The result was a decline of ¼ cent. Holders at primary markets continue in confident temper. Refined being in limited sale was reduced in price ¼c. to ⅜c. An early revival in demand is expected. At New Orleans and San Francisco sugar price have receded in sympathy with New York and London. Accumulated European stocks of coffee induced bearish cables which affected speculative dealings in that staple here and prices reacted ⅜c. Brazilian advices of free export sales and a weakening tendency by holders there aided this movement. Other varieties of coffee have been firmer at New York, with a good demand.

Further Great Cures of Skin Diseases by the Cuticura Remedies.

Boy one Year and a Half Old. Face and Body in a Terrible Condition, being Covered with Sores. Sulphur Springs fail. Cured by Cuticura Remedies.

I have used your Cuticura Remedies in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Minnesota Sulphur Springs, but he did not improve any. I was then advised to try the Cuticura Remedies, which I did. He took one and one half bottles of Cuticura Resolvent, when his skin was as smooth as could be, and is to-day. I used the Cuticura on his eyes and the Cuticura Soap in washing him. He is now five years of age and all right. The other case was a disease of the scalp, which was cured by washing with the Cuticura Soap and rubbing in the Cuticura, one bottle of Cuticura Resolvent being used. They have proved successful in every case where I have advised the use of them. It is surprising how readily a child will improve under their treatment. I recommend them for any diseases of the skin as being the best in the world. This is my experience, and I am ready to stand by my statement. JOHN R. REED, American House, Hagerstown, Md.

An Unbearable Skin Disease Cured.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was covered with scabs and sores, and the itching and burning were almost unbearable. Seeing your Cuticura Remedies so highly recommended, concluded to give them a trial, using the Cuticura and Cuticura Soap externally, and the Resolvent internally for four months. I call myself cured, in gratitude for which I make this public statement.

A Pittsburg Lunatic Dumped into Hamilton Because He is a British Subject.

HAMILTON, May 9.—George Pearson of the Pittsburg (Pa.) Charities Department brought to this city yesterday a man named Philip Connelly, who, it is alleged, lost his reason a short time ago in the Smoky City. Pearson had the man handcuffed and took him to the police station, where he wanted to leave him, saying that Connelly was a British subject and that Canada was under the British flag and therefore should take care of him. Connelly, who is a man of about 40 years and a laborer, appears to be but little affected in his mind. He said that he was born in Ireland, and lived in Scotland a little while, and a short time ago came to Canada. He worked in Toronto a little while and then came to Hamilton. He got work on a farm near Stoney Creek, but left for Buffalo after having a dispute with his employer. Next he went to Pittsburg, where he got work as a puddler in an iron foundry. He worked for a while and quit through no fault of his. Failing to get more work he was arrested as a vagrant and sentenced to ten days in the workhouse. It was while imprisoned that he was pronounced insane by the Inspector of Charities. As he claimed to be a British subject the authorities decided to send him to British territory. They placed him in charge of Pearson. At Buffalo Connelly did not like the treatment he was receiving, so he did a little decorating by hand on Pearson's face. Then Pearson put the bracelets upon him. Chief McKinnon told Pearson he could not leave the man in Hamilton and after communicating with the Pittsburg authorities the pair left for Buffalo this afternoon.

Of the twelve people injured in the recent railway disaster and taken to the City Hospital, five are still at that institution, all of them on the high way to recovery. There is some talk of a public subscription being taken up to place a suitable monument over the unknown victims.

David B. Gibson, William Littlejohn and William Mitchell, of the Bricklayers' Union, who were found guilty of being engaged in a boycotting conspiracy at the last June quarter sessions, came up for sentence to-day. Judge Sinclair is ill and was unable to be present, so Judge Muir remanded the prisoners until the June quarter sessions.

Mrs. Thomas Wilson, wife of Thomas Wilson, treasurer of Dundas, died very suddenly last night from a stroke of apoplexy.

A circular has been sent from the office of the secretary of the Ontario Association of Architects (which practically amounts to a mild boycott of the building committee of the Free Library Board. The circular recommends all members of the association to refrain from sending designs for the library building for the reason that sufficient time is not allowed for preparing designs; much more detail is required in the preparation of the drawings than is at all necessary to properly illustrate the proposed work; specifications and quantities are necessary; and the conditions contain no statement that the committee will secure professional advice to decide upon the respective merits of the designs.

CANADIAN COMPETITION.

Too Much for U. S. Railroads—Pres. Van Horne Before the U.S. Senate Committee.

NEW YORK, May 9.—The Senate Interstate Commerce Investigation Committee met again to-day. President George B. Roberts of the Pennsylvania Railroad was examined. He said that since the United States had began to regulate the railroad companies by special legislation the latter have been placed at a disadvantage in their competition with those of Canada. The Canadian roads are heavily subsidized by the Government so as to encourage the development of the country. They also draw their supplies from England free of duty. Any foreign corporation doing business here should be subject to the same laws as the roads of our own country. Mr. Roberts thought it would be fair for the United States to demand that all Canadian roads doing business in the United States should conform to American laws or else stay out of the country. The American roads, he said, have the first call on all trade from the Pacific to the Atlantic and under equal conditions with the Canadian roads could control it.

Mr. Roberts favored pooling but said: "I am in favor of a fair competition under proper legislation. If this could be brought about it would be much better than any pools."

President W. C. Van Horne of the Canadian Pacific road was called. He said the Canadian roads compete with American roads for trade from San Francisco, China, Japan and Alaska, and some of the trade from Ontario to Manitoba. Aside from coal the percentage of trade taken from the United States is very small. The total amount of aid given the Canadian Pacific by the Government is about $2,000,000. The Canadian Pacific gets about 10 or 12 per cent. of all the Western and Pacific trade.

Mr. Van Horne said that when the Canadian Pacific had freight coming from or into the United States it obeyed the United States laws.

Senator Gorman: "Is it not a fact that your line, connecting at either end with a line of fast steamers subsidized, is aided by the Government with a view of establishing a fast through freight line between Asia and Europe?"

"No, sir; I think not. The object of the Imperial Government is, I think, to have as many ships as possible on the Pacific Ocean in the event of war. England and Russia are jealously watching each other on the Pacific Ocean. Mr. Van Horne claimed that the Canadian Pacific received less Government aid in proportion to its length than did the Northern, Central, Union and Southern Pacific roads."

President Ledyard of the Michigan Central Railroad stated that his road is rapidly losing its entire export trade owing to the competition of Canadian roads that are untrammelled by the Inter-State Commerce law.

Chicago Railroad Men Worried.

CHICAGO, May 9.—Chicago railroad men are worried over the Canadian Pacific move to establish a new through line to the seaboard. Traffic Manager Olds of the Canadian Pacific is now here arranging the details. The new route involves a lake line to Sault Ste. Marie and thence to Montreal via the Canadian Pacific. Mr. Olds says the new line will be in running order June 1. The Interstate Commission has decided that it has no jurisdiction over water lines connecting with foreign roads. Thus the new route will be outside the jurisdiction of the Commission and can cut rates at pleasure.

Miss Dimsdale Dying.

WELLAND, May 9.—Miss Dimsdale, the revivalist, is lying dangerously ill at Rev. Mr. Brownell's residence here. Her sister has arrived from Toronto and her mother has been sent for. Drs. Schooley and Clarke held a consultation Monday evening, but could give no hope.

PHILADELPHIA, Pa., May 9.—At the International Convention of the Y. M. C. A. yesterday, the International Committee reported the total number of Associations as 1273, of which 1110 show an aggregate membership of 195,688, a large increase upon the last biennial report. The total property of the associations reporting is $6,344,625 against $5,-[illegible] as pledged, amounting to $1,[illegible] by 1220 Associations. General Secretaries and other paid officials number 580. The International Committee's receipts since the last conference were $46,281; expenses, $[illegible]. President Francis L. Patton of Princeton College discussed the topic "Modern Unbelief Among Young Men."

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal T. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. K. Sutherland, Evangelist, Shelby City, Ky.

DRUNKENNESS

or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is entirely harmless, and will effect a permanent and speedy cure. Whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. Full particulars free. Send for circular. Imperial Federation League.

An informal business meeting of the Peterborough Branch of the Imperial Federation League was held last evening in the rooms of the Y.M.C.A. It was decided to follow the Toronto Branch and admit women as members. Business connected with the general meeting which takes place to-day in Hamilton, was discussed, as were League matters in general.

Engagement.

The friends of Mr. L. W. Allingham, of Warkworth, will congratulate him upon his marriage to Miss Nellie Mix, a Warkworth young lady, which happy event occurred on the 30th of April. Mr. Allingham had charge of the South Ward school several months last year while the headmaster was absent, and made many warm friends in town. He is now a full-fledged M.D., and is practising his profession in Warkworth.

Mrs. Scott-Siddons.

Association Hall was crowded to the doors last night at Mrs. Scott-Siddons' reappearance before a Toronto audience after a number of years. The platform was beautifully decorated. Her programme was admirably fitted for displaying her remarkable power and versatility of interpretation, while her old charm of manner was ever at. At the matinee this afternoon the programme is more varied and interesting.—*The Evening Telegram, Saturday, November 26, 1887.*

Mrs. Scott-Siddon's will be at the opera house, Peterborough, Monday, May 20th. Prices, 25c and 50c. Reserved seats at Dencott's. 1d

An Addition to His Stock.

Mr. Wm. Fair has made another purchase of a horse which will be a valuable addition to his stock yard. At Cosmos the other day Mr. Fair saw "John Anderson, jr.," which took first prize in his class with the greatest ease, and being struck with the fine appearance of the horse determined to have it. He did buy it, and paid a nice figure for it. "John Anderson, jr." is a colt of Mr. Fair's "John Anderson," dam "Old Hobby Noble," and was bred by Mr. Andrew Faulkner, of Emily. He will be three years old the 10th of June, and is pronounced by competent judges to be the most stylish general purpose horse of his age in Canada. Mr. Fair has placed him on a route.

For Stealing Old Iron.

Yesterday afternoon a thirteen year-old boy named Ernest Harrison was arrested by the police on a charge of having stolen a quantity of old iron from Mr. Geo. Hilliard. The lad was arraigned before the magistrate this morning, and made a statement which implicated a man who had been subpœnaed as a witness, Wm. Rogers. The boy declared that Rogers told him where the iron was, and that if he went and got it he (Rogers) would buy it. On the magistrate's authority an information was also issued against Rogers, who will be tried in connection with young Harrison on Monday. Both prisoners were allowed out on their own recognizances to appear on Monday, Rogers being bound in $100.

IMPORTERS to excel those New, Fresh, Teas, just arrived at M. R. KIDD'S. dw

At the Coroner's Inquest.

At the Coroner's inquest Thursday the following case of local interest was tried:—Brewster v. Leary was an action for damages for the seizure, at the instance of the defendants, of a horse, buggy, etc., belonging to a third party while in the temporary possession of the plaintiff. It was admitted that the plaintiff was entitled to recover as to all the property but the horse. Mr. Bingham, solicitor, of Peterborough, was joked as a defendant, because, as alleged, he had taken part with the other defendants in instructing the sheriff to make the seizure. Objection was taken that as he was acting as solicitor only, he was not liable, but Mr. Justice Falconbridge held that a solicitor was no more exempt in such circumstances than any one else. The jury exonerated the solicitor, but found a verdict against the other defendants for $251. W. Kerr, Q.C., and G. T. Blackstock for plaintiff; G. H. Watson and W. R. Riddell for defendants.

Masonic Hall Library.

A meeting of the Masonic Hall Library Committee was held in the Masonic Hall last Monday evening. Present:—Messrs. D. Spence, T. A. Hay, W. Brandrette B. Shortly, R. E. Wood and W. Menzies. In the absence of Mr. W. Paterson, Chairman, Mr. Brandrette was requested to act. The secretary, Mr. D. Spence, read the minutes of the previous meeting, which were, on motion, confirmed. A motion was passed authorizing the secretary to have a number of volumes of part books bound, and a copy of Mackay's Encyclopædia of Freemasonry was ordered to be purchased for the use of the library. The secretary was instructed to request the secretaries of Corinthian and Peterborough lodges to insert in their next communication the intimation that all members who contemplate making donations of books or pamphlets to the library would confer a favor by bringing them with them on the night of the next regular communication. Messrs. T. A. Hay and W. Menzies were appointed to draw up a suitable form of label containing the rules and regulations of the library, to be printed, numbered and attached to each volume in the catalogue.

The New Market Buildings.

Ground will be broken on the cellar of the new market building Monday. This afternoon the hard surface of the square was thoroughly softened by being flooded with water, and on Monday Inspector Pope will have a staff of men at work making the necessary excavations. Sealed tenders are advertised for, for about 100 cords of good quarry stone and also the masonry of the foundation of the new building. Tenders will be received at the town clerk's office up to 4 o'clock on Saturday afternoon next.

TUESDAY EVENING 14th Inst.

From the writings of H. M. the Queen's physician in Scotland, T. Granger Stewart, M.D., F.R.S.E., on kidney disease, the following statement is taken: "Dropsy in the form of anasarca is almost constantly present in the early stages and during exacerbations of the inflammatory form." Consequently the attention should be turned to the restoration of the kidneys to a healthy condition on the first appearance of any puffiness or swelling about the eye-lids, ankles, or any part of the body. It is not difficult to make a selection of the remedy, for Warner's Safe Cure has long been before the public and given universal satisfaction.

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they *are just* out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Peaches at 15c. per tin; 3-lb. Tins Tomatoes three for 25c. W. J. PLAN OF HALL

He Wanted to Drown.

Last night Mr. Wm. Thompson, an old and well known resident of Ashburnham, attempted to end his life by drowning. This is not his first attempt at suicide, his drinking habits and domestic troubles having several times before driven him to the desperate resolve. Fortunately he has always been prevented from executing his designs, and his efforts at self-destruction last evening were not more successful. He threw himself from the Ashburnham bank of the river into the water near the dam, but the water being shallow he could not drown unless he determinedly kept his head under water. When a couple of young men happened along they saw him floundering on his hands and knees and ducking his head under water. They asked him what he was doing, and he replied to one whom he knew: "I want to drown, Jim, but it's d—— hard." They helped him out of the water and he returned home apparently quite willing to give his another trial.

AT STRATTON'S BOOKSTORE

Our citizens are always eager to embrace the opportunity of patronizing a First Class Entertainment. Such an opportunity is afforded next Tuesday evening. Mr. Roberts Harper, of London, Eng., has been engaged at a large expense, to give his famous lecture, illustrated "Ireland and the Irish [illegible]." Mr. Harper comes to Peterborough recommended by the highest authorities in America, namely the Redpath Lyceum Bureau and the Canadian Lyceum Bureau. These recommendations are the very best given to any man now on the public platform. The entertainment is of an edifying nature, and elevating nature, which all denominations can receive without the least degree of prejudice. One of the leading American Journals, "Brooklyn Daily Eagle," says of Mr. Harper's entertainment:—

"Last evening an illustrated lecture was given in Association Hall. There was a large audience. The views were from photographs taken on the spot, and not worked up from illustrations in prints and periodicals, and were thrown upon the canvas by Mr. Roberts Harper, of London. He used a triple lantern of novel pattern never before seen in this country, and which he brought from Europe. Its dissolving effects were very fine. * * * Mr. Harper is a good speaker, his pictures are admirable, and the frequent applause last evening proved how thoroughly the 'touring colonel' themselves."

The People's Opinion.

The opinion of every lady in Peterborough who has seen J. J. Stanley's stock of Parasols, Silk Gloves and Mitts this year is, that for quality and value they are not excelled in town. Inspection invited. No trouble to show goods. dw

Sale of a Farm.

Mr. Andrew Fairbairn, of Smith, has sold one of his farms, known as the "Warehan farm," to Mrs. Berrie, Peterborough, and Mr. Hurd, of Smith, who have entered into a life partnership and settled on the farm. The purchase figure was $3,000, the full amount of which has been received by Mr. Fairbairn.

The New Party.

A meeting of the members of Canada's New Party was held in the W. C. T. U. hall last night. Five clubs were formed, one each for Ashburnham and the four wards of Peterborough. Each club has a membership of ten. It is probable a central club will be appointed to conduct general business.

A Handsome Donation.

A meeting of the Nicholl's Hospital Trust Board was held Thursday night for the purpose of letting the tender for the plumbing of the new building. Mr. Richard Hall, President of the Board, generously offered to put the plumbing done at his own expense. The public can appreciate the importance of the gift and the extent of Mr. Hall's liberality when they understand that it means an item of expenditure of some $2,200.

57th Battalion Sports.

A reporter, while passing down a street in Ashburnham yesterday, heard a clamoring of bats and a pressing of heavy feet in an adjoining yard. On entering he discovered "Dick" Rogers adjusting the toe-weights on his celebrated gander, "Grover Cleveland," who won first place in the managerie race last year. The only competitor of whom "Grover" is afraid is Capt. Dennistoun's yaller dog, who is practising gymnastics daily, and will be in fine trim by the Queen's Birthday. 1d

The Lakefield Road.

A correspondent writes the EXAMINER:—"I wish you would call the attention of the authorities of Smith to the disgraceful condition of the Lakefield road, particularly the mile between Davidson's and the hill. It is covered with loose stones that prevent any man with any feeling for his horse from going faster than a walk for the whole distance. On behalf of the travelling public I enter a protest against such slack roadwork, and call upon the authorities to have it made right. Yours truly, LAKEFIELD."

The Sewerage System.

Mr. Alan Macdougal, of Toronto, civil and sanitary engineer, is in town, and has been engaged during the morning with Mr. J. E. Belcher, Town Engineer, in looking over the ground with a view of suggesting a system of sewerage for Peterborough. The general impression is that, while everyone recognizes the necessity which must ultimately result in the adoption of a sewerage system, no such step can be undertaken till 1893, when the municipal debt will be all paid off.

Almost a Fire.

The shingle mill at Nassau had a narrow escape from destruction by fire yesterday afternoon. Mr. Alex Hamilton noticed flames bursting from the side of the building underneath the flooring, and at once gave the alarm. In five minutes, so well trained are the men and so complete the provisions for protection against fire, there was not a spark to be seen. The fire was between the floor and the ground in a quantity of fine sawdust which had worked through the cracks, but how the blaze originated is a mystery. No assessable damage was done, the planks and beams being charred but not burned through.

A Valuable Pamphlet.

The EXAMINER acknowledges with thanks the receipt of a finely printed and carefully compiled pamphlet—a brief sketch of the county of Essex, including a short history of the founding and growth of the Town of Essex, and biographical sketches of public men, descriptions of buildings, and reference to the climate, situation, resources, soil productions and advantages of the town and county as places of settlement. This pamphlet, which is issued under the authority of the council, is printed and compiled by Mr. Johnston, editor and proprietor of the Essex *Liberal*, is well arranged, neatly printed and has illustrations of prominent citizens and of many fine public and private buildings. It will have a potent effect in making known the resources and beauties of Essex.

Where the Money Goes.

Col. Dowdle led an open air meeting of the Salvation Army on the market square this afternoon. The band of soldiers was surrounded by a big crowd of people, who were attracted by the music of a couple of violins, manipulated by the Colonel and another soldier. The Colonel made an address, referring to General Booth, an outline of whose life, with portraits, was given in the *War Cry*. There was a great deal of talk just now, he said, about where all the Army money went to, and he would just say that the Army people wanted to save the world and all the money they got was used for that purpose. At the coming celebration in honor of the General's sixtieth birthday it was intended to make him a present of £7,000. But for all that General Booth would be no richer, for he gave all he had to help roll the old chariot along. Meetings will be held in the barracks to-night and to-morrow as usual.

A Woman who Charms.

The return of Mrs. Scott-Siddons to Toronto after an absence of about seven years, and her reappearance at Association Hall last night, resulted in drawing out an audience which completely filled the hall, many being obliged to stand. This reception may be taken not only as a mark of esteem toward the fair reader, but alike as an indication of the advancement of literary taste and culture, for it is only those who can appreciate the art in its higher sense who could be entertained for two hours by a lady reader upon a bare platform. Mrs. Scott-Siddons has lost none of her personal charm and grace. Her musical voice has all its characteristic sweetness, and in modulation and enunciation there is little room for criticism. The sleep-walking scene from "Macbeth" was the gem of the evening. The open eyes and sleeping senses, and the oblivious utterances of the conscience-stricken woman were ably depicted. The "Creed of the Bells" and the courtship scene from "Henry V." were capitally given, while the recital of "Father Phil's Collection" created much mirth.—*Toronto World, November 26th, 1887.*

Ashburnham Brevities.

NEW MACHINERY.—A quantity of new machinery is being put in in the Otonabee roller mills, and other changes in the interior of the mill are being made.

NEW BARGE.—Chisholm's new palace barge is being decked in and fenced. When completed, this barge will be used for excursion and picnic parties. It will be very much superior in every way to the ordinary "palace scow."

WAITER! WAITER!—Some arrangements should be entered into by which the front street could be watered during the summer months. There is a great amount of traffic on this street and consequently a proportionate quantity of dust. It is often remarked by strangers that this is the most disagreeable part of the whole village in the summer season owing to the immense clouds of dust that are constantly rising and almost blinding those who are obliged to travel that street, and it is no wonder if people avoid it as much as possible. Any one not totally blind can at once see that the business men of the village must suffer very materially, not only from damage to goods, but also on account of the fact that ladies, particularly, will go to town to do their shopping, where they will not be subject to so much annoyance from dust blowing in every direction. In order to attract, the village should be made as attractive as possible, and nothing adds to the looks of a place more than nicely watered streets. The expense, compared with the great advantage to be gained, would be very insignificant. Besides, the business men are quite willing to pay the greater amount of the money required, and surely no one will object to paying the very small pittance that will fall to his lot. It is sincerely to be hoped that some action will at once be taken in this matter.

Sports and Pastimes.

The Boat Club.

The annual meeting of the Peterborough Boating Club was held at the clubhouse last night. There was a fair attendance. The following officers were elected:—

PRESIDENT—E. H. D. Ball.
VICE-PRESIDENT—D. Breese.
SECRETARY TREASURER—F. H. Dobbin.
COMMITTEE—Messrs. R. E. Wood, G. H. Sheffield, E. B. Edwards and G. W. Hatton.

The club's prospects this season are most encouraging. With a large and enthusiastic membership, which is being constantly increased, a first-class boat-house and an energetic staff of officers, the club will, no doubt, flourish. The Lansdowne Rowing Club, which occupies half the building, made a proposition to put a bath in the building, and the Boating Club accepted their terms.

There is to be a sale of racks next Tuesday evening at the club house.

Messrs. Hatton and Hayes were appointed a committee to arrange for a boating excursion down the river Monday afternoon.

Lacrosse.

The Riversides met last night to make arrangements for a game on the 24th of May. Both the Young Torontos and Ontarios, of Toronto, will be corresponded with and an effort made to bring either of them here the Queen's birthday, the Young Toronto's intermediate champions, preferred. There is no doubt there will be a good lacrosse match on the 24th.

The second twelve of the Riversides are anxious to try conclusions with the Port Hopes, and have instructed the Secretary to arrange a match if possible. The match is to take place at Port Hope.

Notes.

There is likely to be plenty of sports in town on the 24th of May after all. Mr. John Newbold has rented the Driving Park and pasture for the season, and intends getting up trotting races on the Queen's Birthday.

A baseball match may also be arranged with Campbellford on the 24th. The secretary is in correspondence with the Campbellford club and may get a match on the Association grounds on the forenoon of the Queen's Birthday.

The cricket club goes to Toronto the 24th to play the university team.

The committee in charge of the Queen's Birthday sports have arranged a splendid programme. The bills will be out in a few days.

Stricken with Apoplexy.

An aged gentleman of our acquaintance went out after a hearty meal to remove the ice from the sidewalk. He worked as an old man naturally would with his head and shoulders bent low. He suddenly fell, became unconscious and soon died.

What was the cause of his death?

Apoplexy—the physician would say apoplexy of the brain.

In persons of good health, the coats of the arteries throughout the entire body are tough and elastic. In unhealthy persons, particularly those whose kidneys are diseased, the walls of the arteries undergo "degeneration"—due to the action of the impurities in the blood which the kidneys have been unable to remove.

In these cases, when the action of the heart is intensified by vigorous exercise or excitement, the pressure upon some artery becomes too strong for it in its weakened state—rupture occurs—and a stroke of apoplexy follows as a matter of course.

Derangements of the kidneys are a common cause of apoplexy.

Whenever they fail in the complete removal of the waste matter in the blood, the deadly poison known as uric acid accumulates, and creeps through all the blood channels where it rapidly causes decay.

The primary cause of all organic disease, such as paralysis, consumption, heart disease and nervous diseases, is directly attributable to a failure of the kidneys in their special function of purifying the blood. Kidney derangement is without doubt the most aggravating as well as the most prevalent of all the ills of the present day, and unless kidney disease is taken in time and a prompt restorative, such as Warner's Safe Cure, applied—death will inevitably result.

Advanced kidney disease has baffled the united efforts of the best physicians for years and it is solely due to Warner's Safe Cure, a simple vegetable discovery, that modern science has been able to successfully cope with it.

Life insurance companies make care of its non-existence before issuing their policies, and the learned and careful physician will not attempt to prescribe for a patient afflicted with serious illness before first ascertaining if this disease is present.

—Some 200,000 salmon trout fry were taken out to Campbellford Thursday to be distributed in the waters of this district. They make a fine lot of young fish.

News Nuggets.

VICAR-GENERAL Laurent, of Lindsay, was in town yesterday.

—The bricklayers have begun work on St. Joseph's Hospital.

—To-morrow is the third anniversary of the battle of Batoche.

—A drunk, arrested this morning by the police, was discharged by the magistrate.

—There will be a meeting of the "Y" on Monday evening in the usual place. Special business. Special attendance desired.

—The April make of all the cheese factories in the Belleville section, with the exception of a few that ship direct, has been purchased by local buyers at 9 to 9¼c. The make was small—somewhat under 400 boxes.

—Mr. J. J. Turner is getting a number of folding camp tables from Mr. D. Bellingham. Mr. Turner used to buy them from a western manufacturer, but he says Bellingham makes them better and cheaper, so he patronized home industry.

—Messrs. Weeks & Cruikshanks, having disposed of their law practice in Millbrook, their offices will in future be occupied by Messrs. Ruddy & Boulton, barristers, etc. Mr. Weeks contemplates locating in Toronto.

FREDERICK T. ROBERTS, M.D., Professor of Clinical Medicine at University College Hospital, London, England, says: "Bright's disease has no symptoms of its own and may long exist without the knowledge of the patient or practitioner, and no pain will be felt in the kidneys or their vicinity." Ordinary common kidney diseases, many times unrecognized as such, will become chronic and terminate in Bright's (organic) disease of the kidneys, unless taken in hand. Warner's Safe Cure is the only recognized specific that has ever been discovered for this disease. The late Dr. Dio Lewis said, over his own signature: "If I found myself the victim of a serious kidney trouble, I would use Warner's Safe Cure."

NOTES.—As the ground was in such good shape this spring, folks are pretty well on with the spring work. Mr. G. Reid and Mr. Jas. Elliott are fixing up their barns. They have planted some fine hedges in front of the yard. Mr. Stevenson has left here and has gone to the Northwest. Mr. Reid purchased a fine colt from Mr. G. Stevenson.

CHEESE FACTORY.—The cheese factory opened Monday, and we expect a flourishing business, as it is in a thriving condition.

Lakefield "Chronicles."

A fire brigade has been organized in Lakefield with 30 members. Mr. Geo. Cochrane is Capt. and Mr. G. A. Milner Sec.-Treas. The new fire engine has not yet arrived.

Lakefield, according to the assessment returns, has a population of 1,172 and a total assessment of $284,050.

A firm in Toronto have decided to open a quarry in Douro, about two miles from Lakefield, for the supply of granite paving in Toronto. Some 40 or 50 men will be employed and will be under the charge of Mr. Edward Wade.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

VOL. VIII. NO. 111 PETERBOROUGH, MONDAY, MAY 13, 1889. PRICE TWO CENTS.

J. C. Turnbull.

A^T TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm then came to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE
in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting the business, has always been able to force prices down to an exceedingly low point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.
The magnitude of our stock and lowness of prices give us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.
MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.
Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.
"For the apparel oft proclaims the man."
Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and fitters. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.
Clothing for the little ones—boys and children—has always been a speciality with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.
This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.
This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.
Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department as once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

DRUGGIST WOOD ADMITTED TO BAIL IN TORONTO.

Was Patrick Hubbard Murdered?—The Victoria University Impeachment Case—A Hamilton Baby's Strange Nourishment.

TORONTO, May 13.—On Saturday at Osgoode Hall Chief Justice Galt heard the argument on the continuance of the injunction made by the town of Cobourg and individual plaintiffs restraining the Board of [illegible] from taking further steps to bring [illegible] University to Toronto. Christopher Robinson, Q.C., opened the case for the plaintiffs and was followed by Mr. C. J. Holman on the same side. E. M. Britton, Q.C., of Kingston, addressed the court in reply. Mr. Britton had not concluded at 4.30 when His Lordship stated that he would adjourn the hearing of the argument until 11 a.m. to-day.

Mr. Ernest Wilson on Saturday sent to Rev. Dr. Potts $750, being the balance of a $1000 subscription made by him to the College Federation fund some time ago.

John McNair a gentlemanly-looking young clerk employed in the Mammoth House in King-street, was arrested Saturday morning charged with stealing from his employers. [illegible]

Gen. Sir Fred Middleton arrived in the city Saturday and celebrated the anniversary of Batoche by attending divine service with the Grenadiers yesterday. This evening he will be a guest at the regimental banquet.

It is said that the death of Patrick McNichol, formerly a saloon keeper at Victoria and Lombard-streets on Friday afternoon was the result of a blow he received in an altercation with a meat pedlar in a Queen-street hotel.

John O. Wood, the druggist charged with the murder of Lydia Charlton, appeared at the Police Court on Saturday morning, when the Crown offered no evidence and he was remanded until Monday. Later an application for bail was made to Mr. Justice Rose at Osgoode Hall and His Lordship made an order for bail, the prisoner to appear at the June Assizes. Wood bonded himself in $2000, and his brother Robert and David Ward went on the bond for $1000 each. Wood returned to Buffalo in the afternoon and will return to stand his trial. Since he left Toronto last November he has had a wide experience of American cities. He went from Toronto to Buffalo, then to New York, Washington, Atlanta, New Orleans and then to the City of Mexico, where he put up in over four months. Returning to New Orleans he remained there for a while and then went to Buffalo, where he bought out the drug store of Mrs. Dr. Broad in Erie-street and commenced business under the style of Wood & Co.

TIRED OF LIFE.

A Manitoba Farmer's Criminal Career—A Winnipeg Druggist Victimized.

WINNIPEG, May 12.—Minnie Macdonald, a boarder at St. John's College, attempted to drown herself in the Red River Saturday, but was fortunately seen and rescued.

Against a farmer named Purvis living in South-west Manitoba there are eleven serious charges, including arson and larceny. Recently he attempted to burn a schoolhouse near his residence because the school authorities were going to move it to a more convenient location.

A petition is now being circulated here for the release of Peterson of Dakota, who escaped from Stony Mountain Penitentiary 17 years ago and was re-arrested here the other day while on a visit to Winnipeg.

Col. McMillan, the newly-appointed Provincial Treasurer, will undoubtedly be elected in Centre Winnipeg by acclamation. Stewart Tupper and others who were asked have declined to run.

A Winnipeg druggist has been victimized out of $700 by a confidence man who claimed he had a quantity of opium for sale.

The city workingmen will march in a body to the City Council meeting Monday evening to ask the aldermen to refuse to accede to the requests of the grocers' combine regarding high license for pedlars.

White Caps in London, Ont.

LONDON, Ont., May 13.—Thos. Bailey, a laborer, appeared in the police station shortly before 10 o'clock last night with his head, face and neck completely covered with tar, which he said had been poured over him by two men who had entered his house during the evening. He said he was sitting with a friend named Perkins drinking a glass of beer when the men entered. One knocked him down and held him while the other did the decorative work. Bailey has frequently been up for wife-beating, and it is supposed the outrage was perpetrated by "White Caps." At all events they made a "black cap" out of Bailey.

A Baby's Strange Nourishment.

HAMILTON, May 11.—Yesterday Dr. Lafferty was called to attend the month old baby of Mrs. Amos, wife of the King William-street tavern-keeper. The baby had suddenly taken ill the night before—growing ghastly pale and being seized with fits of vomiting. Yesterday morning Mrs. Amos pulled a large live cockroach out of the baby's mouth, and rightly suspecting that the presence of the insect might have something to do with the child's illness, she told Dr. Lafferty about it. The doctor gave the baby an acid mixture, and very soon afterwards the little creature vomited up seven or eight cockroaches, five of which were alive. The baby is now doing well. It is supposed that the cockroaches crawled into the baby's throat and down into its stomach while it was sleeping with its mouth open.

The Jesuits-Mail Libel Suit.

MONTREAL, May 11.—The argument on the motion in reply to the exception to form in the Jesuits-Mail libel case was heard before Judge Loranger to-day. Messrs. Lacoste, Geoffrion, Curran, Greenshields and Doherty appeared for plaintiffs, R. C. Smith, R. S. Smith and Trenholme for defendant. The motion was argued by Messrs. Lamothe, Greenshields, R. C. Smith and Trenholme. The court took the motion en delibere.

SIX WOMEN KILLED.

Frightful Street Car Accident at Kalamazoo, Mich.

KALAMAZOO, Mich., May 8.—At 6.20 o'clock this evening a street car containing seven ladies and two gentlemen was crossing the Michigan Central Railroad track when a switch engine crashed into it at a high rate of speed. The street car was carried a long distance, the pieces flying in all directions and the human freight being mangled frightfully. Those in the car were Mrs. Alexander Haddock, Mrs. M. E. Wales, Miss Gertrude Tillotson, Mrs. Geo. Smiley, Mrs. Middleton, Mrs. VanAntwerp, Mrs. S. A. Gibson, Mrs. Jonathan Barnes, Mr. L. C. Lall and Dr. Sutton. The first six were killed, two being found dead in the cattle guard, one in the creek near by, two on the track and Mrs. Middleton died an hour later. She was thrown into the roadway, Mrs. Gibson was fastened in the hand and side and Mrs. Barnes was burned badly. The male passengers and the driver escaped. The gates at the crossing where the accident occurred were opened between 5.30 and 6.00 p.m. The driver of the car, who was a new man, probably supposed the gates would be down if an engine were coming.

IMPERIAL FEDERATION.

THE LEAGUE IN CANADA'S ANNUAL MEETING AT HAMILTON.

Election of Officers—A Mass Meeting Follows the Business Session—Principal Grant's Speech.

HAMILTON, May 11.—The third annual meeting of the Imperial Federation League in Canada was held in the gentlemen's parlor of the Royal Hotel this afternoon. Mr. D'Alton McCarthy, M.P., President of the League in Canada, occupied the chair.

The annual report of the work of the League showed that great progress had been made during the year. A number of branches were formed and the several meetings were addressed by prominent personages.

These were the officers chosen, nearly all being re-elections:

President—D'Alton McCarthy, M.P., Toronto.
Vice-Presidents—Alexander McNeill, M.P., Wiarton; Charles Riordan, Toronto.
Hon. Treasurer—Henry Lyman, Montreal.
Hon. Secretaries—Archibald McGoun, jr., R. Castnair Dickson, J. Castell Hopkins.

In the evening a mass meeting was held in the Grand Opera House. Mayor Doran occupied the chair. Principal Grant made the speech of the evening.

He wished, he said, to ask some plain questions of his fellow-citizens and to answer them, if possible, calmly and without passion and without that privilege of imputing motives to opponents that some people deals in mistaking is for argument.

The first question was a very important one and on the answer given to it depended the point of view which we would regard the others. The first question was: "Is Canada in a condition of stable equilibrium?" The country that was not in a state of stable equilibrium was not sure of its own foundations and therefore uncertain as to its future. When the relation of part to part or parts to the whole were so unequal that it was felt throughout the country that the present state of things could not continue that country was in a state of unstable equilibrium. It was just like a man in a similar state—it was without true strength. His answer to the question was "that Canada is not in a state of stable equilibrium."

And was there stability throughout the empire? Could the present relations remain permanent? Emphatically no, because the present relations denied the rights which 4,000,000 Scotchman and 4,000,000 Irishmen had to 5,000,000 Canadians and 4,000,000 Australasians—the sacred rights of self-government. Colonial populations had no share in the supreme work of government in matters of war, peace and treaty making. He did like to see bladders punctured. Was it not true that, as Mr. Blake said in his Aurora speech, we were "freemen without being free"? Was it not true that we could be plunged in war without our consent and that peace could be made without our consent? Ought this state of things to exist? Should we be satisfied? If we did not respect ourselves how long would others respect us? That question would be settled. We would take our time about it but it would be settled. It was not our fault that it was not settled and it was not Great Britain's fault. The reason of its not being settled was that the time had only arrived to talk of the matter. The colonizing interest of Great Britain had planted people in every quarter of the earth. The colonies now forming parts of the Empire were in a state of imperfect political development. This colony began in a state of complete dependence, and it was well to know that the sheltering arm of the mother was around us. [Applause.] We had gone on evolving from stage to stage till we now look forward to the attainment of full citizenship.

"There are difficulties in the way!" some people say. Of course there were difficulties. But these would be bravely met. Difficulties were disappearing very rapidly. During the short time since Canada and Australia had had self-government what great things had been done! We had solved the geographical question and have learned that it was man's glory to conquer nature. We had solved the Indian question, the half-breed question and we would solve every other question that came up. [Loud applause.] During our 21 years we had learned to serve the empire as well as ourselves. We had built canals and railways of vital value. We had been preparing ourselves for a higher citizenship. It was impossible to have raised the question of Imperial citizenship sooner than this, and here is where he differed from Mr. Blake, who in 1874 advocated the same principle that he was advocating now. Then, Mr. Blake said, his proposition was coldly received and he thought that what was difficult then was impossible now. But the trend of events was all the other way and every year sees Imperial unity nearer at hand. He had proved that Canada was in a state of unstable equilibrium, the cause of it, and now he came to a closer question: "What is the cure?" He would answer it: "Full citizenship is the cure." [Applause.] No one of any importance favored annexation and Canadians, though plucky, could not hope to defend themselves against foreign nations. Full citizenship in the empire was the cure. Every agitation for a widening of the constitution had been accompanied by declarations that such a change would make better citizens of the people and the results vindicated the declaration. He believed in evolution. He believed it was God's method. But secession or suicide was not evolution. It was regolation. [A voice: Devolution.] He believed in unity of the empire but he did not believe, like some, that it could be accomplished by beginning with separation. The saying of the French philosopher that "the fate of colonies is like the fate of apples: as they grow ripe they fall from the parent tree" was frequently quoted by disruptionists. Well, what was the fate of apples that once fell? They passed on the pips ate them. Would this be the fate of separated colonies? If so he did not wish to be a member of a rotting community. [Applause.]

Enquiries for a definite scheme of federation were made, but to these he could not give a definite reply. That part of the movement belonged to statesmen. Numberless plans could be given but many perhaps would be infeasible. He would propose two plans: 1st, a full citizenship involving a voice in the supreme work of government, and 2nd, trade between the parts of the empire to take place on more favorable terms than with foreign nations. He amplified his argument on these two lines and concluded that both plans were feasible of realization. Imperial Federation was worthy of the support of all Canadians, of Irish-Canadians more than any, for in Imperial Federation lay the true solution of the Irish question.

The Principal closed with a peroration in which he referred to the greatness of the ancient English, Irish and Scotch in politics, religion, science and art, the growth of the empire and the grandeur of the scheme that was now in course of realization.

Priestly Voyagers.

NEW YORK, May 11.—The three-ton boat Liberdade, in which Capt. Joshua Slocum, with his wife and two children, left Paranagua, Brazil, on June 24 last, arrived at Staten Island this evening after a voyage of over 7000 miles. Capt. Slocum says the trip on the whole was a most enjoyable one. During the long voyage many severe storms were encountered, but the little boat, he says, "weathered them all like a dauntless sea bird."

The Grand Trunk Got the Best Rates.

CHICAGO, May 11.—A Grand Trunk official commenting yesterday on the evidence of President Newell before the United States Senate Committee at New York, regarding rates on export traffic, said: "The decisions of the Central Traffic Association can prove that where the Lake Shore and other companies were getting from 16 to 20 cents per 100 pounds as their proportion of the through rates on provisions—Chicago to Liverpool—the Grand Trunk route was getting 25 to 26 cents per 100 pounds."

The Springfield Mystery.

ATLANTA, May 10.—Provincial Government Detective J. G. Clarke, engaged in investigating the Springfield mystery, visited the scene of the supposed murder to-day. The detective made a thorough investigation of the premises and the well was located by Mr. Lyman McEwen, one of the old residents. The work of excavation was commenced and after five feet of dirt thrown up. The examination in the village has reached fever heat.

Starved Sheep Cases in Ohio.

CINCINNATI, May 10.—Frank Bradley and Robert Lacey, leaders sheep boarders, were arrested to-day, charged with violating the law intended to prevent grain and provision gambling. These arrests are made to test the law. The men gave bond.

Heavy Damages Claimed.

HAMILTON, May 10.—Alexander McKenzie, a shoemaker living in King-street east, has had a writ of summons issued against William Marr, 128 Main-street east. He claims $5,000 damages for the alienation of his wife's affections. It is alleged that Marr enticed the plaintiff's wife away.

ENGLISH NOBLEMEN ARRESTED IN A LONDON CLUB.

A Comparison of British and American Workmanship as Manifested by the Exhibits at the Paris Exposition.

PARIS, May 11.—A study of the universal exposition, for the purpose of comparing the products into which dowers enters, discloses two truths concerning American growth. The classification in which these truths are apparent comprises everything in the manufacture of which beauty is blended with usefulness. The first truth is that the American constructive sense is superior to the European and the second is that the American decorative sense is inferior to the European. The American has surpassed the European in mechanism, but the sense of beauty is still dull in the national breast. American artisanship, speaking broadly, when brought face to face with European artisanship is more intelligent in the application of means to ends and in divergences of method and economy of labor, but is crude and almost illiterate in taste.

We have in our zones the raw material and essentials, with few exceptions, of nearly the entire classification generally accepted as decorative manufactures in this exposition. Our progress in their employment is shown to be, except in a few great departments, primitive and paltry. In fine artisanship, generally considered, every other country of magnitude puts us to shame.

England, until very modern times addicted almost exclusively to trade and to manufactures appertaining rather to the necessities of civilization than to the adornment of life, has accepted tuition from peoples whose spirit is more artistic than hers. Her porcelains, furnitures, metallic products, tapestries, carpets, paper hangings, velvets, silks, shawls and brocades constitute an impressive portion of her entire exhibit, to catalog which requires a large volume. While justly boasting of our rank as mechanics, shrewd men and electricians, we still pay transportation to England for our native furs, skins, leather and cotton, and are content to pay afterward a second transportation and the manufacturers' price as well as the customs' tax for the products into which our own raw materials have been turned. Add to this the yearly drain of money unnecessarily lost, the millions annually paid for decorative manufactures from every factory of Europe and of a reviving east, and an approximate estimate may be made of the colonial penalty we pay with incomprehensible stupidity for failing to develop a sense of form, color and composition in our own youth.

London Clubs Raided.

LONDON, May 12.—The police made a raid on the Field Club at 2 o'clock this morning and found gambling going on. Most of the players were captured at baccarat and large sums were being staked. Twenty-one persons were arrested, among whom were the Earl of Dudley, Lord Lasgan, Lord Paulet, Baron Ferrar and several French and Belgian noblemen. The prisoners were taken to the police station and bailed in £100 each. They are to appear in court to-morrow. The police seized £3,000 in the rooms of the club. A raid was also made on the Adelphi Club, where a number of barristers and solicitors were gambling. All were taken to the police station and bail was in most cases refused.

The Irish Viceroyship.

LONDON, May 13.—English Liberals condemn the proposal to appoint Prince Albert Victor, the eldest son of the Prince of Wales, to the viceroyship of Ireland. The Dublin Freeman says it would be the worst of all appointments.

An Artilleryman's Luck.

LONDON, May 11.—A gunner named Herbert Skinner of the Marine Artillery has had a windfall of £53,000 and a large property in Hereford.

It Was an Evening Paper Fake.

LONDON, May 12.—The report of the capture of Khartoum proved untrue.

LONDON, May 11.—The Allan Line and the Anchor Line have yielded to the demands of their striking employes. Other steamship companies are expected to follow.

Decided to Cease Work in 42 Collieries.

BERLIN, May 12.—At a meeting of miners at Essen to-day it was decided to cease work in 42 collieries to-morrow.

Rioters Killed by the Troops.

BERLIN, May 12.—The whole garrison of Dusseldorf is now on duty in the vicinity of the coal mines for the purpose of preserving order among the striking miners. A body of infantry arrived at Schlieswig at 3 o'clock this morning. Three times the rioters were called upon to disperse but they refused. The soldiers then fired into the crowd killing six persons, one of them a 4 year old child. A woman was also wounded. After the firing the mob dispersed.

A Yellow Fever Rumor.

OTTAWA, May 13.—A sensational paragraph appears in Saturday's evening papers from Quebec to the effect that a schooner had arrived at that port from the West Indies, having passed the quarantine station at Grosse Isle without reporting, and that on the voyage to Canada a sailor on board had died from yellow fever. Mr. Lowe, Deputy Minister of Agriculture, informed a reporter last night that the schooner had come up the St. Lawrence without a pilot and passed on to Quebec. On arriving there Collector O'Meara at once sent a doctor on board the vessel, who gave the vessel a clean bill of health, the statement that there had been a yellow fever case on board being absolutely false. Mr. O'Meara telegraphed the facts to the department, and as a clean bill was shown, the Minister permitted the vessel to enter at customs, accompanying the permission with a warning to the master at the risks he had run.

Capital Notes.

OTTAWA, May 13.—The Indian Department is safely housed in the new Langevin block. The Department of Agriculture will be the next to follow.

Mr. Justice Patterson of the Supreme Court, has bought a fine property in Stewarton, Ottawa's southern suburb, for $9000.

The Department of Customs Saturday received the official report of the big seizure of the stock of F. Giroux & Bro., of Montreal; importers of perfumes, wines, toilet articles, etc. The report alleges that, by collusion with the Parisian agents, the Montreal firm were enabled to enter their goods at far below their actual value.

The will of the late Mr. C. T. Tate has been proven and probate has been granted. The personal estate is valued at $300,000 and the real estate at $60,000. The property is equally divided among the relatives.

It is understood that Sir John and Lady Macdonald will spend their summer holidays at Riviere du Loup (en bas).

London seems to stand the best chance of securing the camp for the western district, being central for all the corps. The cost of transportation of home battalions to Windsor, if this point had been selected, would have been very great.

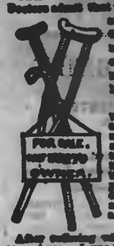
Condition of Winter Wheat in the States.

WASHINGTON, May 11.—The condition of winter wheat has advanced from 94 to 96 of rye from 93.9 to 96.5. The general average of winter barley is 96.9; of spring pasture, 96.8; of mowing lands, 96.3.

Close of the Scotch-Irish Congress.

COLUMBIA, Tenn., May 11.—The last day of the Scotch-Irish congress was opened by a stirring extempore speech by Hon. Boston McMillin, who said that not a single member of the Scotch-Irish race, so far as he knew, had ever been an anarchist or socialist.

Rheumatism and Neuralgia



These twin diseases seem baffled nothing. Doctors admit that they are difficult to overcome. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—as any doctor who knows will tell you.

"Having been afflicted with rheumatism for many years, I was induced to try Paine's Celery Compound. I was very much astonished at the very first bottle to find relief, and after using six bottles I was entirely cured. I can highly recommend Paine's Celery Compound to any one suffering as I was."—FRANK CARPER, Marion, Kansas.

After suffering with chills and rheumatism, for several years, I was induced to try Paine's Celery Compound, and after using two bottles found myself greatly improved. In fact, after using three bottles, have not felt any rheumatism. Can cheerfully recommend it. Yours very truly,

MRS. P. GOWAN, Cobalt, Ont., P.O.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and tried and got relief with Paine's Celery Compound. After using one bottle I am now cured of rheumatism."—SAMUEL HUTCHINSON, St. Catharines, N. B.

Effects Lasting Cures.

Paine's Celery Compound has performed many other cures as marvellous as these,—cures of heroes near to any address. Promises to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

The Town of Peterborough.

(Berlin Daily Telegraph, May 9th.)

This is one of the specially prosperous towns of the Province, and has every appearance of health and advancement, but the writer could not help comparing it with Berlin in a number of respects. There are nothing like the indications of growth and building operations which are seen in our own town. Indeed, we can think of no place anywhere, except Toronto, where the same relative progress is seen. But this aside. The first thing that struck us is that their "store" interest far exceeds all others, and appears to be much larger than the size of the place would warrant. Still, the property owners and speculators doubtless know what is the best investment for their surplus funds. The town has water works—on the Holley system—owned by a company, but we find that the want of a tower makes the supply anything but satisfactorily regular. They will, no doubt, have to get a stand-pipe to make it satisfactory. There are a number of plots of ground, public squares, which are a very commendable feature and add very much to the attractions of the place. There are a number of splendid churches, every leading denomination being well represented in that line. There is an opera house, a number of good society halls, and many other indications of advancement. The streets are a trifle wider than those of Berlin, but there might be an improvement in that line. There are three daily papers in the place—the *Review*, the EXAMINER and the *Times*, and from the fine premises they have and the evidences of prosperity, it is clearly evident that the people of Peterborough know the value of the press and give it a very handsome support. The hotels might be improved. The Otonabee River is a splendid stream running through the town and affording a large amount of power in driving saw mills and other machinery. The largest interests in the manufacturing line is that of lumber, and that before many years will decline. So if Peterborough wishes to keep up with the procession of live and growing towns it will have to do something to secure more factories. The town is lit up by electricity all midnight, after which those who are silly enough to be out will have to grope their way in the dark. There is no street railway. What was a little surprising—though considerably further north—vegetation seemed several days, if not a week, ahead of what it is here. The town has excellent railway facilities, both the Grand Trunk and the C.P.R. passing through it. Taking all things into account, including the large country tributary to it, we see no reason why Peterborough should not become a large city ere no distant day. The writer was pleased with his first visit to the place and with having made a number of pleasant acquaintanceships.

Bailliboro Agricultural Society's Spring Show.

The annual spring show of the Bailliboro Agricultural Society was held at Bailliboro on Thursday, 2nd inst. The weather was all that could be desired, consequently a large attendance of both exhibitors and spectators was the result. Mr. Jas. L. Patterson, the owner of the celebrated horses, "Chanean" and "Laird o' Logie," declared that it was the best show he had attended this spring, and he has been to all of them in this district. In the imported heavy draught class there were six entries, viz.: Nesbitt & Fisher's "Johnnie Cope;" R. Bailey's "Macnair;" George Cockburn's "Abbott of Rerwick;" Thos. Donaldson & Co.'s "Parnie;" J. L. Patterson's "Laird o' Logie;" Geo. Cockburn's "Gay Prince."

In the carriage class there were three entries, viz.: Thomson Vleare' "Billy Riffleman;" Asa Chenie's "Norfolk Hero;" H. Staples' "Lord Sudley."

Canadian heavy draught had only one entry, viz.: Thos. Grigor' "Scottish Knight."

The agricultural class had two entries, viz.: Thos. Brannan's "Young Netherby," and J. W. Gardiner's "Commodore."

The judges had a difficult job in deciding which animals were entitled to the prizes, especially in the imported draught class, the animals shown being all of a very high grade. Messrs. Thos. Donaldson & Co.'s English shire horses, "Parnie," and Nesbitt & Fisher's "Johnnie Cope," were greatly admired by those present.

Following is the list of prize winners:—

Imported Heavy Draught—1st, "Abbott of Rerwick"; 2nd "Laird o' Logie"; 3rd, "Gay Prince."

Carriage—1st "Lord Sudley"; 2nd, "Norfolk Hero"; 3rd, "Billy Riffleman."

Canadian Heavy Draught — "Scottish Knight."

Agricultural—1st, "Young Netherby"; 2nd, "Commodore."

A Great Mistake

is made very often by merchants advertising goods—very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Finches at 15c. per tin; 3-lb. Tins Tomatoes three for 25c. W. J. ATTEMPTED SUICIDE.

Wm. Hollis's Futile Endeavors to Wash Himself to Rest His Life.

WOODSTOCK, May 11.—The police last night arrested a man who gave his name as Wm. Mollis, and put him in jail for safekeeping. They had noticed something peculiar about his actions for a day or so before, and had been a watch for him. Last night the lights in a saloon was surveyed by some boys that he was trying to commit suicide by drowning himself in the river. He had tied a stone around his neck and filled his pockets with stones. The boys prevented him accomplishing his purpose, and succeeded in diverting his attention up town, where he fell into the hands of the police. He is about 35 years of age and claims both Otterville and Orangeville for his home. He was remanded for five days to this further particulars can be ascertained. This afternoon he made another determined attempt to take his life. He took off his suspenders, fastened them to his cell door, and made a noose, in which he placed his neck. Turnkey Fairbairn fortunately noticed him before he had time to do himself any harm.

Katie Chalk, an inmate of the jail pending her removal to the Mercer Reformatory, made her escape to-day. She was working around the jail and when unobserved by those in charge disappeared. She has been traced to Ayr and it is likely will soon be brought back. The total majority against the Scott Act will be 2100 or over.

A DOG'S FAITHFULNESS.

He Remains for Hours by the Side of His Dead Master, Who Commits Suicide.

OTTAWA, May 11.—With a bullet hole about an inch below the heart, and a .32 calibre revolver lying beside him, Edward Sherwood, late deputy sheriff of Carleton, was found in a bush a short distance from his brother's residence in Mount Sherwood, in the western part of the city, to-day. Deceased got into trouble in connection with his official duties some time ago. His resignation was accepted. He took the matter to heart and was ultimately sent to an asylum for protection. About a couple of weeks ago he was well enough to be sent home.

Between 10 and 11 o'clock yesterday forenoon he left his mother's house. A little dog accompanied him. No one was surprised at his not returning to lunch, as he frequently stayed with his brother in the centre of the town. Not arriving at dinner time, a search was made for him, and it was not until 3 o'clock this morning that he was found in the position described. The coroner decided that an inquest was not necessary. Deceased was 37 years of age. Life must have been extinct seven or eight hours before the body was discovered. The little dog remained with the corpse all the time, only leaving while replying to the whistle of the searchers and leading them to the spot where the remains of the unfortunate man lay. Deceased leaves a young wife and two children.

IS THIS WHY CRONIN FLED?

He is Said to Have been Mixed up in a Kidnapping Case.

CHICAGO, May 11.—The motive for Dr. P. H. Cronin's sudden and mysterious disappearance from home last Saturday night is now apparent, and the case assumes an aspect which places Dr. Cronin in a very dangerous position.

Frank S. Woodruff was arrested yesterday afternoon in Twelfth-street on a warrant Capt. Shaack's fine work, on a charge of horse stealing. The prisoner has made a full confession, implicating Dr. Cronin, in a terrible affair. Woodruff declares that he stole a horse and wagon from Dean's barn, No. 433 Wabash-avenue, shortly after midnight last Sunday, and met Dr. Cronin, William King and Richard Fairbairn at the barn, in the rear of No. 629 North State-street, which is a fashionable residence neighborhood. A trunk containing the body of a woman was placed in the wagon. Woodruff drove, King and Fairbairn rode with him, while Cronin remained behind. Woodruff left the body and his two companions in Lincoln Park and then drove with the empty trunk to the place in Evanston-avenue, Lakeview, where it was found later in the day by the police.

From conversations between Cronin, King and Fairbairn which the prisoner Woodruff overheard, he concluded that the body was that of a woman killed by a criminal operation performed by Dr. Cronin.

THE WORK OF THE STORM.

A Tornado Sweeps Through Virginia's Capital—Two Boys Killed.

RICHMOND, Va., May 10.—A tornado swept the lower portion of the city last evening and blew down a large wooden building belonging to the Richmond Chemical Works. Five boys had taken refuge in the house. James Quigley was killed and his brother Frank fatally injured. The remaining boys and two negro laborers were injured less seriously.

Killed by Lightning.

RENOVA, Pa., May 11.—Mrs. Wm. McNeil and her four children at Ridgeway yesterday sought safety from the storm in the cellar of their house. The lightning struck the house and the mother and three children were killed. The other child, a month old, was found uninjured in the arms of its dead mother.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an confirmed wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. *It never fails.* The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. MUNCASTER'S

As Night Follows Day.

By HON. MRS. FETHERSTONHAUGH.

(*Continued.*)

"Poor fellow, how he feels his unfortunate position!" murmured the fair Laura, fanning herself.

Could Miss Harding have overheard the words? For one instant, her small red-brown head turned itself in the direction of the speaker, and her clear, quiet eyes grasped every detail of the latter's identity, then she looked away again, and answered calmly the polite questions put to her by her hostess respecting her journey that day.

At dinner the heiress sat exactly opposite to Lord Francis Eridon, and without making his observation of her conspicuous, the latter lost no opportunity of carefully studying every word and look of his vis-a-vis, and more than once he found himself listening with real interest to her clear, low voice, as she strove to make her somewhat quaint ideas on things in general intelligible to the very ordinary stamp of gentlemanly young noodle who had been appointed by Lady Knottingshame to escort her into dinner.

"She's no fool," thought my Lord Francis to himself with great satisfaction. For he was quite old and experienced enough to know that "brains" will outlive "beauty" and must always conquer in the long run, and a good companion would be of more value in a man's life than faultless beauty if accompanied by lack of wisdom and common sense.

And during the long half hour which in the course of the evening he devoted to the entertainment of the young stranger, his favorable opinion of her grew each moment stronger, for her manner was graceful and perfectly unaffected, and her bright, ringing laugh fell merrily on the ear, whilst every word she spoke convinced him more and more that she was "worth talking to," an attribute which ladies who rely on their character for being "beauties" are apt only too often to understate.

* * * * * * *

"Is that the only answer you will give me?" and Lord Francis Eridon's tone of wrathful bitterness is in no way "put on," as he stands confronting the millionaire's daughter on the wide green terrace which leads to the far famed rose garden at Eridon house.

"The only one, Lord Francis," answers Janet Harding steadily. Her hands are full of beautiful Gloire de Dijon roses that the hot September sun has brought out in all their glory once more, and she buries her face in their fragrant clusters as she speaks—possibly to hide lips which will tremble and eyes which will fill with tears, for all her pride.

"You might at least tell me why it is so absolutely impossible for you to entertain the idea of marrying me?" pursues Francis Eridon with gloomy sarcasm. The rejection of his suit is causing him far deeper pain than he cares to own, not on the score of vanity, for to do him justice he is quite above so petty a reason as that—but he has learned to like the girl honestly for herself alone, and of late her gray eyes have had a far greater fascination for him than her golden wealth. Also the blow is an utterly unexpected one, for without being a vain man, he cannot fail to know that he is not unpopular with women in general, and moreover that this woman in particular has always appeared to be peculiarly bright and happy whenever circumstances have thrown them together and left them to their own society. So he considers himself an exceedingly ill used man on the whole, and digs his heel into the velvet sward with a vicious vindictiveness that causes ugly marks on its smooth green surface, and will bring grief to the heart of Lord Knottingshame's head gardner on the morrow.

"Miss Harding, can you not give me a more definite reason for your refusal of me?" repeats Lord Francis angrily, "Say straight out that you hate me, and be honest."

"I don't hate you," and Janet's voice trembles slightly; then she looks him straight in the face with her clear true eyes and speaks out frankly: "But I must tell you that I know you would never have thought of marrying me if I had not been rich; and, Lord Francis, I am too proud to buy what should be given me as my woman's right!"

For a long moment dead silence reigns, and in that space of time Francis Eridon realises two unalterable facts: that he loves and respects this girl who stands there before him as he never thought to love any woman on earth, and that for this very reason alone he can never again subject himself to the humiliation of hearing the scorn in her honest tones as she pronounces her decisive rejection of his suit.

"So be it, and I will never ask you again," he says quietly and resolutely.

Janet Harding glances earnestly at him, and continues to speak in a low, sorrowful tone:

"Perhaps you will think more kindly of me, Lord Francis, when I tell you frankly that were I poor instead of rich my answer would have been (a very different one. But on the very first evening that I arrived at your brother's house, some words which I accidentally overheard made it plain to me, that the apparent warm hearted kindness which your mother and yourself showed me had below the surface a more interested design on my fortune, nothing more. And I liked you all so much, Lord Francis, that this fact struck bitterly home!"

Francis Eridon makes no answer. How can he deny the truth of her words? And yet the evening she speaks of seems to him merely a dream, so changed have all his feelings towards her become in this short time. But he sees that appearances are too surely against him, and, being a proud man, utters no word in his own defence.

"I can never tell you how great my pleasure was when first your mother's letter reached me," continues Janet sadly. "In my ignorance I fully believed that love for a dead and gone school friendship of long ago had been the sole motive which prompted her to write to me so kindly, offering me a welcome to her home for my mother's sake," adds the girl in sorrowful sarcasm.

Francis Eridon glances at her bravely and says:

"Don't blame my mother, Miss Harding; it was at my suggestion she wrote to you. From first to last I alone am to blame." And the dogged resolution with which he speaks vouches for the truth of his words.

"I am glad of that," replies Janet quietly, "and now we will drop this subject forever, Lord Francis," and no tremor betrays the inward despair that is creeping over the girl's heart and soul. To the last she had hoped against hope that her lover could have honestly denied the accusation of being a fortune hunter, and only now realises how truly she loves him, when pride and self respect are forcing her to give him up.

Ah! how gladly would she lay all her wealth at his feet could it purchase him even one hour's happiness! With what joy would she give him everything she possessed in the world, and clear away all the debts and difficulties clouding his life—could he only have loved her all she loved him!

But Janet Harding's clear common sense stands her in good stead now, and though she longs from the bottom of her heart to say, "Take all, for without you nothing can be of value to me in this world!" she only holds out to him a firm little unbending hand, with the kind honest words:

"I will not be your wife, Lord Francis, for your sake and my own. But if you will some day let me be your friend I shall like it better than anything else in the whole world!"

For one moment he hesitates. Would it be utterly impossible to right himself in her eyes? Would she never in this world know how truly he cared for her now, and how small a value her colossal fortune held in his heart compared to one glance from her sweet gray eyes? But pride conquers, and he speaks no word, so they clasp hands silently and each goes on their way in the world with sorrowful regret.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until within a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla, and,

three bottles of this medicine, have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendal T. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with *Scrofulous Sore Eyes*. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored, and she can now look steadily at a brilliant light without pain. Her cure is complete.—W. E. Sutherland, Evangelist, Shelby City, Ky.

A Find.

A gentleman coming to Peterborough on Saturday found the following list of articles: 12 yards print, half dozen buttons, 2 dozen clothes pins, package of hairpins, corn starch, toilet soap, egg cups, pasteboard mother oil, trouille, bustle, clothes line, 6 yds. mosquito net, package of safety pins.

The Wheel.

A meeting of the bicycle club will be held to-morrow evening in the Ontario Canoe Company's offices, corner Water and Brock streets. The club is taking steps to secure endquarters of its own.

Real Estate Changes.

Mr. H. C. Stabler has sold over twenty lots in town and Ashburnham during ten days. They were sold for building purposes and he has purchased other property to be devoted to similar use. Mr. Stabler is making his real estate sales, and he finds advertising in the EXAMINER a powerful contributor to his success.

The Water Cart will Enter.

The excitement over the Queen's birthday sports of the 57th Batt. and P.A.A.A. is increasing. Another entry has been made for the menagerie race. Captain Langford has entered one of the corporation water carts and will drive it himself. It is, however, admitted on all sides that he has no show for a place, though bets have been laid that he will raise more dust than any one else.

Beginning the Work.

This morning the first sod was turned, figuratively speaking, on the excavation for the new market building. Inspector Pope has a staff of men at work ploughing up the hard ground and excavating for the cellar, which will be carried down seven or eight feet. The operations are watched with interest by large numbers, to whom the sight of a plough drawn by four horses tearing up the market square is quite a novelty.

Is There Balm in the Police Court?

Robert Scriber was just released from jail the other day, where he spent a term for obtaining money under false pretences. Since his resumption of the privileges of a free citizen his life has been made unhappy by the taunts and jeers of some boys and young men, who hurl the opprobrious epithets of jail-bird and like terms at his quivering head. Robert applied to the police magistrate this morning for protection from the insults heaped upon him, and threatened were laid against several parties who will be called to account for their unchristian actions.

The Iron Case.

The iron-stealing case was tried at the police court this morning. Barnard Harrison, the boy who took the iron, said that about a month ago Wm. Rogers, a man who bought rags, bones and old iron, told him there it was and said that if he went and got it he (Rogers) would buy it of him and give would no harm come to him. The lad said he had been doing a little business of his own collecting bones and iron this spring at nothing it to dealers. The iron in question was too a piece of shafting about five or six feet long, and weighing probably over a hundred pounds. Young Harrison got the iron and Rogers not caring for it after keeping a while he said it to a man named Dancy for 20c. Dancy was loading it on his waggon when Mr. Sperry, Mr. Hilliard's foreman, came along and told him not to buy it as it was stolen property. The iron was left where it had been before, under a board in the shed, and the matter ended. Young Harrison said he did not know whose iron he was taking, and did not know it was there till Rogers told him. A younger brother of Harrison's also gave similar evidence, and Mr. Geo. Hilliard identified the iron as his, or at least if those was no doubt in his mind that the iron belonged to him. Mr. E. B. Stone, who appeared for Rogers, contended that the boys' story of Rogers' connection with the larceny could be disbelieved from the fact that if Rogers had told them he would buy it, he would have been the first one to go to with it instead they kept it for a long time and sold to the first man who came along. As they also knew they had been stealing, he argued, was shown by their hiding the iron under a board. Mr. E. E. Wood, C. C. A., asked for an enlargement till to-morrow to give the boy's mother in court to give evidence to show that Rogers had come to the house for the iron while the boys were away. The magistrate said he would adjourn the case, for if it was shown that Rogers went without telling boys to steal, which he was said to do himself, it would be a serious matter.

A Good Recommendation.

To Mr. J. J. Turner, Sail, Tent and Awning Maker:

DEAR SIR,—The nineteen awnings you put up for me on the front of my hotel this spring are very satisfactory in every respect. The material is good and the workmanship first-class, and I take pleasure in recommending you to anybody wanting anything in your line.

I remain, yours truly,
WM. SHOWDEN.

They Didn't Appreciate Him.

Prof. Martyn (accent on the y) revived the advertising methods of olden times, and on Saturday went through the streets crying a free entertainment, amusing, chaste and moral, on the market square that night, to which the public were respectfully invited. At the appointed time the Professor loomed up behind a couple of blazing torch-lights and faced a large audience that numbered many hundreds. Just to whet their appetites the Professor amused the people several minutes with ventriloquial feats and facial contortions, and then announced that he would take up a collection to pay expenses. But before he could get halfway around with his hat, lo, the crowd vanished into thin air, disappeared like the smile on a friend's face when you ask him for the loan of a half-dollar, and in just a few moments the Professor, without an audience and no collection, was *per se* obliged to suspend operations and leave the market square to its solitude. His opinion of Peterborough and its people is away below par in consequence.

Ireland.

The following letter from the chief authority in America speaks well for the first class entertainment by Mr. Roberts Harper, which is going to be largely patronized by our citizens to-morrow evening:—

DEAR SIR,—We take great pleasure in recommending the illustrated lectures of Mr. Roberts Harper as something far in advance of anything heretofore given in this country. We are well acquainted with the excellent illustrations of our leading lecturers—Stoddard, Ragan, French, Cromwell, &c., &c., but Mr. Harper brings us something superior to the best work of these gentlemen and his pictures mark a distince advance in the art of pictorial illustrations. His lantern is the finest and most powerful in the world and can illuminate a colossal surface when required. The rolling effect is something never before obtained and is an exceedingly attractive feature. The views are all from nature and are the choicest specimens of thousands of negatives. Mr. Harper is a cultivated English gentleman of pleasant address, who has personally visited all the places which he describes.

Yours truly,
(Signed) REDPATH LYCEUM BUREAU.

Personal.

Mr. Geo. Schofield received a telegram Saturday night announcing that his brother, Mr. W. H. Schofield, had won the gold medal at Victoria University and taken his degree of B.A. Mr. Schofield has reason to feel proud of his brother's success, and the many friends of the fortunate student in town will heartily congratulate him.

The large circle of the friends of Mr. and Mrs. John McKee will learn with pleasure that Mrs. McKee returned home from Toronto Sunday night. She, as is known, has been in a private ward in the Toronto General Hospital, receiving medical treatment from Dr. Cameron. She is convalescent and will, in a month or two, be restored to better health than she has ever enjoyed.

OUR BREATHING PLACES.

Peterborough's Resorts for Recreation and Repose.

A Rambler Amongst Them—Little Lounge of the Town—A Wise Municipality—What Some Time Some Once and a Little Money Will do.

The explosion—for the breaking into full leaf can be only thus expressed of the trees, the riotous growth of the grass, general vegetative activity, and the promises advent of dog-day weather, suggest thoughts of the public places of Peterborough, devoted and exclusive for breathing places and places of relaxation, recreation, rest and enjoyment. The EXAMINER took a stroll over them on Saturday, and thus feels inclined to enliquize over the subject, and the reader who cares to look into the EXAMINER'S honest, open countenance will observe, printed there, the reflection of thoughts, fancies and facts, such as these.

Before setting out for a walk amongst our parks, the reader is asked to run over in his mind the public breathing places of the town and to ponder the probability of there being any other town in Canada so well provided with authentic recreation like these. It is true, we have no park that may be called large, but a better arrangement in the number of small park-like plots, scattered here and there plentifully about the town. This distribution admits of more popular enjoyment. Weary mothers, who can never find time to make their way with their clinging and exacting broods of babies to a single centrally situated park, can easily in their rare moments of leisure, wander to one of these little parks and find a few minutes rest in its shady and grassy recesses; can, for a few moments, raise her nose from the domestic grindstone and breathe the pure air of heaven, untainted with taste and gone with wrinkling and scrubbing and the thousand and one dreary details of woman's work that is never done. To have one large park only in town would be a good deal like having only one "corner grocery" in the middle of the town. The principle of distribution attains even in politics; even our blessed Dominion Government believes in or at least practises distributing government buildings, in the wretched economy of putting two buildings on one lot and thus saving the expense of one of them.

While on the outskirts one might as well drop into

LITTLE LAKE CEMETERY,

which is, in point of fact, a misleading title for it is really a park and public resort for the people generally, that is those whose visits are not chiefly suggested by the desire of viewing and weeping over the beautiful resting places of the beloved dead. Its combination of sylvan beauty and cultured charm, outside of its silent character, makes it a delightful spot to visit at any time. Every recurring year furnishes additional evidence that Mr. John Kelly, superintendent, is the right man in the right place. Whether his efficiency be regarded from the point of reclaiming and bringing under the discipline of culture the virgin wildness of the original groves and banks—with a nice judgment having regard to both present appearance and future effect, or from that of the perpetuation and heightening of the degree of beauty to which this place has been brought, we find him what is needed. And obsolete improvement is the order of the day. We have before referred to the great improvements made in the cemetery—the wooded portion under the brow of the hill alongside the river, but it is only now that the excellent effect of clearing up the previously existing thicket, and thinning and pruning the trees, is apparent. The once shaggy waste of ragged undergrowth, dead limbs, rank weeds and pine needles and other undesirable rubbish has given place to a trim, smooth expanse of tree-dotted sod, in which the springing grass, from seed sown last fall, gives promise of a sward in a very short time. The new portion, converted into burial plots at the same time, is in fine shape, and will in a short time show the full effect of the work bestowed upon it. The upland portion of the cemetery is in the trimmest possible condition, every inch has been rabbit-fenced, the grass has been mowed, and under the impulse of the growing weather of the past few days the verdure has assumed its most vivid glow.

EVERY GRAVE PLOT IS SCRUPULOUSLY TENDED

and the flower beds on the different lots are ready for the bedding of plants and flowers, when the owners find convenient to bring them, which, it is to be hoped, will not be too late in the season.

Preparations have been made for maintaining the freshness and greenness of flowers and grass. The tank tower has had its capacity doubled—it is now 320 barrels, and the effects of drouth are now little to be feared. A good many trees and shrubs have been planted this spring and those placed on the new portion are in good growth, the grass is doing well, and the stone gutters that flank the drives have kept the latter from taking harm.

Along the river bank on each side of the windmill a large number of elms and maples have been planted and this suggests reference to the extensive outside tree planting that has been conducted under cemetery auspices this season. The EXAMINER has reason to regard with gratification, the vast improvement of the lake front on Crescent street, for which it has been contending for years. The present condition of it is the beginning of making it one of the most beautiful drives in the country in the course of a very few years. Mr. Kelly has planted a double row of fine elms parallel with the line of crib-work. These are placed on an average, according to the curve, of thirty feet apart, but the trees alternating in the opposite row make an avenue of trees practically fifteen feet apart. The distance between the rows is seven feet, and between them will be placed a walk five feet in width. This space and walk might have been wider had not the neglect of the town to protect the lake bank by cribbing in time, resulted in washing away enough soil to have made the space between the line of trees seventeen instead of seven feet. It is hoped the town will lose no time in putting down a proper walk which they

CANNOT WELL ESCAPE DOING

—the Directors of the cemetery company supplied the trees and paid for their planting—upon town property. And this is not the limit of improvement in this respect. Last year the EXAMINER mentioned that a row of elms had been planted outside the western fence along Ware street, and that out of the large number planted only one had failed to grow. This year the design of a future avenue of stately and beautiful elms was completed by planting on the opposite side of Ware street and clear round the crescent as far as the road extends, a companion row of elms to those mentioned above. The ultimate effect of these tree plantings may be easily pictured—time, the cheapest workman in nature's army of assistants, will every year add to the beauty thus started.

It is the intention of the town to extend the crib work along the lake shore to Perry street, and when this is done and the trees start into growth and the walks are laid, no finer walk or drive will be found in the country. It is also to be noted that a row of mountain ash, nearly embroken, has been planted in front of the properties fronting the lake, from the cemetery gate to Lock street. In addition, the cottages near the gate have been greatly improved and brought into condition bedecking their surroundings.

COURT HOUSE PARK

next demands attention and it is well worthy of it. It is yearly growing in beauty with the growth of the trees and shrubs. It has come through the winter in good condition, and Mr. McLellan having been wisely reappointed caretaker, he is now busy bringing the park into summer shape. The walks are very satisfactory. They passed through the ordeal of the winter in fine condition and need no repairs—only raking and rolling to make them perfect. A fine design has been prepared for the large central flower plot and two new beds are to be added, one on each side of the middle walk, between the large plot and the fountain. The longitudinal beds each side the main walk, near the Water street gate, are to be remodeled. They will be subdivided by belts of sward about a foot in width, and the effect will doubtless be good. Trees have been planted where necessary and everything is being done to maintain this charming resort in the concondition of beauty and attractiveness for which it has more than a local character. Mr. McLellan, capable and careful as he is, is somewhat handicapped for want of funds, which prevents the attainment of the best effects. This is not the fault of the Horticultural Society, nor its friends. The public enjoys all the benefits of the park, and should do more to assist, if not directly, by increasing members of the society and their income and its capacity for carrying out its objects.

GENERAL PARK

is not receiving any special attention. A large number of new trees have been planted, the dead ones are to be removed and the large trees trimmed. The grass is growing finely, and the park, though not of the highest beauty of any pretension, is a welcome retreat in the trying heat of summer and an excellent play ground for children, and nurse girls and their charges—where their so fervent to injure. The Brown memorial drinking fountain still commands the park but is to all day as the eye-sockets of a mummy. It is strange that the town does not take the matter in hand. Behold the fountain and the water thereafter, but where is the the inducement to send the water in its passage from the mains to the drinking cup? Will some city father—the same who instructs the inspector to beautify the park—move in the matter—It is a matter of charity and therefore very properly in his province.

ST. JOHN'S GROUNDS.

Though of only a semi-public character, these beautiful grounds deserve notice. The loveliness of their situation, the splendid back ground of church, ivy clad, and dark pine grove, the surpassing neatness with which the rich, smooth sward is kept, are elements in its attractiveness. Mr. Butcher, the sexton of St. John's, is to be congratulated upon the success he meets in keeping the grounds in such splendid order. Strangers visiting town should not omit to visit these grounds and enjoy the beautiful view of winding river, lake and blue hills in the distance to the south.

THE CATHEDRAL GROUNDS.

These grounds were greatly beautified last summer and surrounded with a substantial iron railing. This spring the large plot facing Hunter street has been levelled and put down to grass. A large circular mound has been placed centrally and on this a fountain and basin of elegant design is being formed. The mantle of Rev. Father McEvay has fallen on the shoulders of Rev. Chancellor Rudkin and the work of improvement goes on apace. Mr. A. W. Strachan, connected with the local agency of the Rochester nurseries, is preparing plans for the floral ornamentation of the grounds throughout. The present beauty of the surroundings, the magnificent maples and elegant private grounds, will be greatly enhanced when the plans contemplated are carried out.

LITTLE TRIANGULAR TRIFLE.

The triangular spaces left at points by streets intersecting at other than right angles, has left opportunities which have been accepted. Last year the plots at the junction of Hunter and Park and Charlotte, Downey and Park were levelled, planted to trees and planted to grass, and in both cases the effect was good. The trees will soon grow and convert these places into shady restful nooks. The intersection of Rubidge and Park has been similarly treated, and another little beauty spot has been created on Perry street.

HOSPITAL GROUNDS.

The grounds of the new Nicholls Hospital are being neatly and beautifully fitted up with shade trees and terraces, and this will constitute a resort of a semi-public character. Near at hand is the little romantic pleasure ground being fitted up in connection with his conservatories by Mr. Frank Mason. The beautiful and extensive grounds of St. Joseph's Hospital will, no doubt, be made available for public use, under certain regulations.

This brief reference to the facilities for the enjoyment of the people, show that as the heading of our rambling notes say, a little time care and money will do wonders in providing the public with the completest and most easily accessible breathing places.

Ashburnham Brevities.

WHAT SOME PEOPLE WOULD LIKE:

Every other ratepayer to be made pay his taxes when due and allow them to take their own time.

A council that will build bridges, sidewalks and keep roads in repair (economically of course) without money.

A tax collector, assessor and street inspector to work for nothing and board themselves.

Every councilman to have his own plan and carry that out at the sacrifice of far better ones.

To have no roads (turn the present ones into market gardens), no sidewalks, no fences (so that every man's cow could live on what every other man grows), no nothing.

The Rev. Mr. Hutton conducted the service in St. Luke's church Sunday.

The Golden Eye made her first trip this morning.

Maria street, west of Lake street is being graded.

The plans of the projected new town hall are on view in the window of Mr. J. Tarcop's grocery. Every person interested should call and inspect these plans. A by-law will be submitted by the council to get the voice of the people in the matter.

The teachers of the public school have adopted a very wise method of cultivating the esthetic qualities of the children by having flowering plants placed on the window sills of each room. Many useful lessons can be given in this way which could not be given in any other.

[For the EXAMINER.]

Sudden Death and Sudden Glory.

IN MEMORY OF A BELOVED SISTER WHO DEPARTED THIS LIFE MARCH 10TH, 1889.

"Absent from the body and present with the Lord."—II Cor., v. 8.

She was called by the Angel of Death
In the midst of life's cares' busy round,
And her soul in the bosom of God is a breath,
Regen hash eternally found.
Why mourn love's misapprehensions denied,
Or regret her soul's sudden release
From its dwelling of clay to a state glorified,
Of felicity, rapture and peace!
Like sudden sun-gleamings amidst summer showers,
Glory broke on her spirit from Eden's bright bowers.

Though sore stricken we would not regime,
But would still every grief-surging pain;
Acquiescing in Heaven unerring, divine,
For we know that our loss is her gain.
E'en when tears of affection do flow,
"Resignations" God gives are not slight;
For with dear loving ones now in heaven we know
She dwells in ineffable light.
What blest revelations have been here since the time
She exchanged life on earth for the heavenly clime.

There among all the sanctified throng,
In the presence of Jesus their King,
In rapturous psans of worship and song
Unto Him who redeemed them they sing.
And adoring the Lamb who was slain,
Now exalted high on heaven's throne,
May our voices not blend in the same grateful strain,
Unto Him who hath called us His own!

How transporting the thought that we one day shall meet,
No more to be parted, in supreme bliss complete.

They are blessed who die in the Lord,
For they rest from their labors below,
And the good works they've done follow them and reward
The Master on them will bestow.
All sunnyway in the world and its ways
May the field where the sacred Him who knows
The fond, self-denying, the sweet, patient ways
And kind words that soothed hearts' deepest woes,
Who will give her a crown she through faithfulness won,
With His smile of approval, and, "Servant, well done."

Shall we go to the grave oft to weep!
No, we think not of her being there!
The frail tabernacle of her soul there doth sleep,
But she's in realms pure and fair.
Immortelles we would strew o'er her tomb,
As emblems of fadeless love—
As a garland of flowers amaranthine that bloom
In arbors celestial above.
And of that glorious morn when her body shall rise

IS YOUR BAKING POWDER PURE?

Do its Manufacturers Publish all the Ingredients Used?

IS IT FREE FROM AMMONIA?

As is well known, ammonia is unhealthful in food, and dries up the bread material.

Protection to consumers of food compounds lies in their ability to choose those made from healthful substances. Unless manufacturers publish just what their baking powder is made of, do not use their goods, but buy instead

CLEVELAND'S SUPERIOR BAKING POWDER.

This powder is made only of strictly pure grape cream of tartar, and strictly pure bicarbonate of soda, with a little wheat flour to preserve it. This is attested by the official analyses of Government and State chemists, and physicians, and chemists of Boards of Health throughout the country.

HOUSE-CLEANING.

How to Begin the Spring Crusade Against Dirt.

The General Clearing Out of the Unconsidered Trifles—The Separation of the Wheat From the Chaff.

All around us are evidences of spring. When a boy begins to look up his ball and his bat, you may be sure it is time for the housewife to look up her dusters, brooms—in fact all the paraphernalia for house-cleaning.

By beginning in time and getting everything ready the annual crusade against dirt and disease will not be so formidable. By attacking one room at a time the male members of the family will have no cause for complaint. A man is a sanitarian only as long as long as it does not interfere with his comfort.

The first room cleaned should be the spare room, as that in case any of the other bedrooms need papering or painting it will be ready. And by the way when you decide to paper any of the rooms, don't forget to examine the Wall Paper and Decorations, at the fancy goods store of C. B. Routley, George street, Peterborough. He has such a lot of patterns, the product of some of the best manufacturers; and the prices he sells at makes papering cost far less than kalsomining.

While in Routley's ask to see the newest thing in Curtain Poles, fitted up with ornamental sets of brass trimmings. They help to make a room look well, and cost only from 30c a set up. There, too, you may order your Dado Window Blinds, with patent spring rollers. Also, Pictures, Wall and Table Ornaments, Brackets, Mottoes, and all such handy things as help to make your home beautiful and attractive. dw

As You Pass Along George St.

Step at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ROLAT SHIRT" is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Centimeter in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 36 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 18c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now retailing them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50 —mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and SCOTCH MERINO. Say 35c. buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

I AM COMING!

CHAS. CLUTHE

The Surgical Machinist, of 118 King st. west, Toronto, will be at the

Oriental Hotel, Peterborough, on Friday and Saturday, 14th and 15th June.

when I will be pleased to meet all those requiring my services for the Treatment of Rupture (no matter how bad your case may be, come and I will give you relief), Club Feet, Bow Legs, Weak Legs, Spinal Diseases, and any other Deformities corrected by mechanical treatment.

Read what some of your neighbors have to say and be your own judge:—

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother says I do all the housework for a large family. You knew when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend.
MATTIE GRAHAM,

Rupture.

DEAR SIR—I am only to inform you that the Belmoble Truss you put on me last spring has been all I was promised and more, as it has held my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, yours truly,

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still bold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"

FROM THE NEW FIRM OF

H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in FINE SPRING OVERCOATS, and FINE Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and talent. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little men—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

Judgment Reserved in the Victoria University Injunction Case—Druggist Wood to Be Tried Next Month.

TORONTO, May 13.—Yesterday morning Mr. R. M. Britton continued his argument before Chief Justice Sir Thomas Galt in the Victoria University Injunction case. The attendance of interested Methodist ministers was on hand, Rev. Hugh Johnston being included. Mr. Britton contended that no one would subscribe to the federation scheme while this injunction was on.

Mr. Holman, one of the plaintiff's counsel, remarked: "I see you got $1000 on Saturday!"

"Oh, that's towards annexation!" another lawyer remarked to Dr. Potts.

On the law as is stated Mr. Britton contended there was a right of removal. It was the board which got all the endowments passed which brought the fight into existence and gave it the powers which is possessed. The Board of Regents was the corporation. While that corporation had determined that degrees should be conferred the Senate had power to say upon what they should be conferred. But the moment the board said: "We will suspend operations at Cobourg then the Senate could not go on conferring degrees."

Mr. Chas. Moss, Q.C., in his argument for the defence, said that the main point before His Lordship was whether or not the injunction granted in this case should be continued until the trial, or whether it was not a case in which no injunction ought to be granted or continued. It was a case at the trial of which the plaintiffs could secure their rights without danger to their present position if they succeed in rights which could be secured. While on the other hand, if His Lordship continued this injunction, he was doing a serious injury and damage to the defendants. It was a recognized principle that no injunction should be granted unless its not being granted would cause irreparable damage to the plaintiffs. He argued that the damage to which they had paid a prima facie case and secondly that unless the court interfered immediately by an injunction their rights would be greatly prejudiced and jeopardized. To lay upon the plaintiffs in this case to satisfy His Lordship that unless the injunction was continued to the trial the plaintiffs were going to suffer such serious damage.

After a lengthy and brilliant argument Mr. Moss in conclusion said: "We are ready to go to trial at the earliest possible moment, but we do object to the action of these plaintiffs in obtaining an injunction in the way that injunction was obtained."

Mr. Meinnes then argued that the only occasion on which the Senate had an opportunity to confer in this matter was in September last.

His Lordship reserved judgment, which will be given as soon as possible.

A boy named Fred Ford was brought before Squire Wingfield yesterday charged with having on April 29 shot a piece of iron out of a catapult at a Grand Trunk train, breaking a window and nearly injuring a passenger. He was remanded till to-day.

When the name of John O. Wood was called at the Police Court yesterday it was stated that he had been bailed out by Mr. Justice Rose's order. The Police Magistrate therefore enters in the record "Sent to the assizes." Wood's bondsmen will have to surrender their men at the June court.

Robert Davies, alias Wallis, a colored youth, was charged at the Police Court yesterday with sandbagging James Fitzgerald with intent to rob him. Fitzgerald drives a Winchester-street railway car. A week ago last Saturday night, while Fitzgerald was making his last trip on Winchester-street, a man jumped on the car and struck him twice with a sandbag over the head. No one else was on the car at the time. He could not identify the man who struck him, but Policemen Quinn and Campbell saw the assault and chased the prisoner, who took refuge in a cellar and was captured, when he remarked, "What is a fellow to do who has no money and no place to sleep?" He was sent to the Central for a year.

E. J. Dunning appeared in the Police Court yesterday charged with fraudulently appropriating two promissory notes of $142 and $210 respectively, the property of J. A. MacKenzie. Defendant was represented by Mr. N. G. Bicelow and Mr. Thurston appeared for the prosecution. The case collapsed, as there was not the slightest evidence to show fraud. The following receipt was put in signed by J. A. MacKenzie & Co.:

TORONTO, May 4, 1889.

Received of E. J. Dunning the sum of $210, on account of purchase of notes $140 and $210 bearing date.

The Magistrate, in dismissing the case, commented on the haste there had been in trying to prove a case guilty of fraud. Mr. Thurston stated that he had no knowledge of the existence of the check produced in court, to which the Magistrate retorted that that only made the case for the prosecution worse.

At 6 o'clock yesterday morning died one of the best priests of the Archdiocese of Toronto, in the person of Rev. J. Michael, parish priest of Lafontaine, 8 miles from Pembroke. Father Michael was born in France 56 years ago and was the only son of wealthy parents. He received his early training in Europe and took his final theological course in Baltimore, where he was ordained at an early age.

Nearly the whole of the clerical life of Father Michael was spent in the Toronto Archdiocese, in which he did good work, much of it in the way of erecting churches, schools, presbyteries and convents, to a large extent from his own means, having inherited a large fortune, of which little or nothing is left. His first work in this Archdiocese was as curate at St. Mary's, Ont. Then he was stationed for different periods at Toronto Gore, Mara, a parish near Orillia, where, he built a fine presbytery; then in the parish of Adjala after the death of Rev. Father Stenson. From Adjala he was sent to Niagara Falls, where he was parish priest and chaplain to the Loretto Convent for several years. Seventeen years ago Father Michael was removed to Lafontaine, which parish he held till his death; there he built a grand church as imposing as St. Patrick's in this city; a commodious presbytery and a convent for the Sisters of the Holy Cross.

"He was a good and holy man," said the Rev. Administrator Laurent yesterday, "and the late Archbishop regarded him almost as a saint."

The funeral will take place on Thursday morning at 9 o'clock, the interment taking place at Lafontaine.

The meeting was deemed a success, several bought the Nun's book and others tickets for her lecture on the Jesuits to-night.

The Police Magistrate yesterday sent Mary McCormack to gaol for 30 days for larceny of a coat and vest, the property of James Wallace. Jane Carr was also sent for a similar term for stealing a dress from Kate Fenton.

Annie Lorrie, for the theft of three robbers, got 30 days. A youth named George Brooks, who had a bad record, was sent to prison for 60 days for theft of a gold watch and $12 from Ralph Horsey. Patrick Rooney stole some lead, the property of the city, and was sent over the Don for a week. Fred Mills pleaded guilty to stealing a gold ring from John Fletcher and was committed for 30 days. Tilly Kelly, for assaulting Nellie Stephens, got 30 days.

The Ministerial Association met yesterday morning in Association Hall, Rev. W. S. Blackstock presiding. Rev. Dr. Jones of New York and Rev. R. B. Gheegan of Monaghan, Ireland, were invited to take part in the proceedings. Mr. Joseph Cosbrough was introduced to the association by Rev. George Robertson.

Rev. Coverdale Watson read a paper on "The law of duty in relation to popular amusements." The speaker aimed at brevity, to allow those present to take part in the discussion afterwards. The different amusements put forward by people for following their inclinations in the line of popular amusements were dealt with. Instances in point were given. In the discussion which followed, Rev. Dr. Pagnuss thought it somewhat strange that no really extra attractions or entertainments should be introduced into the church to draw church's work. Rev. Dr. Parker referred to the evils produced by amusements brought out on high life, or by celebration of national events which set a bad example. He thought that the Methodist Church had a pretty strict code of rules in respect to amusements.

Rev. Dr. Thomas had had difficulty in the matter of doubting in such circumstances and related an experience in which he had opened a ball with prayer. He did not believe in being too rigid in this matter. Rev. D. J. Macdonnell was next called upon by the chairman to introduce the worship of God. He thought the question opened up a question of amusements and their effects. He did not darken positively what amusements were sinful and what were not. He thought circumstances determined to a large extent this question. Further, he gave it as his opinion that the world is gathering as much from the luxury and rest of theatres, [illegible] dances and that too much of the former and [illegible]

CABINET RUMORS.

Mr. Chapleau, if it is Said, to be Promoted to the Portfolio of Railways and Canals.

MONTREAL, May 13.—A gentleman closely connected with the Dominion Cabinet, whose position enables him to know exactly what is going on, said to-day that Hon. J. A. Chapleau in a few days will be transferred from his present portfolio of Secretary of State to that of Railways and Canals, vice the late Hon. J. H. Pope, and that Mr. Charles Carroll Colby, M.P. for Stanstead, will be sworn in as Secretary of State.

"There is no doubt but that this is correct," he added. "Mr. Chapleau is certainly entitled to promotion and would have obtained it long since had his health not been so bad. The position taken by Mr. Colby in the Jesuit debate, his long connection with the party and the fact that he represents the district of the late Mr. Pope are reasons given for his promotion. The Government also selected Mr. Colby so as to give him an opportunity of proving the allegation made by him that the stand taken by the Government on the Jesuit question is approved of by the Protestants of Stanstead and the townships generally.

It is understood that the Government expects to prove by the result of the by-elections of Compton and then of Stanstead that their policy is approved of by the Protestants of Quebec.

Mr. Chapleau will not need to stand for re-election.

CHICAGO, May 13.—Nathan Corwith, ex., has been very ill in this city, and his death may occur at any minute. Corwith a year ago was the richest land speculator in America, if not in the world. The supposition has been that Corwith's gigantic failure in business was solely the result of an attempt to corner the land supply of the world. The fact, however, appears to be that Corwith's every move in speculation was peppered with his own capital by his own son Gearden Corwith, and that before the inevitable crash came $11,000,000 had been withdrawn from the old man's coffers and sunk in speculations in which young Corwith had become [illegible]

CRAZED BY ILLNESS.

HE SOUGHT RELIEF FROM PAIN IN DEATH.

The Story of the Sudden Death of the Late Assistant Secretary Douglas of the Interior Department.

OTTAWA, May 13.—The news of the sudden death of Mr. F. B. Douglas, late Assistant Secretary of the Interior Department, has transpired. Owing to the earnest entreaties of the friends and relatives of the deceased the facts have been suppressed, but the publication in THE CAPITAL in spite of an account of Mr. Douglas' last illness renders further silence futile.

Mr. Douglas was taken ill with a cold a week before his death and was attended by his father-in-law, Dr. Hill. He was also suffering from an inflamed leg, which became serious. A consultation was held and the doctors decided to amputate the limb. Mr. Douglas on the fatal morning had asked the nurse several times to go to bed and showed a strong desire to be left alone in his room. Finally he asked for a glass of water, saying his tongue was very dry and desiring that the water be allowed to run long enough to get good and cold.

When the nurse returned she found Mr. Douglas lying on his right side with what she supposed was an old coat or some covering thrown over his shoulders. She approached him with the water but he did not move. She was surprised and uneasy and went once quickly for a lamp. Returning to the room she saw at once that the bed clothes were dyed with blood. Dr. Hill was immediately summoned. He removed the body with the help of the nurse and servants and partially stripped it, when the wound that had caused death was plainly visible—a deep gash in the throat.

The blood was carefully sponged from the wound, the features and throat washed and composed and properly arranged for placing in the casket. The throat was sewn and the sewing covered with adhesive plaster; over the whole a bandage was placed so that no sign of the death wound could be detected. A razor was found in the bed by the side of the deceased. It was, like the bed itself, covered with blood. After cautioning the servants not to give any information regarding the death, Dr. Hill summoned the undertaker, but he was not allowed to coffin the body. It was coffined by Dr. Hill, the servant, the nurse and a relative of the family. None of the city coroners were informed of the nature of the death.

Suicide at Detroit.

DETROIT, May 11.—Wednesday evening a neatly dressed young man apparently 26 years old, took room 72, third floor, Russel House, registering as D. E. Cady of Auburn, N.Y. He had no baggage and paid for one room in advance. Meals were served in his room. Thursday morning he came down stairs and told the clerk he would stay another day and paid for it. Yesterday morning one of the employes called Mr. McCreary's attention to the fact that no meals had been sent to his room since Thursday noon. The door of the room was locked and no response was made from within to rapping. A ladder was procured and through the transom the lifeless form of the young man, fully dressed, was seen lying on the bed in a pool of blood. The door was opened, and [illegible] Cady had been [illegible] were summoned and the [illegible] breast, his right hand clutched a [illegible] revolver, with which he had shot himself in the head over his right ear. TUESDAY, MAY 14, 1889.

It is announced that Mr. T. D. Craig, Conservative M. P. P. for East Durham, will resign his seat in the Legislature and settle in California—the unpatriotic man that he is. Mr. Craig passed for a Tory loyal enough to call his country, if his party could not be kept in power. Yet Mr. Craig's party is in opposition at Ottawa, but it is the cold outside in Toronto for the Opposition which chills Mr. Craig's loyalty and sends him abroad a renegade Canadian, forsaking the shelter of the crimson folds of the glorious flag, etc., for the shadow of the stars and stripes, a warmer climate than the cold and hopelessly unchanging cold shades in which Mr. Craig and his friends have shivered for nearly a score of years.

The public debt of the Dominion is now $238,576,955, of which $168,712,695 is payable in England. The interest upon this enormous amount of money has to be sent across the Atlantic every year, and makes a serious drain upon the monetary resources of the Dominion. Yet the legislation of the last session of the federal parliament will result in the addition of at least twenty millions of dollars to the public debt. Parliament pledged the country to the expenditure of over fifty-seven millions of dollars, and next year's revenue will not exceed thirty-six millions, thus leaving twenty-one millions to be borrowed. In a very short time, if the Tories continue in office, the entire revenue from customs and excise will have to be devoted to paying interest upon the public debt. The annual interest upon the Dominion debt is now about thirteen millions of dollars. The total revenue from customs and excise in 1868-69, twenty years ago, was only $11,112,573.

The evidence of Mr Van Horne, the President of the Canadian Pacific Railway, before the United States Committee, was, as one expected, misrepresented by the despatches of yesterday. The figures brought before the United States Committee of the Senate as to the amount of subsidies granted by the Government to the Canadian Pacific, given as $316,381,677, are probably pretty nearly right. Mr. Van Horne in his evidence, did not make it that, but he apparently did not deny that others might make it that and not overstep the truth. On the whole, however, thinks the Montreal *Witness*, Mr. Van Horne seems to have been very frank with the committee. He told them that "the Pacific Railway was built to make money for its shareholders and for no other purpose under the sun." Conservatives have generally contended that it was built to make a nation of Canada and altogether for the public good, Liberals held that its purpose was to keep Sir John Macdonald "in power for another twenty years" so he declared it would do for the Government that undertook its construction, while people of independent minds were inclined to regard the scheme as one calculated to enrich the contractors and managers.

Would the farm be considered well managed when the owner had run things in such a manner that he had to devote a third of its products to paying the interest on borrowed money? Can Canada be called well-governed when about a third of the taxes paid by the people is required to pay the interest on the public debt. Every man, woman and child now has to pay $10 per head to raise a revenue, of which amount over two dollars per head goes not to build up the country, nor to construct public works, but to pay interest on the public debt. Many persons do not realize that an average family of five pays over $50 dollars a year into the coffers of the Dominion Government. The bleeding is done at so many parts—taxes on food, taxes on raiment, taxes on bread and meat, taxes on fuel, taxes on Bibles, taxes upon almost every thing eaten or used—that the patient doesn't realize the drain. If the Dominion tax collector should call once a year, like the municipal assessor of authority, the average ratepayer would more forcibly realize what he is paying to maintain a corrupt and extravagant government in power, and he would be very careful how he cast his vote. That must be the reason why the supporters—or, rather, supported, the leagues on—of the government shake their heads in holy horror at the crazy idea of direct taxation. They don't subscribe the people's products—but they fear that direct taxation would bring the idea of economical financial reform running home to the heart of the voter in such a forcible manner that he would insist on "turning the rascals out." But the people are, the most of them, living in a fool's paradise, notwithstanding that by their indifference to the signs of danger, they, in whose hands the ultimate power of government rests, are guilty of the misgovernment, extravagant expenditure and waste of public money, which they passively permit.

Mamma (to her little boy). "Now Ronnie, I won't be good and go to sleep, mamma'll give you one of Dr. Ayer's nice sugar-coated Cathartic Pills, next time you need medicine." Ronnie, smiling sweetly, dropped off to sleep at once. 2t1w

FIRES OF A DAY.

A Conflagration Almost Equal Together With the Contents.

Sussex, May 11.—About 3 o'clock this morning the residence of Mr. W. F. Jones, manager of the Sussex Churning Factory, was almost totally destroyed by fire, together with the greater part of the contents. The fire originated in the cellar, communicating afterwards to the house. The cause is unknown. Loss about $4000, insured for $2000.

SET FIRE TO A CHURCH.

Thorndike Springfield's Rankerville Revenge Gets Him Into Trouble.

Boston, May 11.—Thorndike Springfield, formerly employed to blow the organ at the Church of St. John the Evangelist in Bowdoin-street, has been arrested on a warrant charging him with setting fire to that church on the 10th instant. Springfield made a confession today, saying that he went to the church at 1 o'clock on the afternoon of the date mentioned and set fire to the cushions, by piling papers underneath them, and then lighting it. About a month ago or more away for a few days' vacation, and on his return he found a man named Moore in his place to blow the organ. The church people refused to discharge Moore and Springfield found his job gone. This angered him so that he resolved to set fire to the church with the idea that Moore would be charged with the crime. At the time of the fire he was on the scene and said a good deal to Moore's discredit. He was held in $2000 for the June term of the Supreme Court. Moore has been sent to the island for another offence and a third man is now blowing the organ.

Hunting for a Lord-Lieutenant.

London, May 11.—Difficulty in finding a successor to the Marquis of Londonderry has raised the interesting question of sending a royal prince to keep court in Dublin. The idea is to divide the duties, putting all ceremonial matters into the hands of the Prince and giving executive powers to the Chief Secretary, who is to be elevated to a principal Secretary of State. The name of the Duke of Connaught has been suggested, the Prince of Wales being of necessity compelled to be absent from England. If the scheme should be taken up by the Government—which is more than doubtful—the thing would not be difficult, since the Duke of Connaught could be sent to Dublin as the commander of the forces, in succession to his Bombay command. But probability points to a different issue.

The matter has now been discussed for a couple of days, and at the House of Commons the main result has been to show how very little importance is attached on either side of the House, to the maintenance of the Lord-Lieutenancy. In its present form the post has so long gone begging among the aristocracy that the idea that a prince of royalty will agree to take it is treated with incredulity. But that some new departure in secondary appears to be a point on which a majority, or, at all events, a very considerable and influential minority of both Conservatives and Liberal-Unionists would concur. Some appointment is in favor of abandoning the search for a qualified candidate for the House of Lords and of letting the Lord-Lieutenancy open into a commission until the whole scheme of Irish local government has been matured by the Government. The views of another section of Ministerialists may be found in a question which Mr. Hennage intends to ask on Monday—whether the Government will consider the expediency of introducing a bill to abolish the office of Viceroy, and transfer the administrative duties of the Lord Lieutenant and the Chief Secretary to a Secretary of State for Ireland. This question represents the suggestion of The Times, which recalls the fact that it supported the proposal of Lord John Russell in this sense in 1886.

The Times thinks that the maintenance of a separate court for Dublin favors the propagation of Particularist and Nationalist views, as that the abolition of the Lord-Lieutenancy would be a dig at Home Rule. If the Government cannot find a new Viceroy—and Lord Brownlow, the Duke of Abercorn, and the Marquis of Ormonde have refused with others—it seems certain that the office must go into commission.

A Great Mistake

is made very often by merchants advertising goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Peaches at 15c. per tin; 3-lb. Tins Tomatoes three for 25c. W. J. Some drink because they are hungry.
And some because they're dry,
Some drink to keep them in good health,
And some that they may live.

Some drink because they are too hot,
And some because they're too cold,
Some drink to strengthen them when young,
And some when they are old.

Some drink to keep them wide awake,
And some that they may sleep,
Some drink because their merry are,
And some because they weep.

Some drink when they do money gain,
And some because of loss;
Some drink when they are pleased,
And some when they are cross.

Some drink when they are hard at work,
And some when they do play;
Some think it right to drink at night,
While others drink by day.

Some drink for sake of company,
While others drink on the sly;
And many drink but never think,
About the reason why.

Some say they drink for pleasure,
And some they drink for pain,
Some say 'tis good, some very bad,
But never once refrain.

GOUGHS' The Wonderful Cheap Men, Ring their Alarm Bell.

This week they will hurl a tirade of prices at you, that will besiege their place of business with anxious buyers, and break high prices up. Their two stores, and six flats, are packed with NEW GOODS, and they show more stock to select from, than any other retail firm in Canada. Energy will tell, and the people appreciate it. GOUGHS' BUSINESS IS NOT ON PAPER, IT IS A REALITY, and the result of long patient study and hard work

ON SATURDAY WE WILL SELL:

LOT 1. Mens' Serge Suits for $2.50. Not, mark you, old faded shoddy serge, such as you can buy elsewhere, but a pure indigo dye, warranted fast colors, and to cost you $7.00 from any other dealer.

LOT 2. Mens' All-Wool Worsted Tweed Suits for $5.00. This is a beautiful black and brown checked, trimmed with a silk serge lining, and the lowest wholesale price is guaranteed to be worth $7.00. We show a dozen different patterns in this line.

LOT 3. Mens' West of England and Scotch Suits, cut in the morning coat style, also, cut-away coats on 2, 3 and 4 buttons. This line of goods was made and trimmed under our own supervision, and is in every respect equal to ordered clothing. Prices range from $8, to $15, the same goods to order would cost $13 to $25.

LOT 4. Men's Fine Worsted Suits at $10 and $12, not backed goods, but pure worsted, cost $22 made to order. We have thousands of these goods to select from.

LOT 5. Boys' Suits from 98c. up. We really cannot afford anything out of our gift department, with this suit, but to make it interesting, and not disappoint the boys, we will throw in a cap.

(*Continued.*)

The idea of beautiful scenery is seldom associated with the manufacturing districts of our native land; and yet here and there, even where tall factory chimneys reign rampant o'er the landscape, and the very sheep are blackened by a perpetual atmosphere of soot and smoke, an occasional glimpse of better things is visible, as one is hurried along by an express train "going north."

Large, comfortable looking country houses, surrounded by trees, peep forth on every side; and clusters of solid, stone built cottages rise up in numbers in this populous part of the country, cumbering the ground with an overwhelming population, that ebbs and flows like the tide of the sea. And in contrast to such spots as these, where half the world appears to be crowding out the other half, every now and then a bleak barren moor or endless stretch of lonely downs meets the eye, bidding a seeming defiance to the encroachments of "bricks and mortar," or the leveling efforts of plow and spade.

Eight o'clock on "a wild March morning" saw Langwold Downs in all its wide loneliness, as Janet Harding rode slowly up the winding path which led from the more civilised regions below to the long stretch of sound turf that covered the highest parts of the downs, famous as the training ground for more than one well known racing stable in a certain northern county of England.

An early ride before breakfast was a favorite pastime of Janet's, and perhaps nothing had been of greater service in arousing her to activity of mind and body during the keen suffering and alternate listless apathy of the last eight months of her life, than this daily gallop over the Langwold Downs in weather fair or foul. For Miss Harding was no "fair weather lass," and many a wander-

Miss Harding was no "fair weather lass."

ing rustic was nearly startled out of the few wits with which Nature had endowed him by the sudden apparition of a little gray mare and neat habit through a break in the mist, the sound of galloping hoofs disappearing into the far distance along reassuring him that the vision was of the earth earthy, and no supernatural phenomenon such as his "grannie" had loved to tell of.

Of late, too, a fresh element of interest had been added to these early morning rides, for among the several strings of race horses which did their allotted work at this hour on the downs every day was one belonging to the astute old trainer who in past years had had charge of the late Mr. Harding's horses, that worthy manufacturer never having outlived his true Yorkshire love of a good horse, even amidst all the trouble and turmoil of money making.

So old Barnes' bluff honest face beams with welcome whenever his late master's daughter rides up and joins him on the downs of a morning; and many a stirring gallop is criticised by the clear gray eyes of "Miss Janet" unknown to the world at large.

The thick wreaths of mist were hurled on one side by the sharp northeaster which was blowing on this self same wild March morning with considerable force across the high ridge of ground, and Miss Harding quickly discerned the burly form of Mr. Barnes on his stout bay cob, anxiously directing the work of a string of horses in clothing, which were walking leisurely up and down in his vicinity.

"I'm pleased you've come this morning, Miss Janet," he observed smilingly, as Miss Harding's gray hack ranged up alongside of the sober cob, and that young lady bid him a bright good morrow. "I've something to show you that'll please you, I think," and the worthy man's face grew even redder than before with secret elation as he pointed with his whip towards the line of horses walking up and fro near them.

Janet's quick eyes traveled scrutinisingly over the group, and then she exclaimed: "I see! That bay horse walking behind old Dancing Master is a new arrival. What horse is it, Barnes?"

"It's the first favorite for the 'Two Thousand,' Miss Janet, that's what it is!" said the old man proudly, in a tone which suggested "less that you can."

Janet Harding colored rosy red, and eagerly exclaimed: "Do you really mean it is Celadon, Lord Francis Erldon's horse?"

"I do," said Mr. Barnes sententiously.

"But I don't understand! You are not his trainer, Barnes?" inquired Miss Harding, with a puzzled air.

"Not before this week, Miss Janet. But you see his lordship had a bit of a tiff with his own trainer, somehow, though I can't tell you the rights of it all, because I don't know them myself, exactly; but the long and short of it is, that his lordship wrote me a letter, and an uncommon flattering letter too, Miss Janet, asking me to take charge of his colt and train him for his engagement in the 'Two Thousand,' and though five weeks is little enough time to have given me for to wind him up as I would like, I'll do my living best by the colt, and that's all I can say. Aye, but he's a clever shaped one, Miss Janet! Though his temper's not to my liking, perhaps. But you shall see him gallop."

The unconquerable stab of pain which any thought connected with Francis Erldon so invariably brought to Janet's heart, died away in the breathless interest with which she watched the horse on which rumor said Francis Erldon's last hope depended—and for once rumor did not err.

When Lord Francis had parted from Janet Harding on the terrace at Erldon that bright autumn day, now six months ago, he had gone out into the world a well nigh ruined man, wrecked by every sort of rock a man's life may split on. Harassing debts and difficulties surrounded him on all sides, and how to extricate himself he knew not. More than one complaisant heiress threw herself at his head; less noble minded than Janet Harding, but far more willing to buy his title and his handsome face at any price, had he would name them. Seven to 5? Say, the thought that once had seemed so easy a subvence of all his troubles, i. e., "the money on helmet," now appeared "infinitely burdensome" to him; and since the day on which he had clasped Janet's hand in farewell, no other woman in the world could boast of having won even an admiring look from him, or a single word of aught save the merest courtesy.

But a chance of rescue came from an unexpected quarter. A cousin of his [illegible] had died suddenly, one who had been his "chum" at school, his companion in many a racing venture later on, and who, having nothing else to leave as a legacy behind him, bequeathed the best of a bad lot of 3-year-olds to his well beloved friend and cousin, Lord Francis Erldon. This colt had only just succeeded in getting a "place" in the Champagne stables at Doncaster, but improved rapidly, winning the Middle Park plate with such consummate ease from a field of good horses in the month following, that he settled down firmly as first favorite for the "Two Thousand" throughout the long dead season of the year.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain was taken away, and health was restored.—Theodore Ealing, Richmond, Va.

A GRAND SUCCESS

OUR GREAT

ONE HOUR SALE

—ON—

SATURDAY LAST

—WAS—

A TREMENDOUS SUCCESS.

The only trouble was that some of our Customers were unfortunate in arriving late, so that other Customers got ahead of them and they could not be waited on during the hours of Special Sales. In consequence of the disappointment of so large a number, we have decided to

Continue the Sale on SATURDAY Next at the Same Hour.

REMEMBER WE DO AS WE ADVERTISE.

HERE'S YOUR CHANCE!

On SATURDAY, between 11 & 12 o'clock, we will Sell

ANY PAIR of Pants in the Store for $1.99

Some of them are worth $4.50 and $5.50.

We will also sell, between the hours of 2 and 3 o'clock, a Line of TWEED SUITS worth $8.50, for $4.25, and a Line of FANCY WORSTED SUITS for Men, all sizes, selling price, $15.00, for $7.50, just Half Price.

The fact cannot be too forcibly impressed upon the minds of all users of paint, that good results can be produced only by the use of good materials. The main expense in painting is not in the cost of the paint, but in the cost of labor and etc., and it requires more labor and more oil to apply inferior paint than to apply the best that can be obtained.

The above Brands are the acknowledged standard by which all other paints in the market may be judged.

GREAT

GERMAN

HAIR MAGIC.

The equal of this great preparation is yet to be found. It is an unfailing Restorer for grey hair—it stops all falling out of the hair—it removes all dandruff and keeps the scalp clean. On bald heads (if there are but the faintest traces of roots) the Magic will produce a fine growth. Will you try it? Or will you let your hair rot, and become prematurely old? What do you say? All druggists everywhere have it for sale. Ask for it. Do n't let the druggist tell you he has something just as good—many have dead stock of other hair tonics on hand and try to shove them off in this way. Mr. Best at the "Soo"
The Algoma *Pioneer*, published at Sault Ste Marie, says in its last issue:—Mr. H. Best, of Peterborough, a representative man of that town, has been looking over the Sault realty this week, and expended about $7,000 in purchases near the Algonquin hotel. Mr. Best will build a brick block next to Garland, Elliott & Co., on Queen street as soon as the plans can be got ready.

The Fire Fighters' Loyalty.
The Peterborough Fire Brigade, with the enterprise which characterizes them either at work or play, have made arrangements with Messrs. Palmer's Sons, Rochester, by which a magnificent display of fireworks will be made in Peterborough on the evening of May 24th, Her Gracious Majesty's Birthday. This display, which will be, by all odds, the finest ever given in town will be made in the grounds of the Athletic Association, Ashburnham. It will be worth going miles to see.

A Runaway Runaway.
Monday afternoon Mr. Alphonso Legree and Mr. John Tracy were driving down Gilmour street when their horse became frightened and ran away. At the corner of Park street they were thrown out and Mr. Legree sustained a severe fracture of his leg, while Mr. Tracy also had his leg hurt. Dr. King is attending Mr. Legree, who will be laid up for some time. The vehicle was pretty badly damaged but the horse was not injured.

Found in a Mail Bag.
The clerks in the post office yesterday found in one of the mail-bags a loaded revolver and box of matches addressed to a party in Bobcaygeon. The pasteboard box in which the articles were sent was broken and the revolver was nearly out of it. It was a six-chambered shooting-iron, loaded with six ball cartridges. Such flagrant violation of the rules of common sense, as well as postal regulations, should not be allowed to pass unnoticed.

Shooting Tournament.
The members of St. Paul's church Society of Christian Endeavor is highly gratifying. The first three meetings were held in the lecture room down stairs, but owing to the ever increasing attendance, last night they moved upstairs into the Sunday school room, where an interesting meeting was held. The Bible reading was led by Miss Dawson, and the topic of the evening "Why we should be joyful Christians," was introduced by Miss L. Stevenson. Next Monday evening meeting promises to be most interesting. The topic is "Praise," and the service will be principally of a musical character.

A Horse Dead.
Our Westwood correspondent writes:—Fred Weed an orphan boy of 14 years who was taken from the Barnardo Home Peterborough three years ago by Mr. B Cardwell, Westwood, risked his own life on Tuesday last to save the life of a little child. He was sent to Westwood on an errand and while returning through the village a little dog began barking at his horse's heels. He was watching the dog and did not see the child until his horse was almost upon it. He knew he could not check his horse, so he jumped from it and threw the child forward. The child got off with a swollen hand and a few scratches, and he, after handing the young one to his mother, started off not giving his noble act a second thought. Well done, Fred, you have taken the advice of Penn: "Do good by stealth and blush to find it known."

A Big "Senator" Bite.
Geo. King, an old sailor, who for some time past has been working as farm hand for Mr. John Brotherston, of Hobart near Orillia, committed suicide on Wednesday night in a most peculiar manner. While crazed by liquor he cut a large piece of flesh out of his arm, ate it in Shylock, with a razor, and bled to death before assistance could be procured.

Ladies' Cigars and Barber Shop.
Charles Legree is keeping pace with the times. The cigar department of his business is supplied with a choice line of newly imported cigars, a fresh stock of fine pipes and superior tobaccos. In his barber shop he has four chairs running and hot or cold baths ready at any hour. When you want a clean, comfortable shave or a bath, finished with a smoke of imported cigars, go to Charles Legree' establishment, 229 George street. Telephone Connection.

A Good Recommendation.
To Mr. J. J. Turner, Sail, Tent and Awning Maker:
DEAR SIR,—The nineteen awnings you put up for me on the front of my hotel this spring are very satisfactory in every respect. The material is good and the workmanship first-class, and I take pleasure in recommending you to anybody wanting anything in your line.
I remain, yours truly,
WM. SNOWDEN.

The Tug of War.
The Queen's Birthday sports of the 57th Batt. will settle a question that has been a good deal discussed by the men of the different companies of late. Jack Smith says No. 1 can pull all creation, and that they did it last 24th of May. No. 2 says they can't pull worth sour apples. No. 4 says No. 2 is no good. Billings says, "Me and the Band can yank the whole lot of you." And so on it goes. Time alone will tell.

A Scientific Mystery Explained.
Mrs. Rovington, North Monaghan, near Crawford's grove, was the other day the object of a new form of social entertainment, a morning surprise party. She was having duck's eggs for breakfast, boiled. On smoking her egg she found it rather hard boiled; on investigating further she found a perfectly formed hard-shelled small egg inside the larger one. How the ingenious duck compassed the feat of encompassing the other is beyond the compass of ordinary explanation. Our devil, however, with diabolical ingenuity explains the mystery by saying that the substance of the egg being duck-tile it was spun out into the form of a thread and introduced into the larger egg through an opening in the shell, too small to attract attention, and that the filamentous substance was converted into globular form by the peristaltic action of the duck's anatomy while dibbling for worms, and that the cretaceous matter was deposited around it in the form of a shell by the usual natural process. Our base-ball editor, without being profane—which is his normal condition incident to his position—stigmatizes this as a "devil" of a theory, but thinks it is about as good and coherent as half the philosophical theories promulgated.

The Burglar Wasn't Shot.
Sunday morning Mr. Richard Lillico, of North Monaghan, enjoyed a bit of excitement with a bold, bad burglar who was making off with some of his grain. He was wakened at the early hour of three by the furious barking of the dog, and presuming that the dog wasn't baying at the moon in the moon, as it was hidden under a cloud at the time, watched his rifle from the hall-rack and went out into the chill morning air to investigate. It was yet dark, and the only moving thing Mr. Lillico could see was a white object gliding away from the premises. Bang went the gun and the ghost-like thing fell to the ground with a dull, flat, and then he heard a scampering of feet running off in the distance. Not being on intimate terms with the family of spooks, nor caring for too close interview with white apparitions in the dark, even if they have been shot, as he supposed this one was, Mr. Lillico returned to his bed and waited for the dawn of day. It came, and again he sallied forth to see what was to be seen. He made a discovery. He found a new bag of wheat on the spot where it had been dropped from the back of the thief who was making off with it when Mr. Lillico put in an appearance and frightened him out of it. A little further another bag of wheat was found, and on further investigation he found that his granary had been broken into and the bags stolen from it. The thief evidently wanted nothing but grain, for a large quantity of meat and other stuff was untouched.

Sporting Notes.
Lindsay cricket club will be down this Saturday to play a Peterborough second eleven on the Association grounds.

There will be a baseball match on the morning of the 24th in connection with the P.A.A.A. and 57th Battalion sports, between Campbellford and Peterborough. The Campbellfords have written that they will be here.

A practice baseball match will take place on the Association grounds Thursday evening between the Athletics and Peterboroughs. Both teams want to be in trim for the 24th, when they have matches on. Game will begin at 6.30.

Mr. John Newhall is getting up a programme of events for the Queen's Birthday trotting meet at the Driving Park. Good prizes are to be offered.

Still another baseball club has been organized. Last night at the Commercial House the Riversides were organized, with the following officers:—
HON. PRESIDENT.—R. A. Morrow.
PRESIDENT.—H. Calcutt.
VICE-PRESIDENT.—J. E. McIntyre.
MANAGER.—E. Brown.
TREASURER.—W. J. Metherel.
SECRETARY.—A. Moore.
CAPTAIN.—F. Billings.
FIELD CAPTAIN.—F. Cameron.
The club will practice on Tuesday, Thursday and Saturday evening of each week on Riverside Park. The Riversides will be able to put a strong team in the field, as most of the members are well known ball tossers with a local record. There ought to be some good sport in Peterborough the coming season.

During the dull months of May and June the output of the old established G. M. Weber piano factory, Kingston, will be sold at wholesale prices for cash, from elegantly finished pianos to the cheapest styles, all guaranteed. It will pay nicely to write for prices. 34tw

Of children's tickets will be sold at 15c. for Roberts Harper's grand entertainment to-night. Crowd the hall. Proceeds for Charlotte street Methodist Sunday school.

What the People Say.
That the Palace Grocery is the LEADING house, carries the largest stock, finest assortment of groceries and gives better value than any grocery house in Peterborough. Elliott & Tierney's celebrated blend of pure coffee (fresh ground by Tuerk's water motor) is delicious, try it.

The First Excursion.
An excursion party from Roseneath came in this forenoon on the Golden Eye, under the superintendence of Rev. John Tweedsmuir. There were about 100 aboard. The excursion was under the auspices of the Roseneath Methodist church. This is about the first excursion of the season.

Sale and Entertainment.
The ladies of St. Paul's Church, with the taste, enterprise and zeal which distinguishes them, have completed arrangements for the holding of an unique sale of useful and ornamental articles, and giving, in connection, an entertainment of superior character on Thursday evening, May 16th. The system of "sowing bees" has been superseded and the lady friends of the congregation have been requested to contribute suitable articles. They have generously responded and the result is a very nice collection of beautiful and useful goods to be offered for sale. The reputation of the ladies, from past successes in the line of entertainments, gives a guarantee of the enjoyable character of the coming one. There should be a large attendance.

Endeavor Society.
The Young People's Christian Endeavor Society of the Baptist church held a meeting last night, the President, Mr. J. C. Turrell in the chair. The other officers of this Society are:—Vice-Presidents, Messrs. Edward Duff and W. J. Minore; Sec.-Treas., R. Calvert; Chairman, Look Out Committee, A. E. Kemp; Reception Committee, Miss M. Mann; Flower Committee, Miss M. Matthews; Programme Committee, Mr. H. Grandy; this committee also comprises the officers of the Society. At last night's meeting there was a good attendance. The subject of discussion was, "Hindrances to Spiritual Growth." The four prepared speakers were Messrs. J. C. Turnbull, Edward Duff, E. Elcome and L. Croly. Other impromptu speakers were Messrs. Jno. Bell, A. Gillespie, H. Grandy, W. J. Minore, Rev. P. C. Parker, and Miss M. Mann. The subject of the next evening's debate will be Baptism.

Prosperous Year at George Street.
The last meeting of the Quarterly Board of the George street Methodist church for the year was held last night. There was a very large attendance, and considerable business was carried through. The following local preachers had their licenses renewed:—M. Cummings, W. Might, F. C. Colbeck, B.A., R. A. Pearson, B.A., and W. D. Harrison. J. A. Fife, M.D., was appointed to represent the Quarterly Board at the District Meeting to be held to-morrow (Wednesday) in the Charlotte street Methodist church. The Treasurer's report for the year was laid before the Board, showing a gratifying increase in the envelope fund. $200 of the surplus in the hands of the treasurer were ordered to be used in discharging a note that the Board had been carrying for some years; and $200 were also presented to the pastor. A resolution was also adopted expressive of satisfaction with the services rendered to the church by their popular pastor during the year and requesting him to return for the coming year. It must be gratifying to the religious community of the town to know that the clergymen are held in such high esteem as the recent action of the different church courts signifies.

The Question of Sewerage.

Mr. Alan Macdougall Addresses the Council on the Subject—Two Systems Proposed.

Last night a committee meeting of the whole town council was held, at which Mayor Stevenson presided. There were present Messrs. Cahill, Davidson, Winch, Kelly, E. H. D. Hall, A. Hall, Dawson, Baptie, Rutherford, Langford and Kendry. A number of members of the Board of Trade were also present as spectators. These included Messrs. Geo. Hilliard, Innes, Manson, Bain, Ranney, Belcher, Blackwell, Pope and others.

Mr. Alan Macdougal, C.E., who has been in town for several days past with reference to the adoption of a system of sewerage for Peterborough, addressed the meeting on the subject. Mr. Macdougal explained the need existing in Peterborough for some such system and dealt at length with the different details of the work. There were two systems which could be adopted, the straight away course and the reception of the sewage into large pits where by mechanical processes the poisonous refuse could be extracted from the liquid before being run off into Little Lake. In case the former system was adopted, the trunk sewer would have to be run below the locks before the sewage could be let off. The other means was cheaper. The pits or vats could be built near Spalding's Bay and about a mile of trunk sewer construction saved. Mr. Macdougal exhibited bottles in which were samples of sewage showing the effects of this system of chemical subsidence, whereby the solid refuse was separated from the liquid and drawn to the surface. This refuse, when taken off, would make splendid manure, and it was estimated that the proceeds of the sale of this manure would almost cover the expense of the process. After the refuse had been removed the liquid could be run off into Little Lake without any harm being done. This system would be the cheaper of the two.

As to the pipe-laying, it was suggested that there be three trunk sewers, on Park, Aylmer and George streets. These three trunk sewers would effectually drain the town. The syst em could be built in sections, as required, and if this were done Mr. Macdougal recommended local taxation. Some of the councillors, however, thought local taxation would not be advisable. Of course, plans and specifications would have to be got out, which it was thought would cost $700 or $750.

Several councillors spoke on the matter. Messrs. Cahill, E. H. D. Hall, A. Hall, Rutherford, Kelly, and Dawson, all recognizing the necessity of a system of sewerage, and Mr. Macdougal was asked a number of questions. There was some difference of opinion as to which was the better system and as to whether the town was in a position to undertake the scheme.

Finally it was moved by Mr. Kelly, seconded by Mr. Rutherford, that the Committee having heard Mr. Macdougal in reference to the system of sewerage, would recommend to the council to take the necessary action to procure plans and surveys of a system of sewerage for the town at its next meeting.

It was thought that this resolution would commit the council to the undertaking, and an amendment was moved by Mr. A. Hall, that this meeting thank Mr. Macdougal for his interesting address and would suggest that the council take up the matter at its next meeting.

This motion was carried and the meeting adjourned.

Early Closing.
The following agreement has been signed by the booksellers and fancy goods dealers whose names are appended:—
PETERBOROUGH, May 9th, '89
We, the undersigned merchants, agree to close our respective places of business at eight (8) o'clock p.m., every evening, except Saturday's and the evenings preceding public holidays, beginning Monday, May 13th, 1889, and promises to remain closed to business till the following morning; this agreement to remain in force until September 1st, 1889.

Spiritual Degeneration.
The Devotional Committee took charge of the meeting of the Charlotte street Endeavor Society last evening. Mr. A. Tebb, in a very conclusive address, opened the subject, "What is the cause of Spiritual Degeneration?" and he was followed by other members of the Society. These meetings are becoming justly popular with the young people of the church.

Police Court.

TUESDAY, May 14th.

Andrew Mann, of Lakefield, got drunk yesterday and staggered against a window in Turner's meat and evening store, breaking the glass and bringing about his arrest by P. C. McGinty. It being his first offence he was let off by the police magistrate on paying for the damage to the window.

John Scott, of Ireland, and a stranger from Ottawa, were also run in last evening while drunk, but were discharged this morning.

The iron stealing case was next disposed of. Mrs. Harrison, mother of the boy concerned, gave some unimportant testimony and the case was dismissed, the magistrate holding that there was a law against a man being convicted on the evidence of a confederate alone, and as the only evidence connecting Rogers with the crime was that of young Harrison, he would give the prisoner the benefit of the doubt and dismiss him. He said the prosecution had brought the suit more for the purpose of putting a stop to the theft of iron which had been going on around his place, than for the purpose of securing a conviction, and probably this warning would effect it. Harrison was guilty of wrong doing and evidently knew it, while if Rogers had been guilty of prompting the boy to commit the theft it was a serious matter. The magistrate read the parties a lecture and discharged them all. He, however, warned them that if they came before him again for anything of the kind and the offence was proven he would not be so lenient.

A merchant was fined $2 for leaving goods on the sidewalk in front of his store on Saturday, contrary to the by-law against street obstruction.

Four boys were called up for having annoyed Robert Scriber by calling him names. The plaintiff did not appear, and the magistrate, after telling them how mean and unmanly it was to twit a man about his misfortunes, dismissed the quartette.

Patrick Navin was charged with allowing his horse to run at large. The horse was turned out on the commons alongside the creek and got out upon the street. Mr. Navin didn't think the horse could have been "running" at large, for it was scarcely able to more than walk, but he was fined $2 as an example to other horse owners.

Personal.

Mr. J. Geo. Hodgins, senior High School Inspector, arrived in town on the noon train on an official visit.

Mr. Z. Gallagher leaves Thursday morning for Toronto, where he will enter the law office of Fullerton, Cook & Wallace, 1 Adelaide street east.

The Convocation exercises of Victoria University are to take place at Cobourg to-morrow. Mr. W. H. Schofield, B.A., gold medallist, takes the valedictory also.

Mr. Frank Kingan left this morning for St. Paul, Minn., where he will reside, having retired from the business here, which is now managed by his brother, Mr. R. G. Kingan. Frank will be greatly missed by the young people of the town, amongst whom he was ever a social favorite.

The Chicago *British American* says:—Mordes Kinsaid and Frank J. Sherwood, two Canadians from Peterborough, have come to Chicago to make their home. The former has secured a good berth in the Edison Electric Light Co., and started to work on Friday. Mr. Sherwood is a druggist by profession, and has a number of positions offered him.

Successful Institute Pupils.
Mr. W. H. Schofield, brother of Mr. George Schofield, of Peterborough, has just completed a highly successful course at Victoria College, Cobourg, carrying off the gold medal and the valedictory. Mr. Schofield is an old pupil of the Collegiate Institute, and his special departments are modern languages and English. Mr. Herbert Haultain, who recently finished a very successful course at the School of Science, Toronto, is also an old Institute pupil.

CHICAGO will rank in the list of cities with over a million inhabitants when the United States census is taken next year. Suburbs which have 210,000 population are to be annexed this year, which will carry the figure beyond the limit. It is within the bounds of possibility that the new census may show four United States cities of over 1,000,000 inhabitants each. They will be New York, Philadelphia, Brooklyn and Chicago. No other country has more than one city of a million population. Our neighbour Jonathan is "getting a big boy now."

ELOPED WITH A SKELETON.

What He Was a Living Skeleton—However He Was Rich and a Duke.

NEW YORK, May 13.—Coffey the dude, Coffey the living skeleton, Coffey the wife hunter is missing, and Managers Worth and Huber of Worth's Palace Museum are mourning his departure and are wrathful that he so summarily shook the dust of the museum from his feet. Where he is gone they know not, but the reason of his departure they shrewdly surmise to be a pretty and rich widow, who has haunted the museum ever since his thin "legs" blew in on a favoring gale from Philadelphia. The lady who captured the heart of the skeleton is known by name to the museum managers, but for business reasons they desire to keep it secret.

The circumstances connected with his departure show that Coffey had contemplated running away for some time. Thursday he drew his week's salary in advance. Friday morning he was around the museum at 10.30 o'clock, and then walked out and has not been seen since. An inquiry at his boarding-house developed the fact that Thursday night he took away in a hack all his personal belongings, leaving no address. Manager Huber declares that if he is married he will sue him for damages, as his contract calls for a marriage in the museum, and if not married he will serve an injunction on him preventing it. Coffey has amassed a large fortune from his exhibitions as a living skeleton and is rated as solid financially.

Buried Under a Fallen Wall.
NEW YORK, May 13.—While seven laborers and a foreman were tearing down a building at 151 Spring-street this morning, a remnant of the wall, twelve feet high and eight inches thick, suddenly caved in upon them. A German laborer known by the name of Joseph was frightfully cut about the head and shoulders. George Thomas, foreman, was facing the wall when it fell. Eye-witnesses say that he stood as though paralyzed. He did not move from the spot and the wall as it fell struck him full in the face, head and neck. The left side of his face was carried away. His nose was torn off and his eyes were literally torn from their sockets. As soon as the dust had settled and the work of clearing away the bricks began a call was sent out for three ambulances. Before the ambulances reached the spot the man Joseph had been discovered and carried into the street, where he died almost immediately. The foreman was taken to the hospital. At first it was thought that the wall had buried a number of other men, but no more bodies have been found.

NATURAL GAS NEAR MIMICO.

A Strong Vein Struck on the New Asylum Farm While Boring for Water.

MIMICO, May 13.—On Saturday while Thomas McLean, W. McMillan and Paul Chapelle were drilling for water on the new Asylum farm formerly the property of Mr. Benjamin Goldthorpe, about 1½ miles west of this place on the Lake Shore-road, they struck a rich vein of natural gas at a depth of 666 feet, which increases as they go deeper. The hole through which the gas escapes is six inches in diameter. When lit to-day the gas threw a flame five feet high.

Her Husband's Escape.
TERCOLA, Ill., May 13.—A singular case of mistaken identity occurred when Mrs. James Duke of Beloit, Wis., arrived here in company with six interesting children, and claimed as her lost husband a supposable named David Robinson, who is the foreman in the factory of Messrs. Robinson & Watson. The lady, who is well dressed and quite prepossessing, confronted her alleged husband, and even after conversing with him was not satisfied that he was not lost her husband until she examined his wrist for a scar. Failing to find this she broke down and admitted that she was mistaken in the man. How much Robinson may have resembled Duke is attested by the fact that the children clung around him affectionately calling him papa. Mrs. Duke's husband, who was a sign-painter, disappeared mysteriously about a year ago, and she was led to believe he was headed here through information received from a traveling tobacco salesman.

HOUSE-CLEANING.
How to Begin the Spring Crusade Against Dirt.
The General Clearing Out of the Unconsidered Trifles—The Separation of the Wheat From the Chaff.

All around us are evidences of spring. When a boy begins to look up his ball and his bat, you may be sure it is time for the housewife to look up her dusters, brooms—in fact all the para phernalia for house-cleaning.

By beginning in time and getting everything ready the annual crusade against dirt and disease will not be so formidable. By attacking one room at a time the male members of the family will have no cause for complaint. A man is a sanitarian only as long as it does not interfere with his comfort.

The first room cleaned should be the spare room, so that in case any of the other bedrooms need papering or painting it will be ready. And by the way when you decide to paper any of the rooms, don't forget to examine the Wall Paper and Decorations, at the fancy goods store of C. B. Rentley, George street, Peterborough. He has such a lot of patterns, the produce of some of the best manufacturers; and the prices he sells at makes papering cost far less than kalsomining.

While in Rentley's ask to see the newest thing in Curtain Poles, fitted up with ornamental sets of brass trimmings. They help to make a room look well, and cost only from 25c a set up. There, too, you may order your Dado Window Blinds, with patent spring rollers. Also, Pictures, Wall and Table Ornaments, Brackets, Mottoes, and all such handy things as help to make your home beautiful and attractive. dw

As You Pass Along George St.
Stop at our Gents' Furnisher Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 25 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our Lines. We have not said much about our KID GLOVES lately, but we are now retailing them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH MERINO. Say 25c, buys a pair of Cashmere Hose that have been sold at 35c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

Three Long Years in Bed with Spinal Disease.
Charles Cluthe, Esq., Toronto.
DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM,

Rupture.
DEAR SIR—I am only to inform you that the Scientific Truss you put on me last spring has been all it was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, so I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.
I remain, yours truly,

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

GOOD PASTURE.

THE undersigned has good Pasture for a limited number of horses, just east of Downer's Corners. It is well watered and fed by a never-failing fountain. Horses will only be taken for the season. Terms, $10.00 for the season, which will last about five months.

The farm is well fenced, but it must be distinctly understood that I will not be responsible for any accidents that may happen to any animals while running on the pasture. I have been cutting hay from this farm in the past, and it will be good pasture.

As only a limited number of animals will be taken, those making arrangements will have the preference. Apply to

A Spring Message

FROM THE NEW FIRM OF

H. LeBRUN & Co.

Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to as exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and talent. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

TOPICS FROM TORONTO.

WORK ON THE NEW PARLIAMENT BUILDINGS RESUMED.

Why the Proposed Scheme for the Delivery of Drop Letters by Private Companies Will Fail.

TORONTO, May 15.—The recent change in the cost of drop letters has started the guilderoni upon a scheme for ousting the jurisdiction of the Postmaster-General in this respect. But enquiry yesterday at the Postoffice elicited the information that the Great Northwestern Telegraph Company or any other association or firm are likely to find themselves in difficulty if the proposed scheme is carried out or attempted. The Postmaster-General has a monopoly of the collection and delivery of letters in Canada and anbody infringing in subject to a penalty of $20 for each offence. The exclusive privilege of the Postmaster-General does does not embrace letters sent by a friend, who is journeying or traveling, provided such letters be delivered by such friend to the party to whom they are addressed; nor letters sent by messenger on purpose, concerning the private business of the sender or receiver; nor letters concerning goods sent by common carriers to be delivered with the goods without hire or reward, profit or advantage for receiving or delivering them. But no person is allowed to collect any such excepted letters for the purpose of sending them or conveying them, and any person employed in the Postoffice or in the Inland Revenue Office or Custom House can seize any such letters so conveyed, received or collected, sent or delivered and take them to the nearest Postoffice and give such information to the postmaster as he may be able to give and as is necessary for the effectual prosecution of the offender, and the letters shall moreover be chargeable with postage.

Yesterday morning the engines at the new Parliament Buildings were set going again, creaking cranes lifted huge stone blocks into position and the sounds of industry echoed over the vast extent of the foundations. In the contractors' offices at the east end of the foundation Mr. Robert Carroll, one of the late Lionel Yorke's executors, was found. He said that a new firm had taken over the contract, the firm of Carroll, Gaylord & Vick. Mr. J. Gaylord is the Government inspector at the Parliament Buildings. He has had experience in that class of work, having been inspector of public works on public buildings in England. He will now be superintendent of construction. Mr. J. R. Vick was the late Mr. Yorke's foreman at the Legislature stoneyard. Mr. Vick is superintendent of the stone cutting department. Mr. Carroll will provide supplies and do the financing. The contract will be completed at the figure it was originally taken at. The whole difficulty in the settlement of the contract was between the new firm and the Yorke estate. The matter is now, however, definitely settled and as Mr. Carroll has given $35,000 extra security the Government has no fear that the contract will not be carried through. Mr. Carroll says that every effort will be made to have the west wing and the centre of the building ready for the wall plates by the end of the year.

Manager Hill of the Industrial Exhibition Association figured in the new role for him of a peanut auctioneer yesterday afternoon. Up to last year the privilege of selling peanuts on the Exhibition Grounds during the fair had been given to one man, John Abate, for $65. The other Italians in the business began to kick, and this year it was determined to sell the privilege by auction. At 4 o'clock yesterday afternoon many Italians assembled in the rooms of the association in Church-street ready to try for the coveted monopoly. Manager Hill did the auction business, starting with $50. This speedily ran up to $295, at which figure it was knocked down to John Abate.

The Ontario Grand Lodge of True Blues commenced its annual session yesterday at Shaftesbury Hall. Grand Master Bunting, Lindsay, presided. Deputy Grand Master Diamond, Belleville, was in the vice chair and Rev. E. B. Sibbald in the Grand Chaplain's chair. There were 113 delegates present. The reports of the Grand Master, Grand Secretary and Grand Treasurer were presented and referred to committees. Grand Master Bunting's address expressed satisfaction at the presence for the first time of representatives of lady True Blues and 16 new warrants were issued during the past year. The necessity for a revision of the constitution was referred to and the traitorous conduct of the two members who gave away the secret work of the order. The agitation for unrestricted reciprocity, commercial union or annexation was condemned, as was also the passing of the Jesuits' Estates Bill with these members of the Dominion Parliament, particularly of the Orange order, who voted against disallowance. Mr. W. R. Meredith was complimented on his stand against French in the public schools. The present Grand Lodge officers were also commended for the manner in which they had fulfilled their duties. In the report of Grand Secretary Worrel the progress of the order was ascribed to the efficiency of the various grand and district officers and to the aid given by The Orange Sentinel. The report of Grand Treasurer R. A. Newman contained the statement of the financial position of the order, showing it to be good. The Grand Treasurer also discussed the Jesuit question at considerable length.

Nova Scotia News.

HALIFAX, May 15.—A 2-months-old infant was found on the road in the suburbs of the city early yesterday morning, having been abandoned by its parents. It was wrapped in a soldier's blanket. It appeared quite comfortable.

Lockeport was visited by a terrific thunder and lightning storm yesterday morning. Two houses were struck by lightning—Captain Colin McKay's and Dean Lloyd's. The former was considerably damaged, the electric fluid passing down the chimney, shattering it and then going out the end of the house, tearing off boards, shingles, etc. Lloyd's house was almost wrecked, windows were broken, floors torn up, roof lifted and partly stripped of boards. The shingles were broken into matchwood and scattered over the fields. Mrs. Lloyd was in bed when the chimney fell into the room, covering the floor and bed with bricks but not injuring her in the least.

A Strike Settled.

PITTSBURG, May 15.—The strike of the railroad coal miners of this district, which began two weeks ago, for a uniform yearly scale of 74 cents a ton, was settled yesterday. A compromise was made at 73 cents a ton. About 7000 men will resume work at once.

The C.P.R.'s Niagara River Bridge.

ALBANY, May 14.—In the Senate to-day Senator Laughlin's bill to incorporate the River Bridge Company (to give the Canadian Pacific Railway Company a bridge over the Niagara River) was opposed by Senator Linson, who characterized it as a dangerous measure and asked that the bill be recommitted to the Railway Committee. Senator Laughlin defended the bill, but Senator Linson's motion was carried, 30 to 1.

Arrests on Both Sides.

MONTREAL, May 15.—High Constable Moe of Sherbrooke, who is in the city, says that John McLane of Stornoway was suspected of "having given Morrison away" and his horses' tails were cut off in consequence. Suspecting certain parties he warned them that he would shoot them if he caught them on his premises. He did so and fired, but missed. They had him arrested for shooting and he had them arrested for cutting his horses' tails.

Murdered for Money.

PIERRE, Dak., May 15.—The body of W. G. Duncan, who left Cheyenne Agency two weeks ago with Arthur Redmond for Fort Pierre with a herd of horses, was found by Indians near Cheyenne Agency yesterday. From marks on the body it is suspected Duncan was murdered. He had a large sum of money on his person when he left the agency.

Robert Blackwater to Return.

QUEBEC, May 14.—Mayor Gendy to-day sent a telegram to Mr. Robert Blackwater telling him to return home and his presidency would be taken against him. An examination of Mr. Geo. Minton's bank books shows that he had been in the habit of using exhibition funds since 1883.

SHELVED BY THE SENATE

MR. MACLAREN PUTS THROUGH AN ADJOURNMENT MOTION.

The Victoria University Injunction Matter—A Resolution of Censure Burked—Honorary Degrees Conferred.

COBOURG, May 14.—A meeting of the Senate of Victoria College was held here to-day. The degree of D.D. was conferred upon Revs. Hugh Johnston, D. G. Sutherland and others.

After the regular business and conferring of degrees was concluded, Rev. Dr. Potts of Toronto introduced a resolution, which was seconded by Hon. John Macdonald, expressing regret that two members of the Senate should have entered an action for an injunction in the civil court against the Board of Regents and repudiating approval of and responsibility for it. This was evidently designed to show that the injunction was only the work of a part of the Senate and not of the entire body. The resolution was so worded that those who were against federation as well as those who were in favor of it might have voted disapproval of taking out the injunction. The opponents of federation seemed exceedingly anxious that no vote should be taken on Dr. Potts' resolution.

Lawyer J. J. Maclaren, who has from the first fought against the scheme, moved in amendment that the Senate adjourn until 2 p.m. to-day. Owing to other arrangements no such adjourned meeting could be held and Mr. Maclaren's amendment was plainly designed to prevent any vote being taken on the original motion. The vote was then much more significant than had it been on a motion for an ordinary adjournment.

Messrs. Potts and Macdonald refused to withdraw their resolution. They insisted that the votes should be counted, and accepting Mr. Maclaren's amendment was carried by a vote of 20 to 17.

TWO BRUTAL HUSBANDS

Attempt to Kill Their Wives by Shooting and Stabbing.

MONTREAL, May 15—A man named Francis Laurent, residing on Maple-street, is alleged to have been drinking for some time past. He went home under the influence of liquor and quarrelled with his wife, whom he said he would murder. He then pulled out a revolver and shot her through the neck and in the hip. A third shot missed her. By this time the police arrived and arrested Laurent. Medical aid was procured for the poor woman and the bullet extracted. Though wounded severely, she is not supposed to be in any danger.

A woman named Mary Sullivan, aged 30, residing on St. Urbain-street, was brought to the General Hospital. She said that her husband while under the influence of liquor tried to murder her. He took a razor and struck at her face. She put up her right arm to ward off the blows, when he gashed her on the back of the wrist, cutting her to the bone and severing the tendons. He also slashed her across the knuckles, and up the arm, when she managed to escape. The doctor says that she may probably lose her arm. The husband was arrested.

Short $35 Out of $184,000,000.

WASHINGTON, May 14.—The recent count of money at the New York Sub-treasury revealed a discrepancy of $35 out of $184,000,000 to be accounted for. The shortage resulted from the acceptance of a few counterfeit notes in the hurry of business and by the loss of a few pieces of silver. The loss was promptly made good and a receipt in full given to ex-Treasurer Hyatt, who was responsible under his bond for the entire amount.

Earnings of Michigan Railways.

LANSING, May 15.—The earnings of Michigan railroads for February, 1889 were $6,738,001 against $5,550,304 for the corresponding month in 1888, an increase of $187,697. The earnings for January and February were $11,185,951 against $11,007,656 for the same period in 1888, or an increase of $178,294.

The Andover Controversy.

NEW HAVEN, May 15.—Rev. John E. Russell, professor of Biblical theology (New Testament) at the Yale Theological School, has resigned. This action created great surprise. The resignation is attributed to a difference of opinion in reference to the Andover controversy, the professor, it is said, siding with the Andover professors.

Simcoe's Fire Protection.

SIMCOE, May 15.—At a largely attended meeting of the ratepayers of the town held in the roller rink Monday night and presided over by Mayor Luscombe for the purpose of considering better fire protection for the town, a resolution instructing the town council to purchase a steam fire engine was passed by a large majority.

Fatal Accident at Bright.

BRIGHT, May 14.—Michael Smith of Rathow when driving home from Bright this afternoon fell from the load of millfeed he was drawing and the wheel passed over his head. Death was instantaneous.

A $6000 Loss.

HANOVER, May 14.—Shortly before midnight last night fire broke out in Hollinger's tannery. The place was gutted; loss $6000, insured for $3300; cause of fire unknown.

U. S. Senator Hale Injured.

LOS ANGELES, May 15.—The United States Senate Commission on trade relations with Canada arrived here yesterday. Senator Hale had his right leg badly injured in a collision of trains near San Jose.

Thrown to Death.

DENVER, Col., May 14.—A freight engine doing switching near Bailey station yesterday ran into a boulder on the track and was ditched. Fireman Charles Lapman was caught under the rod but fire box. He lay in that position with his head only out from under the machinery for an hour suffering untold agony, no one being able to render assistance. Just before he expired he called a brakeman and while half of his body was roasting from the heat of the engine, dictated his will, leaving $15,000 to his two brothers in San Francisco. He gave instructions regarding his funeral and whom he desired to conduct the services, then offered prayer and died. The body was brought here to be shipped to San Francisco. Several other trainmen were injured.

The Bridge Rebuilt.

NIAGARA FALLS, May 8.—The new foot and carriage suspension bridge at the Falls, lately rebuilt at or being blown down, was thrown open to the public yesterday.

Sentenced to Be Hanged.

STRATFORD, May 14.—Thomas Hayes, who murdered his wife by striking her on the head with a hammer on the 23rd day of December last, was sentenced to be hanged on the 23rd day of July. The case will be published with considerable at a date subsequently to be fixed.

A Brakeman Killed at St. Anne.

HAMILTON, May 14.—Peter Brunson of this city, 25 years old, was found dead on the Toronto track at St. Anne this morning. Fireman Wilson is badly wounded.

THE KAISER ON STRIKES.

EMPEROR WILLIAM RECEIVES THE MINERS' DEPUTATION.

William O'Brien Causes a Writ to be Issued Against Lord Salisbury for Libel—The Boulanger Prosecution.

BERLIN, May 14.—Emperor William to-day received the delegates of the striking miners. He ordered them the Government would use its influence to settle the dispute.

The strikers' interview with the Emperor lasted 15 minutes. The Emperor patiently listened to the grievances of the strikers and occasionally asked questions. In reply to their complaints he said he took a deep personal interest in the welfare of his subjects in Westphalia, as he did in the welfare of all his subjects. He had carefully followed the strike and he had ordered a thorough enquiry into the facts. He warned the delegation against the plottings of political and especially socialist agitators. He grieved that there had been rioting and said that it was impossible to tolerate such conduct. "Tell your fellow-workmen," he added, "that the Emperor himself if necessary will order the troops to better and shoot rioters, while if they are quiet the Emperor will protect them." He hoped the disputants would settle their differences without Government meddling.

The Berlin Post urges the Government to arbitrate between the mine owners and strikers.

At Bochum to-day the strikers who drove off the miners who wished to return to work at the Prince Regent colliery yesterday were overawed by troops. The employers have sent a deputation to Berlin to interview the Emperor. Large quantities of English and Belgian coal are arriving at Essen.

The Trouble Spreading.

BARMAU, May 14.—Three thousand miners in the Hermsdorf district have struck. Government workers at Kneedingrube struck this morning, but resumed work on hearing that efforts were being made at Berlin to settle the trouble.

O'Brien Sues Salisbury.

LONDON, May 14.—William O'Brien has obtained a writ against Lord Salisbury on the charge of libel. In a recent speech at Watford the Premier accused Mr. O'Brien of advocating the murder and robbery of men taking farms from which the tenants had been evicted.. It is for this speech that the action is brought.

The Boulanger Prosecution.

LONDON, May 14.—The Nineteenth Century, in an apparently inspired article, says the Senatorial Court finds difficulty in framing a specific charge against Boulanger. Some Senators propose that a nolle prosequi be entered. Others that he be tried as the Assizes, and still others that he be court-martialled. It is believed, the paper says, that the proceedings against Gen. Boulanger will fail and that the prosecution of M. Rochefort will be abandoned.

Millionaire Ferry Fights.

PARIS, May 14.—The Rue Scribe was enlivened yesterday afternoon by a street fight between Clinton Ferry, the Tacoma millionaire, and Hyppolite Le Cleve, the salesman whom he charges with having been on terms of street intimacy with Mrs. Ferry. Ferry blackened Le Cleve's eyes and made his nose bleed, but had a rib broken. Both were taken to the police station, but were released.

Anti-Ritualism at Ottawa.

OTTAWA, May 14.—At a meeting of the congregation of St. Bartholomew's Church last evening a petition signed by 100 members of the congregation was presented to the rector, Rev. E. A. W. Hannington, complaining of ritualistic practices in the Church of England at large, and St. Bartholomew's Church in particular. The specific charges are the wearing of colored stoles by the rector and the usage of colored book marks with crosses on them. The rector announced that this was not within the province of a vestry meeting. Nevertheless he would carefully examine the statements made, and reply to them. Dr. Bell, a prominent member, protested that the rector knew well enough what the charges against him were, and that he should answer them. Mr. Hannington, replying, said that he had received an anonymous communication, but as he never read anonymous communications he repeated positively that he had not read one word of this particular communication.

MURDER AT DETROIT.

Lively Fusillade in the Street—Both Combatants Shot.

DETROIT, May 15.—Peter Hartswell, 237 First-street, and his wife had family quarrels which resulted in his wife leaving him and going to live with her father, Wm. Smith, 140 Grand River-avenue. Hartswell wanted his wife to come back and live with him. Mr. Smith refused to let his daughter go. He said Hartswell was a worthless fellow and ill-treated his wife. Last evening Hartswell started to go to a grocery on Grand River-avenue near Smith's place. Just as he reached the grocery he saw his wife and another lady at the corner of First and Grand River. He started on a run towards them and Smith immediately left his door running after Hartswell. Hartswell grabbed his wife by the arm and the other lady with Mrs. Hartswell struck at him with her umbrella. Then the women began fighting Hartswell, raining blows upon him. Smith ran up and he and Hartswell had some hot words. Hartswell then let go of his wife and made a motion as though he was going to draw a revolver from his hip pocket, when Smith whipped out his revolver and fired. Hartswell also drew a revolver and fired at Smith. They exchanged several shots in rapid succession, then Hartswell turned and snapped the revolver at his wife. Smith in the meantime had fallen to the ground and Hartswell yelled that he was dying. Both were covered with blood. One shot from Smith's revolver struck Hartswell in the left breast above the nipple. Physicians say he will bleed to death. Smith was arrested by the police and taken to the station. He is probably fatally injured. Hartswell claims he got his wife to come out to speak with him and that he had no intention of doing any shooting, also that Smith fired three times before he (Hartswell) drew his revolver.

BISHOP'S LAST TEST.

The Mind-reader Stricken with Death After Performing a Feat.

NEW YORK, May 14.—Washington Irving Bishop, who became famous in this country and Europe by his extraordinary, and to many people inexplicable mind-reading performances, died at noon yesterday at the Lambs' Club. The circumstances attending his death were as singular as, and in perfect keeping with, his remarkable career, for it was the effort to perform a wonderful feat of thought-reading which caused the cataleptic fit that ultimately proved fatal. Bishop had asserted that if two gentlemen would go to a distant part of the house and select a word in some book he would find the book, the page and the word. Dr. Irwine and Mr. Greene descended to the basement,

It Made Mother Strong

"My mother has been using Paine's Celery Compound for several months—sometimes taken by tablespoonfuls, etc., and it has done her a world of good. It is the only medicine that strengthens and she needs."
C. E. Bates, Orleans, Ont.

"I am in my 66th year. Have been afflicted several years with rheumatism. Could get no relief. Tried Paine's Celery Compound, and am now entirely free from the disease. I now have a good appetite and can work well. My spirits are always up since using three of Paine's Celery Compound."
A. G. Hilman, D. D., Catawba, La.

Paine's Celery Compound

Strengthens and builds up the old, and every invigorating blood purifier, tonic and nervine quality which makes the unequaled power of Paine's Celery Compound.

A Perfect Tonic and Invigorator, It GIVES NEW LIFE.

"I am now 48 years old and have tried several remedies, but none had any effect until I used Paine's Celery Compound. I will say that I am well satisfied with the result and will add my testimony to others who have tried and endorsed its merits."
E. Myers, Cleveland, Texas.

Paine's Celery Compound is of unequaled value to women. It strengthens the nerves, revitalizes the blood, and has wonderful power in curing the painful diseases with which women so often suffer.

The Daily Examiner.

WEDNESDAY, MAY 15, 1889.

The new parliament buildings in Toronto will be proceeded with. Work will be resumed at once.

Of the 215 members of the Dominion House of Commons, 50 are lawyers, 47 merchants and members of financial or trading corporations, 30 farmers, 21 physicians, 11 lumbermen, 9 journalists, 7 manufacturers, 6 contractors, 3 shipbuilders and 2 civil engineers.

The Ottawa *Free Press* pertinently points out that while Mr. Wiman endows a Canadian University with money earned in the United States, Sir Charles Tupper and Messrs Ivan, Pope, Cochrane, Ogilvie and company endow a Maine railway and a Texas cattle ranche with money wrung from the overburdened taxpayers of the Dominion. Yet it is pretended that Mr. Wiman is a traitor to his country, while the others are genuine Canadian patriots.

These sensible remarks of the Montreal *Witness* won't be comfortable, on the eve of hot weather. The people would find an occasional change from flesh to fruit diet ensure better health and a lessened doctor's bill. Necessary as flesh seems to hard laboring men from long use, it is probably true that during the summer, at least, it one half the usual amount were spent upon meat and the other half spent upon some sound wholesome fruit it would result in stronger and better men.

The people of Peterborough have been marvellously enlightened by the arguments of Mr. J. S. Larke, of Oshawa, in favour of the N. P.—that gigantic boon which was to make everybody prosperous and happy, and poverty and pauperism impossibilities. Having helped to establish this happy state of things, Mr. Larke is now engaged on a different task, and that is the rather paradoxical—to anybody but a Tory politician—occupation of trying to remedy the conditions which his N.P. was to make impossible. Mr. Larke is now making a tour of inspection of pour houses with a view to establishing one in Ontario County. Whereupon the *Globe* remarks:—"Mr. Larke lives in Ontario County and should be well acquainted with its requirements. Mr. Larke's previous journeys through the Province have been undertaken for the purpose of speaking in favor of the N.P., of which he is a prominent advocate. The N.P. for which he is now working is New Peerhouses."

Lessons from Little Things.

Mrs. Col. Dewdle Lectures at the Barracks—The Events that will Take Place To-night and To-morrow.

There was a slim crowd at the Salvation Army barracks last night. Plain, logical and earnest talk is apparently not what the people want or expect to see at a barracks; they are looking for something exciting, something out of the old rut, something that will amuse as much as instruct. The revival services which have been conducted the past two weeks by Col. and Mrs. Dewdle lack the dash and flavor of excitement and spirit which usually imbues the Army's operations. But though very quiet and undemonstrative, the services have been productive of much good, both in the ranks and outside of them. The addresses of both Col. and Mrs. Dewdle are full of instruction and benefit to those who are interested enough to listen.

Five cents admission was charged at the door, but no one was debarred, those not having the money being admitted free. The singing was led by an orchestra composed of two violins, 'cello, cornet and drum. The orchestra, by the way, will stand some improvement in its playing.

TO-MORROW'S PROGRAMME.

Capt. Hines announced that this (Wednesday) afternoon the last holiness day meeting would be held, and to-night Col. and Mrs. Dewdle will make their farewell appearance. A "holiness convention" will be led by the Colonel, beginning at eight o'clock. A number of the officers expected for to-morrow's doings will arrive to-night and take part.

To-morrow the "district conferences" will be held, to be led by their "President," the Commissioner. [illegible] Osborne there will be present Mr. Wm Gooderham, of Toronto, D.O. Marshall and a large number of officers of this division. It was announced that Mr. Gooderham would speak about the Army's operations and internal working. Dinner and supper will be provided at the barracks for the visiting officers. A private meeting for officers only will be held Thursday.

FOUR LITTLE THINGS.

Mrs. Dewdle based her remarks upon a part of the 30th chapter of the Book of the Proverbs, verses 24 to 28 inclusive:—

There be four things which are little upon the earth, but they are exceeding wise:

The ants are a people not strong, yet they prepare their meat in the summer.

The conies are but a feeble folk, yet make they their houses in the rocks;

The locusts have no king, yet go they forth all of them by bands;

The spider taketh hold with her hands, and is in kings' palaces.

These four little things taught important lessons both to the unconverted and to God's people. The ants lay up a store of food in their underground homes for the cold, dark days of winter; so the unsaved should be wise and lay up treasures in heaven against the day of death, and the follower of Christ should accept the [illegible] work while it was day, while the opportunity offered of helping God's cause. The coney was a very [illegible] animal, more like a rat than a rabbit, which was frightened at the shadow of a bird flying overhead; but it was wise in its weak and defenceless condition—it sought shelter in the clefts of the rock. So the unsaved, though weak and helpless, could always find shelter in the rock of ages—Christ in forms, or creeds, or communities, or in joining the church, but in Christ. Like the locusts in the air, they should cling to the rock and they would be safe from the assaults of Satan. The lizards taught the lesson of unity, for they always flew in clouds of myriads of thousands. Unity was strength; it was wanted in God's cause to-day. The people have had lost the Scott Act through lack of unity, and they would never [illegible] unless [illegible] unity. Speaking of "Independents," Mrs. Dewdle said she didn't like the word; it meant confusion, and confusion meant anywhere from a wine glass to a hogshead. She believed in total abstinence. Unity was wanted in that very corps of the Army; it was unity that had been the means of making the Army the success it had been.

Lastly, the spider was emblematic of perseverance and patience. Though hated and despised yet it lived everywhere; like the Salvation Army, wherever it was located and persecuted most, it had the noblest and bravest band of soldiers on earth. The spider also taught the lesson of faith—faith and prayer on the part of the Christian will gain him the desired blessings from God.

NOTES FROM THE CAPITAL.

The Ontario Crown Timber Business—Supreme Court Cases.

Ottawa, May 14.—Mr. Aubrey White, Assistant Commissioner of Crown Lands for Ontario, and Mr. G. P. Kirkpatrick, chief of the survey branch of the same department, are here. Accompanied by Mr. Bronson, M.L.A., they saw the Deputy Minister of the Interior this afternoon. It is understood that the object of their visit is to make final arrangements for the separation of the Ontario crown timber business from the crown timber offices here. It is expected that in future all the licenses will be issued, accounts kept and dues collected by the department in Toronto. It is also stated that the Ontario Government will hereafter have sole jurisdiction over timber licenses, and the Dominion Government to cut timber in the formerly disputed territory will be able to continue as licensee of the Ontario Government on complying with the provincial crown timber regulations.

In the Supreme Court to-day the case of the Canadian Pacific Railway v. St. Thomas was continued. The next case in the Exchange Bank v. Gilman. The case of Mitchell v. Holland will conclude the Quebec list, after which the Ontario list will be taken up. Two cases on this list stand over until the October session—Macdougall v. Law Society and Merchants' Bank v. Lemon.

Sir Charles Tupper left the Capital this morning at 8 o'clock for Montreal, there to take the Parisian for England.

BEST IN THE WORLD.

Further Great Cures of Skin Diseases by the Cuticura Remedies.

Boy one Year and a Half Old. Face and Body in a Terrible Condition, being Covered with Sores. Sleepless Nights. Cured by Cuticura Remedies.

I have used your Cuticura Remedies in two cases where it proved to be a special benefit. The first was in the case of a boy one year and a half old. His face and [illegible] were in a terrible condition, the former being completely covered with sores. I tried a number of remedies without success. I was then advised to try the Cuticura Remedies, which I did. He took one set and his head was entirely cured, and when he stirs was as smooth as could be, and is to-day. I used the Cuticura on his sister and the Cuticura Soap in washing him. He is now five years of age and all right. The other case was a disease of the scalp, which was cured by washing with the Cuticura Soap and rubbing in the Cuticura and bottle of Cuticura Resolvent internally. They have proved successful in every case where I have used the use of them. It is surprising how quickly a child will improve under their use. They are the best remedies for any disease of the skin, as being the best in the world. This is my opinion, and I am ready to stand by my statement. JOHN R. REED, American House, Shippensburg, N.Y.

An Unbearable Skin Disease Cured.

I have been afflicted three last March with a skin disease for which I could get no cure. My face was covered with scabs and sores, and the itching and burning were almost unbearable during your Cuticura Remedies so highly recommended to me, I resolved to give them a trial, using the Cuticura and Cuticura Soap externally, and the Resolvent internally for four months. I call myself cured, in gratitude for which I make this public statement.

PART II.

It was no secret to the world at large that Francis Eridon's last great stake in life would be played out then for weal or woe. He had sold everything he could sell, he had raised money in every way he could raise it, and had backed his horse for every shilling he had in the world, which, put plainly, meant that he stood to win fifty thousand pounds if Culloden won the Two Thousand Guineas stakes at Newmarket in the first week of the coming month of May—if he did not win, then irretrievable ruin and a life of exile must be Lord Francis Eridon's portion.

Therefore, now did the woman who loved him watch with a keen anxiety that almost amounted to pain when the horse on whom so much depended was commanded to parade past her, and it was with more of a sob than a smile that she exclaimed breathlessly; "I see no fault in him—do you?"

Truly Culloden deserved the flattery well, for from his beautiful game little head to his well bred, silky tail, no weak point in his make or shape could be discerned, and he looked what he was, a grand specimen of an English thoroughbred horse.

The orders were given for Culloden, with another colt to keep him company and led by old Dancing Master, to gallop a mile at half speed—starting from the spot where they were now standing, and going in a semicircle. But though the other two horses jumped off at score on the signal being given, Culloden deliberately stuck his toes in the ground and stopped and kicked.

"I feared as much!" muttered old Barnes to himself, and then roared angrily to the others to come back—as if the misdemeanors of the great horse ought to be laid to their charge.

Once again the word to start is given, and once more the two other horses jump off promptly; but again does Culloden whip round and commence a series of bucks and plunges that would unseat any less practiced individual than the active lad who is riding him.

The trainer looks very grave, and Miss Harding equally uneasy.

"There's no doubt he's an awkward customer," observed the former grimly, watching Culloden's eccentric vagaries, which he continued to indulge in, in spite of his lad's many efforts to get him back to the other horses, that stand starring in wondering amazement at their new companion's strange freaks.

"I suppose when once he is off, he'll go straight enough, Barnes?" questioned Miss Harding doubtfully.

"Yes, Miss Janet—when!" returned the old trainer laconically.

As if to maintain his contradictory character, no sooner are the other two horses in line for a start once more than Culloden becomes [illegible] up to them and starts himself apparently, for Barnes has only time to utter a quick shout of "Let them go!" when all three horses go thundering by, in very open order indeed.

In spite, however, of such a straggling start, ere many lengths have been traversed the horses fall into their allotted places, and disappear rapidly beyond the bend of the hill; whilst Miss Harding and her companion canter quickly across to the point where the gallop is to come to an end, and in a few more moments the three horses are seen rising the crest of the hill, and coming towards them once more.

Dancing Master maintains the accustomed steady pace at which he has had so many novices in their work, for more years than he likes to remember, and the other colt is doing his best not to drop into the rear, a place which evidently becomes him best. But Culloden comes striding along at his ease, fighting hard to get his head and to redouble the pace at which they have been ordered to proceed. And when the old trainer holds up his arm and beckons to them with his whip to "come on!" the colt leaves the other two horses without an effort, and passes the leaders on at a pace which, even to the experienced eyes of so astute a man as Mr. Barnes, seems little short of marvelous.

Miss Harding laughed aloud in her glee. "Surely there's no horse in all England like him!" she asked enthusiastically. And though old Barnes vouchsafed no reply, the smile on his bluff red face spoke volumes, and he patted his new charge on the shoulder in deep contentment as the latter was led away.

After that day, scarcely once did Janet miss seeing Culloden do his morning's work, and many an anxious moment did he cost her, in thinking of all that lay at stake at the mercy of his capricious temper. Then a day came when she was told the long expected news, that Lord Francis himself was coming to see his colt at work, and as for two months neither the pretty gray hack nor its rider made their appearance on the Langwald Downs. But when they reappeared on the scene of action, Janet ascertained that her scrupulous care to avoid what might have been a painful meeting to both had been altogether needless, for Lord Francis never arrived at all, having been telegraphed for to go to the south of France, where his mother lay seriously ill of typhoid fever.

But this event was evidently of minor consideration in the old trainer's eyes, compared to the growing eccentricities of Culloden; and poor Barnes looked harassed to death as he detailed all the anxiety which that handsome equine sinner had caused him.

Certainly the colt's temper was growing daily more and more uncertain. At times he would start on a gallop as kindly as possible, and then all went well, for the horse was no cur, and once he would start on his work, no fault could be found with the style in which he did it. But far oftener it was impossible to get him off at all, and only was poor old Dancing Master brought back again and again, in hopes of coaxing his fractious young stable companion to move; a sudden whip round and a vicious lash out was the only notice which he received from the latter.

Even two or three cuts from Mr. Barnes' stout hunting crop failed to elicit anything more than a few wild plunges, always in the reverse direction, and the colt "took as much out of himself in half an hour as twenty hours' galloping couldn't do, Miss Janet," poor Barnes observed aggrievedly.

However, by dint of much humoring of the horse, and almost superhuman patience on the part of the trainer, the last few days before the all eventful one saw Culloden do some real good work; and his extraordinary soundness of limb and hardiness of constitution enabled old Barnes to give him such gallops as fairly astounded all lookers on, both morning and open, and the newspapers teemed with favorable reports, whilst lavish praise was heaped upon the favorite on all sides, from high and low.

So all looked coleur de rose at last, and it was with a light heart that Janet took leave of both Culloden and his trainer a day or two afterwards, only to meet again, though, later on. For she was bent on a fortnight's visit to a relative residing on the borders of Suffolk and Cambridgeshire—and among her promised pleasures there, a visit to Newmarket races stood first and foremost.

And so the days glided on, until the great event, on which so many thoughts, so many hopes and fears, were concentrated, drew near at last.

The Cutest Little Things.

"Cute"! he echoed. "Well, I don't know as the adjective would have occurred to me in just that connection. But if you mean that they do their work thoroughly, yet make no fuss about it; cause no pain or weakness; and, in short, are everything that a pill ought to be, and nothing that it ought not, then I agree that Pierce's Pleasant Purgative Pellets are about the cutest little things going! b

Have You Thought About It?

Why suffer a single moment when you can get immediate relief from all external or internal pains by the use of Polson's Nerviline, the great pain cure. Nerviline has never been known to fail in a single case; it can't fail for it is a combination of the most powerful pain subduing remedies known. Try a 10c. sample bottle of Nerviline. You will find Nerviline a sure cure for neuralgia, toothache, headache. Buy and try. Large bottles, 25c., by all druggists. 6w10

Piles! Piles! Bleeding Piles.

Symptoms—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman, Sons & Co., Montreal, Wholesale Agents. dw

The Loss of the Hair

Is a great misfortune and the sight of a bald head should be a warning to you to take the best possible care of your hair. A little of Dr. Dorenwend's "Hair Magic" used occasionally will prevent all chances of its falling out or turning gray, and will remove all traces of dandruff. Every druggist has it in stock. Ask for it. dw

Strong Resistance.

A healthy human body has strong powers of resistance against disease, but where weakness or lack of tone exists disease quickly assails it. Keep the system clean, the blood pure and the vital powers vigorous and active by the use of Burdock Blood Bitters, the true vitaliser and restorative. 2w13d

As a Tonic and relief to sufferers from neuralgia, dyspepsia, loss of appetite and general debility, Dyer's Quinine and Iron Wine is highly recommended. W. A. Dyer & Co., Montreal. 6d111

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia. —G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured. —Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored. —Theodore Ealing, Richmond, Va.

A Prisoner Released.

John McQuaid, who was sent from Peterborough to the Central Prison on conviction for larceny, and who was liberated owing to a stroke of paralysis, was brought to Bellaville on Saturday, and is being cared for by friends. McQuaid it will be remembered is the man who got a $25 fur coat from Fairweather & Co., in the winter, and while the clerk was at the bank ascertaining the value of a worthless check presented in payment for the article, walked off with the coat. He was arrested and sentenced to a year in the Central Prison.

This is the Day.

This is the day when the summer regulations of the Public Health Act come into force. They are much more stringent than those applying to the winter portion of the year. According to these regulations all the spring cleaning about private premises should be done, and those who have neglected and who may continue to neglect to do their spring cleaning, as by law provided, may expect the inspector to come down upon them with authority and bring delinquents before the police magistrate who has power to inflict substantial penalties.

Kelly vs. O'Sullivan.

The following case was disposed of by Mr. Justice MacMahon at the Toronto High Court of Justice Tuesday:—

KELLY v. O'SULLIVAN.—Judgment delivered in mortgage action tried at the last Peterborough sittings. The learned judge found that there was no agreement between the defendant (mortgagor) and John O'Sullivan (mortgagee), that the latter should discharge the mortgage if the former provided for the maintenance of their mother. He also found that a certain receipt produced by the defendant purporting to be for $1,500 was in fact a receipt for $14, for interest paid. Judgment to be entered for plaintiff for $1,400, with interest at 8 per cent. from April 26, 1889, and possession of the land in default six months from April 26th. Defendant to pay full costs. O'Meara (Peterborough) for plaintiff. Colville (Campbellford) for the defendant.

Four Scott Act Cases.

At the police court this morning four hotelkeepers, Messrs. J. E. McIntyre, F. J. Daly, E. Brown and J. Carew, were charged with violations of the Scott Act. At first Mr. Daly proposed to fight the case, but afterwards decided to plead as the others had —guilty under the Scott Act, not guilty under the Crooks Act. The question involved, which law is in force. Mr. W. A. Stratton appeared for the defendants. No argument was heard, but the cases were allowed to stand for judgment. Inspector Cochrane laid the complaint, the dates of which were May 11th to 13th.

District Conference.

The annual meeting of the Peterborough district of the Methodist church began in the Charlotte street church to-day. The following ministers are in attendance:—Rev. M. L. Pearson and Rev. S. J. Shorey, Peterborough Rev. A. C. Wilson, Ashburnham; Rev. Wm. Burns, Millbrook; Rev. B. Greatrix' Cavan; Rev. A. L. Adam, Cavan South; Rev. D. N. McCamus, Fraserville; Rev. F. Johnston, Lakefield; Rev. C. H. Coon, Lakefield; Rev. John Power, Warsaw; Rev. J. C. Bell, Bethany; Rev. D. Williams, South Manvers; Rev. Edward Craggs, Hiawatha; Rev. Samuel Fergusen, Halls Bridge. A chairman was elected in the person of Rev. Mr. Pearson, and Rev. Mr. Greatrix was appointed secretary and Rev. Mr. Adam assistant secretary. The morning's business was brief and unimportant. This afternoon the examination of three young men, Messrs. C. H. Coon, E. A. Pearson, B.A., and Harrison, is taking place. It is probable one of the candidates will preach a trial sermon in the church to-night.

Eccentric "Peter X."

It should be if it is not generally known, that the editor of the *Berlin News* is P. E. W. Moyer, or the rather well known "Peter X." Had the two or three of our readers who have felt aggrieved at Mr. Moyer's uncomplimentary remarks respecting the town, published in Monday's edition, known that he is somewhat of a privileged character whose utterances hardly carry as much weight as an order-in-council—and that it is rarely they receive serious attention, they would not have suffered any disturbance of their equanimity. The progress of the town won't be greatly retarded by his eccentric criticisms. The waterworks will survive, and all our other institutions maintain their equilibrium. But "Peter X" had one lucid interval when he referred to the retrogressive habit of extinguishing electric lights at 12 o'clock. Nobody could wonder at that fact attracting anybody's attention.

Excitement Over a Fire.

There was considerable excitement at the Oriental Hotel for the space of a few minutes last evening. One of the house girls looking out of her window saw flames bursting out near the stable. She screamed fire, and in a trice the alarm had extended all through the hotel. Guests came pouring out into the hallways and down the stairs, frightened and anxious, while one commercial traveller who was willing away the time in the billiard room, rushed upstairs, wringing his hands and ejaculating: "My God, my samples, my samples." It soon became known that the fire was not dangerous and things quieted down again. Mr. Alex Graham, the clerk, rushed out and found an ash barrel in flames against the wall of the brick stables. It was the work of a few moments only to extinguish the blaze, but in doing it Mr. Graham burned the tips of his fingers. The night-watchman had emptied some ashes from a furnace into a barrel, and covered it with a pine board, which had taken fire in some way and was burning brightly when observed.

Ireland and its Evictions.

The illustrated lecture in the opera house last night by Mr. Roberts Harper was well attended. A large audience was present considering the short notice upon which the entertainment was gotten up. Mr. Harper's views were large and distinct, and comprised scenes photographed by the lecturer during a trip through Ireland. Several of the illustrations were of evictions in process of being executed. Mr. Harper accompanied the views by a running description of each as it appeared upon the canvas. His lecture was well connected, interesting and instructive, and altogether the entertainment was of a most pleasing nature, and an eloquent plea for home rule. Enlarged photographs of Parnell, O'Brien and Gladstone concluded the views. Then for the space of ten minutes the audience was amused with a number of colored views, which especially delighted the younger people present. The lecture was delivered under the auspices of the Charlotte street Methodist Sunday school, and its managers are to be congratulated upon the success of their venture.

An episode, not on the programme, introduced the performance. The local Collector of Customs received a telegram from the authorities at Ottawa instructing him to collect the duty on the apparatus used—(it came here from Boston)—and he carried out his instructions, collecting $40 as a guarantee of payment of duties.

The Bishop at St. Mary's.

An Interesting Episcopal Educational Visit.

Last Monday Rt. Rev. Bishop O'Connor paid his first official visit to St. Mary's school, accompanied by his Chancellor, Rev. Father Redkins. Among all the warm welcomes extended to His Lordship that of the children of the school must not have been the least gratifying. The school room was tastefully decorated with evergreens and the folding doors opened, thus making a large and spacious reception room. The children were neatly dressed in holiday attire, and indeed observed by their actions the effect of careful and intelligent training.

On the entry of the respected visitors, "Vivat Pastor" was sung, followed by a recitation, which was admired very much. An address was then presented to His Lordship by Miss S. J. Murphy on behalf of the pupils. His Lordship made a suitable reply, and was then presented with a beautiful floral offering. Thus closed the most pleasing reception tendered to the respected and already beloved Bishop of Peterborough since his arrival in town.

A Badly Battered Man.

The Result of a Row Last Night—A Man Frightfully Beaten.

Yesterday afternoon the yacht Gleaner, with house-boat attached, owned by Mr. Hugh C. Dennis, of Cobourg, ran up the river and moored at the wharf near the C. P. R. station. Last night it was the scene of a bloody affray that resulted in the beating of a man almost within an inch of his life. The yacht was in charge of two men, Wm. Johnston and Geo. Graham, of Harwood, who had received orders to run up to Peterborough and await the arrival of Mr. Dennis from Toronto. The latter came down yesterday, with his wife and child and some American friends, and put up at the Oriental. About eleven o'clock last night Dennis took his friends down to the wharf to show them his boat, and when he got there found the two men drunk and the vessel a scene of disorder and neglect. This enraged Dennis, and a quarrel resulted. Seizing a heavy club of some sort, Dennis laid about him with terrible effect, he alleges in self defence. The man Johnston presented a sickening sight when P.C. McGinty went down to arrest the parties. His face was a mass of blood, which was streaming from a long cut in the back of the head, a cut over the eye and other cuts about the head. While resting in the cells this morning Johnston's appearance was scarcely improved; he was about the worst-looking object of humanity one could imagine. One of his eyes was blackened and bloated to the size of a base-ball. The other man, Graham, was also struck but not much hurt. The town physician was called in last night and dressed Johnston's wounds. Dennis was not locked up but allowed to go on promising to appear in court this morning to answer to the charge of assault. He is a dapper, elegantly attired young man, wearing a tall silk hat and clothes of fashionable cut and material. On the knees of his trousers were big splashes of blood, as though he had been kneeling in gore. Graham appeared as a witness. On the back of his coat were large patches of blood encrusted but not yet dry, a disgusting sight. Dennis elected to be tried summarily, and pleaded guilty to assaulting Johnston, but added that he had done so in self defence. The victim of the affray being, of course, unable to appear, the case was enlarged till Wednesday of next week, Dennis being bound over in the sum of $200 to appear. Dennis is quite well known in town, and is a son-in-law of Judge Clark, of Cobourg. He is general agent for the Equitable Life Insurance Company.

Ashburnham Brevities.

Mr. E. B. Bart and family have returned from a trip to the old country, where he has been for the past two and a half months. Mr. Bart looks hale and hearty after his voyage. Mr. Bart proposes opening a grocery and general shop in the premises adjoining the Albion hotel.

The village is now furnished with a brand new look-up. This is not a necessity as far as the inhabitants of this burg are concerned, but simply for the accommodation of those who come across the river to have a "good time." To those it will be a real boon, inasmuch as it provides good accommodation for them at the very cheapest rates. This institution is fitted up with all the modern improvements. The architect was Mr. John Calvert, and contractor and builder, Mr. Archie Craig. The foundation is composed of *terra firma* and the roof and walls of solid two-inch pine plank furnished by the Dickson Estate Company's mills.

The whole is divided with three departments, the intention of the architect being to classify those requiring accommodation within its walls. The first on entering is the large and spacious halls, provided with hat rack of a few substantial spikes. Here the culprit will be divested of all his superfluous trinkets, such as jewelry, watch, fire arms, which will be all placed in the safe for this purpose. If he is an old offender, he will be placed in Ward No. 1, which is furnished with a block of wood for a seat, and a bed of the same material as the walls. Should he be a gentle youth of respectable descent, he will be placed in Ward No. 2, which, in addition to the furniture of Ward No. 1, will have a spittoon, a clay pipe, match box, bowl of water and towel, and several other necessaries. After a night's reflection here, the occupants of each cell will come before Mr. John Wood, P.M., from whom he will receive the necessary admonition. Of course chief of police Craig will always have immediate charge. For the convenience of those personally interested in the welfare of this institution, it may be intimated that it is placed in the north east corner of the old drill shed. It is understood that the first occupant is to be knighted by Alderman Marshall, and have several other privileges bestowed upon him.

Personal.

Mr. Anthony Murty, of Utica, brother of Mr. James Murty, town, is here on a visit. He may decide to remain in town.

Mr. J. E. Anderson, of Kingston, and formerly with Mr. P. D. Doran, has returned in town to the position formerly held by him with Mr. Doran in his dry goods establishment. Mr. Anderson will be pleased to see his old friends.

Mr. T. G. Shaughnessy, Asst. General Manager of the C.P.R., Montreal, passed through town to-day en route to Cobourg, where he is a witness in the celebrated Commee case. His private car was transferred to the G.T.R. line at this point.

The *Empire* says:—"Mr. Fred. W. Craig, formerly of Peterborough, arrived in Toronto yesterday after an absence of eight years in California. Mr. Craig is secretary to the president of the San Francisco and North Pacific Railway Company. He is a brother of Mr. A. B. Craig, the well-known chief clerk at the Russin." Mr. Craig is also a brother of Mr. John Craig, of Craig & Mooney. He is expected to make a visit to Peterborough this week.

Peterborough Cheese Board.

Annual Meeting of the Board—The Question of Consigning Discussed—The Officers Elect.

The annual meeting of the Peterborough Cheese Board was held in the old music hall Tuesday afternoon at two o'clock. There were about twenty-five representative dairymen of the county in attendance. Mr. J. M. Drummond, the capable president of the board, occupied the chair.

After the reading of the minutes, Mr. Walter Stark, produce broker, Toronto, one of the directors of the Empire Produce Company, addressed the meeting. He briefly outlined the aims and operations of the company he represented, a prospectus of which was published in the EXAMINER a couple of weeks ago. The company has been formed to act as a medium between the Canadian farmers and the cash buyers, both in Toronto and England, giving the producers full advantage of the best possible market for produce of all kinds—not only cheese, but fruit, etc., charging only a moderate commission. The company comprises a number of well-known commercial gentlemen, and will be in working order by next week. Mr. Stark pointed out that 50 per cent. of the value of the produce was forwarded to the farmer making the consignment, and there would be little difficulty about the balance. He stated that a number of cheese factories in this district had entered into an arrangement with the company, and were not at the Board meeting in consequence of that arrangement; and he asked the privilege of meeting the patrons of other factories, that he might discuss the question with them.

Mr. M. SANDERSON, being asked for his opinion, said he had not yet made up his mind. He was, however, assured that the company would have to gain the good-will and confidence of the farmers before it could succeed.

Mr. WM. CLUXTON said he could not advise farmers to consign produce, for all who had ever had any experience in this line knew that it could end only in ruin. For himself, he lost money at the business. He stated that the four per cent. commission charged on produce handled by the company was outside of all expenses for shipping, handling and selling in the old country. He would like to handle the produce of this country at three per cent on the same terms.

Mr. STARK replied that a Montreal merchant admitted that it cost 2 to 2½ per cent. for inspection alone, and 10 or 12 per cent. to cover the whole expenses.

Mr. CLUXTON denied that it cost 2½ per cent. for inspection. He got his cheese inspected by a competent man for $5 a day. He said Mr. Stark could not deny that the 4 per cent. they charged as commission, was over and above all other expenses for freight, insurance, handling, selling, etc.

Some discussion ensued as to the method of selling between this country and England. Mr. Thos. Johnstone, of Ormabee, enquired if everything was sold in the old country market on credit. Mr. Clarton replied that it was, that there were no cash sales. The English buyers demanded three per cent. commission if sale was for guaranteed, and two per cent. if the sale was not guaranteed.

Mr. DRUMMOND said his experience of consigning was that it was ruinous to himself and others.

Mr. G. J. GALVIN said he did not want to see buyers lose any money on their cheese, and did not see why they need to. He considered the scheme proposed a good one. The farmers were not satisfied with the present way of selling through dealers, and they should encourage the new company. He didn't believe in giving five or six middlemen when one company could do the whole business.

Mr. JOHNSTON did not see where there was much to be lost in consigning grain, but with cheese there were a number of difficulties. First, it would break up the board, then this company had no trade established with Great Britain, and there would always be delay and uncertainty. He thought his patrons would be rather shy of entering any such arrangement.

Mr. STARK explained that they had practically established a market, for they had a man in England who was right in touch with the market and made the sales. He said the company did not ask any factories to pledge themselves to the scheme, but simply wished the cheese board to see to it that there was no rule barring any member of the board from consigning through this company if he chose.

The discussion was here dropped and the meeting proceeded to the

ELECTION OF OFFICERS.

PRESIDENT—J. M. Drummond, Keene.
VICE-PRESIDENT—W. J. Middleton, Lilly Lake.
TREASURER — Samuel Edwards, Warminster.
SECRETARY—Warren Taylor, Warminster.

The rules of the Board were read over and adopted without amendment.

Mr. W. H. Wrighton was re-appointed Inspector.

Mr. GALVIN, the retiring Vice-President, said he had to withdraw from the Board, according to instructions from his patrons, who had instructed him to consign through the Empire Produce Company. However, he might be back with them again soon. He wished the Board every success, and urged them to do better than they had in the past. Though there had been a lot of "flankeying," he considered the Peterborough Cheese Board about the most decent in the country after all.

A vote of thanks to Mr. Galvin for his past services to the Board was moved by Mr. Edwards, seconded by Mr. Stewart, and carried unanimously.

On motion of Mr. Pilkey, the Secretary was instructed to have fifty copies of the rules printed and distributed amongst the members.

The first business meeting of the Board was appointed to be held in two weeks, and every two weeks afterward, to begin at 12 o'clock.

Mr. JOHNSTON complained that the milk inspector for this district did not visit his factory regularly, not more than once in the season, and questioned whether an inspector was necessary for this year. Referring to the Act against the adulteration of milk, he said he did not think it would do much good after all.

After some desultory discussion the Board adjourned.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended by the faculty, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

407 GEORGE STREET.

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "BCLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 25c Sidirs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now retiling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1 50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH HEMMING. Say 25c, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

HOUSE-CLEANING.

How to Begin the Spring Crusade Against Dirt.

The General Clearing Out of the Unconsidered Trifles—The Separation of the Wheat From the Chaff.

All around us are evidences of spring. When a boy begins to look up his ball and his bat, you may be sure it is time for the housewife to look up her dusters, brooms—in fact all the paraphernalia for house-cleaning.

By beginning in time and getting everything ready the annual cross-de against dirt and disease will not be so formidable. By tackling one room at a time the male members of the family will have no cause for complaint. A man is a sanitarian only as long as he does not interfere with his comforts.

The first room cleaned should be the spare room, so that in case any of the other bedrooms need papering or painting it will be ready. And by the way when you decide to paper any of the rooms, don't forget to examine the Wall Paper and Decorations, at the fancy goods store of C. B. Routley, George street, Peterborough. He has such a lot of patterns, the product of some of the best manufacturers; and the prices he sells at makes papering cost far less than kalsomining.

While in Routley's ask to see the newest thing in Curtain Poles, fitted up with ornamental sets of brass trimmings. They help to make a room look well, and cost only from 50c a set up. There, too, you may order your Dado Window Blinds, with patent spring rollers. Also, Pictures, Wall and Table Ornaments, Brackets, Mottoes, and all such handy things as help to make your home beautiful and attractive. dw

when I will be pleased to meet all those requiring my services for the Treatment of Rupture (no matter how bad your case may be, come and I will give you relief), Club Feet, Bow Legs, Weak Legs, Spinal Diseases, and any other Deformities corrected by mechanical treatment.

Read what some of your neighbors have to say and be your own judge:—

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house, and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months of the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM,
Peterborough.

Ringtown.

DEAR SIR—I am only to inform you that the Scientific Truss you put on me last spring has been all it was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, so I was able to work at any kind of work. I wear it now part with it for ten times the price if could not get another. Any further parties want them to me. I remain, yours truly,

A^t TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs ot our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"

FROM THE NEW FIRM OF

H. LeBRUN & Co.

Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and lengths round can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

TOPICS FROM THE CAPITAL

THE ATLANTIC FAST STEAMSHIP SERVICE.

An Important Case Before the Supreme Court—Proposed Conference of Ontario Municipal Authorities.

OTTAWA, May 15.—Mayor Clarke, City Solicitor Bigger, City Engineer Sankey and Ald. Bousteud of Toronto arrived here this morning on civic business. They intended to interview the Hon. [illegible], but the Minister of Public Works is in Quebec. They had an interview with the Deputy Minister, however, to ascertain the [illegible] the city in respect of the Canadian Pacific's claim of the Esplanade from Yonge to Simcoe-streets. Some delay has been made in issuing the patents for the water slips, and the delegation also enquired into this matter.

In the Supreme Court to-day the case of the Exchange Bank vs. Francis E. Gilman came up for consideration. Mr. McMaster appeared for the bank and Mr. Gilman in his own behalf. This appeal involves a very important point raised by plea to the merits in the lower court. It is this, "Can a plaintiff during the trial of a cause withdraw a portion of his demand with the leave of the court, proceed to judgment for the balance, reserving his right to institute a suit for the portion withdrawn?" In the Superior Court Mr. Justice Torrance decided the questions in the affirmative and gave judgment in favor of plaintiff for $41,627, but the Court of Queen's Bench decided the question in the negative and reversed the decision of Judge Torrance without any reference to the grounds of action hence the appeal in the present instance.

Dr. Ferguson, M.P., Welland, arrived here this morning on departmental business.

Hon. C. H. Tupper and Mrs. Tupper are in Montreal to-day seeing Sir Charles off for England.

Mr. Griffin, Librarian, and Mr. Moran of the Justice Department also sailed by the same boat, the Parisian.

Major Errats has issued a circular letter to the mayors of all towns and cities and the reeves and wardens of all counties and municipal corporations in Ontario, stating that despite the numerous petitions presented to the Provincial Parliament during the past session no action was taken nor will likely be taken on the subject of the abolition of municipal tax exemptions, and suggesting a conference of representatives from the various municipalities to be held in Toronto towards the latter end of June or July.

Hon. Geo. E. Foster, speaking to a reporter to-day in reference to the statement recently cabled from England that the Andersons were experiencing difficulty in raising capital for the Atlantic fast steamship service, said: "I have not heard anything which would lead me to suppose there is any foundation in fact for the report. So far as I know the Andersons are progressing fairly in their negotiations and hope to be able in a little while to definitely announce the formation of a company."

IN THE WORLD OF SPORT.

Exile Wins the Brooklyn Handicap in Fast Time—Ball Games Yesterday.

GRAVESEND, L. I., May 15.—The gates of the Brooklyn Jockey Club were thrown open to the public to-day and 15,000 people surged through them, all bent upon seeing one race and that was the Brooklyn Handicap. It was the first day of the spring meeting and the big handicap was the attraction. Ever since the weights appeared last February Hanover has been fancied for this event and yesterday he was the public's favorite. The others had no lack of [illegible]. However it was hardly thought [illegible] was good enough, though Billy Lakeland declared that his horse had a great chance and would be benefited by the heavy going. He proved equal to the task, and his race was even better than the record, considering the "going" and that Exile was the last horse away. It was certainly a great performance. The weather was fine though the track was somewhat damp.

After the third race there was a rush to the betting ring. Men clamored like mad and fought like wild animals for a chance to stake their money on their favorites. The odds offered by the "bookies" were inadequate, but had there been four times the number of bookmakers all would have been rushed to accommodate the tremendous number of bettors. Results:

Betting—3 to 5 against Hanover, Prince Royal and Terra Cotta, 5 to 1 Exile, 6 to 1 Elkwood, 8 to 1 Juggler, 10 to 1 Richmond.

The race—After a long delay at the post caused by Exile and Prince Royal the flag fell with Juggler in front, followed by Terra Cotta, Elkwood, Richmond, Prince Royal, Hanover and Exile in the order named, the latter getting much the worst of the start. Nearing the stand Hanover joined Juggler and the two ran lapped to the turn, with Prince Royal leading the others, of which Richmond was last. Rounding the club house bend Juggler again took command and showed the way into the back stretch, a neck in front of Hanover. Juggler increased his lead and the others closed in Hanover, who fell back beaten. At the far turn Exile showed in front and led into the stretch half a length in front of Prince Royal, who was two lengths in front of Juggler, with Hanover fourth. Then began the struggle that set the blood of every spectator chasing through their veins. Garrison rode Prince Royal like a demon, but in vain, he couldn't overhaul Exile, who in the last furlong drew away and won by two lengths. Prince Royal beat Terra Cotta a dozen lengths for the place, Elkwood, Juggler, Hanover and Richmond finishing in the order named. The fraction time was as follows: Quarter, 25; half, 52; five furlongs, 1.03; three-quarters, 1.18; seven furlongs, 1.33; mile, 1.41; 1¼ miles, 2.07½.

Fifth race—Purse $1000, for maiden 3-year-olds; ½ mile. Reclare, 115, won by two lengths. John Atwood, 118, 2; St. James, 118, 3. Time—50.

ONTARIO GRAND LODGE OF TRUE BLUES IN SESSION.

The Officers Elected—A Bank Cashier in Demand—Threatened Big Suit—The Trouble at Bruce Mines Settled.

TORONTO, May 14.—Grand Master Bunting presided yesterday morning when the Ontario Grand Lodge of True Blues resumed business. J. P. Diamond occupied the deputy chair. A long discussion took place on the resolution notice of which was given on Tuesday, indorsing the action of the Citizens' Committee in regard to the Jesuit Estates Act and the members who voted for it. The committee to which the above resolution was referred recommended its adoption with the additional clause that steps be taken to expel the Jesuit Society from this country. As amended the motion was carried unanimously. After two hours discussion this resolution moved by Rev. A. W. Sibbald passed: "That we hereby express our continued confidence in The Orange Sentinel as a true advocate of our Protestant principles, rights and liberties. We further regret that there has been a misunderstanding relating to its recent position on the part of some of our Protestant brethren." Mr. Sibbald moved: "That we earnestly consider it necessary that some steps be taken to bring about the union of all junior Protestant societies, believing that such a union would conduce to the advancement of our cause, and that the grand officers of this society be a committee to confer with other societies." The resolution was adopted. In the afternoon these officers were elected:

Grand Master—Robert Newman, Toronto.
Deputy Grand Master—J. G. Diamond, Belleville.
Grand Chaplain—Rev. J. A. Whaley, Belleville.
Grand Secretary—N. Ingram, Bowmanville.
Grand Treasurer—R. Bunting, Lindsay.
Director of Ceremonies—J. Jamieson, Peterboro.
Grand Lecturer—Bro. R. Donnelly, St. Catharines.
Second Grand Lecturer—C. T. Reserve.
Grand Inside Tyler— Bell, Lindsay.
Grand Outside Tyler—J. Jackson, Hamilton.

The election of the other officers was deferred until to-day. A resolution was carried that the Grand Lodge present Brother R. Bunting with a gold jewel. In the evening the delegates were banqueted at Shaftesbury Hall.

It is said that Mr. Duncan Coulson, Cashier of the Bank of Toronto, who receives a salary of $15,000 a year, has already or will soon be offered the cashiership of the Bank of Montreal at a salary of $30,000; that if he decides to accept the Toronto will offer him $30,000 to remain with them; and that then the Montreal people will raise the offer to $40,000 or $50,000 as they want him to do the heavy work in the place of General Manager W. S. Buchanan, who is not in the best of health.

The Federal Bank, which lost $600,000 by the Commercial Loan and Stock Company, proposes to sue Mr. Samuel Nordheimer, late president of the bank and now a director, to recover the amount. The Commercial Loan and Stock Company, of which Mr. Nordheimer was a shareholder, was formed to advance money on stock, especially the stock of the Federal, and the money loaned was supplied by the bank, the company being only a thin disguise to evade the law which forbids banks advancing money on their own stocks for speculative purposes.

Provincial Detective Green returned from Thessalon, Ont., yesterday. He has had charge of the government force of officers sent to the Bruce Mines to maintain order among the rioting lumbermen there. The contractors engaged by Timothy Nester & Co. of Michigan, the owners of large limits near Bruce Mines, skipped out six weeks ago, leaving the men who were working for them their creditors to the amount of $11,000. The men became furious, made threats of violence and refused to let the company tow their logs down the river on the spring drive. The company offered the men a reasonable settlement, amounting to 75 cents on the dollar. They offered to make the men a present of $2500, and a surplus of 25 cents a standard on 50,000 logs after the expense of taking the logs down the river, which should have been met by the contractors, was deducted. The company held back certain portions of the money due the contractors as a guarantee that the work would be done. This amount they proposed to devote towards paying the men, together with their donation of $2500. The men, however, refused to accept the proposal, and wild times ensued for a while. Finally, largely owing to the tact and good judgment of Mr. Green, a settlement was come to between the company and the men. The men will get a smaller percentage of the wages than at first offered, but will be continued in the employ of the company.

Mrs. Rossbach, wife of Luke Rossbach, residing at No. 15 Mission-avenue, died on Tuesday under such circumstances that Coroner Duncan has issued a warrant for an inquest to be held at 11 o'clock this morning in the hotel on Gerrard and Teraulay-streets. The woman was taken ill on Monday, and shortly before her death Dr. McPhedran of College-avenue was called in, and it was on his report and subsequent post mortem examination that the Coroner has taken action. It is supposed that death was the result of an unlawful operation, but so far as can be learned the woman is alone responsible. One of the witnesses will be a Mrs. Armstrong, who was with deceased up to her death. The dead woman leaves a family of three children, the youngest of whom is 6 years old.

Inspector Hodgson's Report.

The Finds the Collegiate Institute in Satisfactory Condition—A Request Necessary of the School Board to Receive His Report.

Wednesday afternoon at four o'clock a special meeting of the Board of Education was held for the purpose of receiving the report of Mr. Hodgson, Senior Inspector of High Schools, who yesterday and the day before made an inspection of the Collegiate Institute. There were present at the meeting Mr. Stevenson, chairman, and Messrs. Dr. Beecher, Kendry, Dr. Burnham, Wrighton, McWilliams, Dunne, English and Dumble.

RESULTS OF THE INSPECTION.

Mr. Hodgson was present and made a verbal report of the results of his inspection. The gymnasium he found in fair condition—an expenditure of $50 or $70 would put it in first class shape. If the present building was restored the entrance room would have to be supplied with tables. His principal objection was to the narrowness of the halls and the lack of cloak and cap rooms.

Mr. Wrighton thought these improvements should be made. It would cost between $600 and $700.

Mr. Hancock said the circular stairs were also objectionable and there ought to be a separate entrance for the girls. He said he understood from all he could hear that the Board had the impression he was trying to bully them into procuring a new building. He would say if the Board could make the present building satisfactory he was perfectly willing to have it so.

Mr. Dumble asked the Inspector his opinion of the teaching staff.

Mr. Hodgson replied that, so far as he was able to judge, the school is running in a very satisfactory manner now—that is, as satisfactory as the accommodation of the building would allow. The time devoted to the subjects was relatively fair. He wished to call Mr. Principal Long's attention to one thing. Writing, an important feature, was practically not taught. Mr. Fife had too much on his hands to look after it, and Mr. Hodgson suggested that Mr. Ellis relieve Mr. Fife of his drawing class and let the latter teach writing. He also wished to have Euclid taught in the third form. The department regulations do not require this subject, but if the board wished it might be taught.

Mr. Long explained that Euclid was not taught in the third form because it was not an examination subject for third class certificate.

Mr. Dumble thought the work of the school was too much devoted to turning out certificates. What he wanted to see was a good, thorough curriculum taught, and not so much looking for "results."

Mr. Hodgson agreed that this was the difficulty with all high schools, and explained that Euclid was not generally taught in the third form because most of the pupils were trying for a certificate, and Euclid was not one of the necessary subjects therefor.

Dr. Boucher suggested that pupils might be allowed to take a special course in Euclid.

Mr. Hodgson replied that pupils who have passed their entrance examination might, under special circumstances, be allowed to take Euclid. But if the board wished it might be made one of the studies.

THE SCHOOL SATISFACTORY.

Mr. Long, Principal of the Institute, being present, asked a few questions of Mr. Hodgson, first concerning the order and discipline of the school. The answer was that it was quite satisfactory, Mr. Hodgson stating that the manners of the pupils were particularly good. In calisthenics and drill Mr. Hodgson found the pupils also satisfactory; the books and apparatus were in good condition, and the pupils were also well up in their work.

Mr. Dumble said that Mr. Long asked these questions because of complaints which had been made and the Board were investigating. Perhaps everything was in good condition now, but a few weeks ago it was not so, and there was much dissatisfaction over the short way in which the school was run. There was, no doubt, a great deal of annoyance caused by the 500 common school pupils, and Mr. Hodgson here remarked that he had also intended to mention the fact. There were also complaints, Mr. Dumble said, of indifferent teaching, particularly in the English department. But the Board was not in a position to know these things for itself, they depended upon the Inspectors for opinions on this matter, and they were told that one Inspector had said at Omemee that the Peterborough High school was "going to the devil."

Mr. Hodgson said he had never made any such remark and felt certain his colleague hadn't either.

Mr. Dumble said that was the way they got it anyway. However, he was pleased to hear that the school was running along so nicely now.

Mr. Long said that the order in the school has been as near perfect as possible, and that was what all the visitors said. Then at the last examination they passed 19 pupils, the largest class he has come to the Institute.

Mr. Hodgson, referring to the complaints against the English department, said Mr. Earle was a good English teacher while he was there.

Mr. Dumble said he heard that Mr. Earle drilled a class of nine boys in questions and answers on purpose for the inspection.

Mr. Hodgson replied that Mr. Earle had told him about that.

There was some discussion as to Mr. Earle's habits, everyone admitting that there had been a great improvement.

Mr. Long, referring to the question of absence in the schools, pointed out that the gymnasium, closets and pump were outside (when they should be inside) and the pupils going out to these caused confusion. Then Mr. Fife's chemistry class going down to the experiment room was another cause of confusion.

THE ENGLISH CLASS.

Mr. Wrighton enquired how he had found the English class.

Mr. Hodgson replied in good condition.

Mr. Dumble said that when the boys left all these things about the schools it made the Board suspicious.

Children Cry for Pitcher's Castoria.

Mr. Wrighton said he preferred to believe Mr. Hodgson, whom he believed was an honest Inspector who would give an unbiassed report.

Mr. Stevenson said that perhaps the reason that the Peterborough Institute did not show such good results was because there were not many country pupils attending it. It was very well known that country pupils were the best material.

Mr. Dumble asked Mr. Hodgson's opinion about a new building.

Mr. Hodgson replied there was no doubt in anybody's mind that a separate building would be better than one combined. But it remained with the ratepayers to say if it should be done.

Mr. Stevenson said he believed the ratepayers would not vote for a new building.

Mr. Dumble said that if the Board was to keep the old building the improvements they had pledged themselves to should be begun at once. He personally believed in having a separate building. He asked Mr. Hodgson's opinion of the Smead-Dowd system of heating and ventilating.

Mr. Hodgson replied that it was the most perfect system he had ever seen.

The board then adjourned.

DISTRESS RESULTS.

Suffering in Westphalia Owing to the Coal Miners' Strike.

BERLIN, May 15.—Distress is beginning to be felt in the coal districts in consequence of the strike of the men. A committee has been appointed for funds and a number of Westphalia newspapers have opened subscription lists. The number of strikers and their dependants is estimated at 160,000. Hundreds of miners have resumed work under the protection of troops and many other strikes are wavering.

The employers in the Witter district have offered to increase wages without altering the hours of labor, and the offer may possibly be accepted. The strikers' committee has issued placards urging strikers to maintain peace. Placards have been posted in many places warning peaceful citizens to remain in-doors after sunset. A number of placards have also been posted urging the strikers to commit violence. These latter are attributed by some to the masters, by other to the socialists, and by still others to women opposed to the strike.

LONDON, May 15.—There were 120 cargoes of coal ordered in England to-day for Germany.

Belleville Briefs.

BELLEVILLE, May 16.—The Board of Education passed their estimates Tuesday night. The sum required for public schools is $12,210 and for high schools $3410.

Mr. Charles Bent of Detroit has been examining iron deposits in North Hastings, with a view to establishing smelting works here.

The Imperial Federation League met Tuesday night and elected these officers: President, W. R. Northrup; First Vice-President, A. R. Dougall; Second Vice-President, Rev. S Daw: Treasurer, Walter Alford; Secretary, J. F. Wills. Executive Committee—Rev. D. P. Bogart, Thos. Wills, R. Elliott, D. F. Ratledge, W. B. Carmichael, Thos. Wilkes, Wm. Johnston.

The annual meeting of the Mechanics Institute was held Monday night. The expenditure which was over $1600 was balanced by the receipt. The officers elected were: C. Bogart, President; W. Tennant, 1st Vice-President; Geo. D. Dickson, Q.C., 2nd Vice-President; W. T. McIntyre, Treasurer. Directors—W. N. Ponton, Thos. Ritchie, Thos. Wills, Dr. Wright, A. W. Read, R. R. Burrell, John J. B. Flint.

The number of pupils attending the High School is 170.

The official board of the Bridge-street Methodist Church met Tuesday night and passed a resolution highly appreciative of the character and work of Rev. Geo. Lasrey'd, the retiring pastor.

Both Will Recover.

DETROIT, May 16.—Philip H. Hartsell and Wm. J. Smith, who had an encounter on Grand River-avenue Tuesday evening and shot each other, will probably both recover. Hartsell fired four shots all taking effect in his father-in-law's body. One bullet struck Smith on the forehead, going through the rim of his hat and lodging in the scalp. One grazed his head, one passed through the fleshy part of his right upper arm and the fourth grazed the under part of the same arm. Smith discharged five balls only one of which hit Hartsell. The bullet entered his right breast and narrowly escaped the lung. Smith was arraigned yesterday charged with attempted murder, pleaded not guilty and had his examination set for May 24. Ex-Alderman Henderson furnished $1000 bail for his appearance. Justice Miner issued a warrant against Hartsell who was also charged with murder. Hartsell is feeling better. He is still in his room under surveillance.

The Flour Output.

MINNEAPOLIS, May 15.—The Northwestern Miller says: Although fifteen mills ran to a greater or less extent last week the aggregate production of flour for the week was only 94,670 barrels against 98,920 barrels the previous week and 170,900 barrels for the corresponding week in 1888. Fifteen mills are in operation again to-day and indications point to quite a gain in the output for the week. Most of the mills got some orders ahead last week and though the demand is lighter now they are grinding stronger to fill them. Nearly 50,000 barrels of flour, mostly patents, were withdrawn from store at Duluth during last week, leaving 156,000 in store there Saturday. Considerable hold in store here is also being shipped. The direct exports of flour for the week were 36,000 barrels against 40,800 barrels the preceding week.

25 REASONS

FOR

DRINKING

ROYAL DANDELION COFFEE

Some drink because they are hungry,
And some because they're dry,
Some drink to keep them in good health,
And some that they may thrive.

Some drink because they are too hot,
And some because they're too cold,
Some drink to strengthen them when young,
And some when they are old.

Some drink to keep them wide awake,
And some that they may sleep,
Some drink because they merry are,
And some because they weep.

Some drink when they do money gain,
And some because of loss;
Some drink when they are pleased,
And some when they are cross.

Some drink when they are head at work,
And some when they do play;
Some think it right to drink at night,
While others drink by day.

Some drink for sake of company,
While others drink on the sly;
And many drink but never think,
About the reason why.

Some say they drink for pleasure,
And some they drink for pain,
Some say 'tis good, some very bad,
But NEVER GIVE refrain.

Yet all must own the proverb true:
"When fancy's her to strike it"—
I've just found out the reason why—
All drink because they like it!

THE GONG AGAIN GIVES NO UNCERTAIN SOUND.

GOUGHS' The Wonderful Cheap Men, Ring their Alarm Bell.

This week they will hurl a tirade of prices at you, that will besiege their place of business with anxious buyers, and break high prices up. Their two stores, and six flats, are packed with NEW GOODS, and they show more stock to select from, than any other retail firm in Canada. Energy will tell, and the people appreciate it. GOUGHS' BUSINESS IS NOT ON PAPER, IT IS A REALITY, and the result of long patient study and hard work

ON SATURDAY WE WILL SELL:

LOT 1. Mens' Serge Suits for $2.50. Not, mark you, old faded shoddy serge, such as you can buy elsewhere, but a pure indigo dye, warranted fast colors, and to cost you $7.00 from any other dealer.

LOT 2. Mens' All-Wool Worsted Tweed Suits for $5.00. This is a beautiful black and brown checked, trimmed with a silk serge lining, and the lowest wholesale price is guaranteed to be worth $7.00. We show a dozen different patterns in this line.

LOT 3. Mens' West of England and Scotch Suits, cut in the morning coat style, also, cut-away coats on 2, 3 and 4 buttons. This line of goods was made and trimmed under our own supervision, and is in every respect equal to ordered clothing. Prices range from $8, to $15, the same goods to order would cost $13 to $25.

LOT 4. Men's Fine Worsted Suits at $10 and $12, not backed goods, but pure worsted, cost $22 made to order. We have thousands of these goods to select from.

LOT 5. Boys' Suits from 98c. up. We really cannot afford anything out of our gift department, with this suit, but to make it interesting, and not disappoint the boys, we will throw in a cap.

In our Hat and Cap Department,

We sell a FINE SOFT FELT HAT for 20 cents, worth 75 cents, and a FINE STIFF FELT HAT, newest style, for 75c. worth $1.50.

BOOTS! BOOTS! BOOTS!

We are showing, this season, probably the most varied and complete stock ever shown by any one Boot and Shoe house in Canada; and we have placed on them what our patrons say, and our contemporaries are bound to acknowledge, are

The Lowest Prices Ever Heard Of: Ladies' nice Buttoned Boots 99c. Mens' good Boots, $1.25. Boys' Boots, 55c. 65c. and 75c.

QUALITY and WORKMANSHIP are our wheel-horses, STYLE and PRICE the leaders, and we make these pull to the last fraction to give you GOOD GOODS at Reasonable Prices. Give us a call, and buy one of our $2.50 never-wear out Suits. It is no trouble to show our goods, in fact we enjoy it.

MUNCASTER'S

As Night Follows Day.

By HON. MRS. FETHERSTONHAUGH.

(Con tued.)

Bright and sunny is the weather that ushers in "the merry month o' May," and though it is but the first week of that capricious month, the sun's rays stream down hot and strong on the emerald turf of the famous Rowley Mile at Newmarket, whereon, in one short half hour's time, will be fought out the first of the three great "classic" races of the year, the time honored Two Thousand Guineas' stakes.

Though at first sight a stranger might draw unfavorable comparisons between the small attendance of lookers on visible here, as compared to the masses which crowd the course and "hill" at Epsom, or the stolid array of keen north countrymen who come yearly to give their opinion on the third and last of those same "classic" events, at Doncaster—not a single well known face among the ranks of that marvelous compound of highest and lowest known as "the racing division" is here missing.

There is but one name on every lip, uttered by turns in every accent of triumph, despair, hope or fear, and that is Culloden. Winner of the Middle Park Plate six months previously, Lord Francis Eridon's colt, Culloden, has been firmly established first favorite for the "Two Thousand" ever since he carried his owner's black and red colors to victory on that misty October day, when he cantered home at his ease from all the smartest 2-year-olds of the year as if they were common hacks, leaving behind him a glorious promise of even greater things to come in the not far distant future.

No "idol of the hour" can lay claim to greater adulation than is offered to the "favorite" for a great race on English soil, when owner, trainer and the animal itself are one and all deservedly popular. So now a crowd of admirers are thronging about Culloden, as he parades round and round the saddling inclosure known to fame as the "Birdcage;" and even the vicious lash out of his iron heels from time to time fails to shake off their too flattering attentions. For, whereas Culloden inherits his marvelous speed from the great Stockwell blood running in his veins, unfortunately the even temper and kindly disposition which are usually so sure a portion of the descendants of that grand sire, are in his case sadly wanting; and it needs only a glance at the equine hero of the hour to perceive at once that a more fractious and irritable horse it were difficult to find—while ominous comments upon his well known disposition to show temper begin to make themselves heard on all sides.

Perhaps the least anxious face in the whole race stand is that of Lord Francis Eridon himself, merely because, like all inveterate gamblers, he is sanguine to a fault, and the thought of defeat has no place at all in his mind. Accidents and other causes have removed every formidable rival from out of his colt's path, and Culloden has the race absolutely at his mercy. So Francis Eridon pauses on his way across the gravel lawn in front of his stand, and turns an attentive ear for a moment towards the iron rails of Tattersall's Ring with a well pleased smile, as the incessant roar of: "5 to 4, Culloden," tells him that his horse is steadier than ever in his position of popular favorite for the coming race.

As he resumes his way toward the entrance gate leading out of the inclosure a lady in a riding habit comes slowly up the steps, and in another moment he is once more face to face with Janet Harding. For an instant neither speaks a

He is once more face to face with Janet Harding.

word; then the quicker self possession of a woman comes to the girl's rescue, and before either of them can quite realize how it has come about they are sauntering across the lawn in amicable converse, and Miss Harding is inquiring after his mother's health and the particulars of that lady's late illness in quite her own natural, clear, low voice, though secretly her heart beats nigh to suffocation.

They stand apart from the crowd for a minute or two talking quietly, then a sudden impulse comes over Francis Eridon (born may be of the constant shouts: "5 to 4 Culloden," which still continue like unto the roaring of the sea).

"Miss Harding," he says, quietly, though involuntarily he draws himself up and looks a shade taller as he speaks, "when last we met I stood before you under the disadvantage of being a thoroughly disappointed man, and, what was worse, a thoroughly misunderstood one. I only told you the truth when I said that before we met your great fortune alone was my attraction. I don't regret having said so, Janet, for [illegible] I couldn't tell you a lie, dear though I foresaw what speaking the truth would cost me! But in one thing at least you were utterly wrong."

Janet Harding says no word. God knows how bitterly she, too, regrets not having given him a chance of [illegible] that wrong ere it was too late!

"Now things have altered for me," goes on Lord Francis steadily, the wild shouts of his own horse's name ringing in his ears triumphantly as he speaks. "Today will see me a rich man once more, with all my difficulties solved and my debts paid, through the truest friend a man can have, and that is a good horse" (Janet winces involuntarily), "for only a miracle could prevent my winning this race, and that means my salvation! Therefore, I dare to tell you now, what I swore once to myself you should never know: that I love you as a man loves but one woman in a lifetime; perhaps you will believe me now, when you know that your fortune can be absolutely nothing to me an hour hence!"

The pale, quiet girl beside him stands motionless. It is his hour of triumph now, and she has no word to say. Only all the loyal love in her heart breaks forth in the fervently uttered words: "May you have all you hope for, now and always," and she turns away a small, sad, resolute face, that he may not see how suddenly white it has grown.

But Lord Francis Eridon is standing there like one transfixed, and a strange, numb feeling is creeping over him as if an unexpected blow had been dealt him straight between the eyes with [illegible]

[illegible] Eridon's colt, Culloden, [illegible] ing force, and yet that blow lies in words alone, for a great shout has gone up from the ring: "Four to one against Culloden!"

"What is it?" asks Janet, anxiously, as she notes the set, gray look on his face.

"Something wrong with the horse, I suppose," he answers, quietly, and no one could have told from his manner that that "something wrong" meant utter ruin to him.

The Cutest Little Things.

"Cute"! he echoed. "Well, I don't know as the adjective would have occurred to me in just that connection. But if you mean that they do their work thoroughly, yet make no fuss about it; cause no pain or weakness; and, in short, are everything that a pill ought to be, and nothing that it ought not, then I agree that Pierce's Pleasant Purgative Pellets are about the cutest little things going! b

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Ealing, Richmond, Va.

DR. DORENWEND'S

GREAT PARISIAN HAIR MAGIC.

The equal of this great preparation is yet to be found. It is an unfailing Restorer for grey hair—it stops all falling out of the hair—it removes all dandruff and keeps the scalp clean. On bald heads (if there are but the faintest traces of roots) the Magic will produce a fine growth. Will you try it? Or will you let your hair go, and become prematurely old? What do you say? All druggists everywhere have it for sale. Ask for it. Do n t let the druggist tell you he has something just as good—many have dead stock of other hair tonics on hand and try to shove them off in this way. See that each bottle bears seal and signature

Where is the Bug?

Is the potato bug disappearing? Every one is remarking that none of the brute have been seen yet this year, while in former years they would be flying about before the snow was well away. Some people think the bug is disappearing from Canada as suddenly and mysteriously as it came. It is to be hoped their opinions will be verified.

MONDAY EVENING.

Lakefield's Fire System.

To-morrow the people of Lakefield will enjoy a public holiday, and the villagers will turn out to witness a test of the new Waterous fire engine which the council has purchased. The newly organized fire brigade will also exhibit its prowess. Lakefield is going in for fire protection with a whole heart, and the villagers will celebrate the inauguration of their new fire system by a public holiday and general rejoicing.

An Important Mission.

Capt. Donaldson left town in haste this morning on an important mission. He travels under sealed orders, but the supposition is that his destination is Montreal and that the object of his journey is to procure a three-legged mule to enter the menagerie race at the Association grounds, Ashburnham, on May 24th, which, with the other sports and games under the combined auspices of the Association and the 57th, will make a capital bill of fare. 1d

Is the Scott Act in Force?

The boys of the brigade are as good at raising a fire as at putting it out, therefore we may expect that their display of fireworks on the evening of May 24th will be something grand. Whatever the boys undertake, they're sure to succeed. Notwithstanding the repeal of the Scott Act, the public will doubtless see fiery snakes, elephants and other monsters in the air. Remember the firemen's fireworks on the evening of May 24th. 1d

MAY 20th.

Lacrosse Match.

The Riversides have arranged a lacrosse match for the 24th of May with the West Torontos, of Toronto. The match will take place on Riverside Park on the afternoon of the 24th. The West Torontos have just joined the Association, but are an old club and one of the best in the city. The match promises to be a splendid exhibition of the national game.

P. D. DORAN'S Lace Curtains are the talk of all the ladies of the town.

Jesuit Aggression.

A public meeting will be held in the Opera House, Peterborough, on the evening of Thursday, the 23rd May, for the purpose of hearing addresses by the Rev. D. J. Macdonnell, B.D., of Toronto; probably Mr. J. J. McLaren, Q. C., of the same city, and others, on the above subject, and at which it is proposed to take such steps as may be deemed necessary to secure the proper representation of this town and county at the Provincial Convention, called by the "Citizens' committee" of Toronto, for the 11th and 12th June. 1d1w

Rev. Father Conway's Picnic.

This interesting occasion falls on May 24th, and promises to be above the average of these invariable delightful gatherings held under the genial priest's auspices. Arrangements have been made for single fare tickets from Peterborough to Norwood. A long list of sports and games, for which fine prizes will be given, has been arranged. A special prize for jig-dancing will be given; a fine platform will be provided for dancing and Prof. Doucet's orchestra has orders to be on hand at 10 o'clock in the morning. Admission to grounds, 25 cents; dinner, 25 cents; tea, 15 cents.

The Professor Gets an Audience at Last.

Prof. Martyne, the humorist, whose abilities were not appreciated by the crowd on the market square Saturday night, yesterday evening gave an open air entertainment in the yard of Clancy's hotel to an audience of about fifty persons, who were taxed ten cents a head. The entertainment was given under the management of Mr. Tom Berrie O'Kane, and those present certainly got their money's worth. The professor has a face that for elasticity and impersonation it would be hard to beat, while his voice is also capable of all the changes known to ventriloquial art. He is a clever performer and amused the crowd from a platform lighted by a couple of torches. The professor says he will to-night appear in complete changes of costume, and will have a curtain rigged up. He promises to give a great deal better exhibition than last night's.

IN HER DRAMATIC

Law Association.

The annual general meeting of the Peterborough Law Association was held in the library at the court house yesterday afternoon. Mr. W. H. Moore, Vice-President, in the absence of Mr. D. W. Dumble, President, occupied the chair. There were about fifteen legal gentlemen present. The following officers were elected:—

PRESIDENT—W. H. Moore.
VICE-PRESIDENT—A. P. Ponsonby.
SEC.-TREAS.—E. B. Edwards.
TRUSTEES—R. E. Wood and E. H. D. Hall.

The meeting adjourned till next Wednesday evening at 7.30, when matters of importance will be discussed.

A Trip to Stony Lake

A couple of gentlemen who visited Stony Lake yesterday report that the northern camping-ground is looking beautiful at this season of the year. The trees are rich with foliage and the huckleberry plants are blossoming profusely. The water in the lake is high and will likely remain so all summer. Mr. Young, caretaker of the locks, having received governmental instructions to keep in all the stop logs at the Point. This explains the low water in the river at Peterborough. Salmon fishing is in season now, but fishing for bass and black bass is prohibited until June 15th. The visitors to the lake say they did not see a single fish caught, the fishermen watching each other with jealous eyes and the Inspector being on the alert for offenders against the law. Preparations are being made for building on all sides. Mr. D. Breese has begun the erection of three cottages on his island in Bonshaw.

The Pupils' Holiday.

The Collegiate Institute pupils and masters are taking a holiday to-day. Inspector Hodgson said it was usual after the pupils had been put through a particularly severe course of exposition, to grant them a holiday in recognition, and his suggestion was adopted.

FIERCE CONFLAGRATION.

A Disastrous Fire in the Suburbs of Quebec City.

Two Men Killed in an Explosion—Hundreds of Houses Burned at a Great Loss.

QUEBEC, May 16.—Early this morning fire broke out in a vacant building in St. Sauveur, a suburb of this city, owned by Mrs. McCann, and quickly assumed large dimensions. The alarm caused great commotion, and the entire population of St. Sauveur was soon on the spot. The flames spread with great rapidity, and it was evident that the village fire brigade was quite unable to cope with the emergency. Volunteers worked hard, but lack of organization and proper water supply told fearfully against their efforts. Mayor Langelier, of Quebec, when informed of the conflagration, immediately ordered out the city brigade and in a short time they were on the scene. The brigade was considerably crippled owing to want of water, but their two engines, after short delay, succeeded in throwing good streams upon the flames. "B" Battery of Artillery was called out to aid the firemen and workers in fighting the flames, and by seven o'clock the fire was under control, having burned itself out. While the military were preparing to blow up some houses to check the fire from spreading, a premature explosion took place in one of the houses, killing Major Short and Sergeant Wallock, of "B" Battery. Both were buried in the ruins. Up to this hour, 9 o'clock, the body of Major Short has not been recovered. That of Sergt. Wallock was found near the door dreadfully mangled. It is impossible to closely estimate the loss, but as the houses burned are counted by hundreds, it will no doubt reach, if not exceed, $100,000. Most of the insurance companies doing business here are interested.

LATER.

2.53 P. M.—Fire in St. Sauveur, although checked on city side, is still burning furiously towards north-west and no hopes are entertained of stopping it until open country is reached. Already about five hundred buildings have been destroyed, the greater part of which were small wooden tenements. Over one thousand people are rendered homeless, many of whom are camped out in the fields, while remainder have found shelter with friends in the city. Major Short's body was found shortly after nine o'clock, minus a leg and arm, which were found some distance from the trunk. The insurance on burned buildings is comparatively small.

A Visit to the "Soo."

A Peterborough Man's Impressions of Sault Ste. Marie.

Mr. Henry Best returned Tuesday from Sault Ste. Marie, where he has been prospecting. His impressions of the "Soo" are most favorable, as his statements in the following interview will show:—

REPORTER—What is your opinion of the Soo?

MR. BEST—I think the future of the Soo good. It is a beautiful place. At night it is lighted by electricity (incandescent). The air is most bracing and the hotel accommodation is unsurpassed anywhere.

REP.—What will build up the place?

MR. BEST—Flour milling, paper milling, minerals, etc., and there is very fine agricultural land. Flour can be manufactured there 15c. a barrel cheaper than in the West, as Western millers estimate. Just fancy! they have been shipping poplar and spruce for paper to Philadelphia; but that is to stop. A calculation of all the great water powers on this continent show that the Sault water power is controllable at half the expense required for any other.

REP.—Have you invested, Mr. Best?

MR. BEST.—Yes, I bought $7,000 worth in the east end, which is the solid end of the city. The C.P.R. coal and wood docks are to be built immediately in the east end with railway spurs. Their repair shops will be there too. The west end is "booming," but the east end has nature and the C. P. R. in her favour, and the government dock as well as the post office, custom house, schools, etc., etc.

REP.—How does the Soo lie?

MR. BEST.—It lies magnificently and tourists are delighted with it. They are pushing the waterworks and the street-car system rapidly, and it is certainly a very desirable and healthy place for tourists.

REP.—How is business there?

MR. BEST.—They have two banks—the Commerce and Imperial. There is a fine opening for a large foundry there, making mining machinery, etc. Of course you know that Chicago has made arrangements with the C.P.R. to make the route via the Soo, the highway to the sea. The Grand Trunk must be in the Soo within two years to maintain their interest in the bridge.

News Nuggets.

—Mr. Archie Freeman, well known in town, has purchased Ellis' barber shop in Norwood.

—Wm. Johnston, who was so badly beaten Tuesday night, was taken to the hospital yesterday and is rapidly recovering.

—Mr. Wm. Snowden has opened out an entrance to his hotel on Simcoe street, next the old Temperance House.

—A year ago yesterday there was a snow fall in town, and the thermometer registered among the thirties for two or three days.

—The Montreal *Witness* announces that Rev. Dr. McVicar, of Montreal, has been requested to lecture in Peterborough on the Jesuit Estates Question.

—This evening, if rain does not interfere, a baseball match will be played on the Association grounds between the Peterboroughs and Athletics. Game to be called at 6.30.

—The *Globe* says the chairman of the Citizens' Committee has received an application from Peterborough, among other places, asking for a speaker to address a public meeting to be held within two weeks.

—At a Queen's Birthday concert in Norwood, Mrs. Thompson, town, is billed as soloist, Miss Sanders as elocutionist, and Messrs. Doucet and Butcher as instrumentalists, piccolo and violin.

—Mr. P. H. Stephenson, of Norwood, has passed the B. A. examinations at McGill University in a very creditable manner. He took first class in honours in Hebrew, Greek and Moral Philosophy, receiving the Neil prize and the Bishop gold medal.

—The theatrical writers are constantly adding new and startling dramatic attractions to the already long list. The latest new play announced to appear in Peterborough is called "Uncle Tom's Cabin." As soon as the information can be secured, the EXAMINER will have pleasure in enlightening its readers as to the plot and prominent features of the performance.

Personal.

At the meeting of the Grand Lodge of True Blues, now in session at Toronto (a report of which appears in our telegraphic columns), Mr. J. Jamieson, of Peterborough, was elected to the office of Grand Director of Ceremonies.

In a personal paragraph yesterday the name of Mr. J. E. Andrion, who has returned to a position in Mr. P. D. Doran's Dry Goods establishment, was too severely Anglicised, and converted into "Anderson." Mr. Andrion is a Frenchman, popular and well known in town, and his name should be spelled *a la mode* Francaise.

Mr. Z. Gallagher, for some time in the law office of Mr. E. B. Edwards, and latterly with Messrs. Hall & Hayes, left this morning for Toronto, to finish his law course with the law firm of Messrs. Fullerton, Cook & Wallace. Mr. Gallagher made many friends in Peterborough, who will always be pleased to hear of his prosperity and advancement.

is made very often by merchants when they sell goods at very low figures and when the public call to price the goods they are much higher than the prices their advertisement calls for, as they are just out of the goods. Now it is altogether different with W. J. Morrow. When you see his advertisement you can rely on procuring the goods at the prices stated just so long as he can get the goods. But, of course, when we are out you must make an allowance. We have another consignment of beautiful 3-lb. Tins Peaches at 15c. per tin; 2-lb. Tins Tomatoes three for 25c. W. J. Lee & Thompson.

A Look Through their Tidy Establishment.

The EXAMINER has previously incidentally announced the opening of a new stationery and wall paper establishment on George street, by Messrs. Lee & Thompson, two live young business men well acquainted with the various branches of the business. Mr. Lee is well known in town and has been connected with the book and stationery business for some five years. Mr. Thompson, the other member of the commercial team, has had extensive experience in the book and stationery department especially. His experience extends over a space of ten years and embraces a knowledge of both the wholesale and retail departments of the book and stationery trade.

The premises used are those formerly occupied by Mr. T. Menzies, but the transformation in the direction of improvement in the premises is so marked that a recollection of the former premises would fail to associate the present premises with them. The show windows on both sides have been tastefully re-arranged and the interior of the main shop transformed. The walls and ceilings have been papered in tasteful and artistic style, the latter divided into panels. The shop, which is wide and roomy (22x55 feet in area), has the south side devoted to stationery, plain and fancy, school books and school requisites. This side is furnished with counters, in the usual mode, which, as well as the shelving, are of cherry. In contrast, the other side of the shop is fitted with tables, on which rest show cases containing fancy goods, fancy stationery, etc., while the shelving contains miscellaneous books and certain lines of fancy goods. The space between the counters is occupied by a table for the display of fine stationery and a conveniently designed rack for the display of novels. The space between the termination of the shelving on the south side of the shop and the stairs is fitted in with a rack for the display of automatic blinds, while a corresponding space on the opposite side contains a desk where patrons of the establishment can write letters, cards etc. In the rear is a neat little office nicely carpeted, and well lighted. A wide winding stairs conveys the customers to the second floor of the same area as the lower floor with wall and ceilings similarly treated. This floor is devoted exclusively to the wall-paper business and a large and well assorted stock tastefully and effectively displayed demand the attention of the customer. The wall paper racks cover one side of the rear room of the two into which this floor is divided by an arch way. The front room smaller in size than the other combines exclusively the stock of ceiling decorations and the more expensive qualities of wall paper. Shelving also is placed in the larger room for the sole use of the border department. This room is well lighted by windows both in front and rear, and at night by a pair of double gaseliers. The establishment throughout has excellent facilities for disposing of the fine stock of goods with which the different departments are supplied with a well equipped establishment and an enterprising pair of partners Lee & Thompson's bookstore establishment has all the conditions which tend to bring that successful business career which the EXAMINER so cordially wishes it.

A Smiting Villain.

On the 25th of August, 1888, an item appeared in the EXAMINER referring to a "quiet wedding" which had occurred the day before, between J. H. Johnston, of Toronto, and Miss Adelaide Maybee, of Port Hope. On Saturday last, May 11th, the Port *Hope Guide* contained a notice signed by J. H. Johnston emphatically denying the report that he had been married. In yesterday's issue, at the request of Mr. Jarvis Maybee, the *Guide* published a letter from Rev. S. J. Shorey, of Peterborough, stating that he had married, on the 24th of August, John Johnston, of Toronto, and Miss Adelaide Maybee, of Port Hope, at his own residence, in the presence of a couple of witnesses; and to the best of his knowledge and belief the enclosed photographs were the likenesses of the parties he married. The marriage certificate he also identified as genuine. The *Guide* exposes the whole matter and adds:—"The man who would be guilty of such conduct as the above indicates, should be punished. He has in addition to the above notice of denial, written two letters to Mr. Maybee, over his own signature, which stamps him as a villain of the deepest dye. He has not only plunged a most respectable family in the deepest trouble, but is now, or at least has recently been paying marked attention to a respectable young lady in town. We trust the Toronto papers will copy the above and assist in exposing such villainy."

Peterborough District Meeting.

The Methodist District Meeting is still in session at the Charlotte street church. In addition to the ministers one lay delegate is present from each circuit. The afternoon of yesterday was spent in the examination of Candidates and Probationers for the ministry. The certificates received by the young men at the recent conference examinations show that C. H. Coon was in the 1st class with 75% W. D. Harrison in the 2nd class with 56%, and E. A. Pearson B.A. in the 1st class with 80%. Mr. Pearson received the highest marks of all the young men in the conference. For three hours these young men held the fort under a heavy theological and doctrinal fire from all sides. Mr. Coon was in consequence of his examination recommended to the approaching annual conference for ordination; the other young men were recommended to be received on trial. This morning the meeting opened at 9 o'clock. Missionary monies were paid in by the several ministers and received by Rev. Wm. Burns. The district schedules were then read one by one, and were not finished at 12.20, when the meeting adjourned to assemble again at 2 o'clock.

The afternoon session opened at 2.10 o'clock, with Rev. M. L. Pearson presiding. After singing a hymn, and prayer by the Rev. Mr. Bell, the reading of schedules was concluded. As we go to press, a motion has just been passed to the effect that the Contingency Fund pay the amount of money expended by Rev. Mr. Williams in connection with the sickness and death of his late wife.

A Canadian Theatrical Circuit.

Yesterday in Toronto a convention of Canadian theatrical managers was held for the purpose of forming a booking circuit. It is quite well known that by the present system a great number of trashy theatrical troupes infest Canada and impose upon the public, who are not able to ascertain their merits till their money is gone. By the new arrangement the booking of the Canadian circuit is left entirely in the hands of Mr. O. B. Sheppard, of the Grand, Toronto, who guarantees to provide such first-class attractions as will raise the tone of the local houses and make them pleasing to the people and profitable to the management. By this means the barn-stormer will find no place in Canadian theatres, and Peterborough will be visited by the same class of companies that hold forth at the Grand, Toronto. Mr. T. E. Bradburn represented Peterborough at the convention. All booking agencies in New York or elsewhere will be dropped and all engagements must be made through Mr. Sheppard, who will receive a substantial commission. The other houses give him their dating books and will pay commissions on the few attractions already booked for next season. Nearly all the Canadian theatre managers have joined the circuit, which will doubtless be approved of by the public.

A Good Recommendation.

To Mr. J. J. Turner, Sail, Tent and Awning Maker:

DEAR SIR,—The nineteen awnings you put up for me on the front of my hotel this spring are very satisfactory in every respect. The material is good and the workmanship first-class, and I take pleasure in recommending you to anybody wanting anything in your line.

I remain, yours truly,
WM. SNOWDEN.

As You Pass Along George St.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1 50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH HEMMING. Say 25c, buys a pair of Cashmere Hose that have been sold at 50c. Splendid value in finer lines. Ask for them, buy them and if you never get a pair that stains, or the color washes out, bring them back and get your money.

HOUSE-CLEANING.

How to Begin the Spring Crusade Against Dirt.

The General Clearing Out of the Unconsidered Trifles—The Separation of the Wheat From the Chaff.

All around us are evidences of spring. When a boy begins to look up his ball and his bat, you may be sure it is time for the housewife to look up her dusters, brooms—in fact all the paraphernalia for house-cleaning.

By beginning in time and getting everything ready the annual crusade against dirt and disease will not be so formidable. By attacking one room at a time the male members of the family will have no cause for complaint. A man is a sanitarian only as long as long as it does not interfere with his comfort.

The first room cleaned should be the spare room, so that in case any of the other bedrooms need papering or painting it will be ready. And by the way when you decide to paper any of the rooms, don't forget to examine the Wall Paper and Decorations, at the fancy goods store of C. B. Routley, George street, Peterborough. He has such a lot of patterns, the product of some of the best manufacturers; and the prices he sells at makes papering cost far less than kalsomining.

While in Routley's ask to see the newest thing in Curtain Poles, fitted up with ornamental ends of brass trimmings. They help to make a room look well, and cost only from 35c a set up. There, too, you may order your Rado Window Blinds, with patent spring rollers. Also, Pictures, Wall and Table Ornaments, Brackets, Mottoes, and all such handy things as help to make your home beautiful and attractive. dw

Three Long Years in Bed with Spinal Disease.

Charles Clothe, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house, and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain in your true friend. MATTIE GRAHAM.

Ruptures.

DEAR SIR—I am only to inform you that the Scientific Truss you put on me last spring has been all I was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, so I was able to work at any kind of work. I would put your with it for ten times the price if I could not get another. For further proof could refer to you.
I remain, Yours truly,

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

"A Spring Message"
FROM THE NEW FIRM OF
H. LeBRUN & Co.
Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the largest assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first-class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

FIRE-SWEPT ST. SAUVEUR.

THE LOSSES AGGREGATE OVER HALF A MILLION.

Scene of the Enormous Conflagration Last Night—Sergt. Wallace Still Alive but His Injuries Probably Fatal.

QUEBEC, May 16.—St. Sauveur, a suburb of the city, from which it is only separated by the width of St. Ours-street, was the scene yesterday of a disastrous conflagration attended by a lamentable loss of life. Shortly after midnight flames were discovered in a vacant building owned by Mrs. McCoss, on St. Valier-street, and quickly assumed large dimensions. The alarm caused great consternation, and the entire population of the suburb was soon on the spot. The flames spread with terrible rapidity, and it was evident from the beginning that the fire brigade of St. Sauveur was quite unable to cope with the emergency. The volunteers worked hard, but lacked organization, and, above all, the look of a proper water supply told fearfully against their well-meant efforts.

Mayor Langelier of Quebec, when informed of the conflagration, immediately ordered out the city firemen, and they were promptly off in response to the call of duty. The brigade was considerably crippled for want of water; but the Steamer & Mayor engine was located at a hydrant in St. Ours-street, and after some delay succeeded in throwing a good stream upon the flames. Another steam fire engine was then sent for and put into commission. Meanwhile good work was being done on St. Peter and Chenet-streets by a hand pump, which threw water from a cistern. B Battery of Artillery was called out to aid the firemen and workers in fighting the flames.

The fire raged until nearly noon and about 260 buildings were burnt, mostly small wooden tenements. Over 1,000 persons were forced to camp out in the fields, the remainder finding shelter with friends in the city.

The Dominion Government having been appealed to has placed the new armory and old court house at the disposal of the homeless. Premier Mercier and several other gentlemen visited the scene this morning and supplied the poorer people with food. The Local Government will hold a meeting to decide upon measures for the relief of the sufferers.

The total loss is estimated at $600,000. Insurances are as follows:

Queen	$ 2,000	Lancashire	$2000
Guardian	12,000	Hartford	2000
British American	2,000	Scottish Union	2000
London & Lan.	6,000	Citizens	2000
Agriculturist Assurance	26,000	L. & L. & G.	2000
N. B. & Mer.	12,000	Quebec	2000
Western	6,000	Imperial	4000
Glasgow & L.	20,000		

Major Short of "B" Battery was killed and Sergt. Wallack fatally injured by a premature explosion while blowing up a house in attempting to stay the progress of the flames. Major Short's body is charred beyond recognition. The remains will be taken to Kingston for burial.

[Major C. J. Short was one of the best known officers of the permanent corps in the Dominion. He was a thorough soldier and in the Northwest rebellion commanded the detachment from "B" Battery attached to the Battleford column under Col. Otter, and commanded the artillery in the attack on Poundmaker at Cut Knife, where he served the Gatling gun himself. He was an ideal artillery officer, and on his way back to Battleford did his best to cheer the wounded. Afterwards he was a regular visitor at the hospital, and many a dainty morsel prepared for the wounded came from Major Short's own quarters.]

Mills and a Residence at Lucknow Burned—No Insurance.

LUCKNOW, May 16.—Last night the mills owned by R. McCarroll and rented by Mitchell Bros. were burned with all the machinery. Alex. McKay's residence near the Mill was also consumed, the inmates escaping with little more than their clothing. Estimated loss about $6000, no insurance.

A Blaze at St. Kitts.

ST. CATHARINES, May 16.—The residence of James Grogan, Maple-street, was burned on Wednesday evening. Two adjoining houses were slightly damaged. Loss about $1600. Mr. Grogan's mother, who was in feeble health, narrowly escaped being burned.

THE SPORTING RECORD.

A 14 to 1 Chance Wins the Doncaster Spring Handicap.

LONDON, May 16.—This was the first day of the Doncaster Spring meeting, with the Doncaster Spring Handicap the principal race. It had twelve starters, of which Mr. T. B. Miller's bay colt Link Boy was the favorite. He, however, failed to get a place, the Duke of Montrose's bay horse Dandie, with the odds of 14 to 1 against, winning easily from Regalia, who just beat Helmsley out for the place. Conditions:

The Doncaster Spring Handicap Plate of 1000 sovs, by subscription of 20 sovs each, 10 ft. and only 5 if declared; winners of any handicap of the value of 300 sovs after May 1, 7 lb of two or one of 200 sovs 10 lb extra; second to receive 20 and the third 10 sovs out of the Plate. The straight mile. 25 subs.

Almost a Failure at Pimlico.

BALTIMORE, May 16.—The Maryland Jockey Club lost money on its spring meeting. The attendance was very light and the racing only fair. But for the Maryland horses the meeting would have been a failure financially and otherwise. A few outsiders who ran at Ivy City came on here, as did also a number of half mile-track pluggers, but the pick of Northern stables remained away. Again and again has the Jockey Club been called upon to increase its stakes and purses, but the old time element which predominates refuses to give way to younger and more progressive men, and so the sport has been gradually dwindling down to nothing.

A little over $12,000 was paid out to the winners of the different events at Pimlico, J. A. & A. H. Morris received $1800; Davis & Hall $1725; Mart Jordan, $1600; J. J. McCafferty, $1000; G. H. Kennedan, $1000; Bruen, $965; W. C. Daily, $750; W. P. Burch, $750; G. R. Morris, $710; Odem Bowie, $700; Charles D. McCoy, $600; John M. Thornton, $500; Walter Grutz, $300; William Jennings, $150.

Caruthers in the West.

TACOMA, W. T., May 16.—Albert Hamm of Halifax and Henry Peterson of San Francisco, the oarsmen, arrived here yesterday to compete with O'Connor and Lee in the rowing regatta on Saturday. All of the four men were out on the Sound yesterday afternoon.

Hamm says that O'Connor is the best oarsman in the world and will beat Searle in the coming contest on the Thames for the championship of the world.

Rowing Rates Fixed.

DETROIT, May 16.—At a meeting of the executive board of the Association held at the Russell House to-day, after considerable discussion Grand Rapids was refused admittance for holding the twenty-six annual regatta in reference to Charlevoix and other places desiring it. The National Association holds its regatta at Pullman, Ill., on August 3 and 4, and the Northwestern selected the 26th and 27th of August, if the Mississippi Valley Association dates do not conflict. This will ensure large attendance from the Canadian and eastern clubs. The Garfield Beach club of Salt Lake City, Utah, were elected to membership and proposed their intention to send crews to represent them. R. C. Fox and Henry Bennett of Grand Rapids were elected amateur and professional vice-commodores respectively for the ensuing year.

TOPICS FROM TORONTO.

COMMENCEMENT EXERCISES AT WYCKLIFFE COLLEGE.

The Three Hours' Session Finished—A New College for Boys—The Hundredth Regiment Opened.

TORONTO, May 17.—The corporation of Trinity University met yesterday and adopted the report of the special committee appointed to prepare a scheme for raising a fund for the enlargement and improvement of the college buildings and for other purposes together with a circular embodying an appeal for a sum of $70,000 for those objects. Subscriptions to the amount of $9000 have already been promised.

Coroner Duncan opened an inquest into the cause of the death of Mrs. Rosebaugh, 15 Minden-avenue, at the Willard Hotel, corner of Terauley and Gerrard, yesterday morning. A jury was empanelled and after viewing the body an adjournment was made till Monday to allow the detectives who have charge of the case to bring forward new money. The coroner explained the nature of the case to the jurymen. It is understood that the death of Mrs. Rosebaugh was occasioned by an attempt to procure abortion. Her husband, who attended the inquest, was much agitated over the tragic affair which has left in his hands the sole care of three small children.

The annual session of the Ontario Grand Lodge of True Blues was finished yesterday. Brother Newman, Grand Master, presided. These officers were elected: Brother Mercant, Associate Deputy Grand Master for Lindsay; Sister Mrs. William Teasdale, Associate Grand Chaplain for Merritton; Geo. Worrell, Associate Grand Secretary; Mrs. William Robson, Associate Grand Treasurer, Hamilton. The following received the degree D.D.G.M: William Teasdale, Wentworth; James Mustine, London; G. R. Hill, Toronto; Wm. McKee, Frontenac; J. Sloan, Peterboro West; J. Jackson, Hastings; J. J. Gibson, Ontario; Miles S. Plunkey, Lennox and Addington; J. J. Shaw, Victoria; Thos. Cann, Northumberland; Alf. H. Monkman, Manitoba and the Northwest; H. Reinhart, Wentworth; J. McMillan, East Durham; J. F. McGill, West Durham; A. Manning, East Peterboro. A letter was read from the Citizens' Committee and the different delegates furnished with literature and petitions to commence a campaign for disallowance of the Jesuit Bill, or for the dissolution of the Dominion House. The lodge then rose to the Blue Apron degree and discussed the advisability of extending the degree to ladies. It was unanimously agreed to do so and a committee was appointed to make a second degree form. The lodge will meet at St. Catharines on the second Tuesday of May, 1890.

The vote to-morrow on the bylaw for $600,000, in addition to the million dollars already on hand for the erection of the proposed new municipal and county buildings, will be one of the largest ever taken on a money bylaw here. Opinion is about equally divided—one party contending that a million dollars would build a fine enough Court House and that the present plans should be modified, and the other party contending that the present plans are the most desirable and should be carried out.

A new college for boys is about to be established in St. Catharines. The first general meeting of shareholders was held yesterday. Mr. T. R. Merritt, Vice-President of the Imperial Bank, was chairman over a large and influential gathering. Ridley College, as it will be called, will have a close connection with the Provincial University. About $50,000 have been subscribed. The corporation is expending about $26,000 on land and buildings at St. Catharines, where the college will be situated. These directors were elected: President, T. R. Merritt; Vice-President, A. H. Campbell; Secretary-Treasurer, Fred. J. Stewart. Directors—Judge Senkler, Judge Benson, Judge Muir, Judge Macdonald, Charles Moss, Q.C., S. H. Blake, Q.C., N. W. Hoyles, B. B. Osler, Q.C., Geo. H. Gerard, V. Cronyn, J. Herbert Mason, Robert Jenkins, Geo. S. Gillespie, Robert Gilmor, B. Homer Dixon, Sir W. P. Howland, Stapleton Caldecott, Charles E. Hooper. The head master, it is understood, is to be Mr. J. O. Miller, a graduate of Toronto University.

Frank Low and George Campbell arranged yesterday to have a fight in an old cottage on an island in the east end opposite Morse-street. The police got wind of the affair and Sergeant Reburn sent Detectives Johns and Alf. Cuddy to the scene. When they arrived at the place of meeting all arrangements had been made for the mill, but Campbell, one of the combatants, had not put in an appearance. The officers therefore departed, but on their way back met the missing pugilist in a cab. He was fully prepared to take his share in the affray, but when the detectives requested him to change his mind he did so. The remarkable part of the affair was that Grand Trunk Constable Harrison was going with the fighter, apparently with the idea of seeing fair play. The proposed set-to is said to be the outcome of an old feud.

The annual commencement exercises of Wycklife College took place last evening. Principal Sheraton presented the prizes as follows:

Dogmatic Theology—F. B. Hodgins, B.A.
Exegetical Greek—J. R. S. Boyd, B.A.
Biblical Greek, Canon O'Meara prize—Geo. S. Sinclair.
G.M.A. prize—Robert Sime and E. C. Altobon (equal).
Willard prizes—1st, W. G. Reilley; 2nd, J. R. S. Boyd, B.A.
Elocution—F. B. Hodgins, B.A.
Historical Theology, Gnowski prize—L. E. Sloy.
Old Testament History—J. W. J. Andrews.

AN AWFUL POSSIBILITY.

Was Mind-Reader Bishop Dead Before He Was Buried?

NEW YORK, May 16.—The wife and mother of Washington Irving Bishop, the mind-reader, have arrived in this city, and both claim that Bishop was not dead, but merely in a trance, when the physicians made their post-mortem examination, and that his death was caused by the surgical instruments. It seems that but four hours elapsed from the time of his reported death until Drs. Irwin, Ferguson and Hosne were making a post-mortem examination of the body. The widow of the mind-reader states that he has suffered several times from catalepsis attacks, and has lain in a trance, apparently dead, for periods varying from six to fifty-two hours.

On one occasion in Malta, she says, physicians pronounced him dead, and advised preparations for his interment. His friends held a different belief, and in a little over two days he recovered. About two years ago Bishop, while suffering with a dangerous illness, was treated by Dr. Thomas S. Robertson of No. 39 East Twenty-fourth-street, this city. While at the doctor's house he had a cataleptic attack, and remained in a trance-like condition for two days. The physicians who performed the autopsy, however, say there can be no doubt of Bishop's death before the autopsy was decided upon.

Wrestled in the Paddle.

SAN FRANCISCO, May 16.—A report has reached here that the steamship Alaska has been wrecked off the Asporia, Or., and that the passengers and crew have been taken off in boats to Fish Lagoons from Puget Sound to undergo repairs and is several days overdue.

NOTES FROM THE CAPITAL.

Mr. Vankoughnet's Annual Tour—His Retirement's Announcing.

OTTAWA, May 16.—Mr. Vankoughnet, Deputy Minister of Indian Affairs, leaves to-morrow on his annual tour through the Northwest and British Columbia to inspect the condition of the Indians on the reserves, as well as to look into the manner in which supplies are supplied by the contractors.

His Excellency the Governor-General and the vice-regal party are expected to leave for the Mississippi in a few days, where he will remain during the summer months.

The civic board of works has decided that the present system of taxation under the local improvement bylaw for drainage is unsatisfactory, and has recommended to the city council that, in order to more equalize the rate of taxation, the Ontario Legislature be asked to grant the city power to increase the rate of taxation by three per cent.

Sir Leonard Tilley is expected here to-night. He intends going to the Supreme Court, the first time that he has ever visited British Columbia.

Attempt to Wreck a Train.

GREENFIELD, Mass., May 16.—An attempt was made last night to wreck passenger train No. 66 on the Fitchburg Railroad bound west, a short distance beyond Shelburne Falls, by placing fish and stones on the track. [illegible]

PERPETUAL PENSIONERS.

MR. GOSCHEN'S COMMUTATION PROPOSAL SUSTAINED.

The Irish M. P.'s Bow in Good Health—Balfour's Bright Future—Lepel—The Salary Question.

LONDON, May 16.—In the House of Commons this evening Mr. Bradlaugh's motion opposing the Government proposal to commute perpetual pensions was rejected, 264 to 208. Mr. Bradlaugh urged the abolition of pensions having an unworthy origin, like those of the Duke of Grafton and Richmond. Mr. Hanbury (Conservative) in seconding the motion stated that a commission ought to be appointed between pensions arising from public services and those due to private kindness. It was monstrous that the families of Nelson and Neil Gwynne should receive the same treatment. The effect of the division is to enable all perpetual pensioners to commute on 27 years' purchase.

All Enjoying Good Health.

LONDON, May 16.—In the House of Commons to-day Mr. Balfour, Chief Secretary for Ireland, stated that ten Irish members of the House are now in prison for offences under the Crimes Act. He said they are all enjoying good health.

Balfour's Progress in Australia.

LONDON, May 16.—Mr. Dillon, telegraphs from Australia that immense meetings have been held on Balfour's route and that in the Irish deputation, and that general dissatisfaction to the Irish fund have been removed.

A Fight Over a Lepel.

LONDON, May 16.—The Health Committee of Dublin is conducting a crusade against Lepel with the Government authorities over the case of a patient afflicted with leprosy. The leper, who was formerly a soldier, is in the last stages of the disease at Hardwick Hospital. The committee is desirous of converting him removed to Netley Hospital, but the authorities object to his being taken to either place and there was nowhere available.

Aristocratic Gambling.

LONDON, May 16.—The action of the police in the matter of club arrests in London has stirred the usually apathetic clergy into activity. A committee of the Lower Houses of the Canterbury Convocation has been appointed on an honorary report on the evils of gambling, accompanied by a profession of suggestions, the adoption of which would tend to the effectual suppression of the vicious practice. Chief among these suggestions is one showing that great strides could be made toward the happy result aimed at if the publicity could be obtained in court instead in the evidence of those in a position to put the needed example. This suggestion is carrying, in view of the circumstances leading to the raids on the Albemarle and Field clubs on Sunday morning.

The eldest son of one of the Cabinet Ministers recently confessed to his father that he had been in the habit of gambling at his office, the benefit of his winnings being that besides losing all his ready cash, fellow-members of the club held his notes for the aggregate sum of £30,000. These notes had become due and the young man brought his father to pay them in order to save his honor. The parent yielded to his son's entreaties and paid the notes. He then took the matter in hand on his own account and ordered the police to suppress the games at the clubs his son had indicated as the ones in which he had lost his money. The result was that many of the young man's friends were arrested, and they are naturally very bitter in their characterization of the callow nobleman's conduct.

Canadian Cattle in England.

LONDON, May 16.—The Canadian cattle season is opening well. The Lake Nepigon's cargo of 500 head met ready sale. Not a single beast was lost on the voyage. The Lake Superior with 600 head is expected in a few days. As labor prevails that prices here will be much higher than last year. The Canadian Gazette refers to the enormous imports of frozen mutton and beef, and warns Dominion exporters to avoid a speculative rush on stock per space.

The Paris Exhibition.

LONDON, May 16.—The Lord Mayor's visit to Paris is a great success. In the forced absence of Lord Lyons the Lord Mayor of London has been accepted by the French as the envoy-extraordinary of the English people. President Carnot, Tirard and others treated him with the greatest respect. I traveled with him from Paris and he told me he fears disturbances in France after the exhibition closes. Rheumatism and Neuralgia

"Having been troubled with rheumatism at the head and feet for five years, I was induced to try Paine's Celery Compound, and was very much benefited by my use. For months at a time, I could not walk without crutches, and was practically helpless. I can now walk freely, and feel as well as ever." Francis Clinton, Hawkes, Nevada.

After reading this statement from Francis Clinton, we felt induced to try Paine's Celery Compound, and added many more names from equally prominent people. In fact, after this statement, have received hundreds of others. Can any testimony speak more highly in favor of Paine's Celery Compound? Yours very truly,

THE SUCCESS OF THE ARMY

Charges Against its Management Refuted.

Mr. Goodsham, of Toronto, and Commissioner Coombs at the Barracks—Farewell of Col. and Mrs. Dowdle—Figures and Facts Showing the Growth of the Salvation Army—Mr. Goodsham on Divine Healing.

Last night was a special occasion at the Salvation Army barracks. It was the last appearance, for the present at least, of Col. and Mrs. Dowdle, who have been conducting revival services for a couple of weeks past. Commissioner Coombs and Mr. Wm. Goodersham, a staunch supporter of the Army, came down from Toronto to lead the meeting. A number of officers from the different corps of the Division, headed by D. O. Staff-Capt. Marshall, were also present. The parades yesterday, both afternoon and evening, were headed by a band comprising half a dozen brass instruments.

The audience at the barracks last night was not large. After the preliminary skirmishing in the shape of singing and prayer the Commissioner opened fire with an address referring to the Army's work in Canada. In the last month over 1,000 members had been added to the roll, and this month he hoped for 2,000 more. He was glad to be in the Army, and people said, "Oh, yes, he has a good thing." Well, yes, he had laid up a fortune in heaven by joining the Army, and had gained a good wife, and if people could only see the grand times he had in his home they would think he did have a good thing indeed. He thanked God for the fact that the Salvation Army's special mission was to gain up the vilest and lowest and bring them to God. It was five years ago last Monday since he came to this country, and he was just so much nearer heaven and so much more devoted to God's will and ready to do His bidding. The secret of all this was within the reach of everyone. They had only to yield themselves to the Master in order to enjoy the pleasures of His service.

Lieutenant "Reddy" next favored the audience with a solo, sung in a high key and a thin, childish voice, that sounded distinctly from his position, standing on the table. "Reddy" is a little fellow about eight years old, red haired and pale faced—probably the youngest officer in the Army. He is a ward of Mr. Goodersham, and came down from Toronto with him.

Col. Dowdle read some passages of scripture and commented on them, urging his hearers to good works for God.

THE ARMY'S WORK.

Mr. Goodersham's address followed. He pointed out that the commission of Jesus to His disciples to go into the world and preach the gospel to all nations was intended for every Christian to-day, but he was sorry to say there were many professing Christian people who are only nominal Christians—go to church on Sunday and that's about all. In view of this fact the work of the Salvation Army could not be considered extraordinary. There was nothing they would not do to bring sinners to repentance. The Salvation Army accepted Christ's commission, and that was what every Christian should do. He asked them, were there not unconverted people in their own house? Mr. Goodersham said he loved the Army because it did a special work—it did more outside its ranks than inside. The results to the churches were greater than to the Army itself, though people did not credit it. Personally he knew something of the workings of the Army—he had been behind the scenes and knew whereof he spoke, and the more he saw of it the more he liked it. He urged the soldiers and officers not to be discouraged because of backsliders; there were backsliders when Christ was upon earth, for after three years' of labor the original twelve had decreased to only one. Mr. Goodersham said he saw the work in all its phases from the Atlantic to the Pacific, at Halifax and St. John, N. B.; at Quebec, where they were terribly persecuted; at Montreal, where it was almost as bad; in Ontario, from Kingston to to our own beautiful town and to Toronto; westward to the Pacific coast in California; in San Francisco, one of the most godless cities on the earth, where he saw a couple of hundred in a week room talking to a crowd of drinking, tobacco-using men about their souls; in Victoria, B.C., and thence along the line to Winnipeg. And all this in seven years! He remembered when a couple of officers came to Toronto, friendless and alone, and sowed the seed which began to grow, until to-day the result was seen in thirty-six different detachments of the Army parading the streets. The marvellous conversions, too, were astonishing; the vilest characters, who would not be allowed into churches, one to-day bright Christians with happy homes, through the instrumentality of the Salvation Army. Toronto was called the city of churches, but if the churches did their duty the city would be revolutionized. Toronto was considered a moral city, but there was lots of wickedness there that was not apparent on the surface. The Salvation Army found it out and were trying to cleanse it of its wickedness.

In addition to this there was

THE TRAINING SCHOOL

where fifty young women are now receiving instruction and training to fit them to take positions as officers. It was the university of the Army. The lasses were sent out calling *War Cry*s and by couples went right into the salcons to carry the word of God to the unsaved. Then there was the school for young men, for a similar purpose. Besides there was the Rescue Home, where fallen women were taken in and saved for. It contained some twenty-two inmates now, and how loving the officers were and how anxious to have inmates converted. Here it was where the Commissioner's wife was doing additional work. And just here he want of to say that the Commissioner did not live in any fine house. His residence was as cosy as any mechanic earning $1.25 a day would have; and the General Read in the same way, and anyone who says he does not, doesn't know, that's all—or, as Gough would say, he has—under a misdirection. A hundred girls have been rescued from lives of infamy and cared for in this Home. They are provided good positions in some godly families and always afterward watched over and cared for as though they were sisters of Mrs. Coombs and her officers. Then the Drunkard's Home was another blessed institution, where harrowing sights were witnessed that ought to make any one a teetotaler. The poor drunkards were cared for as if they were the brothers of the officers in charge, and everything done by kindness and text to win them to Christ. For these things he loved the Army, and if he were younger would like to go out and work with them. However he was not idle, and took a meeting nearly every night of the week and two or three on Saturday. The Army he said was not responsible to the churches but worked with them.

Referring to the charges in different newspapers, which no doubt many of his hearers had read, he said he had reason to know, because he had taken up cases after cases that had been brought before him, he had reason to know that everything that was published was either misrepresented or utterly without foundation in all. He knew this, and was sorry some of the soldiers had been disaffected. In England a couple of years ago the thing occurred, and people said, "the Army was going to the devil now." But it didn't and now the fuss quieted down and the Army has been marching on ever since, as it will now in spite of all opposition. The speaker urged the soldiers to be loyal and true. Their lot was sometimes cast in hard places, but they should remember Jesus had no resting place and had to borrow money to pay his way. A single soul saved was of more value than all the money in the world. God could keep their bodies, too, and see that no harm came to them. This lead Mr. Goodersham to speak of

DIVINE HEALING.

Referring to the Christian Alliance meeting in Toronto not long ago, he said he had listened to Rev. Dr. Wilson's testimony of how after trying all sorts of medicine for years he threw them all away and tried God, and God gave him perfect health. Mr. Goodersham had himself suffered from heart disease, and after listening to Dr. Wilson he was himself anointed in the usual way and a young woman who had been raised from a bed of sickness put her hands on his head and blessed him. The next day he felt ever so much better and was keeping so. He believed with Dr. Wilson that God results a measure of His resurrection power to our bodies here; he felt it tingling through his body, and now he could do ten times the work he formerly could. He asked the soldiers, in consolation, would they not trust their bodies to God, and have faith that he would keep them well healed.

Mrs. Dowdle next spoke and referred to the growth of the Army, which on the 10th of April had enrolled 3,676 officers, while 20,000 soldiers were added last year. She remarked that in her experience knew a good deal about the Army, and she was not at all alarmed that it was likely to come to naught. She knew the pure motives of all from the General down.

Commissioner Coombs interrupted to say once the newspapers had printed she knew about his having gone to a dying man's bed and forced him to make his will in favor of the Army, two persons have got up, without his solicitation or knowledge, and publicly stated that they had made up the story themselves.

Mrs. Dowdle said she had perfect confidence in the future of the Army. Now it was established in 33 colonies and countries, and soon, she believed, the flag of the Army would be flying in every part of the world. Mrs. Dowdle said she was pleased with her visit to Peterborough, and if she ever came back expected to hear a good account of the corps.

Another song from Lieut. "Reddy," delivered from the top of the table was followed by the usual closing exercises.

Safe and Sound.

The word "safe" is from the Latin "salvare," to save, preserve. Safe indicates freedom from harm or danger; sound, unscathed, undamaged, secure, whole, as, safe from disease.

It is likewise regarded as conferring safety, to be relied upon. Its synonyms are secure, unendangered, sure. The term is defined by lexicographers as wholesome, healthful, promoting health.

How fitting the word, as applied to Warner's Safe Remedies, which meet every requirement of both esteric medica and etymology.

Their use protects from disease, and is a safeguard to the entire race.

Warner's Safe Cure has been extensively used in this and every other civilized country, and is recognized as the most beneficial remedy known to man. It has long been recognized (though not publicly) by the medical profession as the most valuable compound for the general restoration of the human system, by putting the kidneys in a healthy condition, so when these great organs are restored to a healthy action then the poisonous waste matter is expelled by the only blood-purifying organs of the system.

Few are aware that the kidneys are the only organs that can purify the blood.

Fancy the danger of poisoned blood constantly coursing through the body—65 gallons of blood per hour, or 48 barrels per day, pass through the kidneys, yet the unsuspecting regard them as of little importance until they are stricken down. Poisoned blood engenders general debility, pneumonia, lung and bronchial troubles, paralysis, apoplexy, heart complications, rapidly failing eye-sight, scrofulous and cancerous sores, and other serious maladies, which might be averted if the kidneys properly performed their work and expelled the poisonous, waste matter.

When the medical profession will strike at the root instead of hewing the branches, then we can hope for a happy relief from many of the ills of the present day. When diseases are called by their right names, and the real causes of death are made known, instead of death from symptoms of kidney disease, it is then that the people will become more fully aware of the terrible fatality of diseases caused by imperfect action of the kidneys.

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto,

Dear Sir—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to where me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM,

Rupture.

Dear Sir—I am only to inform you that the Scientific Truss you put on me last spring has been all I was recommended and more, as it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust this Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, yours truly,

GOUGHS' BUSINESS IS NOT ON PAPER, IT IS A REALITY, and the result of long patient study and hard work

ON SATURDAY WE WILL SELL:

LOT 1. Mens' Serge Suits for $2.50. Not, mark you, old faded shoddy serge, such as you can buy elsewhere, but a pure indigo dye, warranted fast colors, and to cost you $7.00 from any other dealer.

LOT 2. Mens' All-Wool Worsted Tweed Suits for $5.00. This is a beautiful black and brown checked, trimmed with a silk serge lining, and the lowest wholesale price is guaranteed to be worth $7.00. We show a dozen different patterns in this line.

LOT 3. Mens' West of England and Scotch Suits, cut in the morning coat style, also, cut-away coats on 2, 3 and 4 buttons. This line of goods was made and trimmed under our own supervision, and is in every respect equal to ordered clothing. Prices range from $8, to $15, the same goods to order would cost $13 to $25.

LOT 4. Men's Fine Worsted Suits at $10 and $12, not backed goods, but pure worsted, cost $22 made to order. We have thousands of these goods to select from.

LOT 5. Boys' Suits from 98c. up. We really cannot afford anything out of our gift department, with this suit, but to make it interesting, and not disappoint the boys, we will throw in a cap.

In our Hat and Cap Department,

We sell a FINE SOFT FELT HAT for 20 cents, worth 75 cents, and a FINE STIFF FELT HAT, newest style, for 75c. worth $1.50.

By HON. MRS. FETHERSTONHAUGH.

(*Continued.*)

With a courteous lift of the hat he turns and walks away towards the "Birdcage."

"What's up with my horse, Farley?" he asks of the first friend he sees. "I've been in the stand for the last few minutes and until I heard the change in the betting never knew anything was wrong."

"It will be all right yet, my dear fellow," said young Farley, reassuringly. "The fact is the horse has been showing such awful temper that he's a perfect mass of foam and lather now, and about as fit to run a race as if he'd been dragged through a horse pond. He's a perfect devil!" wound up his aggrieved backer in disgust.

"Is that all?" exclaims Lord Francis, in a tone of relief. "Why, the brute's got such a lot in hand it wouldn't matter if he had run the whole race already!" and he laughs gaily.

"I don't know," replies Ned Farley, dubiously. "Come and see for yourself. Barnes has taken him out of the 'Birdcage,' and is going to saddle him out there beyond the ropes, where it's quieter."

Together the two friends cross the course and approach the spot where the favorite is to be seen standing, surrounded still by an anxious crowd.

Truly, Culloden looked to be beside himself with fear and rage. He was trying to break away every instant from the two strong lads who were hanging on to him at each side, while it was all Barnes could do with a constant, anxious entreaty of: "Take care, gentlemen, mind his heels!" to save a bad accident, as the crowd pressed on the horse, and the latter lashed out viciously on every side. His reeking neck and flanks showed only too plainly how much the colt had already taken out of himself by his fractious irritability, and it was no wonder that even his strongest partisans muttered: "Any good selling plater might beat him now!"

But suddenly a change came over affairs. For some reason known only to himself, Culloden ceased all at once to knock about and fret, and became the quiet, sensible horse he could be when the devil had gone out of him. No longer did the crowd seem to affect him, no more did his active heels make all spectators fly for their lives; the colt seemed suddenly to have become transformed.

"He's all right now, my lord!" exclaims old Barnes ecstatically. "The race is as good as won!"

"But how is it? Does he often change about like that?" asks Lord Francis in surprise. He had only arrived from France the night before, and knew little of the strange freaks of temper which his horse had lately developed.

"Yes, my lord. When once his fit of temper is over, a kinder horse doesn't live. And he'll run as honest as the day, too, that he will, I'll warrant him."

"We'll hope so," answers Francis Eridon, who, in spite of his critical position, feels rather like a man in a dream as he sees his horse move quietly away to where, a mile below, the far off shimmer of silk and satin jackets await the late comer.

And more than one man there, as he watches the favorite's magnificent action whilst cantering down leisurely to the post, rues mournfully the hot haste he has been in to veer round and lay against Culloden; but Francis Eridon is conscious of one thought alone—a dogged satisfaction that he "has had his say out whilst yet there was time, though he never once glances towards the corner where Janet is sitting.

The usual two or three false starts take place, then the white flag sweeps the ground, and they are off. Knowing how much the favorite has already taken out of himself, naturally more than one of his antagonists have received orders to "come along," and the race is run at a tremendous pace from end to end.

Then history repeats itself, as it will ever do till the world comes to an end! Because Culloden had beaten all competitors as a 2-year-old, no one credited that some of those disgraced rivals might improve sufficiently e'en to sorely vex him another year, but so it is. The colt does his best, for in justice to him it must be owned that, when once started no horse can run kinder or truer than Culloden—but the merits of two at least of his opponents have been sorely underrated. Creeping inch by inch nearer on his right hand may be seen the white blaze face of a plain but true shaped son of mighty Blair Athol; whilst close on his left hand, too close to be pleasant, steals along the beautiful daughter of Macaroni, who three weeks hence will be cheered to the echoes on Epsom Downs as she wins the Oaks in a canter.

Still Culloden seems going well within himself, and a dead silence comes over the Ring as the favorite appears to be breasting the hill like a lion, full of running. Another moment of breathless suspense—a murmur of doubt—and then a roar rings out from many thousand throats: "The favorite's in trouble!" "Culloden is beat!"

Vainly does Lord Francis Eridon's beautiful horse struggle gamely to the last, fighting out the contest inch by inch—do what he will he cannot shake off the powerful stride of the great chestnut colt on his right. Macaroni's flying daughter has challenged him, held her own for a few strides, and then retired; but the son of the mighty "pale-faced chestnut" is made of sterner stuff than she. Both horses seem for a moment locked together, then the white face of Blair Athol's son forges to the front; another desperate struggle, another stride and the chestnut colt wins the "Two Thousand" by half a length.

Cheer upon cheer breaks forth from the ring, in noisy greeting of the winner; but the downfall of the favorite is received in sorest silence by the occupants of the Rowley [illegible]—scarcely a man in it but has lost on him heavily, [illegible] to their instinct, the "swells" [illegible] defeat [illegible] but calmest of all is the handsome, high bred face of Lord Francis Erldon. And as Culloden's ill fated owner goes down to meet his beaten horse and speak a word of comfort to the crestfallen old trainer, more than one rough voice in the crowd exclaims: "He's a good plucked 'un, anyhow!"

"It was his temper did it!" almost sobs poor old Barnes. "He was beat before ever he ran the race, my lord!"

"Still, he made a good fight for it," replies Lord Francis quietly, and pats his horse kindly on the neck. Then he turns and walks away, a ruined man.

Another week has passed by, the time is between 10 and 11 p. m., and Janet Harding stands beside her dressing table in the luxuriously furnished bedroom of a large house in Belgrave square, ready dressed for a ball, and occupied in a manner usual to even the most sensible young ladies under those circumstances, that is, looking at herself in the glass.

She had come up to town for the [illegible] festivity, given by a relative of her own, in whose house she is now staying; and the feverish anxiety she has displayed with regard to her toilet on this occasion is so unusual that the said relative, an intelligent woman of the world, has drawn certain conclusions of her own therefrom, especially as Miss Harding has asked permission, frankly, to send a card of invitation to a friend of hers, and has openly stated, moreover, that the friend so honored is Lord Francis Eridon.

The Ladies' Favorite.

The newest fashion in ladies' hats will doubtless cause a flutter of pleasurable excitement among the fair sex. Ladies are always susceptible to the changes of a fashion plate; and the more startling the departure, the more earnest the gossip over the new mode. Dr. Pierce's Favorite Prescription is a positive cure for the ills which afflict females and make their lives miserable. This sovereign panacea can be relied on in cases of displacements and all functional derangements. It builds up the poor, haggard and dragged-out victim, and gives her renewed hope and a new lease of life. It is the only medicine for women's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money refunded. Read the printed guarantee on bottle wrapper.

Have You Thought About It?

Why suffer a single moment when you can get immediate relief from all external or internal pains by the use of Polson's Nerviline, the great pain cure. Nerviline has never been known to fail in a single case; it can't fail for it is a combination of the most powerful pain exhibitors [illegible]. Try a 10c. sample bottle of Nerviline. You will find Nerviline a sure cure for neuralgia, toothache, headache. Buy and try. Large bottles, 25c., by all druggists. 6w30

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman, Sons & Co., Montreal, Wholesale Agents. dw

The Loss of the Hair

Is a great misfortune and the sight of a bald head should be a warning to you to take the best possible care of your hair. A little of Dr. Dorenwend's "Hair Magic" used occasionally will prevent all chances of its falling out or turning gray, and will remove all traces of dandruff. Every druggist has it in stock. Ask for it. dw

From Ocean to Ocean.

Fishermen and miners in Nova Scotia, mechanics and farmers in Ontario and Quebec, hunters and trappers in the Territories, and gold miners in British Columbia, one and praise Hagyard's Yellow Oil, the great internal and external remedy for all pain. It cures rheumatism, neuralgia, sore throat and croup, and is the reliance of thousands. 2w19d

AYER'S PILLS. Sugar-Coated Cathartic

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia. —G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured. —Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored. —Theodore Ealing, Richmond, Va.

"Get Up! Move!"

Generally speaking, the idea is to get up. Social and business usage demands it. If you are at all in doubt as how to accomplish it go and hear the lecture by Rev. T. W. Jeffrey, of Toronto, who speaks in the George Street Methodist Church on Tuesday evening next, 21st inst. He never fails to draw a crowded house, and his lecture is one of great interest and the subject a popular one. Admission 15 cents. 2d114

New Butcher Shop.

The premises on Hunter street next the old Stewart House are being fitted up by Mr. Cox for a new butcher firm which is about to start in business. Messrs. Wm. Bowden and Morris have entered into a partnership, and their new shop will be a model of elegance and commodiousness. They will occupy their new stand in a few days.

The True Blues.

The Shah of Persia.

Every loyal subject is expected to rally to the defence of the Queen who is to be invaded by the Shah of Persia on or about the 24th. He will make a state visit to London accompanied by a gorgeous retion of 65 persons. This will be a grand spectacle, but not half so enjoyable nor come at-able to the people of Peterborough as the "Queen's Birthday sports" on the Association grounds Ashburnham on the 24th. See larger tri-colour posters for list of sports and small bill for list of prizes. 1d

Pyrotechnics Explained.

Fireworks in the popular meaning. But the original meaning is much stranger. The word pyrotechnics is derived from two Greek words—though it does not mean "Great fire"—signifying artistic fire, and such will literally be the grand display of fireworks to be made by the Firebrigade on the Association grounds, Ashburnham, on the evening of the Queen's Birthday. A small admission fee will be charged, but not one cent, what the grand display of Palmer's Sons will be worth.

Don't Lick the Stamp.

A Bowmanville doctor who went to London, England, to consult Sir Morell Mackenzie for a serious affection of the root of his tongue, writes that that eminent authority is of opinion that the trouble was caused by licking postage stamps. Licking postage stamps is a pernicious practice. It robs the stamp of mucilage, which is bad for the stamp, and it puts mucilage into the mouth, which is bad for the mouth. Both these evils can be avoided by moistening the corner of the envelope and the ungummed side of the stamp. The latter process prevents the stamp from curling.

PROF. SEMMOLO, of the University of Paris, in an article published in the Gazette Medicale de Paris, says:—"Dryness of the skin, imperfect digestion and transformation of albuminoid food are present at the beginning of chronic Bright's Disease." Warner's Safe Cure removes digestive disorders. Why? Because it enables the kidneys to perform their functions in a healthy manner when both cause and resulting symptoms disappear.

That the Palace Grocery is the LEADING house, carries the largest stock, finest assortment of groceries and gives better value than any grocery house in Peterborough. Elliott & Thorney's celebrated blend of pure coffee (fresh ground by Tuerk's water motor) is delicious, try it.

A Rank Humbug Discredited.

In the EXAMINER'S Toronto news despatches, published yesterday their is a paragraph relating to the rumoured transference, at a mythical salary, of Mr. Duncan Coulson, manager of the Bank of Toronto here, to the managership of the Bank of Montreal, in that city. The authorities at the head office of the latter institution deny that there is anything in the rumour, which, however, has received general currency, appearing in all our exchanges. There is no foundation, in fact, for it.

A Good Recommendation.

To Mr. J. J. Turner, Sail, Tent and Awning Maker:

DEAR SIR,—The nineteen awnings you put up for me on the front of my hotel this spring are very satisfactory in every respect. The material is good and the workmanship first-class, and I take pleasure in recommending you to anybody wanting anything in your line.

I remain, yours truly,
WM. SHOWDEN.

to secure great bargains in choice, fresh groceries, provisions, &c., which are now being opened out at R. H. Green's grocery, corner Hunter and Aylmer streets, Peterborough, including another fresh supply of that celebrated tea at 25c. per pound. Also a large stock of sugars and other groceries bought before the recent advance in prices, of which the purchasers will get the benefit. Choice butter, fresh eggs, a good assortment of apples and other farmers' produce always on hand, including a large stock of first class potatoes, which is now being sold at 40c. per bag, delivered to any part of the town. tafw

To Quash the By-Law.

The hotelkeepers of the town are taking steps to quash the high license by-law recently adopted by the town. They claim that the vote was illegal, in that enough voters to turn the election the other way were improperly refused the privilege of voting at the polls. It seems the deputy returning officers were instructed to allow only free-holders or those holding a lease for a year to vote. It is claimed these instructions were improper. The complainants have retained Mr. A. P. Ponsonby, Q. C., as counsel. It is probable an action to test the validity of the by-law will be begun as soon as counsel investigates the matter. Mr. Ponsonby goes to Toronto next week to apply for an order *nisi*.

SCOTT-SIDDONS

The Minden Mission.

The Minden correspondent of the Bobcaygeon *Independent* says:—Rev. Mr. Bennett, of Peterborough, has come to take charge of this mission in the interests of the Presbyterian church. We have no doubt that Mr. Bennett will meet with an ample measure of success in his ministrations. He is a young man of high attainments and good ability, with an honest purpose and any amount of energy. His people are extending to him a cordial welcome, and although his field is a very large one, much good, we believe, will result from his labourings.

After a Calm Comes a Storm.

So it is in this case. We know that the farmers have been busy for the past few weeks, so we have left them at their laborious task without getting them roused to such a state of excitement that they would have to quit their work and rush to receive the bargains we have been offering. So now we issue our manifesto. Don't compare other houses with us; we carry larger stocks than all the pretending houses. We buy in larger quantities and buy for cash, and for the next few weeks will cause a panic among all other grocery houses by offering for sale our entire stock of fine teas to make room for our importations of new teas, which will arrive in a few weeks. Those who desire bargains call.

IN HER DRAMATIC

Fishing at Peterborough.

The Grand Trunk Railway Company have issued a neat and carefully compiled guide book of about a hundred pages, giving a complete list of the best fishing and hunting resorts on the line of the railway, in both the States and Canada. The book is invaluable for the summer tourist in search of good fishing or hunting. For Peterborough, there is Rice Lake, reached by the Calcutt line of steamers, 12 miles; Chemong Lake, 7 miles; Katchewanook Lake, 9 miles; black bass and muskinonge, black bass most abundant; best months, June, July, August and September; bait, live minnows; guides, $1.50 per day and expenses; boats, 50 cents per day; any further information will be cheerfully given by Mr. T. Fitzgerald, Peterborough. The hotels are, the Oriental $2 per day, Grand Central $2 and $1.50 per day, and a number of good hotels $1 per day; livery, $2 to $2.50 per day.

Crossley and Hunter at Woodstock.

Messrs. Crossley and Hunter concluded their series of revival meetings in Woodstock Tuesday night. The farewell services were attended by a congregation of 1,500 persons, the utmost number that could be crowded into the church. The *Standard* devotes three columns to a graphic report of the meeting. As was the case in Peterborough, the ministers all made addresses as well as the evangelists. Mr. Hunter announced that the Secretary had the names of 300 seekers, which was but a small tribe to the work that had been accomplished. The evangelists went from Woodstock to St. Thomas, where they joined a trout-fishing party for a few days. On Sunday they open at Exeter and remain there for a few weeks after which they will retire to their summer home on an island in Lake Muskoka near Bracebridge for a period of well deserved rest. At their island home they will be joined by Revs. J. Lancely, of Toronto, and Wm. Kettlewell, of Oakville, who are part owners, and during the warm weather will entertain a large number of clergymen, who need rest and the invigorating atmosphere of that delightful region.

The Ladies of St. Paul's

Held a Successful Sale and Entertainment in the School Room of the Church.

For several months past the ladies of St. Paul's church have been utilizing all their spare time in making up all sorts of articles of domestic wear, fancy, useful, valuable or mere trifles of bric-a-brac, such as ladies delight to manufacture with the needle, which were to be sold for the benefit of the church funds. Every lady in the congregation was asked to contribute, and right nobly did they all respond. The articles shown were highly complimentary to the skill, taste and originality of their makers. The Ladies' Aid Society held the sale in the school room yesterday afternoon and evening, and it was a brilliant success. Very little of the material remained unsold. The room was nicely decorated with evergreens, bunting and flowers, while the rich and variegated coloring of the draperies and the tables heaped up with articles offered for sale added richness to the scene. The ladies, young and old, fitted about dressed in handsome costumes, their pleasant faces and cheery welcome to the visitor at once putting him at ease and leading him to the determination to spend his money freely in the purchase of the goods which were offered at such reasonable figures. From three o'clock till ten at night the school room was thronged with people, and the financial results were highly satisfactory. The reporters were not there the amount realized, but we will wager the ice cream it was a great deal nearer $500 than a cent. The ladies of St. Paul's church make a success of everything they lay their hands to; they work in complete harmony with each other and everyone is willing to do her share; and where all were so industrious it would be invidious to make special mention of any individual workers. There were some twenty or thirty ladies in charge of yesterday's sale, and they all deserve credit. [illegible] managed the refreshment and flower stands, while the gentlemen superintended the sale tables, some half dozen in number. The refreshments comprised coffee, cake, lemonade, ice cream, etc., while the gentlemen were button-holed near the door and easily persuaded into buying handsome bouquets. Each of the stalls was occupied, and several tables were placed in the middle of the room.

During the evening an informal programme of music was rendered under the guidance of Mr. J. S. Parker, the capable and obliging organist, who deserves a word of praise for his readiness at all times to furnish music and prepare an entertainment for the church people. His cheerful indifference to the extra trouble caused him on these special occasions is to be commended, and the ladies of St. Paul's in particular are not slow to appreciate his generosity. The programme last night comprised a solo by Mrs. Mate, "In April"; solos by Miss Sophie Cameron, "The Soldier's Dream" and "Three Young Men"; instrumental solos by Miss Fairweather and Mr. Parker, and a duet by Misses Fairweather and Taylor. These numbers were all deservedly applauded. St. Paul's can boast of more musical talent, probably, than any other church in town.

Shortly before eleven o'clock the lights were extinguished and the sale brought to a close. It was such a delightful success that the ladies may be pardoned if they take credit to themselves for the gratifying results that followed their efforts.

Peterborough District Meeting.

Continuation of the Annual Meeting in the Charlotte Street Church.

Yesterday afternoon was chiefly spent in reading the District Schedules.

It was moved and seconded that Mark street church Ashburnham be referred to the Sustentation Fund for the amount of $150.00 —carried.

Moved and seconded that the Mark street church Ashburnham be referred to the Union church Relief Fund for $200.00 —carried.

On examination of the Circuit records it was found that there had been an increase in church membership of 329 during the past year.

Improvements on parsonages in Ashburnham, South Monaghan, Bethany and Lake-field were reported; also, the building of a parsonage in connection with the Charlotte street church.

The election for a representative to the Stationing Committee was then held. Three votes had to be taken before a choice could be made. The first vote was as follows:—

Johnston, 13; McCamus, 13; Burns, 4; Wilson, 2; Greatrix 1.

2nd Vote.—Johnston, 14; McCamus, 13; Burns, 1; Wilson, 1.

3rd Vote.—Johnston, 15; McCamus, 13.

The Rev. Francis Johnston, of Lakefield, was declared elected.

The Rev. D. N. McCamus and Mr. Hull were elected representatives to the Sunday School Committee.

Moved by the Rev. Wm. Burns, Millbrook, seconded by Dr. J. A. Fife, that this District Meeting memorialize the Conference that, inasmuch as the Scott Act has been found not to work and has, therefore, been rejected by the electorate, we shall in future bend all our energies toward the bringing about of total prohibition of the liquor traffic.—Carried.

Moved by the Rev. A. C. Wilson, and seconded by Mr. Hull, that this District Meeting memorialize the approaching Conference to the effect that it disapproves of the action which brought about the incorporation of the Jesuit Society in the Province of Quebec.

The Laymen retired and appointed the following delegates to the annual Conference: John Hull, Lakefield; R. M. Clarke, Millbrook; Thos. Johnson, Ashburnham; Jas. Brock, Millbrook; John Barnicott; Manvers; Ed. Kerr, Beaseford; D. Sherin, Lakefield; J. L. Hughes, Peterborough; I. H. Richardson, Bethany; O. C. Rowse, Wm. Yelland, H. S. Griffin, Peterborough; Jacob White, Warsaw.

A Practice Match.

The Association Team Beat the Athletics at Baseball.

The practice game of baseball between the Athletics and Association teams on the P. A. A. grounds last night attracted quite a crowd of spectators, who seemed to enjoy the game. It was an exhibition of leather-hunting on one side and errors on the other, which, from a professional point of view, was very tiresome; but the crowd looked at it very leniently and applauded the wild playing instead of the good. The Association team scored an easy victory, the Athletics' pitcher, Farley, being pounded all over the field. He was relieved in the last innings by Taber, who did somewhat better. On the other hand, the Athletics did not make over half a dozen hits off Pearson, but scored their runs through their opponents' errors. Mr. Sam Ray umpired and gave general satisfaction. Game was called after four innings on account of darkness. The winners were promptly challenged to a match with the Ashburnhams, a club organized in the village across the water, and it is probable the game will be played in a few days. It is the intention to hold these practice matches as frequently as possible. The idea is a good one, and, if carried out, will benefit all the clubs concerned. The score last night was:

ATHLETICS.		ASSOCIATION.

A Perilous Position.

This forenoon there was an anxious, breathless crowd in front of the City Hotel. Mr. Clancy's two year old child had stepped out of a second story window on to the sill which runs underneath, and there it stood for a few moments, tottering and ready to fall either forward or backward as the case might be. A group of men gathered on the sidewalk ready to catch the youngster should it fall, while the horrified father flew upstairs and reached the child just as it fell backwards to the window. It was an anxious moment indeed, and everyone breathed easier when the little one was safe.

THE "Reference Handbook of the Medical Science," speaking of kidney disease, says:—"Often symptoms on the part of other organs, palpitation, dyspepsia, difficult breathing, headaches, or weak vision first impel the patient to seek advice." The symptoms related both the physician and patient. The only safe method of treatment is a faithful use of Warner's Safe Cure. It not only relieves healthy action of the kidneys, but cures the symptoms of disease.

Port Perry's Big Demonstration

Rural Competitions—Athletic Sports and Trotting Events. Big Prizes and a Big Day Generally.

The EXAMINER has received from Mr. P. Maitland, secretary, the programme of a grand demonstration to take place in Port Perry on Wednesday and Thursday June 5th and 6th. The programme, which will be presented under the auspices of the local Oddfellow band, will consist of contests between first and second class bands, sparring in the ring, baseball and football contests athletic games etc. The sum of $1500 will be given in prizes. The first day is devoted to a football match; contest between first-class band prizes ($200, $125 and $75) and trotting races—3-minute trot, purse $125 open to provincial bred horses, and the 2.32 class trot, purse $150, grand concert in the evening. The second day includes a baseball match second class band contest, (prizes $150,$100,$75, with consolation prize of $40 cornet), and 2.40 trot, purse $150 and free-for-all, purse $175. If the local band wishes to enter, a copy of the "rules and regulations for bands" may be obtained at the EXAMINER office. Port Perry shows a large degree of enterprise and both our local band, local horsemen and local football and baseball clubs have a chance of securing a slice of the prize money. In the football and baseball matches a silver cup valued at $10, is the prize to the winner in each event. Detailed particulars may be had on application to P. Maitland Secretary, P. O. Box 30, Port Perry.

Now! In the Spring of the Year.

During winter, nature wisely arranges that we should live on food containing much fat, or, as they are known, hydrocarbons, for the purpose of supplying heat to the body; the chemical operation necessary to transform fat into heat is the exclusive work of the liver, and so during the time stated it is constantly congested.

With the approach of warm weather our diet changes to muscle-producing food, and the work of the liver is much lessened. In the majority of cases, however, it is ☞ unable to completely throw off the excess of bile, but remains congested, causing that ☞ lazy, tired feeling which many have in the spring months, when the weather becomes warm.

☞ This is evidence of an unhealthy condition, and though people appreciate the necessity of an alterative at this period, the common idea is to take drastic pills and produce a cathartic effect, only to make matters ☞ worse. The liver must be unloaded, and its proper action restored before hot weather, if you wish to ☞ preserve health, and if this distinct call of nature is unheeded serious results will occur.

☞ The blood will become loaded with bile and lithic acid, and as ☞ every drop of vital fluid passes through the kidneys to be purified, they soon break down and are unable to carry out the deadly poison. Warner's Safe Cure and Warner's Safe Pills have not only a ☞ specific action on the kidneys, but on the ☞ liver also.

☞ They thin the thickened bile so that it will pass out through its ducts, enable the glands to unload themselves, act as a solvent on all biliary acids and in a world, ☞ fit these great organs for the season's work, ☞ preventing blood poisoning, inflammation, abscess, and all affections to which they are so liable.

☞ As you value the blessings of health, do not allow the summer to approach without giving your system a "general house-cleaning," in the manner we have indicated.

☞ "To be forewarned is to be forearmed."

News Nuggets.

—This evening a meeting of the Order of Chosen Friends will be held.

—Harry Lindley, the inimitable, is on the road to Peterborough. He opens in the opera house Tuesday.

—To-morrow a cricket match will be played here between the Lindsay and Peterborough school elevens.

—Mr. W. H. Robertson's yacht Eva was launched this forenoon. The Eva has been newly painted and is having a new boiler put in to-day.

—To-morrow at noon the time for entering appeals against the assessment expires. The town clerk will receive appeals up to that hour.

—The bicycle club will have a run out to-night. The wheelmen will assemble at the new club rooms, corner of Brock and Water streets, at 7.30 sharp. The members of the club are getting new uniforms from Dolan & Co.

—Mr. Sam. Ray would be grateful if the person who borrowed a pair of cricket trousers from him last winter to attend a carnival either at Keene or Millbrook, will leave them at his store.

HOUSE-CLEANING.

How to Begin the Spring Crusade Against Dirt.

The General Clearing Out of the Unconsidered Trifles—The Separation of the Wheat From the Chaff.

All around us are evidences of spring. When a boy begins to look up his ball and his bat, you may be sure it is time for the housewife to look up her dusters, brooms—in fact all the paraphernalia for house-cleaning.

By beginning in time and getting everything ready the annual crusade against dirt and disorder will not be so formidable. By attacking one room at a time the male members of the family will have no cause for complaint. A man is a pantaloon only so long as he does not interfere with his comfort.

The first room cleaned should be the spare room, so that in case any of the other bedrooms need papering or painting it will be ready. And by the way, when you decide to paper any of the rooms, don't forget to examine the Wall Paper and Decorations at the fancy goods store of C. B. Routley, George street, Peterborough. He has such a lot of patterns, the product of some of the best manufacturers; and the prices he sells at makes papering cost far less than is anticipated.

While in Routley's ask to see the newest thing in Curtain Poles, fitted up with ornamental ends of brass trimmings. They help to make a room look well, and cost only from 35c. to $1 up. There, too, you may order your Dado, Wrought Iron, Wire and Table Guards. Also, Fish Nets, Wire and Silk Sporting Nets, at low prices, and with large assortment to select from, make your home beautiful and attractive. dw

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "**RELAX SHIRT**," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The **COLLARS** we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered **HANDKERCHIEFS**, in a variety of 35 different Styles and Designs, the large majority of which are 25c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 20c.

A beautiful Assortment in all our lines. We have not said much about our **KID GLOVES** lately, but we are now rattling them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.50—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in **CASHMERE HOSE** and **[illegible]** LINEN. Say 30c, buys a pair of Cashmere [illegible] that have been sold at 50c. A handsome value in finer [illegible] for them, buy them and if you ever get a pair that stains, [illegible] out, bring them back and get your money.

AT TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

A BLOW AT FEDERATION.

SIR THOMAS GALT SAYS THE INJUNCTION MUST CONTINUE.

The Chief Justice's Decision Will Likely Go on to Appeal—The Matter of a Speedy Trial Not Settled Yet.

TORONTO, May 18.—Judgment as to the continuance of the injunction against the Victoria University Board of Regents by the town of Cobourg and individual plaintiffs was given by Chief Justice Sir Thomas Galt at Osgoode Hall yesterday. The injunction was secured to restrain the defendants from removing the site of Victoria University at Cobourg to Toronto.

The case has excited great interest throughout the Dominion. But more especially were members of the Methodist Church interested in the issue of events.

A goodly gathering of interested persons listened with attention and anxiety to the decision. This will continue the injunction until after the trial and as read, by His Lordship is in effect as follows:

There are two separate objects: first, the removal of Victoria College from Cobourg, and second, the taking steps to federate Victoria with Toronto University. There are also three separate plaintiffs, the town of Cobourg, the subscribers to the endowment fund of Victoria University, and lastly representatives of the Senate. The rights of these parties are entirely distinct. The town of Cobourg and the subscribers to the endowment fund have nothing whatever to do with the federation of Victoria College with Toronto University so far as conferring degrees is concerned, and Messrs. Kerr and Hough, on behalf of the Senate, have nothing whatever to do with what may be called the material property of Victoria University. The most important question before me is that relating to the federation of Victoria with Toronto University; and this is the question which I propose in the first place to discuss.

By the original charter there are three bodies, the trustees, the visitors, and the board, which is composed of the other two. The board has power to appoint a principal and all officers, etc., and to define their duties. The trustees had control of the financial affairs. The visitors were to have authority to do what pertained to the office of visitors. It is to be observed that the principal and professors have no place except as officers of the corporation. They have nothing to do with the management of the Academy or its property.

The next statute is the 13th and 14th Victoria, which authorizes the removal of the site of Victoria College from Cobourg to Toronto. The question considered was the power of the Senate. Then comes the statute 31 Victoria, chap. 48, which is the charter, under the 31 and 32 Victoria and the 33 Victoria, and many others have been consolidated in the consolidated Act of 1887. This adds to the trustees, the visitors and consequently the board, and now the whole of the property in a body corporate to be called "The Board of Victoria College at Cobourg." By sec. 16 the members of the college board and the president and professors of the various faculties of the college shall constitute the Senate of the University of Victoria College, and shall have power to confer degrees of bachelor, master and doctor in arts, science, law, divinity and medicine, and shall have the management and superintendence of the affairs of the university as shall from time to time be assigned them by the college board.

It is plain that unless power is conferred on the Senate by the board, they under the Act of 1887 have no authority to interfere with the management of the corporation.

Up to this time I agree with the argument of Mr. Mills that the Senate had no special authority except the conferring of degrees. No change was made until 31 Victoria, chap. 48, when a very important alteration took place. By sec. 6 of this Act, sec. 16 above referred to is changed to read: "The members of the college board and president and professors of the college faculties of the college, the dean of each faculty of the federating universities, and one member of the faculties of law, medicine and theology shall constitute the Senate of Victoria College, and shall determine courses of study and qualifications for degrees, the appointment of examiners and all matters strictly pertaining to the work of education, and also the time, place and mode of electing representatives of the alumni to the Senate."

A statute was then passed providing that the members of the board and professors of the various faculties should be members of the Senate and each representative of affiliated colleges as may be admitted under such regulations as may be made by the board shall cooperate the Senate and shall have power to confer degrees and over all matters pertaining to education, and to senate, subject to ratification by the corporation, the terms upon which chartered colleges and schools may become affiliated to the university.

It seems to me that after the passing of this Act although the Senate has no authority to interfere with what may be called the material affairs of the university, exclusive authority is given to it as regards education and also as to all matters subject to ratification by the board.

The University of Toronto Act, 52 Vic. chap. 44, is to the same effect, which I have already referred to, while the powers of the Senate are largely increased by the Act of 1887, after the suspension of their degree-conferring power, to federate.

I have pointed out that the entire management of the educational department of the university is vested in the Senate, which alone has the power of conferring degrees. It appears to me therefore, that the Board of Regents has not the power to suspend its powers to confer such degrees, and it may be to alter the system of education, without the concurrence of the Senate. The Senate is not the creature of the Board of Regents; it is established by the act of incorporation; it alone has the power to confer degrees, and although the modification mentioned in subsec. 2 of sec. 6 must be given by the Board of Regents, I do not think they have the power to give it without the concurrence of the Senate.

I therefore consider that, so far as this branch of the cause concerned, the injunction must be continued until the trial.

As regards the claim of Cobourg and the subscribers to the endowment fund, this depends entirely as to whether or not any contract as alleged by the plaintiffs has been made between the town of Cobourg and Victoria University. This is a matter of evidence and it is not for me to say how I should not deem it expedient to continue the injunction; but as it appears from the affidavit of Dr. Potts, through whose exertions a very large sum of money has been obtained for the erection of the proposed building (in addition to the endowment), and as I am of opinion that federation cannot take place without the concurrence of the Senate, and as all arguments must be left to the judge at the trial, I think the injunction must be continued until after the trial, or until after an opportunity has been afforded the defendants to contest the propriety of any decision as respects the powers of the Senate.

This ruling will therefore be absolute with costs in the cause.

After the judgment had been given, defendants' counsel were given the liberty to move for order to expedite the trial. Chief Justice Galt expressed the view that it would be a useless expense to go on with the trial until his judgment had been taken to the Court of Appeal, so that no order was made as to a speedy trial yesterday. It is expected the motion of an early trial will be brought up to-day.

Working the Phosphate Mines.

OTTAWA, May 17.—The phosphate mines in this district are being worked briskly and a good deal of ore has been shipped to the States. It is expected that by the end of the month several thousand tons will have been forwarded by English shippers to the English market.

A Strange Coincidence.

Perhaps sixteen years ago, on the occasion of a conflagration at Quebec, something like that of this week, Lieut. Nelson, an officer of the Royal Artillery, was killed under circumstances similar to those attending the death of Major Short. Some members of Mrs. Baines' family are still living in Toronto.

BAPTIST HOME MISSIONS.

Annual Meeting of the American Society at Boston—The Church's Growth.

BOSTON, May 17.—The 87th annual meeting of the American Baptist Home Mission Society began here to-day. Nelson Blake of Chicago delivered the opening address. The Executive Committee's report, read by Rev. H. L. Macrobeans of New York, stated that the past year showed the largest number of missionaries ever sent out by the society. Baptists number first and church edifices were erected at the rate of 51 per week, 10,000 discussions and 61,156 members died during the year. There are now 3,669,669 Baptists in the country. The century mission work has been conducted during the past year in 46 states and territories and in Ontario, Manitoba, Alaska and in three states of the Mexican Republic. The number of laborers supported has been 750, being 67 more than last year. Seventy-four new mission churches have been taken up the past year. The society aids in the maintenance of 20 schools for colored people and in the Indians. Treasurer J. C. Hambling reported total receipts of the year, $567,000, total expenditures $564,000.

Resolutions were adopted providing for a committee to act with representatives of other Baptist bodies to secure efficient chaplains for every post of the United States army.

BRIGHT'S POLITICAL HEIR.

JOHN MORLEY DEFINES THE LIBERAL PROGRAM.

A Rumor That the Queen is to Visit Ireland for a Week—The Regiment Returns—General Cable News.

LONDON, May 17.—Mr. Morley made the finest speech last night which he has delivered this year. He sounded more distinctly than before the social note of the Liberal program and defined what the Liberals want to do. He said: "We shall not make the world over again in a day. We shall not turn this London purgatory into a paradise perhaps, in your lifetime or in mine, but we can go on with the work by making beginnings, and by trying experiments in new directions. We want to give those who plow the ground, and who in the sweat of their brow sow the seed, a rather handsomer share in the sheaves when they are reaped. We want that those who weave the garments should not themselves go cold." Mr. Morley is proclaimed Bright's successor; the heir to Elijah's mantle.

Mr. Morley condemned a speech made recently by Gen. Wolseley at Oxford, in which the latter said many harsh things about the Liberals. Mr. Morley said: "It is a bad sign for the welfare of the country when an officer of Her Majesty's army stoops up to do the dirty work of the Primrose League. It is indecent that a servant of the Crown should impute bad motives to men who have been and may agree be his colleagues and superiors." Mr. Morley also declared that the Government must be hard pressed when they were forced to employ the army and Government employes to defend their wavering cause.

It is again rumored that the Queen will visit Ireland and remain there a week. The same report says that she will hold a drawing-room at Dublin Castle and review the Irish troops at the Curragh of Kildare. The Curragh of Kildare is a tract of Crown land where reviews yearly take place, and where races are run.

The Committee of Convocation reports strongly against betting and gambling, and lays down emphatically that it is immoral in principle for a Christian man to seek his livelihood or the increase of his estate by means of unproductive labor from which no profit accrued to the common weal, and by which the winner rendered no equivalent to the man of whom money he received. They recommend spiritual measures and the assistance of the company's rules by expanse of passenger ships and the officials of railroad carriages and that the legislative authorities deal with the present mischief in the same spirit which leads Parliament to suppress lotteries.

There was a fashionable wedding in Donald Fraser's Presbyterian Church yesterday afternoon. Sir Arthur Sullivan gave away the bride, Miss Hope Gleam, to the bridegroom, Richard Mars.

A Radical Motion Defeated.

LONDON, May 16.—The House of Commons by 331 to 176, rejected Mr. Labouchere's motion to abolish hereditary seating in the House of Lords.

The Regiment Returns.

LONDON, May 17.—In the House of Lords last night Lord Sudely raised the question of the Regiment's departure, and in reply Lord Elphinstone stated that last year's agreement between the Imperial and Dominion Governments had been modified. The Dominion Government found it difficult and expensive to provide a garrison; the Imperial Government therefore decided to provide a royal marine artillery garrison under command of three officers, at the annual maintenance charges of $30,000 to the Dominion Government. Men and officers have left for Esquimalt with the exception of the submarine miners, who have not yet completed the drill armaments now on the way. His Lordship could not say exactly when the fortification would be completed.

Riotous Strikers Shot.

BRUNEX, May 17.—There has been rioting in Russia and the strike is extending. The strikers miners are demolishing the pits, threatening officials and preventing men from returning to work.

The Freisinnige Zeitung says the negotiations between mine owners and the striking miners looking to a settlement of their disputes have been suspended owing to Herr Krabler, a mine owner, declining to entertain the demands of the strikers. The other mine owners were prepared to consider them.

A conflict has occurred between the military and the strikers near Beglan. The troops fired upon the strikers, killing a number of them.

The Rhinisch Westphaelische Zeitung states that 80,295 miners have resumed work.

The Situation Threatening.

BERLIN, May 17.—Emperor William sent an envoy to Westphalia recently to make private inquiries regarding the strikers. Seventeen thousand men are on strike in Silesia. The situation is threatening.

The Claims Settled.

SHANGHAI, May 17.—The claims for damages arising out of the Cho Foo riots have been settled. The English and American fleets have been reboisted, the Chinese troops saluting them.

An Anarchist Agitation in Italy.

ROME, May 17.—Anarchists are fomenting a land agitation in Lombardy. There has been serious rioting, and a number of houses have been ransacked. Troops are suppressing the disorder.

PRICES AND PROSPECTS.

Moderate Activity in General Merchandise—Cereal Crop Prospects Excellent.

NEW YORK, May 17.—At most of the cities reporting by wire to Bradstreet's this week general trade is of moderate volume, or only fairly active. Boston and New York only constitute mild exceptions. The relatively best demand case is for dry goods and west for hardware, lumber and groceries.

The drouth in Kentucky, Ohio and Indiana has been broken, but it is becoming serious in Louisiana and is having an effect in Texas. Cereal crop prospects are excellent. Rice is not as favorably situated as it was and cotton has suffered a little.

Increased receipts of cattle and hogs at western centres have depressed these markets and cattle are off 30 cents and hogs 30 to 40 within four days.

Prices of groceries, country produce, naval stores, crude rubber and furniture tend lower. Better has reached a very low price.

Good crop prospects created a bullish disposition regarding western railroad shares, and with active buying of Oregon Transcontinental shares for control gave a decided strength to stock speculation. Bonds are less active, but investments continues firm. Money at New York is easy at 2 to 2½ per cent. on call.

No pronounced improvement has developed itself in the iron market. Copper at New York is down to 12 cents.

Wheat flour has been in fair home and foreign demand only, which with the downward course of wheat results in depression in high grade stock. Other varieties are fairly maintained. Heavy cables, splendid home crop prospects and unloading and realizing have influenced wheat prices to decline 2 to 2c, and the volume of business is smaller. Supplies of corn via the canal being large, realizing pressure brings prices down 1c., and on spot 2 to 2½c. Oats are off 1c. in sympathy with wheat and corn.

Hog products are heavy, with the rest in a light business. Pork is off 50c a barrel, and lard 17 to 18 points.

There has been a light business in raw sugars. Warehouse deliveries and arrivals have been free and stocks at the four distributing ports of the United States have increased, yet holders have been confident and unwilling to make concessions, so that prices show steady.

There has been a heavy demand for raw coffee for jobbing and distributing requirements, and in restricted offerings in some lines prices are ½c. higher.

Print cloths, low grades, are 1-16c. higher. Brown and bleached goods are in good demand. An average re-order reported by jobbers. Ordered by New York jobbers, while agents report only a moderate business.

Raw wool is active and higher in the producing districts but dull and firm on the east board. Cotton is 1-16c higher on a light movement, less favorable crop reports and feeble Liverpool advices.

The Week's Failures.

NEW YORK, May 17.—Business failures reported to Bradstreet's number 190 in the United States this week, against 174 last week and 180 the week this year. Canada had 23 this week, and 18 last year. The total failures in the United States Jan. 1 to date is 4,795, against 4,363 in 1888.

Probable Rates on Rent.

CHICAGO, May 18.—The Freight Committee of the Central Traffic Association yesterday agreed to reduce the local rate to the basis of 65 cents a hundred pounds, Chicago to New York, taking effect May 18. The present rate is 85 cents by all-rail lines, while 50 cents less boatshore leave the differential rate of the Chicago & Atlantic, the Wabash Western and the Grand Trunk's Montreal route. The purpose is to abolish differentials and make the rates uniform by all lines. It is feared that the Chicago and Atlantic and the Wabash Western which are not members of the association will now cause trouble.

COMP'S CUNNING SCHEME.

WESTERN LIQUOR DEALERS BADLY SWINDLED.

The Electric Sugar Refining Process Found Inland—Whisky Aged Six Years in Ten Minutes—Alchemy, not Results.

CHICAGO, May 17.—One of the biggest swindles of the year has just been brought to light. Western liquor men have been mulcted to the tune of $200,000, and a bright young chemist named Comp is now living in luxury for away. John Archibald Comp came to Chicago fifteen months ago and put up at the Clarendon hotel. Among his effects were two large trunks and a small refrigerator. He seemed to have plenty of money and it was noticed that several wholesale liquor dealers were among his visitors. Mr. Comp claimed to have discovered a process, which, when mixed with pure whisky, would give it the color, taste and appearance of from 4 to 6-year-old high-wine. Called to manipulate the process quantity of raw spirits became necessary and the entire process was accomplished in the presence of the victim.

Mr. Comp wished to establish a refining company with a paid-up capital of $1,000,000. The profits would be enormous. He refused to divulge what the compound he used consisted of. The ingredients were known only to him.

He managed to rope in many victims and finally rented an office in the Home block, where for several weeks he quietly attended his business. In his room was the refrigerator referred to. The victims would procure a bottle of poor whisky; then Comp would pour out one glass, two in a teaspoonful of this compound, fill the bottle with water and place it in the refrigerator. This was done in the victims' observing every movement. Mr. Comp would close the lid and in five or ten minutes would raise it and take out what appeared to be the same bottle filled with liquor of a higher grade. It was wonderful. Whisky which would be purchased at $1.50 per gallon in ten minutes' time became six years old and worth $3 per gallon. The electric sugar refining process dwindled into insignificance compared with Mr. Comp's scheme. Many prominent citizens invested, and plans were drawn up for the erection of a laboratory.

Finally one prominent distiller suggested a detective to investigate Mr. Comp's methods. The detective became intimate with Comp, often witnessed the new transformation, and began to believe the processes were bona fide. Comp finally got so bold that he would age liquor without the refrigerator, and did so several times in your office. The method of doing the same except that he would steep bats in an inner room to get in an ingredient known only to himself. Not long since the detective entered Mr. Comp's room while he was asleep and found there what looked like a tin armor. It would reach from the waist to the armpits. As the contrivance was a small facsimile. The armor was hollow and constructed a high grade of whisky.

The detective accompanied Comp and toyed him with the fraud. He owned up and offered to take the detective into partnership with him. It was agreed to and Comp then explained the whole trick. The armor was placed on the bottom and an ingeniously contrived trap. When a bottle of poor whisky was put on the trap, by pressing a spring a bottle of good whisky would be substituted, and the transformation was so perfect that there was little chance of detection. The one of all many way to provide whisky for an exchequer when he did the trick without the aid of the bar.

Mr. Comp informed the detective that he had worked Kansas City for $60,000 in three weeks, and that nothing could be done to him because those who invested in his scheme knew it was a case of defrauding the government. It is also stated that the ingenious young man sold more than $200,000 of the secret in Chicago, Cincinnati, St. Louis, Kansas City and elsewhere. The detective reported to his employers and they to the federal authorities, but Comp evidently suspected this and skipped before the officers could get hold of him.

A SENSATIONAL STORY.

General Gordon Said to be Alive—Herald Bennett on His Way to Khartoum.

NEW YORK, May 17.—Newspapers and club circles are excited over news from Europe that James Gordon Benn t, proprietor of The New York Herald, has gone to Khartoum. He left Paris three weeks ago. One story is to the effect that at the Club Menton in Paris one night an officer who had seen service in the Egyptian army said it was impossible for a foreigner to enter Khartoum and depart alive. A discussion arose which culminated when Bennett declared that only one possessing sufficient brains and money could visit the Mahdi and return unscathed and offered a heavy wager that he could himself do it within six months. The bet was accepted, and Bennett, accompanied by an intimate friend, started on the journey.

Another story is that on the evening in question, at the club mentioned, Bennett received a despatch from a Cairo correspondent stating he had received a wire from an envoy of the Madhi with important news regarding Chinese Gordon and that the latter was still alive and kept a close prisoner, that the new Madhi by reason of his reverse in Kordofan and the Bahr-El-Ghazal and his loss of the province of Darfur, was willing to ransom Gordon for a million francs. The next few days Bennett made arrangements for the trip and for the payment of the vast sum mentioned and with an intimate friend set out for Egypt.

At The Herald office here it is stated that Bennett has been in Cairo, but nothing is known about his prospective movements.

HIS FIRST WIFE GRUMBLED.

So Duggan Left Her and Married Again—Ambitious City Hows.

HAMILTON, May 17.—Jeremiah Power Duggan, the bigamist, was remanded for a week at the Police Court this morning. Duggan admitted to Chief McKinnon that he got married when his first wife was alive. He deserted her in Toronto four or five years ago because she was continually grumbling.

The corridors of the Royal Hotel were thronged to-day with spruce young men wearing shiny silk hats and other evidences of festive intentions. They are members of the society known as the Knights of the Golden Eagle, and they came here to assist in the institution of the grand castle of the Dominion of Canada.

It is said that $700 worth of condemned canned lobsters has been dumped into the inlet within the last few days. They were all from one wholesale house.

At a recent meeting of the Hamilton post-office clerks engaged in Sunday work it was unanimously decided to request the postmaster to discontinue the Sunday work, and in case of his non-compliance to petition the Postmaster-General.

At 2.30 this morning a special freight going east, in charge of Conductor Eames, ran off the track at Missisco and traffic was suspended until 7 o'clock. The brakeman had gone ahead of the train to open the west switch, but he did not have time to get it properly set before the engine arrived and went bumping along on the ties followed by two car loads of dressed beef. No one was hurt, and the track was clear before the passenger trains were due.

Miss Minnie Graham, the well known local singer, is reported to be dying.

The city residence of Valancey E. Fuller was sold yesterday by Mullieu and Stewart. The purchaser was Mr. Ward, who paid $7300 for it.

Rev. D. D. McLaren, of Barrie, is the member of the Ontario Government Commission to enquire as to the teaching of English in the schools in Prescott, Russell and Essex.

Those who deem it possible to stimulate the manufacture of iron and steel and accelerate the development of the immense mineral resources of Canada by high tariffs of these articles, should read the remarks of Abram T. Hewitt who is making a visit to England to look into matters connected with the manufacture of steel, more particularly with the Basic process of making open hearth steel. He says:—"My visit will probably result, in time, in a general adoption in America of the Basic process. I have seen the principal steel manufacturers of England and the Admiralty tests, and have gained all the information I hoped to get and I am well satisfied. I am convinced America will make iron and steel for mankind in the long future. We have the iron, coal, capital, skill and the energy necessary to do it. The tariff, that foolish tariff, is all that hinders us now, but that is only temporary. Another generation will see it removed. I believe the American people will get tired of starving in their own fat after a while."

A PARAGRAPH appeared in the editorial columns of the EXAMINER on Tuesday, referring to the removal to California of Mr. T. D. Craig, M.P.P., East Durham. The paragraph was written, as any one plainly see who read it, in a jocular and mock-heroic vein, and was entirely political in its character and intended no personal disrespect for Mr. Craig nor depreciation of his abilities. Besides, the writer was not aware of the physical condition of Mr. Craig, which requires his removal to a more southern climate till after the paragraph had appeared in print. Many other journals, doubtless, in a similar state of ignorance as to his ill health, have made political use of Mr. Craig's removal to the United States. The Port Hope *Times* takes up the cudgel in Mr. Craig's defence, with as much warmth as if that gentleman had been seriously attacked, and viciously maligned. Mr. Craig is at once too much of a Christian gentleman, and too much a man of the world to take offence at a little badinage, without the slightest sting of malice in it. When he removes from Canada this country will mourn the loss of a citizen whose moral influence, aims and acts have made him well known and respected. Apart from his political principles, which the EXAMINER cannot regard with the least degree of allowance, Mr. Craig is a citizen whom good men delight to honour. It is to be hoped residence in a warmer climate will restore him to health and that usefulness which will be his characteristic in whatever community he is a citizen.

The School's Greeting.

His Lordship Bishop O'Connor Tendered A Reception at the Murray Street Separate School.

Friday afternoon the library of the Murray street Separate school was decked out in gay attire in honor of the visit of His Lordship Bishop O'Connor, who drove down about two o'clock accompanied by Rev. Fathers Rathken and Cotey. The pupils and teachers assembled in the library, where the reception took place. Mr. John Haskett, chairman of the trustee board, was also present. The following address was read by Thos. Crowley :—

To the Right Reverend R. A. O'Connor, D.D., Bishop of Peterborough :—

MAY IT PLEASE YOUR LORDSHIP,—We, the teachers and pupils of Saint Peter's school, desire, in union with the laity of your diocese, to offer our felicitations to your Lordship upon the endurance you have exhibited in being made the chief pastor of the important diocese of Peterborough.

The first bishop of our diocese, the saintly and fervent Doctor Jones, was for himself a place in our memories, that time alone can efface. His solicitude for the schools of his diocese held a first place on his programme of duties. Your immediate predecessor, the worthy bishop of Gindonia, refused during his short rule of the diocese to warm himself in fraternal progress as to the condition of the first bishops of Peterborough, the schools under their superintendence received an impetus forward which should remain prior to their advent.

We have learned with almost selfish satisfaction, that our Lordship's priestly career has been intimately interwoven with educational progress in your late parish, which predicts the fostering care that education will receive in the wider area now under your episcopal guidance.

To it, with deep pleasure we revert again to the interest manifested, by the former occupants of the episcopal chair of this diocese, in the youth in the cause of mental and moral culture, and in the elevation of education to a still higher plane, as enlightened horizon contracts to end we look forward to genuine triumphs, through the instrumentality of a professed teacher, and lover of education, as your Lordship is known to be.

The identity of your interests, your episcopal piety, and the authority over other created spirits, vested in your office, demand our acknowledgment, as children of the church, which we hasten now to offer cheerfully at this opportune moment and we devoutly invoke the continuance of your benedictions to encourage you to labor for His glory through years that will reach beyond the "span of human life" in blessed works, that will endure within the sphere of your influence to a higher attainment, and a more complete knowledge of their temporal and eternal welfare.

It will be gratifying to your Lordship to learn that the educational status of the Separate School, if it does not exist, is fully equal to that of the Public Schools in secular and superior to moral education.

Our future school days have pleasure in store for us in anticipation of frequent visits from your Lordship. If your courtesy and unmerited desire permit, and in consideration we welcome you to your new diocese, your higher and exalted duties, and as our spiritual guide, with a charm of joyful welcome that never can terminate.

We humbly ask your Lordship's blessing on our studies and exercises.

Signed on behalf of the school, this seventeenth day of May, 1889 :

His LORDSHIP replied at considerable length, referring to the intimate relations with education in his late parish, announcing that he would always use his best efforts towards the promotion of education in Peterborough. His Lordship's address was full of information and good advice to the pupils, whom he promised to frequently visit and inspect their progress. His concluding remarks were eminently satisfactory, when he gave the school a holiday next Thursday.

His Lordship was presented with a beautiful bouquet by Master James Cavanagh, and Rev. Fathers Rathkins and Cotey and Mr. Hackett were also favored with floral tokens.

After the reception the pupils were given the remainder of the day by Mr. Mallmoyle.

A Pointer.

As every reader of this paper knows, it has become one of the fine arts to write attractive and interesting advertisements—especially medical ones.

Now it seems to us that it, for instance, the world-wide advertisers of Warner's Safe Remedies would adopt a style whereby they could work in a startling story of, say, wolves, we believe the famous sales of their excellent remedies could be still more largely increased. We give them the benefit of the idea at any event. Let it commence like this :—

Patter! Patter! Patter!

There it is again. It is not fifty yards from where he last halted. The steps are too light for those of a human. A grizzly would rush upon its victim with a roar of defiance and anger. A panther would hurl himself through thirty feet of space, with a scream to unnerve the hardiest hunter. "Wolves," whispers the hunter, as a howl suddenly bursts upon his ear.

Wolves! the gaunt, grimley wolves of the foot-hills—thin and poor and hungry and savage—the lean tiredness—the mouth full of spittle which can exact the shoulder-bone of a buffalo. He can see their dark forms flitting from point to point—the patter of their feet upon the parched grass proves that he is surrounded—yet no more in danger, and no more effectually surrounded than he who trifles with the symptoms of kidney disease. And you, reader, know whether or not you are a victim to its fiendless encroachment. If your back aches, if your eyesight is failing, if your appetite is feeble, if your urine is not clear and of a pale straw color, do not hesitate on the prairie of danger, but flee to the nearest haven of safety, then resort to the only known cure for kidney and liver troubles, Warner's Safe Cure. It is a duty you owe, not only to yourself, but to your family and society at large.

Delays are dangerous.

Had the traveller not been overtaken in the night, and unarmed, the wolves would have had no terrors for him. We warn you fast now, in broad daylight, before the wolves of disease sink their poisoned fangs deeply into your flesh and the night of death settles down upon you, to stop your ears to prejudice and bigotry, and to fly to safety through the means we have pointed out.

Quick Time.—40 Hours.

"I always use Hagyard's Pectoral Balsam for colds and it cannot be beaten. It has always cured me within 48 hours, which no other medicine will do, and I always keep a bottle by me." These words from Chester Miller, Lisery, Ont., prove the efficacy of a popular preparation. 2w18d

Further Great Cures of Skin Diseases by the Cuticura Remedies.

Boy one Year and a Half Old. Face and Body in a Terrible Condition, being Covered with Sores. Sulphur Springs did. Cured by Cuticura Remedies.

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition, the former being entirely covered with sores. I took him to the Minnesota Sulphur Springs, but he did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his face and the CUTICURA SOAP in washing him. He is now five years of age and all right. The other case was a disease of the scalp, which was caused by vaccination. I used the CUTICURA SOAP and rubbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. They have proved successful in every case where I have advised the use of them. I do everything here myself, as others have proved under their treatment. I recommend them for any disease of the skin as being the best in the world. This is my experience, and I am ready to stand by my statement. JOHN H. BERG, American House, Hagerstown, N.Y.

An Unbearable Skin Disease Cured.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was covered with sores, and sometimes the itching and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended, I decided to give them a trial, using the CUTICURA and CUTICURA SOAP externally, and the RESOLVENT internally for four months. I call myself cured, is gratitude for which I make this public statement.

Three Long Years in Bed with Spinal Disease.

Charles Cluthe, Esq., Toronto,

DEAR SIR—I wish to inform you how I am getting on. I am splendid now. I can walk any distance. I work all the time. My mother and I do all the housework for a large family. You know when you came to measure me I had to be held up, but after you put the instrument on I could walk through the house and the third day I could walk out. I feel that I can never thank you or say enough for you, when I think that for 3 long years I was a poor helpless girl, sometimes in bed for four months at the time and getting worse every day. Anyone wishing further particulars refer them to me. Thanking you once more, I remain your true friend. MATTIE GRAHAM, Peterborough.

Rupture.

DEAR SIR—I am only to inform you that the Schmidic Truss you put on me last spring has been all that you promised, and more, for it has healed my Rupture, which I was troubled with for a long time, and not having been able to work on account of it; but on hearing of you, I came and had you adjust the Truss, which gave me great relief at once, as I was able to work at any kind of work. I would not part with it for ten times the price if I could not get another. For further proof send them to me.

I remain, yours truly,

THE GALT HOLINESS CASE.

Considered by the Synod—The Defendants' Appeal Dismissed.

BOWMANVILLE, May 16.—At the meeting of the Presbyterian Synod yesterday afternoon the Galt holiness case was taken up. The parties in the case were called to the bar. All the papers read, the latter taking up much time, as the literature of the case has become voluminous.

Mr. J. K. Cranston spoke in support of the appeal from the decision of the Presbytery of Guelph, and was followed by Mr. J. D. Cranston. Both speeches repudiated the imputation of holding and teaching absolute and perfect holiness.

Rev. Dr. Middlemiss, in defence of the action taken by the session of Knox Church, Galt, and the Presbytery of Guelph, said that the quintessence of this question in Knox Church is brought with danger if not disaster. Dr. Middlemiss gave an account of the manner in which steps taken in dealing with the appellants by the session of Knox Church, Galt. He further said sin being in man and putting forth its power is not of God. The fullest provision is made for its destruction, but God does not destroy all at once when He might because, He would, if He pleased, ordain that man should be shaken on his conversion, or take him to heaven. But he does not. It is not the question can He, but does He impart such grace, that man can live without sin. This Church has always held that God has not promised to extinguish the evil principle in the heart in this life, but that we shall to the end of time with such individual. But the appellants hold that God does this and that they enjoy entire freedom from sin, which is a direct denial of the standards of the Church. We all believe that all who are born of God do not commit sin, that is, live under the dominion of sin. The appellants fail to distinguish between the inhabitation of sin and the dominion of sin—that is one of their chief errors. Dr. Middlemiss, in summing up, said: First, they hold and insist on dissentient views contrary to the standards they once can live without sin. Second, these views are dangerous, inasmuch that a man thinks he is sinless when he is not so. Third, that they have had all rights accorded them and have been dealt with in all kindness. He concluded by indicating the undesirable practical results that are likely to flow from the views of the appellants.

Dr. Torrance addressed the Synod in defence of the action taken by the Presbytery of Guelph. He showed from the sixth and other sections of the Confession of Faith that the views of the appellants were contrary to the doctrines of the subordinate standards of the Presbyterian Church. He concluded by referring to the teaching of Scripture on the nature of sin, with which the opinions of the appellants are at variance, and asked that the Synod dismiss the appeal and confirm the decision of the Presbytery of Guelph.

Rev. Alexander Jardine spoke in answer to the appeal on behalf of the Session of Knox Church.

Messrs. J. K. and J. D. Cranston briefly replied, and questions were put by several members of the court.

The appeal was finally dismissed and the action of the Guelph Presbytery sustained. The appellants gave notice that they will appeal to the General Assembly.

SMITH AND HIS WIFE.

She Objects Because He Lives With Another Woman.

HAMILTON, May 16.—A rather distressing case came up at the Police Court this morning. Mrs. Smith charged her husband, John Smith, with assault. Just before the case was called Mrs. Smith went into the box and was carried out of court. She alleged that Smith left his wife to live with the Kotcham woman, installed as his housekeeper. The assault is a very serious one, but the cause of it pleased Mrs. Smith considerably. She naturally objected to her husband having another woman keep house for him. There was a marked difference in the appearance of the women. Poor Mrs. Smith was dressed very shabbily, while Miss Kotcham were an elegant dress and looked quite respectable. Smith himself was well dressed. His wife and family live on Concession-street, but since he has taken up with the other woman they have been neglected. He wanted the magistrate to issue a summons against his wife for throwing boiling water on him. Miss Kotcham laid a charge against Mrs. Smith for calling her bad names. The cases will be heard to-morrow morning.

AN ALLEGED BIGAMIST.

Jeremiah Power Duggan Jailed for Having Two Wives.

HAMILTON, May 16.—This morning Detective Campbell went to St. Catharines after Jeremiah Power Duggan, who was arrested there on a charge of bigamy. Duggan is a carpenter and has been living at St. Catharines for some time. In 1874 he was a resident of Dunnville, where he was married to Miss Hannah Clark by Rev. Henry Hughes, a Methodist minister. Jeremiah endured his first wife until the latter part of December, 1886, when he deserted her and made love to Mary Brodt of Waterdown. He made good progress in his love-making and obtained Miss Brodt's consent to a hasty marriage. They were united on Jan. 1, 1886, by Rev. C. O. Johnston. Duggan soon got tired of his second wife and deserted her. He has got himself into a hot box now, as both the injured women are after his scalp. They are united against him.

Drowning Accident at St. Anne.

OTTAWA, May 16.—News has just been received of a drowning accident which occurred at St. Anne the day before yesterday, whereby two young men from Hull named Gervais and Pelletier lost their lives while loading a barge. At the place where the barge was anchored there was a strong current and from some cause the barge lurched a little, precipitating Pelletier into the water. His partner plunged in to his rescue, but both were swept away and drowned in view of their fellow workmen. The two unfortunate men had only been married about a year and were brothers-in-law.

THE GREY GOODS COMBINE.

A New Lease of Life for the Manufacturers' Association—The Agreement.

MONTREAL, May 16.—The Dominion Grey Cotton Manufacturers' Association have entered upon a new lease of life as a result of their recent meetings. The matter in question is not formally sealed yet practically it is. The amended regulations as agreed upon by the meeting contain the following clauses which it is claimed are sanctioned by the great advance in the price of new cotton:

All mills manufacturing grey cotton must enter into the association before the rules can be binding. An executive committee is appointed to regulate the production of the mills pro rata according to the requirements of the trade of the country. If any mill manufacture more than it is allowed the surplus must be exported from the country or sold for printing purposes. No mill shall run more than 60 hours per week for home trade. No mill shall produce more than 75 per cent. of their full product for home trade. Not more than 3 per cent. of the total production may be shipped as sample, any excess must not be disposed of without the consent of the association and the discount of seconds is to be 5 per cent.

The discount for pre-payment shall not exceed 9 per cent. per annum and this only for payments not later than the tenth of each month. All deliveries after Sept. 1 shall be for three months' terms. All goods for '89 in and under now under order shall be delivered by Nov. 1. Each mill shall enter into a bond at the rate of $10 per loom covered by a demand note of the company. If any company fails to pay all or part of any fine imposed by the association the president guarantees to pay the amount himself. All amounts for export purposes shall be made according to the number of looms. Goods for printing and export are excluded from the provisions of the association. The duration of the association shall be not less than two years.

The Ladies' Favorite.

The newest fashion in ladies' hats will doubtless cause a flutter of pleasurable excitement among the fair sex. Ladies are always susceptible to the charms of a fashion plate; and the more startling the departure, the more earnest the gushy over the new mode. Dr. Pierce's Favorite Prescription is a positive cure for the ills which afflict females and make their lives miserable. This sovereign panacea can be relied on in cases of displacements and all functional derangements. It builds up the poor, haggard and dragged-out victim, and gives her renewed hope and a new lease of life. It is the only medicine for women's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money refunded. Read the printed guarantee on bottle wrapper.

Decreasing the Death Rate.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills [illegible] would not be without them.—[illegible]tes, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Ealing, Richmond, Va.

The Hastings Bridge.

The new railway bridge at Hastings will be used for the first time on Monday. It was completed to-day, and during Sunday the rails will be changed and the road diverted to the new bridge, ready for traffic on Monday. It is a handsome and durable structure, with solid stone piers and two iron spans with swing—a bridge which any corporation might be proud of. Mr. W. H. Law, of the Peterborough Bridge Works, supplied the iron work.

HEADACHE, feeble appetite, failure of eyesight, tube casts in urine, frequent desire to urinate, especially at night, cramps in calf of legs, gradual loss of flesh and dropsical swelling—any one or more of the above disorders are symptoms of advanced kidney disease or Bright's Disease, and Warner's Safe Cure should be freely used according to directions. Dr. Wm. H. Thompson, of the City of New York, says:—"More adults are carried off in this country by chronic kidney disease than by any other one malady except consumption. The late Dr. Dio Lewis says, over his own signature, in speaking of Warner's Safe Cure:—"If I found myself the victim of a serious kidney trouble I should use your preparation."

Millbrook's Festal Day.

The wide-awake village of Millbrook is to celebrate her Majesty's natal day in grand style. There will be a big procession headed by the firebrigade band, a baseball match between Garden Hill and Millbrook, foot races, bicycle races slow horse races comical races, tug-of-war etc. Prof. Pemberton will manage a May pole dance by sixteen of the lovely young maidens of the village "in fairy like costume." A dramatic presentation, "Saved from the Wreck" will conclude the day's festivities. Admission to park 10 cents; grand stand 5 cents.

MAY 20th.

The American Canoe Association.

The *Post* says:—Mr. A. F. D. Macgeoben and Mr. E. Pitt left Thursday for Peterborough, where they joined a party comprising Commodore H. C. Rogers, Secretary G. W. Hatton and Mr. E. B. Edwards, officers and members of the A.C.A. After joining forces the party started for Gananoque, from which point they will make for Sugar Island, which has been selected as headquarters for the general meet this year. The object of the visit is to get the lay of the ground and select sites for the various camps, and to provide a steamboat service, if possible, during the time of the meet, which promises to be a very large one.

The Annual Convention.

Next Tuesday the annual convention of the Ontario Branch of the Emerald Beneficial Association will be held in R.S.A. hall here. The western delegates will assemble in Toronto on Monday and arrive in a body at Peterborough Tuesday on the noon C. P. R. train. The convention will begin in the afternoon, presided over by the Grand President, Mr. P. Crotty, Hamilton, and it is expected will continue over a period of three days. The delegates, of whom over 20 are expected, will be received and entertained by the local branch, and on Wednesday evening they will be tendered a banquet at the Balmoral hotel.

SCOTT-SIDDONS

Doing Good by Stealth.

A day or two ago the EXAMINER recorded the anonymous gift of $20 to the Peterborough Protestant Home. The generous donor certainly does not, in making his benefactions, believe in taking his right hand into the confidence of his left. He or she took extraordinary means to prevent identity being traced. The address to "miSS *ExGer*" consisted of the letters clipped from a newspaper and gummed upon the envelope, while the words accompanying the money inside the cover, "*for His home*," were similarly constructed. Pepe's model modest man, who "did good by stealth and blushed to find it fame," was an embodiment of brazen effrontery compared to the individual mentioned above.

After a Calm Comes a Storm.

So it is in this case. We know that the farmers have been busy for the past few weeks, so we have left them at their laborious task without getting them roused to such a state of excitement that they would have to quit their work and rush to receive the bargains we have been offering. So now we issue our manifesto. Don't compare other houses with us; we carry larger stocks than all the pretending houses. We buy in larger quantities and buy for cash, and for the next few weeks will cause a panic among all other grocery houses by offering for sale our entire stock of fine teas to make room for our importations of new teas, which will arrive in a few weeks. Those who desire bargains call. W. J. MORROW,
340 George street.

IN HER DRAMATIC

The Von Graef Medical Company, No. 3 Park Row, New York City, in 1888, made seventy-eight per cent. of cures of various diseases of men, chronic and otherwise, within the time allotted for treatment. The record of cures of diseases of women was nearly as large. This is the highest record ever achieved in this country by hospitals or private practice. In the treatment and cure of diseases, science, skill and discovery keep pace with inventions in other directions. The new book lately issued by the Von Graef Company, full of valuable hints and information to young or old, free to all who call for it or order it by mail.

Lakefield's Fire System.

Lakefield took a holiday yesterday, and the villagers turned out en masse to see the new engine tested. Quite a number went up from Peterborough, among them Messrs. Rutherford, Clegg and Jones, of the fire brigade, Councillor Langford and others. Mr. Finlay, Reeve of Norwood, and Mr. Evans, of Omemee, were also present. The Lakefield band was out and lent the additional charm of music to the proceedings. A large number availed themselves of an excursion to Young's Point to spend the day in their own way. The new engine is a small Waterous, but it does splendid work for its size. It was in charge of Mr. W. J. Waterous, one of the manufacturing firm, and Mr. John Quinlan, a practical engineer, from Brantford. The test was held in front of Dion's hotel, and was quite satisfactory. Two good streams of water were thrown through a total length of about 500 feet of hose, of the Maltese brand. Chief Cochrane and the members of the fire brigade manipulated the hose and displayed their abilities to the admiring spectators. With a large brigade of brave fire-fighters, a first class engine and all the necessary equipments, Lakefield has now little to fear from the ravages of fire.

Wilson and Wintrot.

The match game going on to-day between Peterborough Colts and Lindsay resulted in the first innings in the home team scoring 45 and Lindsay 31. At the close of the report Peterborough was at the bat, and piling up runs rapidly—in redemption of the small score of the first innings.

Brick and Stone.

There will be a meeting of the Bricklayers and Masons' Union, No. 12, on Tuesday evening next, May 21st, at 8 o'clock sharp, in the K. of L. Hall, Water street. A full attendance is urgently requested, as business of importance will come before the meeting.

J. J. HARTLEY,
1d President.

Change of Time on the C. P. R.

A new time-table will take effect on the Canadian Pacific Railway, commencing Monday next. The only changes on this division will be that the train going east will leave Peterborough at 11.38, instead of 11.40 a.m., and the early morning train going west will leave at 4.56, instead of 5.10 a.m.

Market Items.

There was a good market attendance to-day. Garden "sass" made a particularly large showing—rhubarb and onions coming out strong, especially the latter. The warm weather and rains, producing good pasture, are answerable for the drop in butter, which sold as low as 16 cents for "gilt edge," 18 cents, however, being the ruling figure. Eggs brought 12 cents, potatoes 40 cents per bag, and apples $1.00 per bag. Garden stuff five cents per bunch.

Rev. Dr. Clarke, Toronto.

Rev. Dr. Clarke, one of the professors of Trinity University, Toronto, who ranks among the most powerful orators in the Church in Canada, has promised to preach in St. John's Church on Whitsunday, June 9th, in the evening. It is also expected that he will be induced to lecture on Monday evening, but as yet no definite arrangements have been made.

Revoking the Scott Act.

Orders-in-Council have been passed revoking the Canada Temperance Act in Lincoln, Ontario, Kent, Frontenac, Guelph, Northumberland, Durham, Carleton, Brant, Wellington, Colchester, St. Thomas, Lennox, Addington, Lanark, Victoria and Peterborough. There is now no doubt that the Scott Act is not in force in Peterborough.

A Completed Cabinet.

The Ontario Cabinet, says the *Globe*, has been at last made complete and uniform, and this is how it happened. Hon. Chas. Drury, Minister of Agriculture, was married last Wednesday to Miss Isabella Bowmaker, of Shanty Bay. The marriage was solemnized at the residence of the bride's brother, Barrie, after which the happy couple came down to the city and took up their residence at 68 Czar street, Toronto. Mr. Drury's colleagues feel a little sore that he did not take them into his confidence in adopting so wise and so satisfactory a policy, but they will forgive all. Mrs. Drury is spoken of as being amiable and accomplished. The EXAMINER begs to extend the most cordial congratulations the happy occasion calls for.

New Rifle Range.

The new range of the Rifle Association will be ready for use on Thursday, when the regular practice will be held. The range is situated on the Curtis property and is perfectly safe. The targets are placed at the foot of a steep hill, so that bullets which miss their mark will be buried in the ground. The new range is only about five minutes further walk than the old one. After passing over the Smith street bridge and ascending the hill the targets are in sight. There will be three of them, and the ranges are fired at 200, 400, 500 and 600 yards. There is plenty of room though for a thousand yard range. The riflemen will shoot eastward. A lease of the range has been secured for ten years. The committee, Mr. R. M. Dennistoun, secretary, and Messrs. Cameron, Hall and Mason, deserve credit for the manner in which they have carried out instructions to procure a new range.

Bellegham's Cheap and Good Furniture.

Now the boom in house cleaning booms and Bellegham, the furniture king, is meeting the householder more than half way. He knows that there is large expense connected with the process of general spring refitting, and to make the burden lighter in at least one department, he offers his magnificent and immense stock of well-made and stylish furniture at great reductions in price. The thousands of customers of Bellegham throughout the Midland district know that his prices have always been moderate, and they are sure that if his present reduction prices are lower, there must be bargains, and decided bargains too, at his establishment. And such is the case, and now is the time to secure these bargains. Don't delay, but while you are fixing up your home, secure some nice new furniture, cheap and good, to complete the effect of improvement. Come along and inspect Bellegham's superb stock of parlour, diningroom, bedroom and kitchen furniture. Anything needed, of a style and price to suit every taste and purse. When you want bargains in furniture, go to Bellegham, the Furniture King, Hunter street; Peterborough, the shop furthest west on Hunter street.

American Canoe Association.

Arranging for the Annual General Meet.

This morning the Peterborough representatives of the American Canoe Association, consisting of Commodore Lt-Col. H. C. Rogers, E. B. Edwards, ex-Commodore; Sec.-Treas. G. W. Hatton, R. M. Dennistoun, and Col. J. Z. Rogers, member of the arrangement committee, arrived home from the Thousand Islands where the members of the several committees spent two or three days making arrangements for the annual general camp of the Association, which is this year held in Canadian waters. The most important work done by the committee was the change of site from Segar Island to Stave Island, the latter being about a mile nearer the Canadian shore. Stave Island is admirably adapted for camping purposes. It is well wooded and has fine sward, and is ready for immediate occupation. The committee in this respect were agreeably surprised, having made up their minds to employ a number of men for the coming five or six weeks getting the camp site in readiness. They find, however, that Stave Island is all ready for occupancy. *En passant* it may not be amiss to mention that the *Sail and Paddle*, the successor to the *American Canoeist*, in memory of the fact that the meet is held on Canadian waters this year, shows thoughtful courtesy towards us Canucks. The current number of the *Sail and Paddle* contains portraits and biographical sketches of Commodore Lieut.-Col. H. C. Rogers and Ex-Commodore E. B. Edwards. The field of sport, on which all meet as brothers, bound by a common tie, does more, perhaps, than any other single influence to develop international amity and cousinly good feeling between Canucks and Yankees.

Personal.

Rev. S. J. Shorey left this morning for Oshawa, where he preaches Sunday school anniversary sermons. On Monday he goes on to Toronto on business connected with his church work here.

Mr. Thomas Couch, chief engineer of the Witham Hamilton Manufacturing Company, appeared on George street to-day for the second time in ten years.

Mr. M. N. Anderson, of Lindsay, a young man quite well known in town, has gone to Thessalon to manage a large business. His rise has been a rapid one. He was tendered a farewell in the Y.M.C.A. hall Monday night, and presented with a highly complimentary address.

The Queen's Birthday.

How the Day will be Observed in Peterborough—A List of the Amusements so Far Provided.

A 24th of May without some proper celebration of the Queen's Birthday is a thing unknown in Peterborough. Every year the loyal citizens prepare some sort of demonstration, and the coming 24th is to be celebrated in a good old-fashioned way. There will be athletic sports and games galore, besides fireworks, horse-racing, etc.

ON THE P. A. A. A. GROUNDS.

The 57th Battalion and Peterborough Amateur Athletic Association have joined hands and will hold sports in the Association grounds. The first event is a baseball match at 9.30 a.m. between Campbellford and Peterborough. At half-past eleven the battalion will parade from the drill shed and march to the grounds, performing military evolutions all the way. At twelve o'clock, when a *feu-de-joie* will be fired.

After dinner, beginning at 1.30, a lengthy programme of athletic sports will be carried out, for which valuable prizes are offered. There will be running high jump, running long jump and running hop, step and jump; then putting a sixteen pound shot. A one mile green bicycle race will follow, then a hundred yards foot race, and a company race, between different companies of the battalion roped together. Next will come a half mile bicycle race, a 440 yards foot race, a 220 yards handicap boys' race and a 2 mile handicap bicycle race. The most amusing event of the afternoon now occurs. This will be the managers race. Those who saw it last year will be anxious to see it again. Other races will follow in quick succession—a 120 yards hurdle race, a Company race in file, half mile foot race, mark race and obstacle races. Then there will be more fun in the way of a bogshead race, climbing the greasy pole and the tug-of-war. It is a long programme, but by keeping the numbers running closely upon each other they will all be got through with.

In the evening the firemen will present the public with a grand display of fireworks. It is some years since there have been any fireworks in Peterborough worth noting, and no doubt the enterprise of the brigade will be appreciated and their entertainment patronized by the public.

AT THE DRIVING PARK.

Mr. John Newhall has prepared a programme of sports for the afternoon at the Driving Park. There will be a carter's race, one half mile dash, open to all the cart horses in Peterborough. The novelty race is open to all horses in the county of Peterborough to saddle. In this race the first half mile is to be walked, the second half-mile to be trotted and the third run; best two heats in three. The third event is a mixed trotting race, in which a number of horses are given a start over Mayflower and Willie W. For all these races good prizes are offered.

In addition, Mr. Newhall will present a sovereign to one of the crowd in attendance. Each one paying at the gate writes his or her name upon a card, and a blind-folded child will pick a card out of the mass, the person whose name appears on it to receive the sovereign.

LACROSSE.

The Riversides and West Torontos play in Riverside Park in the afternoon. Both clubs have good reputations and spectators may expect to see a splendid exhibition game of lacrosse.

These attractions should be sufficient to keep the people of Peterborough at home. No doubt there will be many little private excursions and picnics, but the managers of these sports, who have gone to a great deal of trouble to prepare a day's amusement, expect the public will show their loyalty and appreciation by patronizing the different centres of attraction.

Church Chimes.

LAYMEN'S Evangelistic Services for to-morrow are as follows:—Jail, 9:30 a. m.; Protestant Home, 2 p. m. Nassau, 7 p.m. All are invited.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10.30 a.m. Vespers at 7 p.m.

The executive committee of the Ontario Sunday School Association have paid Mr. W. Johnston, of Belleville, the high compliment of asking him to be one of the representatives of Ontario to the World's Sunday School Convention in London, Eng., July 2nd-5th.

Rev. J. Wilkin, who has been a missionary in Indore, Central India, for the past ten years, will preach in St. Paul's Church tomorrow at 11 a. m., and in St. Andrew's Church at 7 p. m. It is hoped that many will take the opportunity of hearing Mr. Wilkin.

ST. LUKE'S CHURCH, ASHBURNHAM.—Curate-in charge, Rev. G. Warren. Fourth Sunday after Easter — Morning Prayer, sermon and Holy Communion at 11 a. m.; Sunday school and Bible class at 3 p. m.; Evening Prayer and sermon at 7 p. m. The Rev. J. G. Lewis, of St. Alban's Cathedral, Toronto, will officiate at both services.

MARK STREET METHODIST CHURCH, ASHBURNHAM—Services to-morrow conducted by the pastor, Rev. A. C. Wilson. 11 a.m., subject, "What is instantaneous and what gradual in a converted life and the essential graces provided for their attainment?" 7 p.m., subject, "Lot and family ordered out of Sodom, and results." Free pews and a welcome.

ST JOHN'S CHURCH.—Rev. J.W. R. Beck, M.A., Rector; Rev. J. C. Davidson, M.A., Curate in-charge; Rev. C. B. Kenrick, M.A., assistant curate. Fourth Sunday after Easter, May 19th—8.30 a. m., Holy Communion; 11 a. m., Morning Prayer, sermon and Holy Communion; 3 p. m., Sunday school—Bible class in the church; 7 p.m., Evening Prayer and sermon. All seats free in the evening. Strangers and others heartily welcome to the church at all times. Ushers on duty from Y. M. G., Messrs. H. Rush, Foot, G. A. Smith and Somerville.

News Nuggets.

—The bicycle club had a good run out last night.

—Mr. Harry Winch has placed a handsome new delivery cart on the road.

—Messrs. Howden & Morris have opened out a butcher business in their new stand on Hunter street.

—A wide smile overspreads the face of the blooming county, but not any wider than that which covers the face of the smiling farmer, from ear to ear, at the sight of the magnificent growth of the crops.

—Port Hope has a permanent Dominion Day celebration committee and arrangements are afoot for giving a superb demonstration next First of July.

—Mr. W. H. Hall, of Buckhorn, met with an exceedingly unpleasant accident the other day, the *Independent* says. He was engaged at the Locks, and whilst turning a windlass, it slipped from his hands, and swung round, striking him a terrific blow in the mouth, and knocking out sixteen teeth. He was laid out, and barely conscious for some time.

IS YOUR BAKING POWDER PURE?

Do its Manufacturers Publish all the Ingredients Used?

IS IT FREE FROM AMMONIA?

As is well known, ammonia is unhealthful in food, and dries up the bread material.

Protection to consumers of food compounds lies in their ability to choose those made from healthful substances. Unless manufacturers publish just what their baking powder is made of, do not use their goods, but buy instead

CLEVELAND'S SUPERIOR BAKING POWDER.

This powder is made only of strictly pure grape cream of tartar, and strictly pure bicarbonate of soda, with a little wheat flour to preserve it. This is attested by the official analyses of Government and State chemists, and physicians, and chemists of Boards of Health throughout the country.

FREDERICK T. ROBERTS, M.D., Physician to the Royal College of Surgeons, University of London, Eng., says:—"Loss of appetite, loss of eyesight, dyspeptic symptoms, irregularities of the bowels, are some of the symptoms of advanced kidney disease. Warner's Safe Cure cures these troubles, because it removes the cause, and putting the kidneys in a healthy condition, enables them to expel the poisonous or waste matter from the system. This is why Warner's Safe Cure cures so many symptoms that are called diseases.

Stop at our Gents' Furnishing Goods' window, and see the new goods bought specially for this and the coming season. If there is nothing there that suits your fancy step inside, there are hundreds more—we may safely say thousands of other styles.

The "ECLAT SHIRT," is the latest novelty in Gents' Shirts and the "Court Shirt" is the newest and best for dress purposes. Our small space would not suffice to show the several advantages of these two lines.

The COLLARS we have in stock are the newest and of the best quality. We have a novelty in Cuffs, a Combination in fact—which can be used with links, and by reversing use the ordinary cuff button.

Seven Lots of Fancy Bordered HANDKERCHIEFS, in a variety of 35 different Styles and Designs, the large majority of which are 12c Hdkfs. Many of the identical have been sold by us at that price; our prices to-day are 15c. and 25c.

A beautiful Assortment in all our lines. We have not said much about our KID GLOVES lately, but we are now putting them out at $1 a pair, and will continue to do so for thirty days. These Gloves were sold by us and others at $1.25—mark the reduction, and secure one of the best Gloves made at a reasonable price. All the New Shades, Tans, etc.

When in our store ask to see the Bargains in CASHMERE HOSE and ENGLISH HEMSTITCH. Say 25c. buys a pair of Cashmere Hose that have been sold at 35c. Splendid value in finer lines. Ask for these, buy them and if you ever get a pair that stains, or the color washes out, bring them back and get your money.

"A Spring Message"

FROM THE NEW FIRM OF

H. LeBRUN & Co.

Sign of the Golden Horse-shoe

The people of Peterborough and vicinity are all aware of the business change which took place in the CITY CLOTHING STORE on the first day of February last. The new firm beg leave to make their first bow to the public through the columns of the EXAMINER, and to request a careful perusal of the following Spring and Summer circular:—

THE CITY CLOTHING STORE

in past years, by long experience in business, by buying always for spot cash, by importing direct from the principal houses of the old country and the leading manufacturers of this country, and by strict economy in conducting its business, has always been able to force prices down to an exceedingly fine point. The members of which the new firm is composed will form a still stronger "combine," by which the CITY CLOTHING STORE will be even better prepared to procure for its customers a continuation of those superior inducements in the future for which it has been noted in the past.

MEN'S CLOTHING.

The magnitude of our stock and lowness of prices gives us a great advantage over all other competitors in the trade. We carry in stock all the fast selling lines, styles and patterns, and can fit the tall, the short, the fat and the lean.

MORE SUITS, BETTER FABRICS, FINER STYLES than were ever handled before.

Special values in Fine SPRING OVERCOATS, and Fine Spring and SUMMER SUITS. Don't fail to see them. The superb styles, workmanship, and the beautiful fabrics and patterns that we offer will surprise you.

MERCHANT TAILORING.

"For the apparel oft proclaims the man."

Fine dressers in search of new, neat and nobby OVERCOATINGS, SUITINGS or TROUSERINGS will find this department crowded to over-flowing with cloth from all countries. To select from the *largest* assortment is an advantage we offer to our customers, backed up by the skill of experienced cutters and tailors. Besides perfect fit and first class trimmings, we guarantee absolutely first-class workmanship.

BOYS AND YOUTHS CLOTHING.

Clothing for the little ones—boys and children—has always been a specialty with us. We have always sought to give great values in this department, and to provide a larger and finer variety of goods for parents to select from than they could find elsewhere.

This means that we are showing a large assortment of BOYS' and CHILDREN'S SUITS, BOYS' and CHILDREN'S BLOUSES, SHIRT WAISTS, PANTS, &c.

This spring there are an unusual number of new and nobby styles and an enlarged variety of fabrics and patterns. Be sure and see our stock.

GENTS' FURNISHINGS.

Gentlemen of Peterborough seeking the latest styles and best values for their money, as well as an opportunity of selecting from the largest stock of Furnishing Goods, should not fail to visit this department at once. We offer the finest, best selected and largest assortment of NECKWEAR, HOSIERY, UNDERWEAR, GLOVES, SHIRTS, HANDKERCHIEFS, etc., to be found in any First-class establishment in this country.

A^T TURNBULL'S

The heavy spring trade is on us. Every day from this out we shall be kept busy in supplying the needs of our old and new customers.

Scarcely a day passes but we receive packages of New Goods especially in Millinery and Millinery Trimmings. New Shades taking the place of those bought earlier and at lower prices. To keep posted in what is being shown, you need to visit our establishment weekly.

Like an opening rose, our Dress Goods and Trimmings show new beauty at every sight. The colors blend together so perfectly—moss sage and nile green still hold in favor. Terra Cotta, Blue Greys, Dove and Resida Shades are as much sought after as ever. In our Black Stock department we are showing a new voile of Cloth, fine light and durable—just the dress for an old lady. Much nicer than nuns' veilings.

It needs to be repeated and remembered that in all goods and most emphatically in Cotton Goods we keep a most complete stock. Where will you find the variety of cottonades, shirtings, tickings, &c., you find with us. Not less than 60 different patterns of Shirtings,—all prices, as low as the lowest.

At the Ribbon Counter you are almost always sure to find exactly what you want for dress and millinery use.

Our stock of Neck Frillings is very choice, being different to what is usually shown. We import them from a different market.

When house cleaning you may require a new Carpet. We show a beautiful Tapestry at 50c. Lower and higher qualities according to good value.

The rush is on us in our Tailoring department. Our stock of Tweeds and Worsteds please the eye and pocket of our patrons. Best satisfaction in a fit if always given.

DISASTER ON LAKE HURON
THE SCHOONER MERRICK SUNK BY THE PROPELLER RANNEY.
Four Men and One Woman Lose their Lives —The Captain and One Seaman Saved— Thick Weather Causes the Accident.

PORT HURON, May 18.—The steamer E. P. Ranney, which arrived down this forenoon, reports having been in collision with the schooner M. F. Merrick off Presque Isle, resulting in the sinking of the schooner with the loss of all her crew excepting the captain and one man. The Ranney proceeded down the river with the captain of the Merrick, who will land at Detroit.

Following are the names of the lost:
MARTIN JOHNSON of Detroit, mate.
JOHN CHARLEVOIX of Detroit, seaman.
WM. OURS of Ashtabula, seaman.
PATRICK KANALY of Clayton, N.Y., seaman.
MRS. COLE of Cleveland, cook.

The Merrick had a cargo of furnace sand and was bound from Port Austin to Perkins. We left Port Austin with a free wind, the weather thick and smoky. When about 15 miles off Presque Isle, at 12.30 Friday morning, we heard three blasts from a steamer's whistle. About half an hour later the mate ordered me to put the wheel over and he then came up in the wind. I then saw the steamer about 15 feet from us. She struck us just aft the forerigging. The schooner sank under her bow. The crew on deck took to the rigging and went down with the vessel. I was dragged by being pulled up by a yawl from the Ranney. The captain was saved by a line being thrown to him by the Ranney's crew. Mrs. Cole, the cook, stood aft, holding on the spanker-boom, when the schooner sank. Every possible effort was made by the Ranney's crew to save us. The steamer's engines were backing when we came together. The weather was so thick we could only see a short distance. I think the schooner sank in from twenty to thirty seconds after being struck. She went down head first, our mainboom going over with the Merrick. The crew went down. We were blowing our fog horn all the time, giving proper signals, which were understood by the steamer. Three of the crew were below when the vessel sank."

The Merrick was owned by Cash P. Taylor and G. Maitland of Detroit. She was valued at $7000 and insured for $5000. She was built of the old Merrick fleet, was built at Clayton, N.Y., in 1863 and rebuilt in 1877.

Collisions off Sandy Hook.

NEW YORK, May 18.—The pilot boat Charlotte Webb when eight miles east of Sandy Hook lightship yesterday was run into by the steamer La Normandie, bound for Havre, during a dense fog. The pilot boat sank in three minutes. Captain Maisden (pilot) and Boatkeeper Charles Fitzgerald were drowned. La Normandie picked up the survivors, who complain of being poorly treated, and this morning they were put aboard the Etruria and brought here. The saloon passengers of the Etruria made up a purse of $300, which was divided among the Webb's crew.

The steamers delayed by the fog Saturday continued their voyages this morning. The Servia, which had grounded, floated off.

The steamer Consul was run into by the steamer Gwyandotte, while the former was at anchor below quarantine. The Gwyandotte cut about 15 feet into the starboard quarter overhang of the Consul. The Gwyandotte's bow was cut into seven or eight feet in width to within a foot of the water's edge. The Consul's steering gear was destroyed. Both steamers put back for repairs.

SUICIDE AT INGERSOLL.
A Young Man Cuts His Throat in a Fit of Despondency.

INGERSOLL, May 19.—Frank Wheeler, a man about 20 years old, committed suicide here to-day by cutting his throat. He was an employe of the Evans Bros.' Piano Manufacturing Company, but was discharged from their service about two weeks ago. As soon as he was discovered lying dead on the floor in a pool of blood with his throat cut across, almost severing the head from the body. Coroner McKay was summoned, but he deemed an inquest unnecessary. His mother lives at Kingston and a brother at Ottawa.

Sergt. Wallach's History.

GUELPH, May 18.—Sergt. Wallach, killed at Quebec, belonged to this neighborhood. He was the grandson of John Wallach of Mimsboro and son of Mrs. George Jackson of that neighborhood by her first marriage. He was raised on the farm next to Mr. James Taylor, stonemason, and left home when about 16. He joined "B" battery, 1st Brigade Field Artillery, here in 1879, and a year or two later went to the Kingston School of Gunnery and afterwards joined "B" battery of regulars at Quebec as gunner, rising by his ability to the post of head riding instructor. He was a general favorite with the men.

The Mixed Reader's Death.

NEW YORK, May 18.—The autopsy on the body of Washington Irving Bishop was made to-day by Deputy Coroner Jenkins. There were also present Deputy Coroner Weston, Dr. Briegs and Dr. Ferguson, who made the original autopsy. The examination, so far as was possible to be made to-day, did not reveal the cause of death. Dr. Jenkins however removed various particles of the vital organs, a microscopical examination of which is expected to settle the matter of whether or not the mind reader died under the post mortem knife or not. Drs. Hamilton, Janeway and Spitka, who were expected to be present, did not attend the autopsy. The last named physician is said to have declared that it is impossible to solve the mystery at this late time.

News from Oshawa.

OSHAWA, May 18. — According to the assessor's roll the population of the township of East Whitby is 2000. There were 68 births and 20 deaths during the year. There are 963 acres of woodland, 770 acres of orchard and 126 acres of fall wheat. The land and personal property are valued at $1,788,065, a decrease of $19,400 from last year.

The Town Council have passed a bylaw licensing teamsters compelling them to use broad tires, but it seems this law cannot be enforced, and the town fathers are now in a dilemma as to what steps to take to carry out their purpose.

The funeral of the late Robert Smith, one of East Whitby's oldest and well-to-do farmers, was largely attended yesterday. Mr. Smith was a native of Scotland.

Railway Conductors' Convention.

DENVER, May 18.—The election of officers at to-day's session of the conductors' convention was the principal business transacted. There were two tickets presented. The old administration faction were victorious, and the following ticket elected: Assistant Grand Chief Conductor, C. W. Wilkins of Chicago; Grand Senior Conductor, E. E. Clark of Ogden, Utah; Grand Junior Conductor, S. T. Silvernail of Denver; Grand Outside Sentinel, P. J. Collins of Alabama; Grand Inside Sentinel, W. Mundy of Ontario. It was decided to hold the next session at Rochester, N.Y. Adjourned till Monday.

Children Cry for Pitcher's Castoria.

LOOKS LIKE THE WORK OF FIREBUGS.
Nine Stores and a Dozen Barns Burned in East Chicago.

CHICAGO, May 18.—Fire this morning at One-hundred-and-sixth street and Avenue K, in East Chicago, destroyed nine houses. Twelve barns were incidentally licked up by the flames, and the total damage is between $30,000 and $40,000. Both fires started in barns in the most unaccountable manner, and in localities where the flames were sure to spread.

A $300,000 Fire at Renton Falls, Que.

RENTON FALLS, Que., May 18.—Fire broke out in the Canada tannery and set fire to the Renton tannery, which in return communicated with the Beaver tannery and a large quantity of tanbark. All were totally destroyed. The loss is estimated at $300,000.

A Cuban Conflagration.

HAVANA, May 18.—Several houses were burnt at Abreus, a village near Cienfuegos, yesterday. Eleven persons were injured.

NINE PERSONS DROWNED.
A Steamload of Colored People Capsized on the Mississippi.

VICKSBURG, Miss., May 18.—A serious accident occurred near the foot of Wood Pass late this evening, to a party of negroes who were returning in two skiffs from a trip to the Louisiana shore. The wind and waves were high and the people in one of the boats became frightened and capsized the boat and nine out of the ten passengers were drowned—a little girl being the only one that reached the bank in safety.

Drowning Accident at Wingham.

WINGHAM, May 18.—While some boys were bathing this morning in the river, Arthur Lenz, a lumberjack aged 19, took a cramp and was drowned before assistance could be called.

The Samoan Conference.

BERLIN, May 18.—The fourth session of the Samoan conference, which was held yesterday, took place in the small room of the Department of Foreign Affairs, in which the three previous meetings have been held. The department is furnished with extreme simplicity. There is space for little besides a long table, at which the Commissioners sit. The session was called to order shortly after 2 o'clock by Count Herbert Bismarck, who presides at all the meetings in accordance with the established custom that the highest representative of the Government of the country in which a conference is held, shall preside. Count Herbert sat at the upper end of the table, just back of a plain little desk, which the late Emperor Frederick used during his brief reign. None of the Commissioners was in uniform or court dress, but wore black frock coats.

The proceedings were almost entirely formal. They consisted chiefly in listening to the reports of the various sub-committees which have been holding daily sessions over since the conference met. As these reports are the real work of the conference has been transacted, and as nearly as can be learned the American Commissioners have succeeded in carrying every important point they set out to obtain. Indeed, so prevalent is this feeling in Berlin that the Berlin press and other influential papers in Germany complain of the success of the Americans.

While the greatest secrecy in regard to the proceedings is maintained, and heretofore nothing much beyond the fact that the meetings had been held was known, it can now be stated that excepting the question of indemnity for German sailors killed and beheaded by the Samoans and one or two other minor points, the work of the commission is about over. It is thought that the restoration of Malietoa to power is assured and the plan form tripartite government in Samoa, for which the American Commissioners contested against the German plan for the supremacy to be enjoyed by the three powers, will surely be put into effect. It is also more than likely that the commission has decided in favor of the absolute independence of Samoa as soon as the people there demonstrate their ability to so show. The indemnity question is yet to come up. It may prolong the meetings of the conference some weeks, but this is believed to be the only point on which there is likely to be a serious contest. The question of Klein's connection with the affair in which the German sailors were killed has never come up, nor is there any likelihood of its doing so. Neither will the commission hear testimony of any kind. During the past meetings of the conference and the committees the only points of difference have been between the German and American Commissioners, the attitude of the English members being neutral. Their influence has generally been cast with a view of settling the question as expeditiously as possible. They have, however, been strongly in favor of having a Protestant for King of Samoa, which is thought to indicate their preference for Malietoa, who was trained in an English Protestant college.

O'Connor's Winning Oars.

TACOMA, W.T., May 19.—The regatta yesterday was a great success. Twenty-five thousand people witnessed the races. The first race started about 5 o'clock. O'Connor led from the start and was ahead in turning the flag. Lee second, Peterson third and Hamm fourth. Hamm's flag drifted about two boat lengths farther out than the others. After turning Peterson got ahead of Lee and O'Connor, but the latter regained his lead and came in ahead. Time 14.02. Peterson was second in 14.04. Hamm made a splendid race and came in third in 14.14, with Lee fourth in 14.15. Hamm had 120 feet further to pull than the rest. The course was two and a quarter miles. The tide was in their favor going out and against them on their return.

Stocks in London Quiet.

LONDON, May 19.—During the past week business on the Stock Exchange was quiet, with a tendency to weakness. American railroad securities were inactive. The remaining of values is largely due to New York buying. On the continental bourses prices were generally fair, with a rising tendency.

Deadly Storms in Austria.

VIENNA, May 18.—Disastrous storms swept over Austria to-day. Three persons were killed near Vienna. Fearful catastrophes occurred near Pilsen. Houses collapsed at Rechowitz and Brochowitz, killing nine outright, and at Zips thirty persons were killed.

Incorporated in Michigan.

DETROIT, May 19.—The Fort William Mining Company, organized for the purpose of refining, smelting, manufacturing and mining iron, gold, copper, silver lead, zinc ores, was yesterday incorporated. The capital stock is $500,000, of which $100,000 is conveyed to the company in cash value. The stockholders are Messrs A. Dalmas, of Fair Haven, Mich., who holds 1000 shares; Mrs. J. Mills, Fort Arthur, Ont., 999; Thomas A. Keeler, Fort Arthur, 10; William Wright, Penetanguishene, Ont., 500; Preston Brady, Detroit, 500; Samuel Brady, Detroit, 10; Henry T. Thurber, Detroit, 500 shares.

Shot by an Enraged Policeman.

JOLIET, Ill., May 19. — Barry Koehler while crazy with drink ran amuck through the streets Friday night and shot and seriously wounded a young lady, Delia Hark. A crowd gathered and began to search for him among some [illegible] trains moved past and at the open door of one of the cars a man was seen. The crowd called out that it was Koehler and an excited policeman fired at him, inflicting a fatal wound in the head. Then it was discovered that the wounded man was William Hanson of Chicago, who was on his way to Oskaloosa. Koehler was captured Saturday morning.

American Baptist Missions.

BOSTON, May 18.—The closing session of the 79th annual meeting of the American Baptist Home Missionary Society was held to-day. Hon. C. W. Knowles of Massachusetts was elected president and Hon. E.N. Blake of Illinois and J. R. Colby of New Jersey vice-presidents. Invitations were received from the conference at Saratoga and Asbury Park to hold the next annual meeting at those places. The invitations were referred to the Board of Managers.

"Deacon" White a Loser.

NEW YORK, May 18.—The Evening Telegram says there are sensational rumors in circulation regarding the losses of "Deacon" White in Oregon Transcontinental. If reports are even approximately correct the great speculator lost in yesterday's struggle a good part of his frayed out fortune. The fortune of Mr. White's director ran from $100,000 to $200,000.

The Wool Combine.

NEW YORK, May 18.—The representatives of the American Wool Combine and the directors of the American Cattle Trust this afternoon made a contract by which the great company will handle the entire produce of the cattle trust.

Frosts and Heavy Prospects.

WILMINGTON, May 18.—The Dover Sentinel prints advices as to the peach and berry crops from points all over Delaware and several counties in Maryland. They indicate a full crop of peaches and an unusually good yield of strawberries of better average quality than usual.

Aid for the St. Hubert Sufferers.

QUEBEC, May 18.—In response to a requisition signed by a number of citizens, the mayor called a public meeting, which was held this afternoon at the City Hall, to take steps to relieve the distress among the sufferers by the fire in St. Hubert. Subscription lists were opened and $1000 obtained.

THE STRIKE IN GERMANY.
EMPEROR WILLIAM TAKING STEPS IN FAVOR OF THE MEN.
Mine Owners Given Fair Warning by the Emperor—They Must Come to Terms or Feel the Weight of His Displeasure.

BERLIN, May 18.—The Emperor continues at the delay in bringing about peace between the miners and employers, has directed the president of the province of Westphalia to convey to the mining companies his emphatic desire to consummate a compromise. It is reported that the president has resigned, the Emperor blaming him for allowing affairs to drift and also for sending out false alarms as to encounters between strikers and the military. Dr. Hinzpeter, who is now, by command of the Emperor, making a tour of the strike districts in order to bear both sides, is charged to warn the mine owners that the government will cancel their action if they refuse to grant the claims of the men. The power of the government to make employers feel the weight of its displeasure lies at hand. The mine owners have during recent years received many favors. They have secured special tariffs throughout Germany and have been granted low freight rates to Hamburg, Bremen, Belgium and Holland in order to enable them to compete with English coal. These privileges are readily cancellable if the companies are contumacious. While the state of the miners is most prosperous the condition of the men is yearly more wretched.

The Bourse quotations show an enormous advance in shares. For instance, the Dortmund Union mine shares have risen 50 per cent. in the past two years, and meanwhile some of the men at Dortmund have earned a heavy 15s 6d weekly. Recently the owners have withdrawn some allowances hitherto granted to the men and have increased the severity of the fines imposed upon the miners. For instance, there is the practice called bullen, by which nothing is allowed a miner for any car load of coal which lacks full weight. The owners call this coal, but the man working underground, often naked, in a temperature upwards of twenty degrees, Reaumur, which is common to the deep Westphalia pits, gets nothing if the car is not quite full.

Public feeling is becoming more and more pronounced in favor of the men. The paralysis of the iron and coal industries consequent upon lack of a sufficient supply of coal intensifies the feeling of discontent existing outside of the coal district. In the event of the failure of a speedy settlement of the trouble the government will convene a conference of employers and workmen under a neutral president which shall be empowered to arbitrate on the differences.

Criticisms on the alleged violent phrase of the Emperor to the workmen's delegates that if they resisted the troops he would have all of them shot (lasse er alles heben den haufen schiessen) led to a semi-official denial that the Emperor made use of a phrase which bade fair to become a historic illustration of his despotic disregard of the life of the masses. The official version of the stenographer present does not contain the words. The delegates say that the Emperor, striking the pommel of his sword, warned them that he could make them feel his power if they resisted the authorities. His subsequent assurances of sympathy softened the severity of the warning. Herren Liebknecht and Bebel invited the delegates to confer with the Socialist members of the Reichstag, but they declined, having noted the Emperor's remark, "Den't associate your movements with the Socialists," said the Emperor: "Denn fuer mich ist jeder Social Democrat gleich dem bedeutet mit Recehs und Vaterlands-feind."

The building trades strike in Berlin is extending. Many of the workmen have given their masters until Monday to answer their demands. The climax of the movement will probably be reached in June, several of the largest workmen's associations having postponed the general strike until then.

In the Reichstag to-day when the Aged Workman's Insurance Bill came up for third reading Prince Bismarck made an acrid speech. He said that he was not surprised that the Socialists, the Freisinnige party and the Poles opposed the bill, but he had not expected that Conservatives would assume a hostile attitude toward proposals affecting the innermost depths of the whole empire. In concluding, he said: "I wish the bill to be disposed of before the next elections, for no one knows whether we shall have as much leisure next year as now. I beg Conservatives, Imperialists and Nationals to free themselves from the Socialist, Polish, Guelph, French and Freisinnige parties."

After a reply from Herr Bamberger the [illegible] adjourned. Prince Bismarck's appeal is likely to induce the government to give warmer support to the measure. The opposing Nationals and ultra-Conservatives will again refrain from voting, leaving Prince Bismarck to rely upon the former majority. Prince Bismarck will entertain a large number of members of the Reichstag at a frubschoppen on Monday morning.

The Bundesrath has approved without alteration article four of the penal code, embodying in the common law provisions hitherto [illegible] to the Socialists. The government will not venture to test the [illegible] on the floor during the present session.

The Mine Owners Yield.

BERLIN, May 19.—The Westphalia Mine owners' Association has accepted all the miners' proposals with the exception of those in reference to over-time, which have been referred to a committee of miners and owners.

Fie!

BERLIN, May 19.—In the Reichstag yesterday Prince Bismarck expressed doubt whether the Freisinnige party had not supported the Army Bill from necessity rather than from patriotism.

"Fie!" exclaimed Herr Richter, resenting the imputation.

"Whoever says 'fie' to me," warmly retorted the Chancellor, "is impudent."

Herr Bamberger declared that the Chancellor's action could only produce personal hatred. Prince Bismarck abruptly left the chamber.

Charged With Murder.

LONDON, May 18.—Mrs. Maybrick, a niece of Jefferson Davis and a French-Canadian aristocrat by birth, has been arrested at Liverpool on a charge of poisoning her husband with arsenic. Mr. Maybrick, who was a prominent merchant, died with symptoms of slow poisoning. His brother Michael, known as Stephen Adams, a musical composer, and other relatives hesitated to act on the report circulated as to the cause of death. To-day County Magistrate Col. Biddell, accompanied by the Chief of Police, went to the Maybrick residence. They were told that the lady was ill in bed. Medical aid was summoned and after an examination they pronounced her ill to bear the charge. Her solicitor demanded to know the nature of the evidence. The Chief of Police responded that he had grave evidence that the woman had given arsenic to her husband from time to time. The officials went to the bedroom where the woman lay—haggard but composed. The magistrate directed that she be removed to the Kirkdale jail, where she is now being attended by doctors and a nurse. The case has caused a great sensation.

A Quarrel in Regent-street.

LONDON, May 18.—While Henri Rochefort accompanied by friends was walking in Regent-street to-night he met M. Pilcot. Angry words were exchanged and Pilcot threatened to strike Rochefort unless he assented to a duel. Rochefort drew a revolver and was about to fire at Pilcot when a by-stander seized the weapon. A policeman arrested the man and took them to the station, where Pilcot charged Rochefort with assault. The latter was fined fully charged. Rochefort was discharged.

A Kingston Child's Fatal Draught.

KINGSTON, May 18.—One day last week Mr. P. O. Carmichy took his family out for a sail on a steamer. Before doing he produced a small phial of brandy in case of sickness. Little Kenneth, 2 years of age, took this and was given a spoonful of the liquor, which revived him. On Friday morning about 7 o'clock he was found by his mother lying insensible on the door and near him was the empty phial, the contents of which—about a gill of brandy—he had swallowed. He had found the table's small cupboard. Medical aid was called

It Made Mother Strong

"My mother has been using Paine's Celery Compound for nervous prostration, complicated by neuralgia and dyspepsia, etc., and it has done her a world of good. It is the only medicine that strength-ens the nerves."
G. H. Bowen, Gainsville, Fla.

"I am in my 80th year. Have been afflicted for several years with kidney trouble, and have tried many remedies, but none helped me like Paine's Celery Compound. I have recommended it to others and they have derived great benefit from it. I now have a good appetite and can sleep well. My kidney trouble and other ailments have left me."
E. C. Kinsley, M. D., Greenfield, Ia.

Paine's Celery Compound

Strengthens and builds up the old, and gives new life and vigor to the entire system. It makes pure blood, and thoroughly tones the entire system. It is a Perfect Tonic and Invigorator, It GIVES NEW LIFE.

"I am now 67 years old and have tried several remedies, but none had any effect until I used Paine's Celery Compound. I feel entirely well and can do many things I could not do before using it. I only wish I could have known its value years ago, and I should have been spared much misery."
H. Myers, Cleveland, Tenn.

Paine's Celery Compound is of unequaled value to women. It strengthens the nerves, regulates the kidneys, and has wonderful power in curing the painful diseases with which women so often silently suffer.

The House of Commons at the recent session doubtedly refused to grant a subsidy to the Harvey-Salisbury railway in New Brunswick, but the Government seems determined to grant the money in spite of the expressed will of the people. In this respect Canada is under the thumb of a family compact as tyrannical as, and far more corrupt than the family compact of which the country was so happily relieved in 1838, upon the establishment of responsible government, in defiance of which the present Dominion Administration is determined to act. Must the struggle for representative institutions be fought over again?

A CONTEMPORARY remarks that "It is always interesting to note that the Mercantile Navy of Free Trade of Great Britain still maintains its supremacy. The returns show that the tonnage of that navy is at present no less than 4,000,000 tons greater than the mercantile navies of all the other principal maritime nations of Europe combined. Taking vessels of 100 tons and upwards the result is as follows:—United Kingdom, 9,980 vessels, aggregating 6,425,183 tons; Norway, 3,266 vessels, or 1,456,264 tons; Germany, 1,925 vessels, or 1,408,845 tons; France, 1,410 vessels, or 994,946 tons; Italy, 1,969 vessels, or 846,997 tons; and Sweden, 1,460 vessels, or 462,202 tons." The United States, which has been "enjoying" a high taxation policy for nearly thirty years, has now comparatively no navy to speak of, and it would be an act of cruelty to navies to compare her tonnage with the least of the above.

THE N.P. was to "keep the money in the country," provide steady work and good wages for the working population, and supply safe and profitable investments for capital. Cotton manufacturing has been greatly stimulated by the N. P., so the apologists for that institution claim. There is probably no industry in Canada in which employment is more precarious and in which wages are lower. Nor do the owners of cotton mills repose upon beds of roses. The *Monetary Times* says:—"A large cotton "factory at Montmorenci, near Quebec, is "amongst the enterprises projected. It is "the idea of the magnine promoters to "ship the entire output of the establish-"ment to 'China.' Let the projectors of "such a scheme be shipped to China. They "are not wanted here. We fancy that the "most persuasive promoters will have some "trouble to get stock subscribed for another "cotton factory in Canada; they certainly "will not get it taken by any who are now "shareholders in such concerns. It is folly to "attempt to add to the cotton mills of the "country when we have already more spin-"dles, by many thousands, than we need."

NOTES.—The country is looking charming with early bloom and vegetation.

A number of our leading mechanics have removed to Peterborough, securing good jobs there, and, no doubt, will be pleased with the change, as the result of all others who have tried Peterborough.

There is to be no celebration here on the 24th of May, which will cause many of our citizens to patronize Peterborough.

Lorne Lodge A.F. & A.M. intends inviting their brethren from the neighboring towns to attend divine service here St. John's day, and anticipate a large gathering.

A number of our oldest citizens, including James Laidly and Mrs. J. English, at the advanced ages from 75 to 80 years, have been called away recently.

Lakefield Rifle and Gun Club.

At a meeting on Wednesday evening of the Lakefield Rifle and Gun Club, it was decided, says the *Chronicle*, to amalgamate so that members would have the advantage of both traps and targets, while all would be under one management and one expense. The following officers were elected:—President, W. H. Cavanagh; Vice-Presidents, Dr. Bell; Sec.-Treasurer, W. A. Rowland; Committee of Management, the President and Messrs. Ash and Baldwin. Regular practice will be kept up during the summer and the grounds improved.

Ghost! Ghost! Ghost!!

Don't swear, swear, hawk, hawk, spit, blow, and disgust everybody with your offensive breath. If you have nasal catarrh, discharges from the nose and eyes, throat disease, morning choking sensations, snuffling, ringing noises in head, splitting headache and other symptoms of nasal catarrh, remember that the manufacturers of Dr. Sage's Catarrh Remedy offer, in good faith, $500 reward for a case of catarrh which they cannot cure. The Remedy is sold by druggists at only 50 cents.

THREE "GOOD MEN" MURDERED.

A Rather Sensational Account of an Arkansas Tragedy.

FORREST CITY, Ark., May 18.—This city was horrified at 2.15 o'clock this afternoon by the most terrible tragedy in the history of the county. Four colored lawyers had been killed near the county seat, and A. M. Neely and G. W. Iverson, both colored, have been making incendiary speeches, advocating the ousting of the whites from the control of colored affairs. Neely has been a disturbing element in the politics of this county for many years, having almost absolute control of the negroes.
